Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Mid-America Packaging Retirement Plan (the "Plan") which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of December 31, 2014, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by The Bank of New York Mellon/BNY Mellon, N.A. the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2015 and 2014 that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Mid-America Packaging Retirement Plan

Notes to Financial Statements

A. PLAN DESCRIPTION

The following description of the Mid-America Packaging Retirement Plan (the "Plan") is provided for general informational purposes only. Participants should refer to the Plan document for more information.

General. The Plan is a noncontributory defined benefit plan established January 10, 2003. The Plan covers eligible employees who were formerly employed by Mid-America Packaging, LLC who have 1 year of service and are 21 years of age. In January 2012, Mid-America Packaging, LLC was acquired by Graphic Packaging Holding Company. Effective January 15, 2012, Graphic Packaging International, Inc. (the "Company") became the Plan's sponsor. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Funding Policy. The Company's funding policy is to make contributions to the Plan in amounts sufficient to provide for the participant's benefits and to satisfy the minimum funding standards of ERISA. The Plan has met the minimum funding requirements of ERISA for the years ended December 31, 2015 and 2014.

Pension Benefits. Participants are generally entitled to normal retirement benefits beginning at the age of 65 (normal retirement age). The Plan permits early retirement benefits for qualified participants who are age 55 and completed 20 years of service. In most instances, normal retirement benefits are based upon the participant's years of benefit service multiplied by the participant's applicable benefit factor. Early retirement benefits are based upon the participant's earned benefit reduced by .25% for each month prior to normal retirement age. The benefit is not reduced if the participant has attained age 62 and 25 years of service. Effective February 29, 2012, the accrued benefit and benefit service was frozen for non-union hourly employees at the Twinsburg, OH, facility with no future increase.

Effective March 31, 2014, Pine Bluff Bag Plant benefit accrual was frozen for non-grandfathered participants. Opt Out Election was provided to grandfathered participants via one-time irrevocable election on or before April 30, 2014.

Participants may elect to receive their benefits in various payment forms such as a single life annuity or other optional forms of payment available under the Plan.

Effective January 1, 2015, the Plan was amended and restated. This restatement incorporates all amendments since the previous restatement, updates the Plan's definition of "Spouse" to comply with guidance from the Internal Revenue Service ("IRS"), and updates the Plan's provisions related to funding-based benefit restrictions under the Internal Revenue Code ("IRC").

Effective November 1, 2015 and 2014, a Special Commencement Right was implemented to allow for a lump sum window election for certain terminated vested participants.

Death and Disability Benefits. If an active participant dies after becoming eligible for a benefit under the Plan but before commencing payment, their surviving spouse is entitled to a benefit equal to the amount the participant would have received if they had retired on the first day of the month following death and elected the 50% Joint and Survivor form of payment. If an active participant becomes disabled and has ten years of service, the participant is entitled to receive benefits under the Plan equal to the participant's vested benefit.

Mid-America Packaging Retirement Plan

Notes to Financial Statements (Continued)

Vesting. An employee must complete five years of service to become eligible to receive a benefit under the Plan. If an employee does not complete five years of service, they forfeit the right to receive benefits under the Plan. See Note G.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting. The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment Valuation and Income Recognition. Investments in the Graphic Packaging International, Inc. Master Trust ("the Master Trust") are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in its statements of changes in net assets available for benefits an allocation of the Master Trust's net income which consists of realized gains or losses, unrealized appreciation or depreciation on investments and interest and dividend income.

Management fees and operating expenses charged to the Master Trust for investments in mutual funds and common/collective trusts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Valuation of Financial Instruments. The carrying values of the Plan's receivables and payables approximate fair value.

Use of Estimates. The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Risks and Uncertainties. The Plan invests in a Master Trust, which invests in a combination of stocks, bonds, mutual funds, common/collective trusts, foreign currency options and contracts and other investment securities. The underlying investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to the changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in these financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Payments of Benefits. Benefits are recorded when paid.

