The following description of the Riverwood International Hourly Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more information.

General. The Plan is a noncontributory defined benefit pension plan covering all eligible union hourly employees at Graphic Packaging International, Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Funding Policy. The Company's funding policy is to make contributions to the Plan in amounts sufficient to provide for the participants' benefits and to satisfy the minimum funding standards of ERISA. The Plan has met the minimum funding requirements of ERISA for the years ended December 31, 2015 and 2014. In accordance with the requirements of the Pension Protection Act of 2006 the Plan has elected Funding Relief.

Pension Benefits. Any employee who has attained the normal retirement age (65) is entitled to receive a full pension based upon the employee's benefit service. Participants of certain locations may also retire at age 62 with 20 years of service with full benefits. Participants who are between the ages of 55 and 65 and have at least 10 years of vesting service may retire at the option of the employee and will receive a percentage of their earned benefit based upon the number of years between their retirement age and age 65. Benefits to be received under the Plan are based on the employee's years of benefit service and fractions thereof multiplied by the benefit level in effect on the last date of active employment.

Effective September 10, 2012, the Plan was closed to new participants, re-hires and transfers for employees represented by USW 4-0364 at the West Monroe, LA Paperboard Division and USW 4-654 at the West Monroe, LA Carton Plant. Effective December 31, 2012, the Plan was amended to freeze benefit service and benefit accruals for non-grandfathered participants at the West Monroe, LA Paperboard Division represented by USW 4-0364 and the West Monroe, LA Carton Plant represented by USW 4-654. A non-grandfathered participant is not eligible for disability retirement after December 31, 2012.

Effective December 22, 2014 the Plan was amended to freeze benefit service and benefit accruals for new hires at Macon USW Local 3-572, IBEW Local 316 and IAM Local 1034.

Participants may elect to receive their benefits in various payment forms such as a single life annuity or other optional forms of payment available under the Plan.

Effective January 1, 2015, the Plan was amended and restated. This restatement incorporates all amendments since the previous restatement, updates the Plan's definition of "Spouse" to comply with guidance from the Internal Revenue Service ("IRS"), and updates the Plan's provisions related to funding-based benefit restrictions under the Internal Revenue Code ("IRC").

Effective November 1, 2015 and 2014, a Special Commencement Right was implemented to allow for a lump sum window election for certain terminated vested participants.

Death and Disability Benefits. If an active participant dies after becoming eligible for a benefit under the Plan but before commencing payment, their surviving spouse is entitled to a benefit.

Vesting. An employee must complete five years of service to become eligible to receive a benefit under the Plan. If an employee does not complete five years of service, they forfeit the right to receive benefits under the Plan.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting. The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment Valuation and Income Recognition. Investments in the Graphic Packaging International, Inc. Master Trust ("the Master Trust") are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in its statements of changes in net assets available for benefits an allocation of the GPI Master Trust's net income which consists of realized gains or losses, unrealized appreciation or depreciation on investments and interest and dividend income.

Management fees and operating expenses charged to the Master Trust for investments in mutual funds and common/collective trusts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Valuation of Financial Instruments. The carrying values of the Plan's receivables and payables approximate fair value.

Use of Estimates. The preparation of financial statements in conformity with U.S. GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from these estimates.

Risks and Uncertainties. The Plan invests in a Master Trust which invests in a combination of stocks, bonds, mutual funds, common/collective trusts, foreign currency options and contracts and other investment securities. The underlying investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to the changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in these financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Payments of Benefits. Benefits are recorded when paid.

Administrative Expenses. Generally, the Plan pays for expenses incurred for Plan administration. Certain other costs of the Plan have been paid by the Company.

Adoption of Accounting Pronouncements. In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, *Disclosures for Investments that Calculate Net Asset Value per Share (or Its Equivalent)*. ASU 2015-07 eliminates the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value ("NAV") practical expedient in Accounting Standards Codification ("ASC") 820, *Fair Value Measurements* ("ASC 820"). The guidance is effective for fiscal years beginning after December 15, 2015. The Plan has elected to early adopt ASU 2015-07 effective with the December 31, 2015 financial statements, with retrospective application to all periods presented. The adoption had no effect on the Plan's net assets available for benefits or changes therein.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefits Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirement to disclosure individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type: however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan assets. Part III allows a plan with a fiscal year end that doesn't coincide with the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. The guidance is effective for fiscal years beginning after December 15, 2015. The Plan has elected to early adopt Part II effective with the December 31, 2015 financial statements, with retrospective application to all periods presented. Parts I and III are not applicable to the Plan. The adoption had no effect on the Plan's net assets available for benefits or changes therein.

