NOTE A – DESCRIPTION OF PLAN

The following description of the Jackson Family of Dealerships Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions. Adopting employers of the Plan include the World of Motorsports stores, Jackson Family and Jackson Ford, (the "Companies").

General

The Plan is a defined contribution salary deferral pension plan which provides an individual account for each participant and provides benefits upon retirement that are based on the amounts contributed by the employee and employer plus earnings on those contributions less any plan administrative expenses. The Plan was established on January 1, 2006. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan covers all employees of the adopting employers. The Plan covers all employees of the Companies except for those deemed as excluded employees which include: employees whose employment is governed by a collective bargaining agreement under which retirement benefits were the subject of good faith bargaining and if the collective bargaining agreement does not provide for participation in the Plan. A participant becomes eligible on the first day of each plan quarter, after completion of one year of service and having attained age 21 as defined in the Plan document. The one year of service begins on the date the employee is hired.

Contributions

Participants may contribute a percentage of their eligible compensation as a pre-tax contribution as defined in the Plan up to 100% of their compensation. Participants may elect to start, increase or reduce deferral elections on the first day of the plan year or on the first day of the seventh month. Deferrals can be suspended at any time. The Companies had a match in 2015 of 50% up to 6% of employee contributions with a maximum of 3% match. The Companies may make discretionary contributions at the end of the Plan year for employees who are participants as of the last day of the Plan year.

Total contributions, both participant and employer, including discretionary, are subject to the limits of the Internal Revenue Code Section 415(c). Participant contributions and employer matching contributions of certain highly compensated participants may also be limited based on contribution nondiscrimination tests described in IRC Section 401(k) and 401(m). Employer contributions include employer matching contributions and employer discretionary contributions. Participant contributions consist of participant pre-tax elective deferrals and rollover contributions.

NOTE A – DESCRIPTION OF PLAN (CONTINUED)

Participant Accounts

Each participant's account is credited with the participant's contribution, the employer's contribution, and an allocation of the Plan's earnings. The participants can then direct their investments to any of the available funds in the Plan. Participants may change their investment option specification with respect to contributions to be made in the future and with respect to amounts already in their account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Companies' matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of service. One year of service is 1,000 hours within a consecutive twelve-month period. Vesting is based on the following schedule:

Years of Credited Service	Percent Vested
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participant accounts become fully vested upon attainment of the normal retirement or in the event of death or total disability.

Notes Receivable from Participants

Participant loans are not permitted by the Plan at this time.

Payment of Benefits

On termination of service before death, disability or retirement, a participant is entitled to receive on the vested percentage of their account balance. A participant will be fully vested once they attain the normal retirement age or become disabled. If the account balance does not exceed $5,000, the vested balance will be distributed in a single lump-sum payment. If it exceeds $5,000, a participant may elect to receive a distribution in a lump-sum or partial withdrawals. Distribution of the account must be completed by December 31 of the calendar year containing the fifth anniversary of the death. In certain hardship situations, as described in the Plan Agreement, participants who are fully vested may withdraw part of their vested account balances while actively employed, but such withdrawals are limited to the amount of hardship and the related taxes resulting from the distribution. Participants' withdrawals are limited to all or any part of their vested account balances resulting from 401(k) elective deferrals, matching contributions, discretionary contributions and may not include any earnings accrued thereon.

NOTE A – DESCRIPTION OF PLAN (CONTINUED)

Forfeited Accounts

At December 31, 2015 and 2014, forfeited non-vested accounts totaled $678 and $0 respectively. These amounts shall be used to pay any administrative expenses and any remaining amounts will be used to reduce any employer contribution. Any forfeiture shall be made no later than the end of the Plan year following the Plan year in which the forfeiture occurred.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's valuation policies. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on the investments bought and sold as well as held during the year.

Notes Receivable from Participants

Participant loans are not permitted by the Plan at this time.

Payment of Benefits

Benefits are recorded when paid.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Plan Expenses

All direct expenses of the Plan, Trustee, Plan Administrator and Investment Fiduciary shall be paid or reimbursed by the Company, and if not so paid or reimbursed, shall be proper charges to the Trust Fund and shall be paid from there.

Subsequent events

The Plan has evaluated subsequent events through September 27, 2016 which is the date the financial statements were available to be issued.

NOTE C – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access

Level 2 — Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE C – FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2015 and 2014.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be activity traded.

U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014.

NOTE D – RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by Capital Bank and Trust. Capital Bank and Trust is the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions.

NOTE E – PLAN TERMINATION

Although it has not expressed any intent to do so, the Companies have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

NOTE F – TAX STATUS

The Alliance Benefit Group Volume Submitter Profit Sharing Plan with CODA documents were amended to comply with the statutory requirements of the Economic Growth and Tax Relief Reconciliation Act (EGTRRA) of 2001 and received favorable opinion letters from the Internal Revenue Service on April 2, 2012. Each plan adopting an Alliance Benefit Group Volume Submitter Profit Sharing Plan with CODA plan document has been restated to reflect the EGTRRA plan changes. In accordance with Revenue Procedure 2002-6, the Plan administrator has chosen to rely on the current opinion letter that has been issued to the Volume Submitter Profit Sharing Plan with CODA. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of American require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE G – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