Administrative Expenses. Generally, the Plan pays for expenses incurred for Plan administration. Certain other costs of the Plan have been paid by the Company.

Adoption of Accounting Pronouncements. In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, *Disclosures for Investments that Calculate Net Asset Value per Share (or Its Equivalent)*. ASU 2015-07 eliminates the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value ("NAV") practical expedient in Accounting Standards Codification ("ASC") 820, *Fair Value Measurements* ("ASC 820"). The guidance is effective for fiscal years beginning after December 15, 2015. The Plan has elected to early adopt ASU 2015-07 effective with the December 31, 2015 financial statements, with retrospective application to all periods presented. The adoption had no effect on the Plan's net assets available for benefits or changes therein.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefits Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirement to disclosure individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan assets. Part III allows a plan with a fiscal year end that doesn't coincide with the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. The guidance is effective for fiscal years beginning after December 15, 2015. The Plan has elected to early adopt Part II effective with the December 31, 2015 financial statements, with retrospective application to all periods presented. Parts I and III are not applicable to the Plan. The adoption had no effect on the Plan's net assets available for benefits or changes therein.

C. INTEREST IN MASTER TRUST AND INVESTMENTS (UNAUDITED INFORMATION)

The Plan's investments are in the Master Trust. The Master Trust was established for the investment of assets of the Plan and certain assets of other retirement plans sponsored by the Company. Each participating retirement plan has an undivided interest in the Master Trust. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based on 1) whether it is related to a specific plan (100 percent allocation to that plan), or 2) the Plan's proportionate share of the income or expense which is attributable to the Master Trust.

The Bank of New York Mellon/BNY Mellon, N.A. (the "Trustee"), the Trustee of the Plan, holds investment assets and executes transactions therein, and substantially all information pertaining to investments included in the financial statements, have been certified by them. Therefore, in accordance with the request of the Company and as allowed under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, this information was not subjected to auditing procedures generally accepted in the United States of America by the Plan's independent public accountants.

D. FAIR VALUE MEASUREMENTS

ASC 820 provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in methodologies used at December 31, 2015 and 2014.

Common/collective trusts (the "CCTs"): The Master Trust's interest in the CCTs are valued at the NAV of shares held by the Plan at year end. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the CCTs, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. As of December 31, 2015 and 2014, there were no unfunded commitments or redemption restrictions on the Plan's investment in the CCTs.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Mid-America Packaging Retirement Plan

Notes to Financial Statements (Continued)

Common and preferred stocks: Valued at the closing price reported on the active market on which the individual securities are traded on a daily basis.

103-12 investment entity (the "LLC"): The Master Trust's interest in the LLC is stated at fair value. The value is determined by the NAV, based on the underlying investments, on the valuation date. As of December 31, 2015 and 2014, there were no unfunded commitments or redemption restrictions on the Plan's investment in the LLC.

Foreign currency options: Valued using pricing models based on the prevailing forward exchange rate of the underlying currencies taking into account the counterparties' creditworthiness.

Cash and cash equivalents – foreign currency: Valued at cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2015 and 2014. There were no level 3 investments as of December 31, 2015 and 2014.

- (1) These investments that are measured at fair value using the NAV per share (or its equivalent practical expedient) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits.

E. DERIVATIVES

Derivative financial instruments are used to hedge the currency risk component of the Master Trust's foreign investments. Certain of the investment managers are permitted to use certain specified types of derivative instruments as part of their respective strategies. These strategies include the use of futures, forward agreements, and options. Use of derivatives instruments for purposes of speculation is prohibited. Currency hedge positions are not permitted to exceed the level of exposure in the Plan's related assets.

The Master Trust enters into forward contracts to purchase and sell foreign currencies in the normal course of its investing activities to manage the currency exposure associated with the Plan's foreign equity and fixed income investments. The terms of these contracts generally do not exceed one year. The credit risk associated with these contracts is minimal, as they are entered into with a limited number of highly rated counterparties.