C. INTEREST IN MASTER TRUST (UNAUDITED INFORMATION)

The Plan's investments are in the Master Trust. The Master Trust was established for the investment of assets of the Plan and certain assets of other retirement plans sponsored by the Company. Each participating retirement plan has an undivided interest in the Master Trust. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based on 1) whether it is related to a specific plan (100 percent allocation to that plan), or 2) the Plan's proportionate share of the income or expense which is attributable to the Master Trust.

The Bank of New York Mellon/BNY Mellon, N.A. (the "Trustee"), the Trustee of the Plan, holds investment assets and executes transactions therein, and substantially all information pertaining to investments included in the financial statements has been certified by them. Therefore, in accordance with the request of the Company and as allowed under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, this information was not subjected to auditing procedures generally accepted in the United States of America by the Plan's independent public accountants.

At December 31, 2015 and 2014, the assets of the Master Trust were held by the Trustee of the Plan. The Plan's interest in the net assets of the Master Trust was approximately 25% and 24% at December 31, 2015 and 2014, respectively.

The following table presents the net assets held by the Master Trust at December 31, 2015 and 2014 as certified by the Trustee:

D. FAIR VALUE MEASUREMENTS

ASC 820 provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in methodologies used at December 31, 2015 and 2014.

Common/collective trusts (the "CCTs"): The Master Trust's interest in the CCTs are valued at the NAV of shares held by the Plan at year end. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the CCTs, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. As of December 31, 2015 and 2014, there were no unfunded commitments or redemption restrictions on the Plan's investment in the CCTs.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common and preferred stocks: Valued at the closing price reported on the active market on which the individual securities are traded on a daily basis.

103-12 investment entity (the "LLC"): The Master Trust's interest in the LLC is stated at fair value. The value is determined by the net asset value, based on the underlying investments, as reported by the LLC on the valuation date. As of December 31, 2015 and 2014, there were no unfunded commitments or redemption restrictions on the Plan's investment in the LLC.

Foreign currency options: Valued using pricing models based on the prevailing forward exchange rate of the underlying currencies taking into account the counterparties' creditworthiness.

Cash and cash equivalents – foreign currency: Valued at cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2015 and 2014. There were no level 3 investments as of December 31, 2015 and 2014.

December 31, 2015	Level 1	Level 2	Total

Common/Collective Trusts			407,165,868
103-12 Investment Entity			84,775,530
Total Investments, at fair value			$ 860,519,110

(1) These investments that are measured at fair value using the NAV per share (or its equivalent practical expedient) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits.

E. DERIVATIVES

Derivative financial instruments are used to hedge the currency risk component of the Master Trust's foreign investments. Certain of the investment managers are permitted to use certain specified types of derivative instruments as part of their respective strategies. These strategies include the use of futures, forward agreements, and options. Use of derivatives instruments for purposes of speculation is prohibited. Currency hedge positions are not permitted to exceed the level of exposure in the Plan's related assets.

The Master Trust enters into forward contracts to purchase and sell foreign currencies in the normal course of its investing activities to manage the currency exposure associated with the Plan's foreign equity and fixed income investments. The terms of these contracts generally do not exceed one year. The credit risk associated with these contracts is minimal, as they are entered into with a limited number of highly rated counterparties.

The Plan reflects the fair value of all forward contracts as an asset or liability in the Plan's financial statements. The fair values associated with the foreign currency contracts have been estimated by valuing the net position of the contracts using the applicable spot rates and forward rates as of the reporting date. In the statements of net assets available for benefits, forward contracts to purchase foreign currency are shown as foreign currency contract payables, and forward contracts to sell foreign currency are shown as foreign currency contract receivables. Changes in fair value are accounted for as net appreciation (depreciation) in fair value of investments.

F. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan’s provisions to the service the employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based upon years of service and the benefit rate in effect under the Plan on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances (retirement, death, disability, or termination of employment) are included to the extent they are deemed attributable to employee service rendered through the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan’s consulting actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. It is at least reasonably possible that the actuarial assumptions used to calculate accumulated plan benefits will change in the near term and that the effect of such change could be significant.

The significant actuarial assumptions used in the most recent valuation dated December 31, 2014 were:

Interest rate:	7.35% per year
Mortality basis - healthy lives:	RP - 2014 blue collar adjusted table with a fully generational projection using Scale MP-2014 for healthy lives and the RP-2014 disabled retirement table with a fully generational projection using Scale MP-2014 for disabled lives
Normal retirement age:	Age 65

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The interest rate used to determine the actuarial present value of accumulated plan benefits was changed to 7.35% from 8.25%. The mortality rates used to determine the actuarial present value of accumulated plan benefits were changed to RP-2014 blue collar adjusted table with a fully generational projection using Scale MP-2014 for healthy lives and the RP-2014 disabled retirement table with a fully generational projection using Scale MP-2014 from RP-2014 PPA Annuitant and Non-Annuitant Mortality Tables. The effect of these changes was to increase the actuarial present value of accumulated plan benefits by $16,986,749.

G. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (“PBGC”) up to the applicable limitations discussed below.

3. All other vested benefits (vested benefits not insured by the PBGC).

4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor’s benefits. However, the PBGC does not guarantee all types of benefits of the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination. However, there is a statutory ceiling on the amount of an individual’s monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and on the level of benefits guaranteed by the PBGC.

H. INCOME TAX STATUS

For the years ending December 31, 2015 and 2014, the Plan obtained a determination letter dated August 31, 2015 and December 9, 2011, respectively, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since it was restated January 1, 2015, the plan administrator, the plan actuary and the plan's tax counsel believe the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

I. PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. During 2015 and 2014, the Plan incurred and accrued trustee and miscellaneous fees of $247,545 and $322,521, actuary fees of $18,619 and $43,829, and investment management fees of $443,282 and $456,001, respectively.

J. SUBSEQUENT EVENTS

Management has evaluated subsequent events through October 4, 2016, which is the date the financial statements were available to be issued, and have determined that there are no subsequent events that require disclosure under the Subsequent Events topic of the FASB ASC.

Normal Retirement

Eligibility

Age 65.

Benefit

A participant receives a monthly retirement allowance equal to years of benefit service multiplied by the applicable benefit level at the time of termination.

The benefit levels shown are for participants still accruing benefits.

Location	Effective Date	Benefit Level
Paperboard—West Monroe	09/01/2011	46.75
Paperboard—Macon	01/01/2010	48.00
Packaging—West Monroe	11/01/2008	27.50

If a participant works past normal retirement age or elects to defer commencement of their normal retirement benefit, the participant will receive the greater of the benefit based on all service or the actuarial equivalent of the benefit that would have been payable at normal retirement age. Actuarial equivalence is determined using the 1984 UP-Mortality table and a 5% interest rate.

Early Retirement

Eligibility

Age 55 and 10 years of accumulated service.

Benefit

A retirement allowance, computed in the same way as a normal retirement allowance on the basis of benefit service at his early retirement reduced by ⅓% for each month (4% per year) that payments commence prior to normal retirement date.

If a participant elects to defer commencement of their benefit past normal retirement age, the participant will receive the actuarial equivalent of the benefit that would have been payable at normal retirement age. Actuarial equivalence is determined using the 1984 UP-Mortality table and a 5% interest rate.

Special Early Retirement

Eligibility

For the Paperboard Division (West Monroe and Macon) and the West Monroe Carton Plan, age 62 and 20 years of accumulated service.

