1. Description of the Plan

The following description of the Retirement Plan of Cooper Aerobics Enterprises, Inc. (the Plan) provides only general information. Participants should refer to the plan agreement, for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by Cooper Aerobics Enterprises, Inc. (the Company) under the provision of Section 401(a) of the Internal Revenue Code (IRC), which includes a qualified cash or deferred arrangement as described in section 401(k) of the IRC, for the benefit of eligible employees of the Company who have completed one month of service and are at least 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan was created on January 1, 1995. The Plan was amended and restated effective June 1, 2015 to bring the Plan into compliance with certain provisions of the Pension Protection Act of 2006 and other legislative and regulatory changes and to provide opportunity for the employees of Cooper Concepts to participate in this Plan.

Plan Administration

The Plan is administered by the Profit Sharing Plan Committee which is appointed by the Board of Directors of the Company. Standard Insurance Company (Standard or Custodian) is responsible for the custody and management of the Plan's assets.

Eligibility

Company employees become eligible to participate in the Plan upon reaching the age of 21 and one continuous month of service or one year of service, if earlier. The Plan entry date is the first day of the month coinciding with or next following the date the eligibility requirement has been satisfied.

Contributions

Eligible employees may contribute a percentage of their compensation as defined by the Plan, subject to certain limitations under the IRC. The Company also provides discretionary matching, profit sharing and qualified non-elective contributions. Beginning April 1, 2013, the Company reinstated a partial match contribution ranging from 5% to 15 % (depending on the employee's years of completed service), up to 6% of participant's compensation. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Participant Accounts

Each participant's account is credited with the participant's contributions, rollover contributions, employer matching contributions, and employer discretionary contributions and plan earnings thereon (net of administrative expenses). The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are fully vested immediately in their contributions and the earnings thereon. Vesting in employer matching, profit sharing and qualified non-elective contributions and the earnings thereon is based on years of continuous service. The years of credited service required for a participant to become 100% vested is five years.

Forfeited Accounts

Forfeited amounts are used to pay plan expenses and to offset future employer contributions. At December 31, 2015 and 2014, forfeited non-vested accounts totaled $516 and $45, respectively. During 2015, administrative expenses of approximately $45 were paid from forfeited non-vested accounts.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement, or termination of employment, as defined in the plan agreement. The total vested portion of a participant's account balance is distributed in the form of a lump-sum payment, or Ad-Hoc payments.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000, or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions. As of December 31, 2015, the interest rate on outstanding loan balances was 3.25% with maturities ranging from September 2016 to May 2019. As of December 31, 2014, the interest rate on outstanding loan balances was 3.25% with maturities ranging from September 2016 through June 2017.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) topic 820, *Fair Value Measurements*. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's administration determines the Plan's valuation policies utilizing information provided by the investment advisor, Custodian and insurance company.

The Plan is funded under a group annuity contract. Plan participants invest their funds into any number of registered investment companies offered by the custodian through a pooled separate account arrangement. The fair value of investments in the pooled separate account is measured by using net asset value (NAV) as the practical expedient to estimate fair value and is determined by the investment manager of the fund based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. Participants can also invest their funds in a stable value asset account offered by the Custodian through a guaranteed investment contract, a fully benefit-responsive investment contract as defined by FASB ASC topic 820, *Fair Value Measurements and Disclosures*. The value of the guaranteed investment contract is determined by the Custodian using pricing models designed to maximize the use of unobservable inputs.

Purchases and sales of investments are recorded on a settlement-date basis, which approximates investments recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The Plan presents, in the Statement of Changes in Net Assets Available for Benefits, the net depreciation in fair value of its investments which consist of realized gains and losses and unrealized appreciation and depreciation on these investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the plan document. There was no allowance at December 31, 2015 or 2014 as the loans are fully collateralized by the participants' accounts.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan, nor does the Company charge the Plan for any administrative costs. In addition, expenses for the Plan's consulting and custodial services are paid directly by the Company. Fees related to the administration of benefits paid for participants and participant loan fees are charged directly to the participant's account and are included in administrative expenses. Investment related expenses paid to investment advisors, transfer agents, and others described in each fund prospectus or other published documents are deducted by the investment funds or accounts prior to the allocation of the Plans' investment earnings activity and are therefore included in net depreciation of fair value of investments.

