Independent Auditor's Report

To the Administrator of
The Baltimore Sun Company Retirement Plan for Mailers

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Baltimore Sun Company Retirement Plan for Mailers (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 11, which was certified by Northern Trust Company, the trustee of the Plan, respectively, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and execute investment transactions. The plan administrator has obtained a certification from Northern Trust Company as of December 31, 2015 and 2014 and the years then ended that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of Plan

The following brief description of The Baltimore Sun Company Retirement Plan for Mailers (the Plan") is provided for general information purposes only. Participants should refer to the Plan document and related amendments for more complete information. On July 16, 2014, Tribune Company amended and restated its certificate of incorporation and changed its name to Tribune Media Company (the "Company").

General

The Plan is a defined benefit pension plan covering employees that are a "full time" journeyman or apprentice mailer as those terms are understood according to the Collective Bargaining Agreement of The Baltimore Sun Company, formerly a subsidiary of Tribune Company. On August 2, 2014, the Company replaced The Baltimore Sun Company as the Plan sponsor.

Effective March 31, 2011 (the "Effective Date"), the Plan was frozen with respect to future benefit accruals and participation, including, but not limited to, future benefit accruals related to service and earnings on or after the Effective Date, and the Plan, formerly a Taft-Hartley Plan and Trust under the National Labor Relations Act, was converted into a Single Employer Plan administered and sponsored solely by the Company. The assets of the Plan were thereafter invested in the Tribune Company Master Trust for Pension Plans (the "Master Trust").

On December 9, 2013, Tribune Company filed a registration statement on Form 10 with the U.S. Securities and Exchange Commission for the purpose of effecting a separation of its principal publishing operations (the "Publishing Spin-Off") into an independent company, tronc, Inc. ("tronc"), formerly known as Tribune Publishing Company. The Publishing Spin-Off was consummated on August 4, 2014. Additionally, Tribune Media Company became the new Plan sponsor effective as of August 4, 2014. Upon consummation of the Publishing Spin-Off, all tronc employees who were participants in the Plan, were considered as having separated from service and became fully vested in their accrued benefit under the Plan. As such, although the Plan remains frozen, tronc participants are eligible to take a distribution, subject to the terms and conditions of the Plan. There are no longer any active employees participating in the Plan.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and is administered by the Tribune Media Company Employee Benefits Committee (the "Committee") consisting of Company employees who are appointed by the Board of Directors or by the Chairman of the Committee.

Chapter 11 Reorganization

On December 8, 2008, Tribune Company and 110 of its direct and indirect wholly-owned subsidiaries (collectively, the "Debtors"), filed voluntary petitions for relief under chapter 11 ("Chapter 11") of title 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the District of Delaware (the "Bankruptcy Court"). On December 31, 2012, a plan of reorganization for the Debtors became effective and the Debtors emerged from Chapter 11. Pursuant to the Debtors plan of reorganization, the Plan has been assumed by the applicable reorganized Debtor.

Early Retirement
Employees with 15 or more years of vested credited service and who have attained the age of 55 are eligible for early retirement. The monthly benefit is determined as for normal retirement using benefit credit service as of the early retirement date. If payments begin prior to age 65, the benefit will be reduced by 0.5% for each month of early payment but not below its actuarial equivalent.

Pension Benefits
Participants with 15 or more years of service are entitled to pension benefits beginning at the retirement age of 65. Effective January 1, 2001, the maximum benefit was increased to $35 per year of credited service for a participant whose status as an employee terminates after January 1, 1999. Participants may elect to receive their pension benefits in the form of a life annuity, 10 years certain and continuous, joint and contingent, social security option, or a lump sum option. The lump sum options are not available if the Participant's vested retirement benefit balances are greater than $10,000 (and are subject to certain restrictions if the balance is between $5,000 and $10,000). Participants who retire with less than 15 years of credited service credit will receive monthly benefits based on actual years of service. A participant whose employment terminates after five years of service is entitled to the benefit he would have received had his termination been his retirement date. Participants who terminate employment before rendering five years of service forfeit the right to receive the benefits they have accumulated.

