NOTES TO FINANCIAL STATEMENTS

DESCRIPTION OF THE PLAN

The following description of the Kay Dee / Nutra Flo Profit Sharing and 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Plan Merger and Transfer of Assets

Effective May 18, 2015, Kay Flo Industries, Inc., the Plan sponsor, was sold to The Andersons, Inc. Plan participants terminated, due solely to the provisions of the sale transaction, became fully vested in their account balances. On August 13, 2015, Kay Flo Industries, Inc. adopted The Andersons, Inc. Plan. The Board of Directors of Kay Flo Industries, Inc. approved the merger of this Plan into the plan of The Andersons, Inc., effective December 31, 2015. As a result, all assets of this Plan were transferred to the Andersons, Inc. Retirement Savings Investment Plan effective that date.

General

The Plan is a defined contribution plan covering all eligible employees of Kay Flo Industries, Inc. and its subsidiaries. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Eligible employees can elect to contribute up to 90% of their compensation, as defined in the Plan, upon reaching the first day of the month following the age of 21 and one month of service. Participants who have reached age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may change their contribution percentage at any time during the Plan year. Participants may also rollover amounts representing distributions from other qualified plans.

The Company makes a safe-harbor nonelective contribution of 3% of participant's eligible compensation each payroll period.

The Companies' management may elect to provide an annual profit-sharing contribution and matching contribution at their discretion. Participants become eligible for Company contributions when they have reached the age of 21; have completed one month of service; and are employed on the last day of the Plan year and completed 1,000 hours of service when a profit-sharing contribution is approved, except in the case of death, disability, or retirement.

Contributions are subject to certain limitations by the Internal Revenue Code.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions as well as the participant's share of Company contributions, Plan earnings, and administrative expenses.

Participants self-direct their accounts into any of the available investment options selected by Plan administration and may change their investment choices at any time during the Plan year.

Discretionary Company contributions are allocated based on the proportion that each participant's compensation bears to the total of all eligible participants' compensation. Net earnings of the Plan are allocated based on the participant's choice of investment options and their relative account value within that option.

DESCRIPTION OF THE PLAN (Continued)

Vesting and Forfeitures

Participants are fully vested in their contributions, rollovers, safe harbor contributions, and the earnings thereon. Vesting in Company profit sharing and matching contributions and the earnings thereon is based on years of continuous service as follows:

Less than One Year.	0%
One Year.	20%
Two Years.	40%
Three Years.	60%
Four Years.	80%
Five Years.	100%

Forfeited nonvested accounts totaled \$0 and \$50 at December 31, 2015 and 2014, respectively. Immediately prior to the merger, the forfeited nonvested account totaled \$4,379, and this balance was transferred to the other plan as part of the merger. Forfeitures are used to reduce the employer's safe harbor contribution during the year in which the funds were forfeited or the following year.

Payment of Benefits

On retirement, death, disability, or termination of service, a participant (or participant's beneficiary in the event of death) may elect to receive their vested benefits in lump-sums, substantially equal installments, and partial withdrawals. The Plan requires that in the event of a mandatory distribution greater than \$1,000 but less than \$5,000, if a participant does not elect to have such distribution paid directly to an "eligible retirement plan" or received directly, then the administrator shall pay a lump-sum distribution in a direct rollover to an individual retirement plan designated by the administrator. Account balances less than \$1,000 will be distributed in a lump sum.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Use of Estimates

The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America and, necessarily, include amounts that are based on judgments and estimates made by management. Actual results could differ from these estimates.

Recent Accounting Guidance

The Plan adopted the provisions of Accounting Standards Update (ASU) 2015-12 (Part II), "Plan Accounting (Topics 960, 962, and 965): Plan Investment Disclosures." This ASU eliminates the disclosure of individual investments that represent 5 percent or more of net assets available for benefits, eliminates the net appreciation or depreciation for investments by general type, and requires that investments be grouped only by general type, eliminating the need to disaggregate the investments by nature, characteristics, and risks. The Plan has adopted this standard as Plan management believes this presentation is more relevant to the users of the financial statements. Accordingly, the accounting change has been retrospectively applied to the prior period presented, as required.

Investment Valuation and Income Recognition

Investments are stated at fair value, defined as the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date.

Net appreciation or depreciation of investments is reported on the statement of changes in net assets available for benefits and consists of the realized gains or losses and the unrealized appreciation or depreciation of these investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividend income is recorded on the ex-dividend date.

UNAUDITED INFORMATION PREPARED AND CERTIFIED BY THE PLAN'S TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Reliance Trust Company, the trustee of the Plan has certified to the completeness and accuracy of all investments reflected on the accompanying statement of net assets available for benefits as of December 31, 2015 and 2014, and to the related investment income in the statement of changes in net assets available for benefits for the year ended December 31, 2015.

FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 or 3 inputs were available to the Plan.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual Funds - valued at net asset value of the shares held by the Plan, using unadjusted quoted prices in active markets.

The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

	Investments at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total

Total Investments at Fair Value	\$ 0	\$ 0	\$ 0	\$ 0

TAX STATUS

The Company adopted a Prototype Non-standardized Profit Sharing Plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, stating that the Plan is designed in accordance with applicable sections of the Internal Revenue Code. The Plan has since been amended. The Plan administrator believes that the Plan is currently designed and operating in compliance with the applicable requirements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
