General

The Plan was established on August 29, 1980. The Plan was subsequently amended and restated as of January 1, 2008. Effective December 31, 2010, the Plan was amended to be qualified only under the Puerto Rico Internal Revenue Code of 1994, as amended (the “PR Code”). Effective as of the close of business on December 31, 2012, the Plan was frozen with respect to both benefit accruals and new participation.

The Plan is a qualified, non-contributory defined benefit plan subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”), the PR Code, and effective January 1, 2011, the Plan is intended to be qualified under the Puerto Rico Internal Revenue Code of 2011, as amended (the “2011 PR Code”). Until December 31, 2010, the Plan was also subject to the provisions of the U.S. Internal Revenue Code of 1986, as amended (the “US Code”).

On November 30, 2010, FCFI Acquisition LLC indirectly acquired an 80% economic interest in the Springleaf Finance, Inc. (“Springleaf”) from AIG Capital Corporation (“ACC”), a direct wholly-owned subsidiary of American International Group, Inc. (“AIG”), through ACC, indirectly retained a 20% economic interest in Springleaf. The Plan sponsor, CommoLoCo, Inc. (“The Company”), is an indirect wholly owned subsidiary of Springleaf. As a result, a separate trust was established with Banco Popular as the Trustee and at State Street Bank and Trust Company (“SSB”) was established as Custodian.

The Plan Administrator is Springleaf Finance Retirement Plans Committee. All salaried employees of the Company who are residents of Puerto Rico and have attained age 21 and completed twelve months of continuous service are eligible to participate in the Plan.

Plan Benefits

Employees with five or more years of service are entitled to a monthly life annuity beginning at normal retirement (age 65) equal to 1.00% of their Average Monthly Compensation up to the Average Monthly Covered Compensation multiplied by the years of Benefit Service not in excess of 30 years, plus 1.65% of Average Monthly Compensation in excess of Average Monthly Covered Compensation multiplied by the years of Benefit Service up to 30 years, plus 0.50% of Average Monthly Compensation not in excess of Average Monthly Covered Compensation multiplied by the years of Benefit Service in excess of 30 years but not in excess of 40 years, plus 0.50% of Average Monthly Compensation in excess of Average Monthly Covered Compensation multiplied by the years of Benefit Service in excess of 30 years, but limited to 40 years.

CommoLoCo Retirement Plan

Notes to Financial Statements

December 31, 2013 and 2012

The frozen past service benefit accrued through October 31, 2001 is equal to 1.25% of the employee's Final Average Salary multiplied by Benefit Service (up to 20 years), plus 0.75% of his/her Final Average Salary multiplied by a benefit service in excess of 20 years but limited to 40 years. Final Average Salary is determined by using the highest 5 consecutive years of salary over the last 10 years of service.

The employee may elect to receive pension benefits in the form of a 50%, 75%, or 100% Joint and Survivor Annuity, Single Life Annuity, or Life and 10-Year Certain Option.

If employees terminate with less than five years of continuous service, they forfeit the right to receive their portion of accumulated benefits.

Generally, employees with ten or more years of benefit services may retire early between age 55 and their 65th birthday, with an early retirement factor applied to the basic benefit. Other rules may apply to the frozen past service plan benefits.

For both Plan years presented, the Internal Revenue Service ("IRS") maximum benefit limitation was \$195,000 and the maximum compensation limitation was \$245,000. Other limits under the PR Code and the 2012 PR Code may also apply. Effective January 1, 2013, Average Monthly Compensation is frozen. No compensation paid by the Company on and after January 1, 2013 will be recognized for any purpose under the Plan.

Death and Disability Benefits

If the death of the employee who has been married at least twelve months and has completed five years of vesting service before the employee reaches his/her early retirement date, the death benefit is paid to the surviving spouse in the form of a monthly pension until the death of the spouse. The benefit is 50% of the benefit that would have been payable at the participant's earliest retirement date on a 50% joint and survivor annuity basis (as if the employee had terminated employment on the earlier of the date of death or the actual date of termination). Monthly payments will begin on the participant's earliest retirement date and will continue for the life of the spouse. If the employee dies after reaching the employee's early or normal retirement date, the death benefit paid to the surviving spouse is a 50% joint and survivor annuity from the date of death.