Death and Disability Benefits
If a vested participant dies prior to retirement, the spouse will be eligible to receive benefits based on a joint and 100% contingent benefits as if the participant had retired on the later of his date of death or his earliest retirement date. Those with spouses that die with at least 15 years of credited service will be able to receive the greater of (a) the above with an actuarial reduction if the spouse is younger than the participant or (b) half of the benefit which would have been payable to the participant had the date of their death been the normal retirement date with an actuarial reduction only if the spouse is more than five years younger than the participant. Participants who terminated employment as a result of becoming totally disabled receive annual disability benefits that are equal to the normal retirement benefits they accumulated as of the time they became disabled.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates
The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results may differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments in the Tribune Company Master Trust for Pension Plans (the "Master Trust"), which was established for the investment of assets of the Plan and other Company-sponsored pension plans, are stated at fair value.

The Plan's interest in the Master Trust is determined by The Northern Trust Company (the "Trustee") on a monthly basis based on the beginning market value of the Plan's interest plus contributions minus benefit payments which equals the adjusted balance. The Plan's adjusted balance is divided by the total adjusted balance of the Master Trust to determine the Plan's percentage interest in the Master Trust.

The fair values of the underlying investments in the Master Trust, shown in Note 6, are based upon published market quotations of fair value as determined by the Trustee. Fair values of investments in the Master Trust not having an established market are developed by reference to quoted market values and other financial data pertaining to investments of a similar nature, quality, and yield, as determined by the Trustee. See Note 7 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Actuarial Present Value of Accumulated Plan Benefits
Accumulated plan benefits (see Note 5) are those future periodic payments, including lump-sum distributions that are attributable, under the Plan provisions, to the service that employees have rendered as of the benefit information date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) present employees or their beneficiaries and (c) beneficiaries of employees who have died.

The present value of accumulated plan benefits under the Plan was calculated by the Plan's actuary as of January 1, 2015 and 2014, and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in these valuations were:

- Discount rate – 7.25% and 7.50% per annum at January 1, 2015 and 2014, respectively.
- Mortality – Based on the RP 2014 Mortality Table with Generational Projections using scale MP-2015 and the RP 2014 Mortality Table with Generational Projections using scale MP-2014 published by the Society of Actuaries' Retirement Plans Experience Committee for January 1, 2015 and 2014, respectively.
- Retirement age – Age 65

These actuarial assumptions are based on the assumption that the Plan will continue. Should the Plan terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Benefit Payments
Benefit payments are recorded when paid. Benefit claims that have been processed and approved for payment prior to December 31 but not yet distributed as of that date are shown as a liability on the Form 5500. At December 31, 2015 and 2014, there were no benefit claims that were processed and approved for payment that had not been distributed.

Administrative Expenses
Administrative fees are paid by the Plan. Administrative expenses relating to the Master Trust are allocated to the individual plans based upon average balances invested by each plan.

New Accounting Standards

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-12 "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965)" ("ASU 2015-12"). The amendments in Part I of ASU 2015-12 eliminated the requirements that employee benefit plans measure the fair value of fully benefit-responsive investment contracts and provide the related fair value disclosures, rather these contracts will be measured and disclosed only at contract value. The amendments in Part II of this ASU will require plans to disaggregate their investments measured using fair value only by general type, either on the face of the financial statements or in the notes. Part II of this ASU also eliminated the requirement to disclose the net appreciation/depreciation in fair value of investments by general type and the requirement to disclose individual investments that represent 5% or more of net assets available for benefits. The amendments in Part III of ASU 2015-12 provides a practical expedient to permit a plan to measure its investments and investment related accounts as of a month-end date closest to its fiscal year for a plan with a fiscal year end that does not coincide with the end of a calendar month. The amendments in this ASU are effective for reporting periods beginning after December 15, 2015, with early adoption permitted. The Plan is currently evaluating the impact of adopting of ASU 2015-12 will have on its financial statements.

