COLORVISION EMPLOYEES' SAVINGS & RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

1 DESCRIPTION OF PLAN

The following description of the Colorvision Employees' Savings & Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Colorvision International, Inc. (the "Company") who are age 21 or older and have completed nine consecutive months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans ('rollover'). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company is not required to make a matching contribution or a non-elective contribution to the Plan, but may elect to do so. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as Plan earnings. Allocations are based on participant contributions, earnings, or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. The participant vests in employer contributions as follows:

Years of Service	Percent Vested
Less than 1 year	0%
At least 1 year, but less than 2	10%
At least 2 years, but less than 3	20%
At least 3 years, but less than 4	40%
At least 4 years, but less than 5	60%
At least 5 years, but less than 6	80%
Six years or more	100%

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Loan terms may not exceed five years, unless used to acquire the principal residence of the participant. The loans are secured by the balance in the participant's account and bear interest at a rate of 1% over Prime Rate published in the Wall Street Journal on the first business day of the month the loan is originated, as defined. Principal and interest is paid ratably through weekly payroll deductions. A maximum of two loans may be outstanding at a time.

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, if the vested amount is greater than $5,000, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, Ad-Hoc distributions, or installment payments. For vested amounts less than $5,000, the Plan will distribute the balance to the participant in a single lump sum distribution.

Forfeited Accounts

At December 31, 2015 and 2014, forfeited nonvested accounts totaled $152 and $40, respectively. These accounts are used to reduce employer contributions.

2 SUMMARY OF ACCOUNTING POLICIES

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in those assets and liabilities, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or decline in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan agreement.

Excess contributions payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2015 and 2014 excess contributions to the applicable participants before March 15, 2016 and 2015, respectively.

Payment of benefits

Benefits are recorded when paid.

Expenses

Certain expenses incurred maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment-related expenses are included in net appreciation or decline in fair value of investments.

Subsequent events

The Plan has evaluated subsequent events through September 12, 2016, which is the date the financial statements were available to be issued.

3 INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets as of December 31, 2015 and 2014:

	2015	2014
Great-West Aggressive Profile II Fund I	$ 574,082	$ 559,260
Great-West T Rowe Price Midcap Gr Fund I	317,264	202,617
Great-West S&P 500 Index Fund I	236,302	228,623
Great-West Ariel Mid Cap Value Fund I	165,012	Not over 5%
American Funds Growth Fund Of Amer R3	139,241	123,160
Lord Abbett Value Opportunities A	Not over 5%	165,944
MFS International Value R2	Not over 5%	120,165

During 2015 and 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) changed in value as follows:

	2015	2014
Variable annuities	$ (2,985)	$ 150,998

4 FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1 Inputs to the valuation methodology are quoted prices ("unadjusted") in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

a) Quoted prices for similar assets or liabilities in active markets.
b) Quoted prices for identical or similar assets or liabilities in inactive markets.
c) Inputs other than quoted prices that are observable for the asset or liability.
d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs that are unobservable inputs for the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2015 and 2014.

1. Variable Annuities: The initial pricing input is the quoted price obtained for the underlying mutual fund which is then adjusted to apply the expense factor disclosed in the annuity contract. The formula-calculated unit value is then compared to an accounting-driven unit value the following morning. The accounting unit value is determined in a manner similar to a mutual fund NAV calculation: dividing the net assets by the number of units outstanding. Any discrepancies between the two unit values are resolved to ensure the recordkeeping system reflects the accurate value for the day.

2. Guaranteed investment contract: Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Fair value of the investment contract, prior to contract termination, equals the contract value.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Variable annuities	$ -	$ 2,560,420	$ -	$ 2,560,420
Guaranteed investment contract	-	91,083	-	91,083
Total assets at fair value	$ -	$ 2,651,503	$ -	$ 2,651,503

	Assets at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Total
Variable annuities	$ -	$ 2,405,665	$ -	$ 2,405,665
Guaranteed investment contract	-	$ 87,160	-	87,160
Total assets at fair value	$ -	$ 2,492,825	$ -	$ 2,492,825

Transfers between levels

For years ended December 31, 2015 and 2014, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

5 INVESTMENT CONTRACT

The Plan has an investment contract with Empower Retirement ("Custodian") that is not fully benefit responsive. The Custodian maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract is not fully benefit-responsive; therefore, investments are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value less a transaction fee. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

6 RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are shares of mutual funds or fixed annuities managed by the Custodian; therefore, these transactions qualify as party in interest transactions. Fees incurred and paid directly by the Plan for the administrative services were $4,094 and $4,346 for the years ended December 31, 2015 and 2014, respectively.

7 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

8 TAX STATUS

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (“IRC”). The Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

9 RISKS AND UNCERTAINTIES

The Plan’s participants invest in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