There are no specific benefits for disability.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires Plan management to make significant estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosures of assets and liabilities, and the actuarial present value of

CommoLoCo Retirement Plan

Notes to Financial Statements

December 31, 2013 and 2012

accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Shares of mutual funds are valued at the net asset value ("NAV") of the shares held by the Plan at year end. The NAV per share is calculated daily by each fund based on the market value of the underlying securities within each fund.

The Plan's short-term investments are stated at amortized cost which approximates fair value.

The net appreciation or depreciation in fair value of investments, including realized gains or losses and net change in unrealized gains or losses, is reflected in the Statement of Changes in Net Assets Available for Benefits. Realized gains or losses on the disposal of investments are determined by specific identification and recognized on the trade date basis. Interest income is recorded on the accrual basis. Dividend income is recognized on the ex-dividend date. Purchases and sales are recorded on a trade date basis.

Benefit Payments

Benefits paid directly to Plan participants are recorded upon distribution.

3. Certified Investment Information

Mutual funds	<u>\$ (580,739)</u>	<u>\$ 1,084,753</u>

5. Fair Value Measurements

The Plan carries its assets at fair value which for disclosure purposes are measured and classified in a hierarchy that prioritizes inputs used in valuation techniques based on whether those inputs are observable or unobservable. Observable inputs, which reflect market data obtained from independent sources, and unobservable inputs, which reflect the Plan's market assumptions, create the following fair value hierarchy:

The Plan measures and classifies instruments in the financial statements in a hierarchy for disclosure purposes consisting of three "Levels" based on the observability of inputs available in the market place used to measure the fair values. In general, the Plan determines the fair value measurements classified as Level 1 based on inputs utilizing quoted prices in active markets for identical instruments that the Plan has the ability to access. The Plan generally obtains market price data from exchange or dealer markets. The Plan does not adjust the quoted price for such instruments.

The Plan determines the fair value measurements as Level 2 based on inputs utilizing other than quoted prices included in Level 1 that are observable for the instruments, either directly or indirectly. Level 2 inputs include quoted prices for similar instruments in active markets, and inputs other than quoted prices that are observable for the instrument, such as interest rates and yield curves that are observable at commonly quoted intervals.

CommoLoCo Retirement Plan

Notes to Financial Statements

December 31, 2013 and 2012

Level 3 inputs are unobservable inputs for the instrument, and include situations where there is little, if any, market activity for the instrument.

This hierarchy requires the Plan to use observable market data, when available, and to minimize the use of unobservable inputs when determining fair value. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Following are descriptions of the valuation methodologies used for instruments carried at fair value in the Plan; the methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other entities within the industry, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Short-Term Investments

The short-term investments consist of government short-term investment funds ("STIF"). The Plan's investment portfolio includes short-term investments, which are non-registered funds and valued at Level 2 at December 31, 2013 and December 31, 2012.

Mutual Funds

The fair value of mutual funds is valued at the NAV of shares held by the Plan at the Statements of Net Assets Available for Benefits date. The NAV per share is calculated daily by each fund based on the market value of the underlying securities within each fund. The Plan's investment portfolio includes mutual funds valued at Level 1 at December 31, 2013 and December 31, 2012.

Notes to Financial Statements

Assets and Liabilities Measured at Fair Value

The following tables present information about assets held by the Plan measured at fair value and indicate the level of the fair value measurement based on the level of the inputs used at December 31, 2013 and 2012.

Assets	2013		
	Level 1	Level 2	Level 3
Short-term Investments	\$ -	\$ 55,156	\$ -
Mutual Funds			
Fixed Income Funds	9,413,695		
Equity Funds	1,731,696		
International Equity Funds	1,015,170		
	<u>\$ 12,160,561</u>	<u>\$ 55,156</u>	<u>\$ -</u>

Assets	2012		
	Level 1	Level 2	Level 3
Short-term Investments	\$ -	\$ 1,017	\$ -
Mutual Funds			
Fixed Income Funds	10,313,308		
Equity Funds	1,868,316		
International Equity Funds	1,116,656		
	<u>\$ 13,298,280</u>	<u>\$ 1,017</u>	<u>\$ -</u>

There were no transfers of financial instruments between Level 1, Level 2, or Level 3 during the years ended December 31, 2013 and 2012.

In certain cases, the inputs used to measure the fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement. Plan management's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment. In making the assessment, Plan management considers factors specific to the asset or liability.

