MUSEUM OF FLIGHT TAX-SHELTERED ANNUITY PLAN

Notes to Financial Statements For the Year Ended December 31, 2015

Note 1 - Description of Plan

The following description of the Museum of Flight Tax-Sheltered Annuity Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's definitions, benefits, eligibility and other matters.

General - The Plan is a defined contribution plan that was established effective January 1, 1988 for the benefit of employees of the Museum of Flight Foundation (the Sponsor or Foundation). The Plan is intended to be a plan that meets requirements under Section 403(b) of the Internal Revenue Code (IRC). The Variable Annuity Life Insurance Company (VALIC) is the recordkeeper and issuer of the Plan's annuity contracts. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility - All employees of the Foundation are eligible to make elective deferrals into the Plan and receive employer matching contributions upon completion of one year of service. Employees must work at least 1,000 hours in order to fulfill the one year service requirement. Before meeting the one year service requirement, employees are eligible to contribute elective deferrals into a separate tax-sheltered annuity plan.

Contributions - Participants are permitted to make elective deferrals to the Plan only if their salary reduction agreement calls for annual contributions of 50% of the employer matching contribution made on their behalf. Any elective deferrals less than, or greater than this, amount shall automatically be contributed to a separate tax-sheltered annuity plan in lieu of the Plan. Contributions can be made as pre-tax contributions or Roth contributions. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants are also allowed to contribute amounts representing distributions from other eligible retirement plans. The Foundation made matching contributions at a rate equal to 4% of the employee's compensation, plus one-tenth of 1% (0.1%) of the employee's compensation times the employee's years of service, provided that the employee has agreed to make elective deferrals at a rate equal to 50% of the employer matching contributions made on their behalf.

Contributions are subject to certain regulatory limitations under the IRC.

Participant Accounts - Participant contributions to the Plan are voluntary. Participants are allowed to direct the investment of all contributions into various investment options that offer a diversity of investment risk and return. Each participant's account is credited with the participant's contribution, if applicable, and allocations of (a) the Foundation's contribution and, (b) Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Allocation Provisions - Interest income and net realized and unrealized investment gain or loss of each investment shall be allocated to the accounts of each participant based on the participant's proportionate share of the various investments held in their investment account.

Vesting - Participants are immediately vested in their elective deferral contributions and employer matching contributions plus actual earnings thereon.

Policy Loans - Participants may borrow from funds owned by VALIC (not directly from a participant's account). Accordingly, policy loans are not reported on the statements of net assets available for benefits and related interest income is not reported on the statements of changes in net assets available for benefits. When a participant takes a loan, the participant account is not reduced; however, a portion of the participant account serves as collateral for the loan.

MUSEUM OF FLIGHT TAX-SHELTERED ANNUITY PLAN

Notes to Financial Statements For the Year Ended December 31, 2015

Note 1 - Continued

The amount is equal to the original principal of the loan requested plus the first quarter interest due and potential surrender charges. The participant pays interest to VALIC at the loan interest rate. The loan interest rate is determined at the end of each quarter based on Moody's Average Corporate Yield. There were \$20,640 and \$25,146 in outstanding plan loans as of December 31, 2015 and 2014, respectively.

Payment of Benefits - Upon termination of service, death, disability, or retirement, a participant may receive a lump-sum amount equal to the vested portion of his or her account. The distribution may also be in the form of installment payments or annuity distribution options. The Plan also provides for hardship withdrawals.

Note 2 - Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates - The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, if any, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value except for fully benefit-responsive investment contracts. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation or depreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits Paid to Participants - Benefits paid to participants are recognized when they are paid. No amounts had been allocated to accounts of participants who had elected to withdraw from the Plan but had not yet been paid as of December 31, 2015 and 2014.

Administrative Expenses - The Plan's investment options are subject to investment and administrative fees based on a percentage of invested assets. All such fees are charged directly against investment performance and not separately disclosed in the accompanying financial statements. Certain fees and expenses of the Plan for legal, accounting, and other administrative services are paid directly by the Foundation on behalf of the Plan.

Recently Adopted Accounting Standards - In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value (NAV) per share practical expedient. In July 2015, the FASB issued ASU No. 2015-12, which designates contract value as the only required measure for fully benefit-responsive investment contracts, eliminates the requirement to disclose individual investments that represent 5% or more of net assets available for benefits, and simplifies certain investment disclosures. Management has elected to adopt both standards effective December 31, 2015. The new guidance has been applied retrospectively and had no impact to the Plan's net assets available for benefits.

Note 2 - Continued

Subsequent Events - The Sponsor has evaluated subsequent events through October 4, 2016, the date on which the Plan's financial statements were available to be issued.

