NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following brief description of the MSI 401(k) Basic Plan (Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a defined contribution plan covering all employees of Management Systems International, Inc. (Company), who are age 18 or older, have completed 30 days of service, and are not excluded employees, as defined. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 100% of their annual compensation, as defined in the Plan, subject to certain annual limitations in the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants also may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. In addition, participant account balances maintained in the MSI 401(k) Plus Plan (Plus Plan) shall be transferred into this Plan upon cessation of eligibility in the Plus Plan and commencement of eligibility in the Plan. The Plan currently offers various mutual funds sponsored by registered investment companies and an insurance contract as investment options for participants.

The Company may make discretionary matching contributions for the benefit of all eligible participants in amounts determined by the Company. The matching contribution is equal to a uniform percentage of each participant's deferred compensation. For the year ended December 31, 2015, the matching percentage was 25% of the first 5% of each participant's compensation.

Participant Account

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions, (b) Plan earnings, and (c) forfeitures of terminated participants' nonvested accounts and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Participants may borrow up to 50% of their vested account balances not to exceed $50,000. Participants may have no more than three loans outstanding at any time, and no loans less than $1,000 are allowed. Loans bear interest at a rate

commensurate with local prevailing rates as determined by the Plan Administrator. There were no loans outstanding as of December 31, 2015 and 2014.

Vesting

Years of service for vesting purposes are based on 12 consecutive months as of the commencement of employment. Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in employer matching contributions is based on years of service. Participants are 50% vested after one year of service, 75% after two years of service, and are 100% vested after three years of service.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account. Distributions may be in the form of a lump-sum, single life, or joint and survivor annuity for balances attributable to the Plan. The Plan provides for automatic rollovers to individual retirement accounts for benefits of at least $1,000 but less than $5,000, unless another form of benefit is elected. In addition, participants that cease to be eligible for the Plan and become eligible for the Plus Plan will have their account balances transferred to the Plus Plan.

Forfeited Accounts

Forfeitures are used to reduce employer contributions for the year. At December 31, 2015 and 2014, forfeited nonvested accounts totaled approximately $42,000 and $5,000, respectively. For the year ended December 31, 2015, forfeitures totaling approximately $3,000 were allocated to participants.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Accounting Standards Codification

All references in the financial statements to the Codification refer to the Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles (GAAP) issued by the Financial Accounting Standards Board (FASB). The Codification is the single source of authoritative GAAP in the United States.

New Accounting Standards

In July 2015, the FASB issued Accounting Standards Update (ASU) 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the

requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Parts I and II early.

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Valuation of Investments

Investments are stated at fair value, except for fully benefit-responsive investment contracts which are reported at contract value. See Note 4 for a discussion of fair value measurements.

Notes Receivable from Participants

Notes receivable from participants are carried at their unpaid principal balance plus accrued interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses include direct fees paid from the Plan assets. In addition, the Company pays certain Plan expenses and provides services to the Plan without charge.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Subsequent Events

The Plan has evaluated subsequent events and transactions for potential recognition or disclosure in the financial statements through September 8, 2016, the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan's investments are held by the Custodian, Great-West Life and Annuity Insurance Company, at December 31, 2015 and 2014. Financial information related to those investments is included in the accompanying financial statements based on information provided by the Custodian. That information, which has not been audited by independent auditors, is summarized below. The Plan's investments are as follows:

	2015	2014
Guaranteed Interest Account	$ 59,654	$ 43,477
Mutual Funds	1,617,023	2,887,955
Total Investments	$ 1,676,677	$ 2,931,432

(See Independent Auditors' Report)

During 2015, certified investment income consisted of the following:

Net Appreciation in Fair Value of Investments	$ 34,388

4. VALUATION OF INVESTMENTS

The Fair Value Measurements and Disclosures Topic of the Codification establishes a hierarchal disclosure framework, which prioritizes and ranks the level of market price observability used in measuring investments and other financial instruments at fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

Quoted prices for similar assets or liabilities in active markets;

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than quoted prices that are observable for the asset or liability;

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Below is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2015 and 2014.

(See Independent Auditors' Report)

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Plan at year end. NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. NAV is a quoted price in an active market. These assets are classified as Level 1 within the fair value hierarchy.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. GUARANTEED INTEREST ACCOUNT

The Plan has an investment in the Great-West Life and Annuity Insurance Company key guaranteed portfolio fund which is a benefit-responsive investment contract and, therefore, reported at contract value. Contract value, as reported by the Plan by Great-West Life and Annuity Insurance Company, represents contributions made under the fund, plus earnings, less participants' withdrawals and administrative expense. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Certain events limit the Plan's ability to transact at contract value with Great-West Life and Annuity Insurance Company. Such events include the following: (a) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Furthermore, certain events would allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include (a) an uncured breach of the Plan's investment guidelines, (b) a material amendment to the contract without the issuer's consent, (c) a violation of a material obligation under the contract, or (d) a material misrepresentation. The Plan Administrator does not believe any events that would limit the Plan's ability to transact at contract value with Plan participants or the issuer are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in accordance with the provisions of the Plan.

7. TAX STATUS

The Plan adopted a volume submitter plan developed by SunGard Corbel. The volume submitter plan has received an opinion letter from the Internal Revenue Service dated March 31, 2014, as to the prototype plan's qualified status. The Plan has since been amended and restated. The Plan Administrator believes the Plan is designed and being operated in compliance with the applicable provisions of the Internal Revenue Code.

GAAP requires Plan management to evaluate uncertain tax positions for recognition in the financial statements. The Plan Administrator has concluded there were no uncertain tax positions as of December 31, 2015.

8. RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by the Custodian of the Plan. These transactions qualify as party-in-interest transactions. The Plan pays investment management and recordkeeping fees to parties-in-interest. The Plan paid approximately $6,000 to parties-in-interest for the year ended December 31, 2015. These party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

In addition, administrative fees were paid indirectly through revenue sharing and are included in the change in fair value of investments.
