1. Description Of The Plan

The following description of TLC Vision Centers 401(k) Plan, formerly TLC Vision (USA), LLC 401(k) Plan (the Plan), provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan was a defined contribution plan covering substantially all employees of TLC Vision Centers LLC and its affiliates (collectively, the Company) who had completed 3 months of service and were age 21 or older. It was subject to the provisions of the Employee Retirement Income Security Act (ERISA), as amended.

Plan Merger

On December 31, 2015, all investments of the Plan, aside from the guaranteed investment fund, were liquidated. Effective January 1, 2016, the Plan merged with the Vision Group Holdings 401(k) Plan. This transaction resulted in the dissolution of the Plan and a transfer of all assets to the Vision Group Holdings 401(k) Plan. The employer and participant contributions receivable as of December 31, 2015 represent amounts due to participants for the last payroll in 2015 and the 4th quarter match. These amounts will be remitted to the Vision Group Holdings 401(k) Plan in 2016 as a result of the merger.

Contributions

Each year, participants were permitted to contribute up to 100% of pretax annual compensation, as defined in the Plan, limited by Internal Revenue Code (IRC) regulations. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants were also able to contribute amounts representing distributions from other qualified plans. Participants directed the investment of their contributions into various investment options offered by the Plan. Company matching amounts were also contributed at the option of the Company. The Company reinstated the discretionary employer contributions and provided a match contribution of 25% of the first 6% contributed to each participant in 2015 and 2014.

The Plan allowed for automatic enrollment of all employees of the Company. A participant's compensation was automatically reduced by 5%, which was deemed to be the participant's salary contribution election if the participant did not elect to defer a different percentage of compensation. A participant was able to elect to opt-out of the automatic enrollment program at any time.

Vesting

Participants were immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts was based on years of service, as defined by the Plan. A participant was 100% vested after three years of credited service.

Forfeitures

The nonvested portion of a terminated participant's account balance remained in the Plan as a forfeiture. Forfeitures were used by the Plan for the payment of expenses and to reduce the Company's contributions to the plan. On December 31, 2015, forfeiture accounts in the amount of $24,029 were liquidated and reported as cash on the statement of net assets available for benefits as of December 31, 2015. At December 31, 2014, forfeited accounts totaled $19,418.

Participant Accounts

Each participant's account was credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses, where applicable. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Notes Receivable From Participants

Participants were able to borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans were secured by the balance in the participant's account and bore interest at a rate of 4.25%, which is commensurate with local prevailing rates as determined quarterly by the Plan Administrator, with the final balance due on various dates through November 2020. Principal and interest were paid ratably through monthly payroll deductions.

All outstanding notes receivable from participants were transferred to the Vision Group Holdings 401(k) Plan effective January 1, 2016.

Payment Of Benefits

Upon termination of service, retirement, death or disability, a participant was able to elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Participant Hardship Withdrawals

Active participants who had reached age 59-1/2, became disabled or experienced a qualifying financial hardship were able to withdraw all or part of their vested accounts. Hardship withdrawals were approved only if they conformed to Plan provisions and established Internal Revenue Service (IRS) safe harbors.

Administrative Expenses

Salaries and related benefits of employees under the Plan were provided by the Company. Other administrative expenses, primarily transaction fees and account fees, were paid by the Plan. Costs associated with the origination of loans were paid by the participants obtaining such loans.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

The financial statements of the Plan have been prepared using the accrual basis of accounting.

Estimates And Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Investment Valuation And Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of The Plan. The statement of net assets available for benefits presents the fair value of the Great West Key Guaranteed Portfolio Fund (the Fund), which is a fully benefit-responsive investment fund. Since the fair value of this fund approximates its contract value, the statement of changes in net assets available for benefits does not require a separate adjustment for reporting the Plan net assets on a fair value basis. The statement of changes in net assets available for benefits is prepared on a contract value.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as a distribution based upon the terms of the Plan Document.

Payment Of Benefits

Benefits are recorded when paid.

Subsequent Events

Management has evaluated subsequent events through September 29, 2016, the date, which the financial statements were available to be issued.

3. Investments

Financial information relating to investments and related earnings thereon is included in the financial statements and is based on information provided by Great-West Life & Annuity Insurance Company as Issuer for certain investments and Great-West Trust Company LLC, the Trustee. This information, which has not been audited by the Plan's independent auditors, has been certified to as complete and accurate by the Issuer and/or Trustee.

4. Fair Value Measurements

The Plan follows accounting standards, which establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that The Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds

Valued at the quoted net asset value of shares held by the Plan at year end.

Guaranteed Investment Fund

The Plan's guaranteed investment fund (the Great West Key Guaranteed Portfolio Fund) is designed to provide a diversified group of investments offering competitive levels of yield consistent with stable fixed income methodology and the careful and prudent assumption of investment risk providing for preservation of capital, stability and predictability of returns, liquidity to pay plan benefits and high credit quality. This Fund is primarily invested in conventional, synthetic and separate account investment contracts issued by life insurance companies, banks and other financial institutions. The NAV, as provided by the Fund, is used as a practical expedient to estimate fair value. The fair value of this Fund has been estimated based on the fair value of the underlying investment contracts in the Fund as reported by the issuer of the Fund.

The preceding methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

	December 31, 2015			
	Level 1	**Level 2**	**Level 3**	**Total**

There have been no changes in the methodologies used at December 31, 2015 or 2014.

5. Income Tax Status

The Plan was a prototype defined contribution plan. The prototype sponsor received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014, in which the IRS states that the prototype plan is in compliance with the applicable requirements of the Code. The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan was designed and operated in compliance with the applicable requirements of the Code. Therefore, no provision for income tax has been included in the Plan's financial statements.

The Plan followed accounting rules for uncertain tax positions. Those rules required financial statement recognition of the impact of a tax position if a position is more likely than not of being sustained on audit, based on the technical merits of the position. The rules also provide guidance on measurement, derecognition, classification, interest and penalties, and disclosure requirements for uncertain tax positions. The Plan's federal tax returns for tax years 2012 and later remain subject to examination by taxing authorities.

6. Related Party And Party-In-Interest Transactions

Certain Plan investments were managed by the Issuer and/or Trustee. Therefore, these transactions qualify as party-in-interest transactions.
