BROOKFIELD 401(k) SAVINGS PLAN

Notes to the Financial Statements

As of December 31, 2014 and 2013 and for the Year Ended December 31, 2014

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Brookfield 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution savings plan that covers all employees of Brookfield Asset Management LLC, and certain affiliated entities (collectively, the "Company"). All employees, except those that are part-time employees or covered by a collective bargaining agreement, become eligible to make salary deferrals following attainment of age 21 and completion of 30 days of employment with the Company. Participants are eligible to receive employer contributions following attainment of age 21 and completion of three consecutive months of employment with the Company. Part-time employees become eligible to participate in the Plan and receive employer contributions following attainment of age 21 and completion of one year of service with the Company. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Effective January 1, 2013, the Company engaged Matrix Trust Company ("Matrix Trust"), formerly Wilmington Trust Company to serve as trustee of the Plan and J.P. Morgan Retirement Plan Services LLC to serve as a record-keeper. Effective August 30, 2014, Great-West Financial acquired J.P. Morgan Retirement Plan Services LLC, which is no longer affiliated with JPMorgan Chase & Co. and now operates under the name Great-West Financial Retirement Plan Services, LLC.

Contributions - Each year, participants may make contributions to the Plan up to 60 percent of annual compensation, as defined by the Plan, either on pretax or after-tax basis, and are subject to the maximum allowable contributions under the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants determine the percentage allocation of their contributions among various investment funds and Company contributions, if any, are allocated using the same percentages.

The Company makes matching contributions equal to 200 percent of the first 2.5 percent of each participant's contribution. The Company may, at its discretion, make an additional contribution to the Plan. The Company did not make any discretionary contributions in 2014. Contributions are subject to certain limitations.

Participant Accounts - Individual accounts are maintained for each participant of the Plan. Each participant's account is credited with the participant's contribution and allocations of the Company's contribution, plan earnings and charged with an allocation of administrative expenses. Allocations are made pursuant to the Plan's provisions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are 100 percent vested at all times and have nonforfeitable interests in their entire account balances.

Notes Receivable from Participants - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balances. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. The interest rates range from 3.25 percent to 7.5 percent at December 31, 2014. Principal and interest are paid ratably through payroll deductions. The minimum period for which a loan must be outstanding is one year. The maximum term for which a loan may be outstanding is five years, except in the case of a loan used to acquire a principal residence for which the maximum term is ten years. Certain existing loans under a prior plan that has been merged with the Plan have maturities exceeding these limits.

Administrative Expenses - Any expenses not paid by the Company will be paid from the Plan's assets. During 2014, the Company paid a portion of the administrative expenses on behalf of the Plan.

Payments of Benefits - The balance of a participant's account is distributed upon normal retirement age or due to death or total disability. All benefits are to be paid in a single lump sum. A participant who is separated from service for any reason other than retirement, death, or total disability is paid his or her account balance if under \$1,000. If the balance is \$1,000 or more, participants may elect to have the balance paid any time after separation from service until age 70.

BROOKFIELD 401(k) SAVINGS PLAN

Notes to the Financial Statements

As of December 31, 2014 and 2013 and for the Year Ended December 31, 2014

NOTE 1 - DESCRIPTION OF PLAN - CONTINUED

Withdrawals of contributions may generally be made upon the attainment of age 59½. Withdrawals prior to attainment of age 59½ may be permitted due to financial hardship, as defined by the plan document. A participant may withdraw, not more than once during any plan year, up to the total of the amount in the participant's pretax or after-tax voluntary contributions.

Plan Merger and Transfer - Effective January 1, 2014, employees of NBS Technologies 401(k) Plan ("NBS") and the MPG Office, L.P. 401(k) Plan ("MPG") became eligible to participate in the Plan. On April 15, 2014, NBS and MPG plans sponsored by affiliates of the Company, merged with and into the Plan. Total net assets totaling \$7,948,784 were transferred into the Plan from the NBS and MPG plans.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation - The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Estimates - The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value. Refer to Note 3 for details on inputs, valuation techniques, and fair value measurement levels within the fair value hierarchy for each investment.

Net appreciation in fair value of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains and losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized appreciation in fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represent the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment purchased during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and not separately reported. Consequently, certain management fees and operating expenses, totaling approximately \$961,000, are reflected as a reduction of investment returns for these investments.

Risks and Uncertainties - Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Recent Accounting Pronouncements - In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* ("ASU 2015-07"). ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value per share practical expedient under Accounting Standards Codification 820. ASU 2015-07 is effective for the Plan for years beginning after December 15, 2015 (non-public for years beginning after December 15, 2016) with early adoption permitted. Management chose to early adopt ASU 2015-07 and, accordingly, investments that determine fair value using net asset value ("NAV") have been removed from the fair value hierarchy in Note 3 and the corresponding description of the valuation techniques and inputs used in the fair value measurement for such investments has been eliminated.