Actuarial equivalence is determined using the 1984 UP-Mortality table and a 5% interest rate.
Disability	
Eligibility	Age 40, 10 years of accumulated service, and approval for Total and Permanent Disability by the Retirement Committee. For the Paperboard and Packaging divisions, age 40 need not be attained. Effective December 31, 2012 non-grandfathered members and grandfathered members at the Paperboard Division and Carton Plant employees of the West Monroe, Louisiana who chose to “opt-out” are not eligible for a disability pension. Effective December 31, 2015 non-grandfathered members and grandfathered members of Macon USW 572, IBEW 1316, and IAM 1034 who chose to “opt-out” are not eligible for a disability pension.
Benefit	The disability retirement allowance commences immediately and is computed in the same way as the deferred early retirement pension without any reductions for early commencement. Once the normal retirement date is reached, the participant’s disability benefit will cease and the participant’s normal retirement benefit will start. At that time, the participant may elect any of the optional forms available to participants who retire.
Surviving Spouse	
Eligibility	Upon death before retirement but after completing five years of accumulated service, a spouse is entitled to a spouse's benefit.
Benefit	The spouse's benefit is computed as though the participant had retired on his date of death, had elected to receive his pension on the first day of the next calendar month (or age 55, if later) as a 50% joint and survivor annuity, and then died on the following day.

	For the Paperboard and Packaging divisions, if the participant dies prior to age 65 but after age 55 with at least 15 years of accumulated service, the spouse may elect the following benefit in lieu of the above benefit: 40% of the deferred early retirement pension without any reductions for early commencement payable from the later of the participant's death or the spouse's attainment of age 55 until the earlier of the spouse's death or remarriage.
Maximum Benefit	The maximum benefit attributable to company contributions is determined in accordance with Section 415(b) of the Internal Revenue Code.
Normal Form of Annuity	If the participant is married at the time of his retirement, the normal form of pension is a reduced 50% joint and survivor pension with the participant's spouse as beneficiary. If the participant is not married, the normal form of pension is a straight life annuity.
Cash Out of Small Benefits	If the equivalent actuarial value of the participant's benefit or a spouse's death benefit is $5,000 or less, a lump sum payment shall be made as soon as administratively possible.
Optional Benefits in Lieu of Regular Benefits	Prior to retirement, a participant may elect to have his pension adjusted to provide a reduced amount payable to him for his life with a provision that 75%, 66⅔%, 50%, 33⅓%, or 25% of such reduced pension will be continued after death during the life of a contingent annuitant. Other available options are straight life annuity, 5-years certain and life, and 10-year certain and life. Income leveling option: A participant may elect to receive a pension prior to his Social Security retirement age which is the actuarial equivalent of the pension otherwise payable to him, in such amounts that, with his Social Security benefit, he will receive approximately the same amount each year before and after Social Security benefits begin. A participant may elect a leveling age of either 62 or the participant's Social Security retirement age.

Optional Forms of Annuity (not available for Disability Retirement Allowance)

For joint and survivor option, the member's reduced pension amount is determined by multiplying the life annuity amount by the factor, but not greater than 1.000, under the following formula:

A minus BX minus CY, where X is the member's age minus 55, Y is the member's age minus the age of the member's beneficiary. A, B, and C applicable to each option are as follows:

Optional Form	A	B	C
75% Joint and Survivor	0.882	0.005	0.007
66⅔% Joint and Survivor	0.893	0.004	0.007
50% Joint and Survivor	0.918	0.003	0.005
33⅓% Joint and Survivor	0.944	0.003	0.004
25% Joint and Survivor	0.957	0.002	0.003

For the period certain option, the member's reduced pension amount is determined by multiplying the life annuity amount by the factor, but not greater than 1.000, under the following formula:

A minus BX, where X is the member's age minus 55. A and B applicable to each option are as follows:

Optional Form	A	B
5 Year Certain and Life	0.992	0.002
10 Year Certain and Life	0.968	0.006

For the purpose of calculating lump sum payments and level income option:

Interest rate: Section 417(e)(3)(C) of the Code for the fifth calendar month preceding the applicable plan year in which occurs the annuity starting date for the distribution.

Mortality: Section 417(e)(3)(B) of the Code as in effect on the first day of the plan year in which occurs the annuity starting date for the distribution.