The Plan reflects the fair value of all forward contracts as an asset or liability in the Plan's financial statements. The fair values associated with the foreign currency contracts have been estimated by valuing the net position of the contracts using the applicable spot rates and forward rates as of the reporting date. In the statements of net assets available for benefits, forward contracts to purchase foreign currency are shown as foreign currency contract payables, and forward contracts to sell foreign currency are shown as foreign currency contract receivables. Changes in fair value are accounted for as net appreciation (depreciation) in fair value of investments.

F. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service the employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based upon the participant's years of service multiplied by the participant's benefit level, as defined by the Plan, on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances (retirement, death, disability, or termination of employment) are included to the extent they are deemed attributable to employee service rendered through the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's consulting actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. It is at least reasonably possible that the actuarial assumptions used to calculate accumulated plan benefits will change in the near term and that the effect of such change could be significant.

The significant actuarial assumptions used in the most recent valuation dated December 31, 2014 were:

Interest rate:	7.35% per year
Mortality basis - healthy lives:	RP - 2014 blue collar adjusted table with a fully generational projection using Scale MP-2014 for healthy lives and the RP-2014 disabled retirement table with a fully generational projection using Scale MP-2014 for disabled lives
Normal retirement age:	Age 65

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The interest rate used to determine the actuarial present value of accumulated plan benefits was changed to 7.35% from 8.25%. The mortality rates used to determine the actuarial present value of accumulated plan benefits were changed to RP-2014 blue collar adjusted table with a fully generational projection using Scale MP-2014 for healthy lives and the RP-2014 disabled retirement table with a fully generational projection using Scale MP-2014 from RP-2014 PPA Annuitant and Non-Annuitant Mortality Tables. The effect of these changes was to increase the actuarial present value of accumulated plan benefits by \$428,814.

G. PARTIAL PLAN TERMINATION

Effective June 30, 2014, the Company completed the sale of their multi-wall bag business to Mondi Group. The divested assets included 9 converting plants located throughout the United States and the Pine Bluff, Arkansas kraft paper mill. As a result, the affected participants became fully vested in their accrued benefits.

Mid-America Packaging Retirement Plan

Notes to Financial Statements (Continued)

H. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") up to the applicable limitations discussed below.
3. All other vested benefits (vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits of the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and on the level of benefits guaranteed by the PBGC.

I. INCOME TAX STATUS

For the years ending December 31, 2015 and 2014, the Plan obtained a determination letter dated August 31, 2015 and March 24, 2008, respectively, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since it was restated January 1, 2015, the plan administrator, the plan actuary and the plan's tax counsel believe the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

J. PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. During 2015 and 2014, the Plan incurred and accrued trustee and miscellaneous fees of \$11,823 and \$37,349, actuary fees of \$985 and \$10,034, and investment management fees of \$7,700 and \$22,293, respectively.

Mid-America Packaging Retirement Plan

Notes to Financial Statements (Continued)

K. BENEFITS PAYABLE

During 2015, the Company determined that benefit payments to certain participants were overstated due to incorrect early retirement factors. These overpayments ranged from \$9.59 to \$2,575 per participant. The Company filed a submission under the Voluntary Correction Program ("VCP") and as a result amended the early retirement factors for the Plan.

In 2016, the Company determined that certain participants who transferred employment to Mid-America from Gaylord Container Corporation had not received credit for prior years of vesting service. The Company filed a supplement to the open VCP and proposed an amendment to the Plan. After adjusting the vesting service, additional benefits of \$175,715 were distributed to participants underpaid due to incorrect years of service.

L. SUBSEQUENT EVENTS

Management has evaluated subsequent events through October 4, 2016 which is the date the financial statements were available to be issued, and have determined that there are no subsequent events that require disclosure under the Subsequent Events topic of the FASB ASC.