In June 2015, the FASB issued ASU No. 2015-10, "Technical Corrections and Improvements." ASU 2015-10 changes the FASB definition of "readily determinable fair value" to include "the fair value of an equity security that is an investment in a mutual fund or in a structure similar to a mutual fund (that is, a limited partnership or a venture capital entity) is readily determinable if the fair value per share (unit) is determined and published and is the basis for current transactions." The amendments in ASU 2015-10 are effective for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years, with the exception of certain amendments for which transition guidance has not been provided. The Plan adopted these amendments as of the year ended December 31, 2015. The adoption of these amendments did not have a material impact on the Plan's financial statements.

In May 2015, the FASB issued ASU No. 2015-07, "Fair Value Measurement (Topic 820)". The amendments in ASU 2015-07 provide guidance for investments for which their fair value is measured at net asset value (or its equivalent) and removes the requirement to categorize these investments within the fair value hierarchy. The amendments in ASU 2015-07 are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Application of these amendments require retrospective application for all periods presented. The Plan is currently evaluating the impact of adopting ASU 2015-07 on its financial statements.

3. Funding Policy

Contributions to provide benefits under the Plan shall be made by the Company to the Master Trust. No contribution shall be made by the Participants or by the Union. Beginning in 2012, Company contributions are actuarially determined to provide the necessary assets to pay benefits to Plan participants. Such contributions meet the minimum funding requirements of ERISA. The Company may, at its discretion, contribute amounts to the Plan in excess of the minimum funding requirements. As a result of the Plan's funded status, the actuary has determined that no contributions by the Company were required for the years ended December 31, 2015 and 2014. The Company has complied with the minimum funding requirements of ERISA and the Internal Revenue Code ("IRC").

4. Plan Termination

In the event the Plan terminates, the funds of the Plan shall be used for the benefit of participants or their contingent annuitants under the Plan as of the date of such termination, except that any funds not required to satisfy all liabilities of the Plan shall be returned to the Company. Each participant, contingent annuitant receiving a retirement allowance, or spouse receiving a spousal allowance, shall be entitled to a share in the assets of the Plan available to provide benefits in the manner and to the extent then provided in Section 4044 of ERISA.

Should termination occur, to the extent unfunded vested benefits exist and the Company is unable to fund these liabilities, ERISA provides that such benefits are payable by the Pension Benefit Guaranty Corporation (the "PBGC") to participants up to specified limitations, as described in ERISA. Whether the participants' accumulated plan benefit will be paid depends on both the priority of those benefits and the level of the benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

5. Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits and the changes in the actuarial present value of accumulated plan benefits are as follows:

Actuarial present value of accumulated plan benefits at January 1, 2015

Actuarial present value of accumulated plan benefits at January 1, 2015	$ 8,756,333

6. Interest in Tribune Company Master Trust for Pension Plans (Prepared from Information Certified by the Trustee)

The Master Trust was established for the investment of assets of the Plan and several other Company-sponsored retirement plans. Each participating retirement plan has undivided interest in the Master Trust. The assets of the Master Trust are held by the Trustee. At December 31, 2015 and 2014, the Plan's interest in the net assets of the Master Trust was approximately 0.7%. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average balances invested by each plan.

The following is a summary of the fair values of investments held by the Master Trust at December 31, 2015 and 2014:

	2015	2014
Investments at fair value

7. Fair Value Measurements

ASC Topic 820 “Fair Value Measurements and Disclosures” (“ASC Topic 820”) establishes a framework for measuring fair value and expands disclosures about fair value measurements. ASC Topic 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC Topic 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Unobservable inputs that are supported by little or no market activity that are significant to the fair value of the assets or liabilities.