Optional Form for Disability Retirement

A married member may elect a life only option or a 50% qualified joint and survivor annuity. The benefit payable under the 50% qualified joint and survivor annuity is determined by multiplying the benefit by 0.735 minus 0.007X minus 0.004Y, but not greater than 1.000, where X is the member's age minus 55, and Y is the member's age minus the age of the member's spouse. Once a participant receiving a disability retirement allowance reaches their normal retirement date, the participant will commence a normal retirement allowance and may reelect the optional form of payment, choosing any of the options available for normal retirements.

Surviving Spouse	
Eligibility	Upon death before retirement but after completing five years of accumulated service, a spouse is entitled to a spouse's benefit.
Benefit	The spouse's benefit is computed as though the participant had retired on his date of death, had elected to receive his pension on the first day of the next calendar month (or age 55, if later) as a 50% joint and survivor annuity, and then died on the following day.

	For the Paperboard and Packaging divisions, if the participant dies prior to age 65 but after age 55 with at least 15 years of accumulated service, the spouse may elect the following benefit in lieu of the above benefit: 40% of the deferred early retirement pension without any reductions for early commencement payable from the later of the participant's death or the spouse's attainment of age 55 until the earlier of the spouse's death or remarriage.
Maximum Benefit	The maximum benefit attributable to company contributions is determined in accordance with Section 415(b) of the Internal Revenue Code.
Normal Form of Annuity	If the participant is married at the time of his retirement, the normal form of pension is a reduced 50% joint and survivor pension with the participant's spouse as beneficiary. If the participant is not married, the normal form of pension is a straight life annuity.
Cash Out of Small Benefits	If the equivalent actuarial value of the participant's benefit or a spouse's death benefit is $5,000 or less, a lump sum payment shall be made as soon as administratively possible.
Optional Benefits in Lieu of Regular Benefits	Prior to retirement, a participant may elect to have his pension adjusted to provide a reduced amount payable to him for his life with a provision that 75%, 66⅔%, 50%, 33⅓%, or 25% of such reduced pension will be continued after death during the life of a contingent annuitant. Other available options are straight life annuity, 5-years certain and life, and 10-year certain and life. Income leveling option: A participant may elect to receive a pension prior to his Social Security retirement age which is the actuarial equivalent of the pension otherwise payable to him, in such amounts that, with his Social Security benefit, he will receive approximately the same amount each year before and after Social Security benefits begin. A participant may elect a leveling age of either 62 or the participant's Social Security retirement age.

Optional Forms of Annuity (not available for Disability Retirement Allowance)

For joint and survivor option, the member's reduced pension amount is determined by multiplying the life annuity amount by the factor, but not greater than 1.000, under the following formula:

A minus BX minus CY, where X is the member's age minus 55, Y is the member's age minus the age of the member's beneficiary. A, B, and C applicable to each option are as follows:

Optional Form	A	B	C
75% Joint and Survivor	0.882	0.005	0.007
66⅔% Joint and Survivor	0.893	0.004	0.007
50% Joint and Survivor	0.918	0.003	0.005
33⅓% Joint and Survivor	0.944	0.003	0.004
25% Joint and Survivor	0.957	0.002	0.003

For the period certain option, the member's reduced pension amount is determined by multiplying the life annuity amount by the factor, but not greater than 1.000, under the following formula:

A minus BX, where X is the member's age minus 55. A and B applicable to each option are as follows:

Optional Form	A	B
5 Year Certain and Life	0.992	0.002
10 Year Certain and Life	0.968	0.006

For the purpose of calculating lump sum payments and level income option:

Interest rate: Section 417(e)(3)(C) of the Code for the fifth calendar month preceding the applicable plan year in which occurs the annuity starting date for the distribution.

Mortality: Section 417(e)(3)(B) of the Code as in effect on the first day of the plan year in which occurs the annuity starting date for the distribution.

Optional Form for Disability Retirement

A married member may elect a life only option or a 50% qualified joint and survivor annuity. The benefit payable under the 50% qualified joint and survivor annuity is determined by multiplying the benefit by 0.735 minus 0.007X minus 0.004Y, but not greater than 1.000, where X is the member's age minus 55, and Y is the member's age minus the age of the member's spouse. Once a participant receiving a disability retirement allowance reaches their normal retirement date, the participant will commence a normal retirement allowance and may reelect the optional form of payment, choosing any of the options available for normal retirements.
