Notes to Financial Statements

Description of plan:

General:

The following description of the Timely Industries 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan covering all full-time employees of Timely Industries, Inc. (the Company) who have at least three months of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Each year, participants may elect to defer up to 50% of pre-tax annual compensation up to the maximum allowed by regulations, as defined in the Plan. Participants may also contribute amounts distributed from other qualified plans (rollover contributions).

The Company makes a matching contribution equal to 50% of the amount of the salary reduction each participant elects to defer, not to exceed a specified amount in any Plan year.

Participant accounts:

Participant accounts are all self-directed and each participant's account is credited with the participant's contribution, any Company matching contribution, an allocation of the Plan earnings, and is charged with any withdrawals. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are vested immediately in their contributions plus actual earnings thereon.

The Company's contribution is subject to a vesting schedule based on years of continuous service as follows:

Years of service	Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Notes receivable from participants:

Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000, or 50 percent of their vested account balance. Loan terms range from 1 to 5 years or up to 30 years for the purchase of a principal residence. A $100 loan set-up fee is deducted from loan proceeds. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.25% to 4.25%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Notes to Financial Statements (continued)

Description of plan (continued):

Notes receivable from participants (continued): Participant loans are classified as notes receivable and valued at their outstanding principal amount, plus accrued but unpaid interest and net of any unrealizable amounts.

Interest earned on participant loans was $6,269 and $5,907 in 2015 and 2014, respectively.

Payment of benefits: Upon termination of employment a participant can elect to receive distribution of their account balance as defined in the Plan agreement including a lump sum cash payout and various forms of annuities.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Forfeited accounts: For the years ended December 31, 2015 and 2014, forfeited non-vested accounts totaling $3,916 and $1,204 respectively, were used to reduce the employer's matching contribution. At December 31, 2015, there was $10 of forfeitures available to reduce future employer contributions.

Plan expenses: Administrative expenses are paid by the plan sponsor except for fees relating to distributions and participant loan processing, which are paid from the individual participant's accounts.

Summary of accounting policies:

Basis of accounting: The financial statements are prepared on the accrual basis of accounting.

Accounting change: In July 2015, the FASB issued ASU 2015-12. Plan Accounting: Defined Benefit Pension Plan (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965):Part (1) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted. Management has elected to adopt Parts I and II early. Accordingly, the amendments were retrospectively applied. Part III is not applicable to this Plan.

Notes to Financial Statements (continued)

Summary of accounting policies (continued):

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payments of benefits: Benefits are recorded when paid.

Plan termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants will become 100% vested in their accounts.

Tax status: The Plan utilizes a prototype plan document and relies on the opinion letter issued to ADP, the prototype document sponsor. ADP received the opinion letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code.

Disclosure or accrual of uncertain tax positions is not required when it is more likely than not that the plan is entitled to the economic benefits resulting from the positions taken in income tax returns. The Plan has no uncertain tax positions that qualify for either recognition or disclosure in the financial statements.

Benefit claims payable: At December 31, 2015, the Plan includes eight terminated participants whose balances totaled $198,222. At December 31, 2014, the Plan included ten terminated participants whose balances totaled $191,404.

Investments: Net depreciation and appreciation for the plan's investments were $(255,985) and $144,841 for December 31, 2015 and 2014, respectively.

Notes to Financial Statements (continued)

Information prepared and certified by the custodians of the plan:

The following information in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by State Street Bank & Trust, the custodian of the Plan, and was not audited.

The information included in the statement of net assets available for benefits:

December 31,	**2015**	2014
Investments at fair value	**$ 4,074,343**	$ 4,144,912
Notes receivable from participants	**188,367**	206,915

Information included in the statement of changes in net assets available for benefits:

Year-ended December 31,	**2015**
Interest and dividends	**$ 128,209**
Realized gains	**35,492**
Net decline in fair value of investments	**255,985**
Administrative fees	**2,851**

Fair value measurements:

The Financial Accounting Standards Board has issued Fair Value Measurements, which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Notes to Financial Statements (continued)

Fair value measurements (continued):

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Valuation of mutual funds and common collective trusts:

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds are valued at the net asset value (NAV) of shares held by the plan at year end. Most of the common collective trust investments are valued at the net asset value per unit based on ownership interest in the fund as reported by the investment advisor using the audited financial statements of the collective trusts at year end. One common collective trust investment is a stable value fund with an underlying investment in a fully benefit-responsive investment contract.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the plan's assets at fair value as of:

December 31, 2015	Level 1	Level 2	Level 3	Total
Mutual funds	$ 2,587,342	$ -	$ -	$ 2,587,342
Common Collective trusts	-	1,465,129	-	1,465,129
Guaranteed Investment fund	-	-	21,872	21,872
Total investments at fair value	$ 2,587,342	$1,465,129	$ 21,872	$ 4,074,343

Notes to Financial Statements (continued)

Valuation of mutual funds And common collective Trusts (continued):

December 31, 2014	Level 1	Level 2	Level 3	Total
Mutual funds:	$ 2,620,337	$ -	$ -	$ 2,620,337
Common collective trusts	-	1,513,435	-	1,513,435
Guaranteed Investment fund	-	-	11,140	11,140
Total investments at fair value	$ 2,620,337	$1,513,435	$ 11,140	$ 4,144,912

Level 3 gains and losses:

The following table sets forth a summary of changes in the fair value of the plan's level 3 assets for the year ended December 31, 2015.

	Guaranteed investment fund
Balance, beginning of year	$ 11,140
Unrealized gains/(losses)	-
Purchases, sales, issuances, and settlements (net)	10,732
Balance, end of year	$ 21,872

Party in interest transactions:

Certain Plan investments are shares of common collective trusts managed by State Street Global Advisors, a sister company of State Street Bank & Trust, the custodian of the Plan, and therefore, these transactions qualify as party in interest transactions. They are exempt from the prohibited transaction rules of ERISA. Participant loans qualify as party in interest transactions and are also exempt from the prohibited transaction rules of ERISA (see related footnote for notes receivable from participants for additional information).

Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Notes to Financial Statements (continued)

Subsequent events:

The plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements considered events through September 21, 2016, the date the financial statements were available for release.