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs**.**

Following is a description of the valuation methodologies used for investments measured at fair value.

Registered Investment Companies
Registered investment companies consist of investments in mutual funds. Mutual funds are valued based on exchange listed prices, for exchange traded registered investment companies, or the Net Asset Value ("NAV") for open-ended and continuously offered closed-end registered investment companies.

Common/Collective Trusts
Investments in common/collective trusts are valued on the basis of the relative interest of each participating investor in the fair value of the underlying assets of each of the respective common/ collective trusts. The underlying assets are valued based on the NAV as provided by the investment account manager or based on pricing from observable market information in a non-active market. Redemptions are allowed either daily (pending market conditions) or after a two to three week notice period for some of the common/collective trusts. The trades settle between one and three days. The Master Trust did not have any unfunded commitments related to its common/collective trust investments at December 31, 2015 and 2014.

103-12 Investment Entity
The 103-12 investment entity has underlying assets that include plan assets of two or more plans that are not members of a related group of employee benefit plans. Securities held by this entity include registered investment companies that are valued based on the quoted sale price of the day. Securities for which no market quotations are readily available (including restricted securities), or for which market quotations have become unreliable, are valued using other significant observable inputs. Fair value of this investment is based on the NAV as a practical expedient.

International Equity Limited Partnership
The International Equity Limited Partnership invests in equity securities of emerging market companies that are included in either the International Finance Corporation Free Index or the Morgan Stanley Capital International Emerging Markets Index. Securities are valued based on exchange listed prices. Fair value of this investment is based on the NAV as a practical expedient.

Fixed Income
Corporate bonds, commercial mortgage-backed and asset-backed securities are generally valued using evaluated prices that reflect observable market information, such as actual trade information of similar securities, adjusted for observable differences and are classified in Level 2 of the fair value hierarchy. Government securities consist of investments in treasury securities, municipal bonds, debt securities issued by the government, index-linked government bonds and government mortgage-backed securities. Government bonds not traded on an active market are valued at a price which is based on a compilation of primarily observable market information or a broker quote in a non-active market, and are classified in Level 2 of the fair value hierarchy.

Loan Fund Limited Partnership
The Loan Fund Limited Partnership invests in senior bank loans and other senior debt instruments of borrowers that are primarily based in the U.S. and Canada. The loans and other instruments are valued using evaluated prices that reflect observable market information, such as actual trade information of similar securities, adjusted for observable differences. Redemptions are allowed quarterly (pending market conditions) with a 90 day notice period required. There were no unfunded commitments remaining related to the Loan Fund Limited Partnership at December 31, 2015 and 2014.

Real Estate Investment Funds

The fair value of our real estate investment funds are based on the NAV of our ownership interest in the funds. NAV information is received from the investment managers and is primarily determined by using the methods most appropriate for the type of investment, including, but not limited to, the following: forecasts of net cash flows based on analyses of revenue and expenses and anticipated net proceeds from the liquidation of the underlying investments, discounted at prevailing risk-adjusted market rates of interest; comparisons of key performance indicators of relevant industry indices; recent negotiations of comparable investments; and/or independent appraisals by lenders or other third parties, when available. Real estate includes investments in three different real estate funds. For two of the funds, redemptions are allowed quarterly (pending market conditions) with a 45-60 day notice period required. For the Pearlmark Mezzanine Realty Partners III fund, redemptions are not allowed during the contractual life of the fund. Distributions from this fund will be received as the underlying investments of the fund are liquidated. There were no unfunded commitments remaining related to the real estate investments as of December 31, 2015 and 2014.

Venture Capital and Private Equity Limited Partnerships

Venture capital and private equity limited partnerships are valued by the investment managers on a periodic basis using models that use market, income, and cost valuation methods. The valuation inputs are not highly observable, and these interests are not actively traded on an open market. Private equity and venture capital investments include eight different partnership funds. These investments cannot be redeemed during the contractual life of the funds. Instead, distributions are received through the liquidation of the underlying assets of the funds. There were no unfunded commitments remaining related to these investments as of December 31, 2015 and 2014.