6. Tax Status

The Plan received a favorable determination letter dated March 14, 2008 from the IRS stating that the Plan continues to qualify under the appropriate sections of the US Code and, therefore, the related trust is exempt from U.S. taxation. The Plan has been restated and amended since receiving the determination letter from the IRS. However, the Plan Administrator believes the Plan was designed and operated in material compliance with ERISA and the US Code until December 31, 2010, when the Plan was amended to be qualified only under the PR Code and funded through a trust with a situs in Puerto Rico. The Plan Administrator believes the Plan is currently designed and operated in material compliance with ERISA and the PR Code, and therefore, believes that the Plan is qualified and the related trust is exempt in Puerto Rico and pursuant to ERISA Section 1022(i), exempt in the U.S.

The Plan, as amended and restated effective November 1, 2001, received a favorable determination letter dated December 31, 2006 from the Puerto Rico Treasury Department ("PR Treasury") stating

CommoLoCo Retirement Plan

Notes to Financial Statements

December 31, 2013 and 2012

that the Plan meets the requirements of Section 1165(a) of the PR Code, and that the trust established thereunder is exempt from Puerto Rico income taxes. In addition, the Plan received a further favorable determination letter dated April 25, 2007 from the PR Treasury stating that the adoption of the First, Second, Third, Fourth and Fifth Amendments of the Plan, as amended and restated effective November 1, 2001, does not affect in any way the determination letter issued on December 13, 2006, regarding the Puerto Rico tax qualified status of the Plan under Section 1165(a) of the PR Code. Although, the Plan has been restated and amended since receiving the determination letter from the PR Treasury, the Plan Administrator believes the Plan has been designed and operated in material compliance with ERISA and the PR Code, and therefore, the Plan is intended to be qualified and the related trust to be exempt in Puerto Rico and, pursuant to ERISA, exempt in the U.S.

Pursuant to PR Treasury's Circular Letter No. 11-10 of December 16, 2011 ("PR Treasury's Circular Letter"), the Plan shall be treated as having obtained an initial favorable determination letter regarding its qualification under Section 1081.01(a) of the 2011 PR Code. The Plan Administrator intends to amend the Plan to incorporate the new qualification requirements under Section 1081.01(a) of the 2011 PR Code effective as of January 1, 2011, unless otherwise provided by the 2011 PR Code. The Plan administrator intends to request a new or updated favorable determination stating that the Plan is qualified retroactively under Section 1165(a) of the PR Code for Plan years 2008 through 2010, both inclusive, and under Section 1081.01(a) of the 2011 PR Code for Plan years 2011 and thereafter, in conformity with the process and the timetable established by PR Treasury's Circular Letter.

U.S. GAAP require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) recognized if Plan management deems it more-likely-than-not that the Plan has taken an uncertain position that would not be sustained upon examination by the respected governmental agencies. As of December 31, 2013, it was determined that there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the respective governmental agencies however, there are currently no audits in progress for any tax periods. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

7. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions for the services employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Plan contributions and the actuarial present value of accumulated plan benefits are prepared on the basis of certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

The actuarial present value of accumulated plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

CommoLoCo Retirement Plan

Notes to Financial Statements

December 31, 2013 and 2012

The significant actuarial assumptions used in the valuation for the years beginning January 1, 2013 and 2012 for the Plan are as follows:

Mortality	2013 Plan Year: 2012 Pension Protection Act ("PPA") separate static annuitant and nonannuitant mortality tables.
	2012 Plan Year: 2012 Pension Protection Act ("PPA") separate static annuitant and nonannuitant mortality tables.
Investment return	5.50% per annum for 2013
	7.00% per annum for 2012.
Retirement age	Based on retirement probability for various age ranges from ages 55 through 65.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. It is the Plan's policy to have actuarial information prepared as of the beginning of the Plan year.

The actuarial present value of accumulated plan benefits for the Plan was computed at January 1, 2013 as follows:

	<u>January 1, 2013</u>
Vested benefits	
Participants currently receiving payments	\$ 8,812,061
Other participants	<u>5,219,772</u>
Total vested benefits	14,031,833
Nonvested benefits	195,974
Total actuarial present value of accumulated plan benefits	<u><u>\$ 14,227,807</u></u>

CommoLoCo Retirement Plan
Notes to Financial Statements
December 31, 2013 and 2012

The change in the present value of accumulated plan benefits for the year ended January 1, 2013 was as follows:

	January 1, 2012 to January 1, 2013
Actuarial present value of accumulated plan benefits at January 1, 2012	\$ 11,943,325
Increase (decrease) during year attributable to:	
Benefits accumulated	(31,603)
Increase for interest due to decrease in discount period	808,235
Benefits paid	(807,898)
Changes in actuarial assumptions	2,315,748
Net increase	<u>2,284,482</u>
Actuarial present value of accumulated plan benefits at January 1, 2013	<u>\$ 14,227,807</u>

8. Funding Policy

The Plan is subject to ERISA's minimum funding requirements. These requirements have been met as of December 31, 2013. The Plan's actuary determined the contribution necessary to meet the minimum funding requirements in accordance with the PPA, enacted in 2006. The PPA defines the minimum funding contribution calculation as the sum of the target normal cost of the Plan for the Plan year, the shortfall amortization charge, and the waiver amortization charge. The Company's funding policy is to contribute no less than the minimum required amount and no more than the maximum tax-deductible amount. Contributions above the minimum required amount are at the discretion of the Company. In addition, the Company reserves the right to use available funding credit balances in lieu of cash contributions. During the year ended December 31, 2012 Springleaf contributed \$258,050 to the Plan. No contributions were paid in 2013.

The yield (interest, dividends and net realized and unrealized gains or losses) on investments of the Plan served to reduce (increase) future contributions that would otherwise be required to provide for the level of defined benefits under the Plan.

9. Plan Termination

Although it has not expressed any intention to do so, the Company reserves the right under the Plan to terminate the Plan subject to the provisions set forth under ERISA.

In the event the Plan is terminated pursuant to a standard termination and no successor plan is established, the net assets of the Plan will be allocated among the participants and beneficiaries of the Plan in the order provided for under ERISA. In distributing such assets, the Plan Administrator will either (i) purchase irrevocable commitments from an insurer to provide all benefit liabilities under the Plan or (ii) in accordance with provisions of the Plan and any applicable regulations otherwise fully

CommoLoCo Retirement Plan

Notes to Financial Statements

December 31, 2013 and 2012

provide benefit liabilities under the Plan (generally, this could include providing an election to receive a lump sum, or an annuity).

To the extent unfunded vested benefits remain, the Pension Benefit Guaranty Corporation ("PBGC") will take over the Plan and pay certain benefits under the Plan to participants, up to specified limitations, as described under ERISA. For the 2013 Plan year, the maximum guaranteed monthly and annual benefits are \$4,800 and \$57,500, respectively. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees as described above.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

Other rules under the PR Code and the 2012 Code may also apply.

10. Administrative Expenses

Administrative expenses were paid by the Plan for the 2013 and 2012 Plan years.

11. Related Party Transactions

Banco Popular is the Trustee, and State Street Bank is the Custodian, as defined by the Plan. Fees paid to these parties and investments in the custodian qualify as party-in-interest transactions.

12. Risks and Uncertainties

The Plan includes investment securities that are exposed to various risks, such as interest rate fluctuations, market volatility and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that such changes in risk in the near term could materially affect the amounts reported on the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits. The Plan's exposure to a concentration of credit risk is limited by the diversification of investments held by the Plan.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, as well as market performance, it is at least reasonably possible that changes in these factors in the near term could be material to the financial statements. Contribution decisions are also affected by other factors including Springleaf's liquidity, asset dispositions and Plan management's discretion.

Forms of Payment

The normal form of payment is a life annuity if single, or an actuarially equivalent 50% joint and survivor annuity if married. In lieu of the normal form, participants may elect to receive their benefit as a 50%, 75%, or 100% joint and survivor annuity, or a 10-year certain and life annuity. The October 31, 2001 accrued benefit is payable as an unreduced 40% joint and survivor annuity if married. Additionally, the October 31, 2001 accrued benefit is available as a 50%, 75%, or 100% joint and survivor annuity, or a Social Security level income annuity.

PPA mortality and interest rates equal to the three-tiered minimum present value segment rate for the two months preceding the plan year in which the benefit commencement date occurs and reflecting appropriate phase-ins.

The funding valuation reflects the following plan changes:

- Effective December 31, 2012, the Plan is frozen. No new participants will enter the plan and no additional Benefit Service or Compensation will be reflected in the Normal Retirement Benefit.
- A change in the mortality basis for lump sum payments from the 2012 plan year IRC section 417(e)(3) mortality table to the 2013 plan year IRC section 417(e)(3) mortality table.
