Note 1 DESCRIPTION OF PLAN

The following description of the GMI 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions. The Plan is a defined contribution plan established by Greater Metroplex Interiors, Inc. (the Company). The Plan qualifies as a profit-sharing plan under the Internal Revenue Code (Code) Section 401(a) and as a cash-or-deferred arrangement under Code Section 401(k).

The Plan is a defined contribution plan that covers all eligible employees of the Company (those who have completed one month of service with the Company). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan entry dates are the first day of each month. Employees may enter the Plan on those dates after they are eligible.

Employee contributions

Participants are permitted to contribute, up to the limits of the Code, to the Plan on a tax-deferred basis. Transfers (rollovers) from qualified plans are allowed under the provisions of the Plan. Voluntary after-tax contributions are not allowed.

Employer contributions

The Company makes matching contributions based on each participant's contributions for the year. The matching rate is 100% of employee's matching contributions up to 3% of salary plus an additional 50% of the next 2% of eligible employee contributions. All 2015 employer contributions were safe harbor matching contributions. The Company may make discretionary contributions to the Plan in any year.

The Company did not make any discretionary contributions in the current year.

Administrative expenses

The Company pays most of the Plan's administrative expenses.

Participant accounts

Each participant's account is credited with the participant's contribution, the Company's matching contribution, an allocation of other employer contributions, if any, and an allocation of Plan earnings. Allocations of Plan investment earnings or losses are based on participants' account balances invested in each fund.

Note 1 **DESCRIPTION OF PLAN** – (continued)

Vesting

Participants are fully vested in their deferral, rollover, and safe harbor matching accounts. Other employer contributions are 20% vested after one year of service with the Company. That increases 20% per year, until they are fully vested after five years' service. Employees' balances become fully vested in employer contributions upon death, reaching normal retirement age (age 65 with 5 years participation in the Plan) while employed, or upon disability resulting in retirement.

Notes receivable from participants

Participants may receive a loan from their participant accounts. The minimum amount of a loan is $1,000; the maximum amount is the lesser of: (1) $50,000 or (2) 50% of their vested account balance. These loans generally range up to five years in length. Participant loans are secured by the participants' vested balance in the plan. As of December 31, 2015, these loans bore interest at 4.25%, were payable in semi-monthly payments, and matured at various dates through June 2020.

Payment of benefits

Participants (or their beneficiaries) are eligible to receive benefits upon termination of service, attainment of age 59 ½, financial hardship, or death. Vested balances under $1,000 are to be paid as soon as administratively feasible following termination of employment. Balances over that amount are made at the participant's election. Benefits are paid as lump-sum distributions.

Forfeitures

Forfeitures may be used to reduce future employer contributions. There were no forfeitures in 2015.

Note 2 **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Note 2 **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** – (continued)

Investment valuation and income recognition

All investments are participant-directed, and are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded when earned. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Participant loans are measured at their unpaid principal balance plus accrued interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document. Interest income from participant loans is recognized when it is earned.

Payment of benefits

Benefits are recorded when paid.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of Plan assets and liabilities and changes therein, and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Note 3 **TAX STATUS**

The Plan adopted the MBM Advisors, Inc. Defined Contribution Plan & Trust Basic Plan Document #01 (the Prototype Plan). The Prototype Plan obtained its latest opinion letter on March 31, 2008, in which the Internal Revenue Service stated the Prototype Plan was in compliance with the applicable requirements of the Code. The plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, no provisions for income taxes are included in the accompanying financial statements.

Note 3 **TAX STATUS** – (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that is more likely than not to be sustained upon examination by the U.S. Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the plan is no longer subject to income tax examinations for years prior to 2012.

Note 4 **PLAN TERMINATION**

Although it has not expressed any intent to do so, the Plan's sponsor has the right to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a plan termination, participants will become fully vested in their accounts.

Note 5 **INFORMATION PREPARED AND CERTIFIED BY JOHN HANCOCK LIFE INSURANCE COMPANY (U.S.A.)**

Note 6 **FAIR VALUE MEASUREMENTS**

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2

Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets in inactive markets, inputs other than quoted prices that are observable for the asset or liability, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Pooled separate accounts (PSAs) are not publicly traded, but are invested in assets whose values are publicly quoted. PSAs are carried at the net asset value (NAV) of the PSA; this value is driven by the quoted market prices of the underlying investments. If the PSA investment can be redeemed at NAV at the balance sheet date, the investment is characterized as a Level 2 fair value measurement. Otherwise, the investment is characterized as a Level 3 fair value measurement.

Note 6 **FAIR VALUE MEASUREMENTS** – (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

All investments are valued using level 2 fair value measurements. Note 5 sets forth the plan's assets at fair value as of December 31, 2015 and 2014.

Note 7 **REPORTABLE TRANSACTIONS**

There were no reportable transactions in 2015.

Note 8 **RISKS AND UNCERTAINTIES**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9 **SUBSEQUENT EVENTS**

The Plan has evaluated subsequent events through October 04, 2016, the date which the financial statements were available to be issued.