Benefit Payments

Benefits are recorded when paid.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, *Fair Value Measurement (Topic 820) - Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU 2015-07 eliminates the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Investments that calculate net asset value per share (or its equivalent), but for which the practical expedient is not applied will continue to be included in the fair value hierarchy along with the related required disclosures. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016 and is to be applied retrospectively to all periods presented. Early adoption is permitted.

In July 2015, the FASB released ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960) Defined Contribution Pension Plans (Topic 962) Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.*

> *Part I* of this amendment provides that fully benefit-responsive investment contracts should be measured, presented, and disclosed only at contract value, thereby eliminating the requirement to report fully benefit-responsive investment contracts at fair value with an adjustment to contract value in the Statement of Net Assets Available for Benefits. *Part I* also clarifies indirect investments in fully-benefit responsive investment contracts should continue to be reported at fair value.
>
> *Part II* of this amendment simplifies the investment disclosures required for employee benefit plans, including eliminating the requirements to disclose (i) individual investments that represent 5% or more of net assets available for benefits, (ii) net appreciation (depreciation) by individual investment type, and (iii) investment information disaggregated based on the nature, characteristics and risks. The requirement to disaggregate participant-directed investments within a self-directed brokerage account has also been eliminated. Self-directed brokerage accounts should be reported as a single type of investment.
>
> *Part III* of this amendment allows plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end.

ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, Parts I and II to be applied retrospectively and Part III to be applied prospectively. Early adoption is permitted.

The Plan elected to early adopt ASU 2015-07 and the applicable parts of ASU 2015-12. Adoption of this guidance did not have a significant impact on the Plan's financial statements.

3. Fair Value Measurements

ASC topic 820, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC topic 820 are as follows:

Basic Fair Value Measurement

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Fair Value of Measurements in Entities that Use Net Asset Value

Because plan investments consist only of a pooled separate account and a fully benefit-responsive investment contract, and because these investments are measured at fair value using the net asset value per share (or its equivalent) practical expedient or at contract value, the fair value hierarchy is not presented.

The fair value of the pooled separate account based on net asset value per share as of December 31, 2015 and 2014 is $6,582,678 and $6,379,048, respectively. This investment held by the Plan provides for daily redemptions by the Plan at reported net asset value with no advance notice requirement. The Plan is permitted to redeem investment units at net asset value on the measurement date. There are no unfunded commitments.

4. Guaranteed Investment Contract

The Plan has entered into a deposit administration contract with Standard. Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statements of net assets available for benefits at contract value.

Contract value, as reported to the Plan by Standard, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0% percent. Such interest rates are reviewed on a semi-annual basis for resetting. Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

5. Information Prepared and Certified by Custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

- Investments and notes receivable from participants as reflected in the Statements of Net Assets Available for Benefits as of December 31, 2015 and 2014;

- Net investment income, as reflected in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2015 as follows:

Year ended December 31,	**2015**
Interest	**$ 12,940**
Net depreciation in fair value of investments	**(146,320)**

- Investments, as reflected in the Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2015.

The Plan administrator instructed the Plan's independent auditors not to perform, and they did not perform, any auditing procedures with respect to this certified information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

6. Related Party and Party-In-Interest Transactions

The Plan invests in units of a pooled separate account and a guaranteed investment contract issued by Standard Insurance Company. Standard Insurance Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the plan for the investment management services are included in net depreciation in fair value of investments.

7. Tax Status

The Internal Revenue Service has issued a determination letter dated March 31, 2014, stating that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan administrator and the plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

8. Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, employees become 100% vested in their accounts.

9. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. Reconciliation of Financial Statements to Form 5500