BROOKFIELD 401(k) SAVINGS PLAN

Notes to the Financial Statements

As of December 31, 2014 and 2013 and for the Year Ended December 31, 2014

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

In July 2015, the FASB issued Accounting Standards Update No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient* ("ASU 2015-12"). Part I of the accounting standards update requires fully-benefit responsive investment contracts to be measured, presented, and disclosed only at contract value. Part II of this update requires that investments (both participant-directed and nonparticipant-directed investments) be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways. Part II also eliminates the disclosure of individual investments that represent 5 percent or more of net assets available for benefits and the disclosure of net appreciation or depreciation of investments by general type, requiring only presentation of net appreciation (depreciation) in investments in the aggregate. Additionally, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is a fund that files a U.S. Department of Labor Form 5500, as a direct filing entity, disclosure of that investment's strategy is no longer required. Part III of the update permits plans to measure investments and investment-related accounts (e.g., a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. The amendments in ASU 2015-12 are effective for fiscal years beginning after December 15, 2015, with early application permitted. The amendments within Parts I and II require retrospective application; whereas, the amendments within Part III should be applied prospectively. Management has elected to adopt ASU 2015-12 in preparing these financial statements. Management believes the adoption of ASU 2015-07 is preferable as it simplifies and enhances the financial statement disclosures.

Payment of Benefits - Benefits are recorded when paid.

Subsequent Events - The Plan has evaluated subsequent events through the report date of these financial statements, the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

NOTE 3 - FAIR VALUE MEASUREMENTS

The Plan follows U.S. GAAP for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported, and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets in active markets that the Plan has the ability to access.
- Level 2 - Quoted market based observable inputs or inputs that are corroborated by the market data. Inputs to the valuation methodology include:
 - quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by the observable market data by correlation or other means.
- Level 3 - Inputs that are unobservable nor corroborated by market data.

NOTE 3 - FAIR VALUE MEASUREMENTS - CONTINUED

The asset's or liability's fair value measurement within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the methodologies used in valuing investments at fair value:

Mutual Funds - The fair value of the Plan's investments in mutual funds are based on the quoted market prices of the shares held by the Plan at year end. Accordingly, these fair value measurements are classified as having used Level 1 inputs.

Money Market Funds - The fair value of the Plan's investments in the money market fund is valued at the amount of cash balances on deposit, which approximates fair value. Accordingly, this fair value measurement is classified as having Level 1 inputs.

Common Collective Trust Funds - The Plan's investments in common collective trust funds are valued at the NAV of the units of the collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value and determined by each fund's trustee using the fair value of the underlying securities within the fund at year end. These investments had no unfunded commitments, a daily redemption frequency, and no significant redemption notice period.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	Level 1	Level 2	Level 3	Total
Money Market Funds	\$ 9,991,563	\$ -	\$ -	\$ 9,991,563
Mutual Funds	71,789,281	-	-	71,789,281
Self-Directed Brokerage Accounts	2,843,326	-	-	2,843,326
Total assets in the fair value hierarchy	84,624,170	-	-	84,624,170
Investments measured at net asset value ¹	-	-	-	70,729,068
Investments, at fair value	\$ 84,624,170	\$ -	\$ -	\$ 155,353,238

¹ Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the accompanying statement of net assets available for benefits.

The common collective trust funds held by the Plan in 2014 calculate fair value based on NAV.

NOTE 4 - INVESTMENTS - UNAUDITED

The Plan's investments are held by Matrix Trust as of December 31, 2014 and 2013. All investment assets (including self-directed investments), transactions, income, and notes receivable from participants, as presented in the accompanying financial statements and supplemental schedule, were certified by the trustee to be complete and accurate as of December 31, 2014 and 2013, and for the year ended December 31, 2014.

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Certain of the Plan's investments are managed by the trustee and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for trustee and investment management services are included in net appreciation in the fair value of the investment, as they are paid through revenue sharing rather than a direct payment. Additionally, the Plan issues loans to participants, which are secured by the participants' account balances. These transactions qualify as party in interest transactions.

All transactions related to the Brookfield Global Listed Infrastructure, Brookfield US Listed Real Estate, and Brookfield Global Listed Real Estate funds are executed, at market, by Brookfield Investment Management, Inc., an affiliate of the Company. These transactions qualify as party-in-interest transactions and are exempt from prohibited transactions rules.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt at the financial statement date.