The table below reports by level, within the fair value hierarchy, the Master Trust investment assets at fair value as of December 31, 2015 and 2014. As required by ASC Topic 820, the assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Transfers Between Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to net assets available for benefits. There were no transfers between levels during 2015 and 2014.

The table below sets forth a summary of changes in the fair value of the Master Trust's Level 3 assets for the year ended December 31, 2015 and 2014:

	2015		
	Real Estate Investment Funds	Venture Capital Limited Partnerships	Private Equity Limited Partnerships
Balance, beginning of year	$ 31,263,735	$ 2,014,815	$ 1,460,520

8. Derivative Instruments

For investment management purposes, the Plan may hold investments in financial instruments with off-balance sheet risk involving contractual or optional commitments for future settlement. These instruments increase or decrease exposure to market volatility and partially offset exposure to changes in exchange rates and interest rates related to certain of its fixed income investments.

Swap Agreements
Certain investment managers may invest in swap agreements on behalf of the Plan. Swap agreements are bilaterally negotiated agreements between the Plan and a counterparty to exchange or swap investment cash flows, assets, foreign currencies or market-linked returns at specified, future intervals. Swap agreements are privately negotiated in the over the counter market ("OTC swaps") or may be executed in a multilateral or other trade facility platform, such as a registered exchange ("centrally cleared swaps"). On behalf of the Plan, certain investment managers may enter into asset, credit default, cross-currency, interest rate, total return, variance and other forms of swap agreements to manage its exposure to credit, currency, interest rate, commodity, equity and inflation risk. Swaps are marked to market daily based upon values from third-party vendors, which may include a registered exchange, or quotations from market makers to the extent available. Changes in market value, if any, are reflected as a component of Income from Plan Interest in Tribune Company Master Trust for Pension Plans on the Statements of Changes in Net Assets Available for Benefits. Net periodic payments received or paid by the Plan are included as part of Income from Plan Interest in Tribune Company Master Trust for Pension Plans on the Statements of Changes in Net Assets Available for Benefits. Entering into these agreements involves, to varying degrees, elements of interest, credit market and documentation risk. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreements may default on its obligation to perform or disagree as to the meaning of contractual terms in the agreements and that there be may unfavorable changes to interest rates.

Interest Rate Swap Agreements
The Plan is subject to interest rate risk exposure in the normal course of pursing its investment objectives. Because the Plan holds fixed rate bonds, the value of these bonds may decrease if interest rates rise. To help hedge against this risk and to maintain its ability to generate income at prevailing market rates, the investment managers may enter into interest rate swap agreements on behalf of the Plan. Interest rate swap agreements involve the exchange by the Plan with another party for their respective commitment to pay or receive interest on the notional amount of principal.

Option Contracts
Option contracts include options on equities, bonds, currencies, swaps (swaptions), and futures. Options give the owner the right, but not the obligation, to buy or sell an asset at a specified price (strike price) on or until a future date. Investment managers may purchase or write (sell) call and put options. Premiums received from writing options that expire worthless are treated as realized gains. An option writer (seller) bears the market risk of an unfavorable change in the price of the underlying instrument. Purchasing call options increases the Plan's exposure to the underlying instrument, while purchasing put options decreases the Plan's exposure to the underlying instrument. Premiums paid for purchased options that expire worthless are realized losses. The risk associated with purchasing options is limited to the premium paid. The options may be traded on an exchange or over the counter.