Note 3 - Fair Value Measurements

U.S. GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 - Unadjusted quoted prices available in active markets for identical assets or liabilities;

Level 2 - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

Level 3 - Unobservable inputs that are significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Variable Annuity Accounts - Variable annuity accounts are valued by VALIC daily by multiplying the number of units held with the accumulation unit value (AUV). The AUV is determined based on the net asset value of shares of the underlying fund, the fund's dividends, and any charges to the accounts. The net asset value per accumulate unit is used as a practical expedient for measuring fair value. Participants may transfer all or a portion of their account value among the Plan's variable annuity accounts. VALIC allows eligible participants to withdraw the fair value of their variable annuity accounts, in whole or in part, at any time without penalty.

Fixed Annuity Contracts - The Plan's fixed annuity contracts that are not considered fully benefit-responsive and measured at fair value is offered through the fixed account plus (FAP) contract type. Under FAP contracts, participant initiated transfers and withdrawals may be subject to restrictions and surrender charges. FAP contracts are reported at contract value which is the aggregation of contributions, plus interest, less any withdrawals. Contract value approximates a discounted cash flow value (fair value) calculated using an appropriate risk-adjusted market discount rate which correlates closely with the contract's historical crediting rates. Fair value is determined annually for financial statement reporting purposes. In determining the reasonableness of the methodology, the Plan's management evaluates a variety of factors including review of existing contracts, historical returns, market conditions, and overall credit ratings. Certain unobservable inputs are determined through review of contract terms (e.g. historical crediting rates) while others are substantiated utilizing available market data (e.g. Treasury yields).

- (a) In accordance with Subtopic 820-10, investments that were measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

A description of the significant investment strategies for investments measured using the NAV per share (or its equivalent) practical expedient are required to be disclosed unless the investment files a Form 5500 as a direct filing entity. The titles of the investments presented below show the investment strategies for these investments. Only those investments that are greater than 5% of total net assets as of December 31, 2015 and 2014 are presented below:

Note 3 - Continued

A reconciliation of the beginning and ending balances for fair value measurements made using significant unobservable inputs (Level 3) is as follows for the year ended December 31, 2015:

	Fixed Annuity Contracts
Balance as of January 1, 2015	\$ 588,016
Interest income	17,913
Purchases	25,388
Sales	<u>(12,790)</u>
Balance as of December 31, 2015	<u>\$ 618,527</u>

The following table presents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and ranges of values for those inputs at December 31, 2015 and 2014:

	Valuation Technique	Unobservable Inputs	December 31, 2015 Range (Average)	December 31, 2014 Range (Average)
Fixed Account Plus	Discounted cash flow	Risk-adjusted discount rate applied	1.0% to 4.5% (3.2%)	1.0% to 4.5% (3.2%)

Note 4 - Fully Benefit-Responsive Investment Contracts

In addition to the nonbenefit-responsive fixed annuity contracts described in Note 3, the Plan also holds benefit-responsive fixed annuity contracts through the short-term fixed account contract type. Short-term fixed account contracts provide for full participant-directed liquidity and are reported at contract value. Contract value is the aggregation of contributions, plus interest, less withdrawals.

VALIC maintains contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. VALIC is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The rate of credited interest for any period of time will be determined by VALIC. The rate credited is the rate in effect on the day when each deposit is directed to the fixed annuity contracts.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with VALIC and that also would limit the ability of the Plan to transact at contract value with participants.

Notes to Financial Statements For the Year Ended December 31, 2015

Note 5 - Certified Investments

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments held at December 31, 2015 and 2014, and investment income and transactions for the year ended December 31, 2015, that is disclosed in the accompanying financial statements and supplementary information, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by VALIC. The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplementary information.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to terminate the Plan subject to the provisions of the ERISA.

Note 7 - Exempt Party-in-Interest Transactions

Plan investments are variable and fixed annuity contracts issued by VALIC and, therefore, transactions with the Plan's investments qualify as party-in-interest transactions which are exempt from prohibited transaction rules.

Note 8 - Federal Income Taxes

The Plan has been designed to qualify under Section 403(b) of the IRC. The Plan is required to operate in conformity with the IRC to maintain the tax-exempt status for plan participants under Section 403(b). Management believes it has operated the Plan in a manner that did not jeopardize the tax benefits associated with these arrangements.

The Plan is subject to audits by the Internal Revenue Service; however, there are currently no audits for any tax periods in progress.

Note 9 - Risks and Uncertainties

The Plan's investments invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10 - Concentrations of Credit Risk

Financial instruments that potentially subject the Plan to concentrations of credit risk consist principally of the fixed annuity contracts issued by VALIC. This investment represents approximately 27% of total Plan investments at December 31, 2015 and 2014. The Plan's management seeks to limit its credit exposure by placing its contracts with high-credit quality institutions.
