Notes to Financial Statements

NOTE 1: DESCRIPTION OF THE PLAN

The following description of the Condominium Associates 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to Plan documents for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established for the benefit of the employees of Condominium Associates (the "Company") who are eligible to participate one year after the commencement of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Contributions are made by the Company on behalf of the employee participants who have agreed to have their taxable wages or salaries reduced. Participants are permitted to defer a percentage of their pay into an elective deferral account on a pre-tax or post-tax basis, subject to the limitations specified in the Internal Revenue Code. Participants may also roll over amounts representing distributions from other qualified defined benefit or contribution plans.

Employer contributions are comprised of two components: a profit sharing contribution and an employer matching contribution. The profit sharing contribution is made at the discretion of the Company and is allocated among all participants based on the ratio which each participant's annual compensation bears to the total compensation for all participants. For 2015, the Company did not make a discretionary profit sharing contribution. The Company matching contribution equals 100% of the first 3% of each participant's voluntary contributions and 50% of the next 2%. The maximum total match is 4% with a cap of \$50 per pay period. All amounts are invested at the participant's discretion.

Contributions are limited by Federal Tax legislation. The limit for 2015 401(k) employee contributions was \$18,000 per participant.

Participant Accounts

Each participant's account is credited with the participant's contributions and an allocation of (a) the Company's contribution and (b) Plan earnings. Allocations of Company profit sharing contributions are based on participant earnings as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Condominium Associates 401(k) Profit Sharing Plan and Trust Notes to Financial Statements

NOTE 1: DESCRIPTION OF THE PLAN (Continued)

Vesting

Participants are always 100% vested in amounts attributable to both salary deferrals and employer contributions. Participants are entitled to all of the amounts in the account attributable to all types of contributions.

Benefit Payments

Distributions to participants or their beneficiaries take place upon the employee's separation of service, retirement, permanent and total disability, or death. Distributions equal to the value of the participant's vested interest in his or her account are made in a lump sum amount. A participant may also request a distribution from their elective deferral account in the case of a hardship as outlined in the Plan provisions.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation

The Plan's investments are stated at fair value based on quoted market prices. The Plan presents, in the Statement of Changes in Net Assets Available for Benefits, the net appreciation or depreciation in the fair value of its investments, which consists of realized gains or losses and the unrealized appreciation or depreciation of those individual investments. Investment income is recorded as earned. Purchases and sales of investments are accounted for on a trade-date basis.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. At December 31, 2015 and 2014, no adjustment has been made from fair value to contract value because the difference is not material to the financial statements as a whole.

Asset Allocation

Several of the Plan's investments have been combined and classified in Note 3 to the financial statements as "Other". These investments have similar investment objectives and individually comprise less than five percent of plan assets.

Condominium Associates 401(k) Profit Sharing Plan and Trust Notes to Financial Statements

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Administrative Expenses

Broker fees are paid by the Plan and are allocated to the participants' accounts by the Plan administrator. Other administrative expenses such as Plan accounting and auditing fees are paid by the Company.

Use of Estimates

The preparation of the Plan's financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Subsequent Events

In preparing the financial statements, the Plan's management has evaluated subsequent events and transactions for potential recognition or disclosure through September 29, 2016, which is the date the financial statements were available to be issued.

Risks and Uncertainties

The Plan provides for various investment options in any combination of stocks, fixed income securities, mutual funds, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE 3: INVESTMENTS

John Hancock Life Insurance Company ("John Hancock") maintains all records of investment transactions and determines the valuation of the investment portfolio. As required by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA, John Hancock has provided certification to the Plan administrator regarding the accuracy and completeness of certain information. The following information was included in the information certified by John Hancock for the years ended December 31, 2015 and 2014, and was used by the Plan Administrator in the preparation of the financial statements and schedule in compliance with ERISA.

NOTE 4: FAIR VALUE MEASUREMENTS

Generally accepted accounting principles (GAAP) establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. The Plan's investments do not include any for which Level 2 inputs are available and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 - Inputs to the valuation methodology include
 - quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. At December 31, 2014 and 2013, John Hancock believes all sub-accounts, including pooled separate accounts and guaranteed accounts, should be considered level 1 assets. Following is a description of the valuation methodologies used for assets measured at fair value.

- Pooled separate accounts: Valued at directly observable prices based on the active markets for the underlying mutual funds held by the separate accounts.

Condominium Associates 401(k) Profit Sharing Plan and Trust

Notes to Financial Statements

NOTE 4: FAIR VALUE MEASUREMENTS (Continued)

- Guaranteed accounts: Valued at fair value by comparing the rates in effect on the specific date to the rates on which actual interest is determined and adjusting based on the differences in those rates.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

<i>December 31, 2015</i>	<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>	<i>Total</i>

NOTE 5: PLAN TERMINATION

In April 2015, ownership of the Company was sold. Management elected at that time to proceed with terminating the Plan, and effective December 31, 2015 all funds were disbursed.

NOTE 6: TAX STATUS

The Internal Revenue Service has determined and informed John Hancock that its prototype plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. However, the Company has not received a determination with respect to plan qualification for this specific Plan. Management believes that the Plan has been designed and is being operated in such a way as to be qualified under Section 401 of the Internal Revenue Code.

NOTE 7: FORM 5500