The Plan is subject to various netting arrangements with select counterparties ("Master Agreements"). Master Agreements govern the terms of certain transactions, and reduce the counterparty risk associated with relevant transactions by specifying credit protection mechanisms and providing standardization that improves legal certainty. Since different types of transactions have different mechanics and are sometimes traded out of different legal entities of a particular counterparty organization, each type of transaction may be covered by a different Master Agreement, resulting in the need for multiple agreements with a single counterparty. As the Master Agreements are specific to unique operations of different asset types, they allow the Plan to close out and net its total exposure to a counterparty in the event of a default with respect to all the

transactions governed under a single agreement with a counterparty. Master Agreements can also help limit counterparty risk by specifying collateral posting arrangements at pre-arranged exposure levels. Under the Master Agreements, collateral is routinely transferred if the total net exposure to certain transactions (net of existing collateral already in place) governed under the relevant Master Agreement with a counterparty in a given account exceeds a specified threshold, which typically ranges from zero to $250,000 depending on the counterparty and the type of Master Agreement. United States Treasury Bills and U.S. dollar cash are generally the preferred forms of collateral, although other forms of AAA rated paper or sovereign securities may be used.

International Swaps and Derivatives Association, Inc. Master Agreements and Credit Support Annexes ("ISDA Master Agreements") govern OTC financial derivative transactions entered into by the Plan and select counterparties. ISDA Master Agreements maintain provisions for general obligations, representations, agreement, collateral and events of default or termination. Events of termination include conditions that may entitle counterparties to elect to terminate early and cause settlement of all outstanding transactions under the applicable ISDA Master Agreement. Any election to terminate early could be material to the financial statements. In limited circumstances, the ISDA Master Agreement may contain additional provisions that add counterparty protection beyond coverage of existing daily exposure if the counterparty has a decline in credit quality below a predefined level.

The following table presents the fair value of significant derivative instruments by contract type as included in the Master Trust as of December 31, 2015:

	Notional/ Contractual Amount	Assets	Liabilities
Option contracts	$ (6,400,000)	$ 96,471	$ (73,894)
Swap agreements	20,728,960	188,972	(433,236)
	$ 14,328,960	$ 285,443	$ (507,130)

The following table presents the fair value of derivative instruments by contract type as included in the Master Trust as of December 31, 2014:

	Notional/ Contractual Amount	Assets	Liabilities
Option contracts	$ (26,200,000)	$ 195,594	$ (308,170)
Swap agreements	29,062,825	633,483	(432,660)
	$ 2,862,825	$ 829,077	$ (740,830)

The following table presents the investment gain (loss) on derivatives, by contract type, as included in the Master Trust for the years ended December 31, 2015 and 2014:

	2015	2014
Option contracts	$ 492,861	$ 342,949
Swap agreements	(148,291)	(285,873)
	$ 344,570	$ 57,076

9. Income Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by letters dated December 8, 2011 and July 19, 2016 that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan's ERISA counsel believes that the Plan is designed to comply with, and the Company believes that the Plan is currently being operated in material compliance with, the applicable requirements of the IRC.

U.S. GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a tax liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012.

10. Risks and Uncertainties

Plan contributions and the actuarial present value of accumulated Plan benefits are prepared based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions will occur in the near term and that the effect of such changes would be material to the financial statements and the actuarial present value of accumulated plan benefits.

The Plan holds investment securities and instruments in the Master Trust. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks will occur in the near term and that the effect of such changes would materially affect the amounts reported in the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

The Master Trust invests in securities with contractual cash flows such as asset-backed securities and commercial mortgage-backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities is sensitive to changes in economic conditions, including real estate value, delinquencies and/or defaults and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

11. Information Certified by the Trustee and Custodian

The Northern Trust Company served as Trustee of the Tribune Company Master Trust for Pension Plans as of December 31, 2015 and 2014.

The Plan administrator has received from the Trustee a certification as to the accuracy and completeness of certain financial information and data in accordance with Section 2520.103-5 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. The data certified includes all investments and related investment activity reflected in the accompanying financial statements. The investment and related investment activity information included in Notes 6, 7 and 8 have been derived from information certified by the Trustee.

