NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015 AND 2014

1. DESCRIPTION OF PLAN

The **Greensfelder, Hemker & Gale, P.C. Profit-Sharing and 401(k) Plan** (the Plan) was restated effective January 1, 2013.

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of **Greensfelder, Hemker & Gale, P.C.** (the Company) who have one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants can make deferred salary contributions ranging from 1% to 75% of eligible pay. The plan has adopted a cross-tested plan design wherein employer contributions, if any, are discretionary. Additionally the amount of discretionary employer contributions may range from 0% to 12% of the eligible participants for the Plan year reduced by forfeitures of terminated participants' non-vested accounts. Participants may direct the investment of the contributions into various investment options under the Plan. The Plan currently offers various common and collective trust investment options for participants as well as self-managed accounts. Participants also have the option to make after-tax elective salary deferrals to a Roth 401(k). Participants may change their investment options at any time.

Participant Accounts

Each participant's salary deferral and rollover account is credited with the participant's contribution plus actual earnings thereon. Each participant's employer contribution account is credited with an allocation of the Company's contributions and plan's earnings. Allocations of Company contributions are based on participant compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

A participant's salary deferral and rollover accounts are 100% vested at all times. Vesting of a participant's employer contribution account is based on years of continuous service. A participant is 100% vested after five years of credited service or normal retirement or death. The plan uses a graded vesting schedule as follows: 2 years – 20%, 3 years – 40%, 4 years – 60%, 5 years, 100%.

The vesting table is also in accordance with Internal Revenue Code Section 416 for the years the Plan is determined to be top-heavy.

Notes to Financial Statements (Continued)

1. DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

Except for the special rule for participants who are five percent owners and who have attained age seventy and one-half, a participant's vested amount of his or her individual account shall be paid in the form of a qualified joint and survivor annuity as soon as reasonable after the termination of service, death, disability, or attaining age sixty-five and retiring. Participants waiving the right to a qualified joint and survivor annuity shall be paid as a lump-sum distribution. Participants with less than \$5,000 invested in the Plan are required to take a lump-sum distribution.

Administration

The Company is responsible for the majority of the Plan's operating expenses. Northern Trust Investments, N.A. acts as trustee and custodian for the Plan's assets.

Forfeited Accounts

At December 31, 2015, forfeited non-vested accounts totaled \$33,808 for terminated participants during the plan year. These accounts will be used to reduce future employer contributions. In 2015, employer contributions were reduced by \$36,415 from forfeited non-vested accounts.

Subsequent Events

The Company has evaluated subsequent events through August 26, 2016, the date which the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

Transactions with Parties-in-Interest

Certain investments of the Plan were in funds managed by Northern Trust Investments, N.A., the trustee and custodian of the Plan and, therefore, related transactions qualify as party-in-interest transactions.

Legal, accounting, and other professional services were provided by parties-in-interest at reasonable and customary rates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Notes to Financial Statements (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investments Valuation and Income Recognition

The Plan's investments are stated at fair market value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at measurement date. See Note 4 for a discussion of fair value measurements.

Unrealized appreciation or depreciation of investments held at year end and realized gains and losses on sales of investments during the year are determined based on fair values at the beginning of the year or purchase price if acquired during the year.

Payment of Benefits

Benefits are recorded when paid.

3. INVESTMENTS

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan did not hold any fully benefit-responsive assets as of December 31, 2015. The Statement of Changes in Net Assets Available for Benefits is prepared on a fair-value basis.

Notes to Financial Statements (Continued)

3. INVESTMENTS (CONTINUED)

The following represents significant concentrations held within the investment assets at December 31, 2015 and 2014:

	December 31,	
	2015	2014
Northern Trust Stable Asset Return Fund	\$ 9,986,518	\$ 9,299,914
Collective Trust Funds - Northern Trust		
Large Cap Equity Fund	5,936,828	5,902,741

The assets of the Plan are held by Northern Trust Investments, N.A. (trustee) in a collective trust. Investments are valued daily. The investment gains and losses, income and expenses are allocated to the participant's individual account based on the daily valuation.

Self-managed accounts held by TD Ameritrade consist of accounts in which the participant may invest cash and cash equivalents, mutual funds, stock and other securities. These investments are solely directed by the participant.

Consistent with the status of the American Bar Association Members/Northern Trust Collective Trust, the Plan's investment income for the year ended December 31, 2015 is not segregated between interest, dividends and net appreciation or depreciation in the fair value of investments.

The Plan's investments (including gains and losses on investments bought and sold as well as held during the year) depreciated in value by \$247,994 for the year ended December 31, 2015.

The Plan invested in a benefit-responsive Stable Asset Return Fund (The Fund) with the trustee. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

Notes to Financial Statements (Continued)

4. FAIR VALUE MEASUREMENTS

Financial accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 inputs) and the lowest priority to unobservable inputs (level 3 inputs). The three levels of the fair value hierarchy under the standards are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are significant unobservable inputs.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

- Collective trust funds – valued based on the number of units of beneficial interest. Each unit represents an equal pro rata interest in the net assets of each fund. The funds hold investments that fall in line with the investment's stated strategy.
- Self-managed accounts – valued at the quoted market prices in actively traded markets of the stocks and mutual funds held in the accounts.
- Stable value fund – valued based on the number units of beneficial interest. Each Unit represents an equal pro rata interest in the net assets of each fund. The stable value fund invests in investment contracts issued by insurance companies, banks, and certain other financial institutions.

Notes to Financial Statements (Continued)

4. FAIR VALUE MEASUREMENTS (CONTINUED)

The inputs or methodologies used for valuing investments may not be an indication for the risk associated with investing in those securities. Furthermore, the Plan believes its valuation methods are appropriate and consistent. The use of different methodologies or assumptions could result in a different fair value measurement at the reporting date.

The following is a summary of the inputs used, as of December 31, 2015 and 2014, involving the Plan's assets carried at fair value.

6. TAX STATUS

The plan obtained its latest determination letter on February 15, 2013, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Financial accounting standards for uncertain tax positions prohibit financial statement recognition of the impact of a tax position if the position is not "more likely than not" to be sustained on audit, based on the technical merits of the position. Part I is not applicable to the plan. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the plan. The ASU is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. Parts II is to be applied retrospectively. Management has elected to adopt Part II early.

9. CHANGES IN ACCOUNTING PRINCIPLE (CONTINUED)

Also during 2015, the FASB issued ASU 2015-07, Disclosures for Investments in Certain Entities that Calculate Net Value per Share. The amendment removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendment also removes the requirements to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The ASU is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. It is to be applied retrospectively. Management has elected to adopt the ASU early.
