GLOBAL HOLDINGS LLC 401(k) PROFIT SHARING PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

Note 1 – Description of the Plan

Global Holdings LLC (the Company or Employer) sponsors the Global Holdings LLC 401(k) Profit Sharing Plan and Trust (the Plan). The following description provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established for the benefit of the Company's employees, except for collective bargaining and nonresident alien employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is administered by the 401(k) Profit Sharing Plan Administrative Committee, which is appointed by the Company. INTRUST Bank, N.A. (the Trustee) serves as the trustee of the Plan, processes and maintains the records of the participant data and holds the Plan's assets.

Eligibility

Nonexcluded employees who have reached 18 years of age and have completed six months of service are eligible to participate in the Plan. Participants may enroll in the Plan immediately after satisfying eligibility requirements.

Contributions

Each payroll period, participants may contribute 1% to 50% of pre-tax and post-tax (Roth) compensation, as defined. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a collective trust fund as investment options for participants.

The Plan provides for Employer safe-harbor matching contributions. The fixed rate is equal to 100% of employee deferrals up to 3% of a participant's compensation plus 50% of employee deferrals in excess of 3%, but not in excess of 5% of the participant's compensation. Employer safe-harbor matching contributions are based on deferrals made each payroll period.

Additional amounts may be contributed by the Employer under the Plan's nonelective contribution provisions at the discretion of the Company's board of directors. Participants must be employed on the last day of the year or have worked at least 501 hours of service and 91 consecutive days during the Plan year in order to be eligible for discretionary nonelective contributions. Allocations of such nonelective contributions are based on the proportion of each participant's compensation to the total of all eligible participants' compensation. No discretionary nonelective contributions were made in 2015.

Contributions are subject to certain limitations.

Participant accounts

Each participant's account is credited with the participant's contributions and Employer safe-harbor matching contributions, as well as allocations of Employer nonelective contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in both their contributions and Employer contributions, plus actual earnings thereon.

Notes receivable from participants

Participants may borrow from their vested accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000, reduced by the highest outstanding loan balance during the preceding 12-month period, or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest rates that range from 4.25% to 4.50%, which is based on prime rate plus 1% on the date of origination. Only two loans may be outstanding at any given time. Principal and interest is paid ratably through payroll deductions.

Payment of benefits

Upon retirement at age 65, termination, disability or death, a participant, or his or her beneficiary in the event of death, may elect to receive a lump-sum amount or installment payments equal to the value of the participant's interest in his or her account. Additionally, participants may take an in-service distribution upon reaching the age of 59½. Upon termination, automatic distributions are required for balances of less than \$1,000. Generally, certain minimum distributions are required for participants who have separated from service and have reached age 70½.

The Plan allows hardship withdrawals, subject to account balance limits and applicable laws.

Forfeitures

Forfeitures are used first to pay administrative expenses then to reduce Employer safe-harbor matching contributions. The Plan had no unallocated forfeitures at December 31, 2015 or 2014.

Administrative expenses

The Plan allows certain administrative expenses to be paid from Plan assets.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the Trustee. See Note 5 for discussion of fair value measurements.

The Plan has a fully benefit responsive collective trust fund as an investment. This type of investment contract is required to be reported at fair value. However, contract value is the relevant measurement for fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contract as well as the adjustment of the fully benefit responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

Payment of benefits

Benefit payments are recorded when paid. There were no benefits requested before year-end that were not paid.

New accounting pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820) Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its equivalent)*, which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. ASU 2015-07 also limits certain disclosures to investments for which the entity has elected to measure the fair value using the practical expedient. ASU 2015-07 is to be applied retrospectively, and for nonpublic filers is effective for years beginning after December 15, 2016, with early adoption permitted.