12. Party-in-Interest Transactions

Certain Plan investments are shares of funds managed by the Trustee, and therefore transactions between these entities qualify as party-in-interest transactions. Fees paid by the Plan for investment management and custodial services amounted to approximately $1,173 and $960 for the years ended December 31, 2015 and 2014, respectively.

13. Subsequent Events

Effective April 1, 2016, Transamerica became the recordkeeper of the Plan. The Plan has evaluated subsequent events through September 28, 2016, the date the financial statements were available to be issued.

Schedule SB, Part V—Statement of Actuarial Assumptions/Methods

For ERISA Requirements

Interest Rates for Minimum Funding Purposes	Based on segment rates with a four-month lookback (as of September 2014), each adjusted as needed to fall within the 25-year average interest rate corridor under HATFA
1st Segment Rate	4.72%
2nd Segment Rate	6.11%
3rd Segment Rate	6.81%
Interest Rates for Maximum Tax Purposes	Based on segment rates with a four-month lookback (as of September 2014), without regard to interest rate stabilization
1st Segment Rate	1.15%
2nd Segment Rate	4.06%
3rd Segment Rate	5.15%
Optional Payment Form Election Percentage	It is assumed that all participants elect a single life annuity upon retirement
Retirement Age	
Active Participants	N/A
Terminated Vested Participants	Age 65
Mortality Rates	
Healthy and Disabled	2015 combined static mortality table for small plans per §1.430(h)(3)-1(e)
Withdrawal Rates	N/A
Disability Rates	N/A
Decrement Timing	Middle of year decrements, with 100% retirement occurring at beginning of year
Surviving Spouse Benefit	It is assumed that 85% of males and 85% of females have an eligible spouse, and that males are three years older than their spouses.
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of $210,000.

Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
Expected Return on Assets	
2013 Plan Year	7.50%, limited to 7.16%
2014 Plan Year	7.50%, limited to 6.99%
Trust Expenses Included in Target Normal Cost	$110,000. Based on the prior year's actual plan administrative expenses (excluding PBGC Variable Rate Premium), plus the estimated PBGC Variable Rate Premium for the current year, rounded to the nearest $10,000
Actuarial Method	Standard unit credit cost method
Valuation Date	January 1, 2015

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB Attachment (Form 5500)—2015 Plan Year
The Baltimore Sun Company Retirement Plan for Mailers
EIN: 36-1880355 PN: 019

Schedule SB, Part V—Summary of Plan Provisions

Effective Date	Effective January1, 1969. Most recent restated plan effective January 1, 2001. Effective March 31, 2011, all benefits accrued under the plan are frozen.
Plan Year	January 1–December 31.
Eligibility for Participation	Date employed in the bargaining unit defined in the collective bargaining agreement as a full time journeyman or apprentice. Employees who were participants prior to January 1, 1976 continue as participant. Mailroom trainees are not eligible to participate in the plan.
Normal Retirement	
Eligibility	Age 65.
Benefit	If a participant terminated after January 1, 1999 and has been a continuously active member, the monthly benefit is equal to $35,00 multiplied by the participant's benefit credited service. If a participant terminated after January 1, 1999 and had not been a continuously active member, the monthly benefit is equal to the sum of the following: (a) $35 multiplied by benefit credited service after January 1, 1999; plus (b) $31 multiplied by benefit credited service earned from January 1, 1997 to December 31, 1998; plus (c) $26 multiplied by benefit credited service earned from January 1, 1994 to December 31, 1996; plus (d) $21 multiplied by benefit credited service earned prior to January 1, 1994. Benefits for participants who terminated before January 1, 1999 were calculated under the plan formula in effect on such date.
Early Retirement	
Eligibility	Age 55 and 15 years of vesting credited service.

Benefit	Monthly benefit determined as for normal retirement using benefit credited service as of early retirement date. Benefit is reduced by ½% for each month payments begin before normal retirement date, but not below its actuarial equivalent.
Disability Retirement	
Eligibility	First day of the month on or after completion of 15 years of benefit credited service and eligible for disability benefits from Social Security.
Benefit	Same as early retirement but not reduced for early payment.
Postponed Retirement Date	
Eligibility	Allowed at the option of the employee.
Benefit	Greater of (i) benefit calculated at normal retirement date and actuarially increased to reflect deferral of payment and (ii) benefit calculated at actual retirement date using service credited through postponed retirement date.
Vested Termination Benefits	
Eligibility	Five years of vesting credited service.
Benefit	The accrued benefit is determined as for normal retirement but is based on benefit credited service at the time of termination.
Preretirement Survivor Benefit	
Benefit	Beginning January 1, 1985, if a vested participant dies prior to retirement, the spouse to whom s/he was married for at least one year will be eligible for a benefit based on the joint and 100% contingent benefit as if the participant had retired on the later of his date of death or his earliest retirement date. However, if the participant had at least 15 years of benefit credited service, his spouse will be eligible to receive the greater of the above or an amount equal to half benefit which would have been payable to the participant as if the date of his death had been his normal retirement date. The benefit will be reduced if the spouse if more than five years younger than the participant.

	Effective January 1, 1992 a lump sum death benefit of $5,000 is payable to the beneficiary of a single participant who dies while vested prior to retirement. Also, the death benefit payable, as described above, to the spouse of a married participant will not be less than a lump sum value of $5000.
Form of Benefit	
Normal Form	Single life annuity, if single; 100% joint and survivor annuity, if married.
Optional Forms	Single life annuity, joint and survivor annuity (50%, 66⅔%, or 100%), 10 year certain and continuous, Social Security level income option, and lump sum payment (less than $10,000).
Optional Forms Conversion Factors	Annuity benefits payable under the optional forms are calculated using the actuarial equivalent factors as defined in Schedule A of the Plan document: (a) Ten years certain and continuous: If a participant's age last birthday at retirement is 65, the 10 years certain and continuous benefit will be 90.5% of the life annuity benefit. For each year the participant's age last birthday at retirement is less than 65, the factor is increased by 3/5%, not greater than 98%. For each year the participant's age last birthday at retirement is greater than 65, the factor is reduced by 1¼% without limit. (b) Joint and 100% contingent option: If the employee and his or her beneficiary are the same age, the employee's life annuity benefit is multiplied by 85%. For every full year that the beneficiary is older than the retiree, the factor is increased by ¾%, not greater than 96%. For every full year that the beneficiary is younger, the factor is reduced by ¾% without limit. (c) Joint and 66⅔% contingent option: If the employee and his or her beneficiary are the same age, the employee's life annuity benefit is multiplied by 87%. For every full year that the beneficiary is older than the retiree, the factor is increased by ⅔%, not greater than 97%. For every full year that the beneficiary is younger, the factor is reduced by ⅔% without limit.

(d) Joint and 50% contingent option: If the employee and his or her beneficiary are the same age, the employee's life annuity benefit is multiplied by 89%. For every full year that the beneficiary is older than the retiree, the factor is increased by ½%, not greater than 98%. For every full year that the beneficiary is younger, the factor is reduced by ½% without limit.

(e) Lump sum option: Lump sum values are calculated using 417(e) mandated mortality and interest. The 417(e) interest for the preceding November is used for the entire next calendar year.

Definitions

Vesting Service	Vesting credited service is equal to benefit credited service plus any service as a mailroom trainee, or when not covered by a collective bargaining agreement to the extent that the service would have been counted if the employee had been a participant in the plan at that time.
Benefit Service	Benefit credited service prior to January 1, 1976 is determined under the plan in effect prior to January 1, 1976. Benefit credited service beginning January 1, 1976 is one year for each plan year during which a participant completes at least 1,000 hours of service. Partial years of benefit credited service are credited for each plan year in which a participant was not an employee for the entire year if employed on a basis which can be annualized to at least 1,000 hours.
