NOTES TO FINANCIAL STATEMENTS
As of December 31, 2015 and 2014

1. Description of Plan

The following description of the Capps Rent-A-Car, Inc. 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General
The Plan was created effective January 1, 1996 for the benefit of eligible employees of Capps Rent-A-Car, Inc. and Tyler Ford, Ltd. It is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective March 1, 2015, the Plan was amended and restated to bring a Plan into compliance with the Pension Protection Act of 2006 ("PPA") and other legislative and regulatory changes.

Eligibility
All employees who are at least 18 years of age and have completed one year of service are eligible to participate in the Plan.

Contributions
Participants may contribute up to 75% of their eligible compensation, as defined by the Plan. Participants may elect to have these contributions made as either pre-tax or after-tax "Roth" contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company makes matching contributions equal to 25% of the first 15% of a participant's eligible compensation. Participants direct the investment of their contributions and the Company's contributions into various investment options offered by the Plan.

Participant Accounts
Each participant's account is credited with the participant's contributions, the Company's matching contributions, as well as allocations of the Plan earnings. Participant accounts also are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are vested immediately in their contributions to the Plan plus actual earnings thereon. Vesting in the Plan Sponsor's matching contributions is based on years of continuous service. A participant vests 20% after one year of service, and 20% for each additional year until fully vested.

Investment Options
Participants direct both employee and employer contributions to be invested amongst various investment options as made available and determined by the plan administrator, which are more fully described in the Plan literature.

1. Description of Plan (continued)

Notes Receivable from Participants
Participants may borrow from their accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined quarterly, is equal to two percent above the prime rate, as defined. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits
The Plan provides that upon normal retirement age, death, disability, or termination of employment of a participant, the Plan will commence distribution of the participant's vested account balance by payment of either installments or a lump sum in accordance with the provisions of the Plan. Participants with account balances of less than $1,000 at the time their employment is terminated will automatically receive a lump sum distribution of their entire vested balance. Participants with account balances of more than $1,000 but less than $5,000 at the time their employment is terminated will automatically receive a lump sum distribution of their entire vested balance in the form of a direct rollover into an IRA designated by the Plan Administrator.

Forfeited Accounts
The Plan allows for amounts forfeited by participants to be used to reduce the Company's matching contribution or to pay expenses associated with the operation and administration of the Plan. At December 31, 2015 and 2014, forfeited non-vested accounts totaled $7,993 and $7,886, respectively. The Company used $0 in forfeited accounts during 2015 to reduce the Company's matching contribution.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements have been prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the Unites States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments in registered investment companies (mutual funds) are stated at fair value. The common collective trust funds are stated at net asset value ("NAV") as determined by the trustee at the end of the plan year. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value investments.

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition
The Plan invests in the Invesco Stable Value Fund, a stable value fund held within a common collective trust, which has entered into fully benefit-responsive investment contracts to provide preservation of principal, maintain a stable interest rate, and provide liquidity at contract value for participant withdrawals and transfers. The stable value fund has an investment objective to maintain a constant net asset value while generating a slightly higher yield than the money market fund.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded directly to participant's accounts and are expensed when they are incurred.

No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable and distributions to participants are charged directly to the participant's account and included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Reclassifications
Certain reclassifications have been made to the prior year balances to conform to the current year presentation.

2. Summary of Significant Accounting Policies (continued)

Recently Adopted and New Accounting Pronouncements
In May 2015, the Financial Accounting Standards Board ("FASB") issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The ASU removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, *Fair Value Measurement*. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. The amendments in ASU 2015-07 are effective for public entities for interim and annual periods beginning after December 15, 2015. The amendment is required to be applied retrospectively and early adoption is permitted. The Plan has elected to adopt the ASU for the year ended December 31, 2015. Other than the change to disclosures, the adoption of this standard did not have a material impact on the financial statements.

Recently Adopted and New Accounting Pronouncements (continued)
In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. The ASU simplifies the required disclosures related to employee benefit plans. Part I eliminates the requirement to measure and disclose the fair value of fully benefit-responsive contracts, including common collective trust assets. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirement to disclose individual investments which comprise 5% or more of total net assets available for benefits, as well as the net appreciation or depreciation of fair values by type. Part II also requires plans to continue to disaggregate investments that are measured using fair value by general type; however plans are no longer required to also disaggregate investments by nature, characteristics and risks. Furthermore, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. ASU 2015-12 is effective for all entities for fiscal years beginning after December 15, 2015 with early adoption permitted. The Plan has elected to early-adopt ASU 2015-12 as of December 31, 2015, and has applied the provisions retrospectively. The adoption of ASU 2015-12 resulted in the reclassification of $21,447 related to the adjustment from fair value to contract value for fully benefit-responsive investment contract within its Statement of Net Assets Available for Benefits as of December 31, 2014. Furthermore, the Company has eliminated its historical disclosure of individual investments which comprise 5% or more of total net assets available for benefits, as well as the net appreciation or depreciation of fair values by type. There were no other impacts on the statements of net assets available for benefits and the statement of changes in net assets available for benefits as of December 31, 2015 and 2014.

Subsequent Events
Subsequent events have been evaluated through the date of the report of independent auditors, which is the date these financial statements were available to be issued. Other than the matter noted in Note 11, there were no material subsequent events that required recognition or additional disclosure in the financial statements.

3. Information Certified by the Trustee (unaudited)

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted under such election, the Plan Sponsor instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by State Street Bank and Trust Company, the trustee of the Plan, as complete and accurate, except for comparing such information certified by the trustee with information included in the plan's financial statements and supplemental schedules:

As of December 31,	**2015**	2014
Investments, at fair value:		
Mutual funds	**$ 1,940,534**	$ 1,792,230
Common collective trust funds	**1,750,229**	2,101,043
Total investments	**$ 3,690,763**	$ 3,893,273
Notes receivable from participants	**$ 198,169**	$ 151,206

For the year ended December 31,	**2015**
Net depreciation in fair value of investments	**$ (111,956)**
Interest and dividends	**159,806**
Interest on notes receivable from participants	**8,681**

4. Fair Value Measurements

The fair value hierarchy prioritizes the inputs used to measure fair value, giving the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

4. Fair Value Measurements (continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Quoted market prices are used to value investments in mutual funds, which are publicly traded funds of registered investment companies, and common stock.

Common collective trust funds: Valued at the net asset value of units of a common collective trust. The net asset value as provided by the trustee is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different that the reported net asset value. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 1,940,534	$ -	$ -	$ 1,940,534
Total assets in fair value hierarchy	1,940,534	-	-	1,940,534
Investments measured at net asset value (a)	-	-	-	1,750,229
Total investments, at fair value	$ 1,940,534	$ -	$ -	$ 3,690,763

4. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 1,792,230	$ -	$ -	$ 1,792,230
Total assets in fair value hierarchy	1,792,230	-	-	1,792,230
Investments measured at net asset value (a)	-	-	-	2,101,043
Total investments, at fair value	$ 1,792,230	$ -	$ -	$ 3,893,273

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amount presented in the table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

As of December 31, 2015:

Investment	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Common Collective Trust Funds	$1,750,229	N/A	Daily	12 months

As of December 31, 2014:

Investment	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Common Collective Trust Funds	$2,101,043	N/A	Daily	12 months

5. Invesco Stable Value Fund

The Invesco Stable Value Fund ("Stable Value Fund") is a stable value common collective trust with an objective to provide a diversified group of investments while offering competitive levels of yield consistent with stable fixed-income methodology and the careful and prudent assumption of investment risk providing for preservation of capital, stability and predictability of returns, liquidity to pay plan benefits, and high credit quality. The Stable Value Fund seeks to achieve this objective by investing in conventional, synthetic, and separate account investment contracts issued by life insurance companies, banks, and other financial institutions. For liquidity purpose, the Stable Value Fund may have all or a portion of its assets invested in high-quality money market instruments, investment companies, and collective investment trusts that meet the investment objectives. The Stable Value Fund provides for daily redemptions by the Plan with no advance notice requirements, and has redemption prices that are determined by the fund's net asset value per unit.

6. Related-Party and Party-In-Interest Transactions

Certain Plan investments are shares of common collective trust funds managed or issued by State Street. State Street is the trustee of the Plan and, therefore, these transactions qualify as party in interest transactions. The Plan made direct payments to the third party administrator and record keeper totaling $2,875. These costs incurred by the Plan are included in administrative expenses on the statement of changes in net assets available for benefits. The Plan Sponsor pays directly any other fees related to the Plan's operations.

7. Plan Termination

While it has not expressed any intent to do so, the Company may terminate the Plan upon written notice to the trustee, subject to the provisions of ERISA. Upon such termination, the entire account of each participant would become fully vested, and the net Plan assets would be distributed to the participants based on each participant's account balance.

8. Tax Status

The Plan is based on a prototype plan developed by ADP. ADP has received a favorable opinion letter dated July, 8, 2014 from the IRS stating that the ADP prototype plan constitutes a qualified plan under the Internal Revenue Code (IRC). The Company believes the Plan, as adopted and amended, is operating within the guidelines of the IRC and continues to be tax exempt. Accordingly, no provision for federal income taxes has been provided in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require Plan Management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by IRS. The Plan is subject to routine audits taken by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2012.

9. Risks and Uncertainties

The Plan offers a number of investment options to participants that are exposed to various risks, such as interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits and participants account balances.

11. Subsequent Events