In July 2015, FASB issued ASU 2015-12, *Plan Accounting: Defined Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit Responsive Investment Contracts, (Part II) Plan Investment Disclosures and (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristic and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III allows a plan to measure its investments and investment-related accounts using the month-end closest to its fiscal year-end. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with early adoption permitted, and Parts I and II are to be applied retrospectively.

Plan management does not anticipate the adoption of the applicable ASUs will have a significant impact on the Plan's financial statements.

Subsequent events

The Plan administrator has evaluated subsequent events through September 14, 2016, the date the financial statements were available to be issued.

Note 3 – Information Certified by the Plan's Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule of assets (held at end of year) is complete and accurate:

- Investments and notes receivable from participants as shown on the statements of net assets available for benefits as of December 31, 2015 and 2014;
- Net investment activity and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2015;
- Investment information included in the footnotes and on the supplemental schedule of assets (held at end of year) as of December 31, 2015.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule of assets (held at end of year).

Note 4 – Investments

The following presents investments that represent 5% or more of the Plan's net assets available for benefits at December 31:

For the year ended December 31, 2015, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

Collective trust fund	\$ 6,190
Mutual funds	(127,642)
	<u>\$ (121,452)</u>

Note 5 – Fair Value Measurements

Accounting guidance provides a framework for measuring fair value and provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1	Unadjusted quoted prices for identical, unrestricted assets or liabilities in active markets that a plan has the ability to access.
Level 2	Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means for substantially the full term of the assets or liabilities.
Level 3	Significant unobservable inputs.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used at December 31, 2015 and 2014. During the year ended December 31,

2015, there were no transfers of financial instruments into or out of Level 3. Following is a description of the valuation methodologies used for assets measured at fair value:

Collective trust fund – Stated at fair value as determined by the issuer of the collective trust fund based on the fair market value of the underlying investments. The Stable Return Fund (the Fund) is a collective trust fund that is considered to be a stable value fund with underlying investments in fully benefit responsive investment contracts. The fair value of the stable value fund is the net asset value of its underlying investments. There are no restrictions on redemptions from the collective trust funds, and there are no unfunded commitments as of December 31, 2015.

Participants do not have beneficial ownership in the specific underlying securities or other assets in the Fund, but do have an interest therein represented by units valued daily. The Fund earns dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in the Fund at contract value. Contract value represents contributions made to the Fund, plus earnings, less participant withdrawals. The Fund imposes certain restrictions on the Plan, and the Fund itself may be subject to circumstances that affect its ability to transact at contract value. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable.

Mutual funds – Valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31:

Note 6 – Related Party and Party-in-Interest Transactions

Certain administrative expenses, totaling approximately \$23,000, were paid by the Company on behalf of the Plan for the year ended December 31, 2015. The Company does not expect reimbursement from the Plan for these expenses. Certain administrative functions are performed by officers and employees of the Company. No officer or employee receives compensation from the Plan for these services.

Fees incurred by the Plan for the investment management services are included in net depreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. The Plan also made direct payments to the service providers which were not covered by revenue sharing.

Note 7 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 8 – Tax Status

The Company adopted a standardized prototype plan (the Prototype Plan) sponsored by INTRUST Bank, N.A. The Internal Revenue Service has determined and informed the Prototype Plan sponsor by a favorable opinion letter dated March 31, 2014, that the Prototype Plan is designed in accordance with the applicable sections of the Internal Revenue Code (the Code). The Prototype Plan's opinion letter is being relied on by the Plan. Although the Plan has been restated since receiving the opinion letter, Plan management believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code, and therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Note 9 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported on the statements of net assets available for benefits.

Note 10 – Prohibited Transaction

During the year ended December 31, 2014, the Company remitted a deposit of \$1,630 of participant contributions and loan repayments outside the required timeframe as stated by the DOL. The DOL considers late deposits to be nonexempt prohibited transactions. The Company paid lost earnings and excise taxes in 2015. The excise tax and lost earnings were made in 2015 from the Company's assets and not from Plan assets.

Note 11 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31:
