Hourly Employees Pension Plan

NOTES TO FINANCIAL STATEMENTS (Modified Cash Basis)

December 31, 2015 and 2014

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Premium Building Products Company Hourly Employees Pension Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General and Participation

The Plan is a noncontributory defined benefit plan that covers employees of Premium Building Products Company (the “Company” or “Plan Administrator”), a subsidiary of Associated Materials LLC, who are members of United Steelworkers of America Local Union 8869 and provides for retirement benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Effective November 4, 2013, the Plan is frozen to new entrants. Active participants in the Plan at that time were given the one-time option to freeze future benefit accruals effective December 31, 2013 and begin earning benefits in a Company sponsored defined contribution plan beginning in 2014 or continue earning benefits in the Plan.

Contributions and Funding

Annually, an independent actuary is utilized to determine the Plan’s funding requirements. There was no minimum funding requirement for the current year. The minimum funding requirement for 2014 was \$354,091 of which \$194,000 was funded in 2014 and \$368,000 was funded in 2015 to fulfill the funding requirement as well as to fund an excess contribution. The amount of \$368,000 is included as an addition to plan assets in 2015 under the modified cash basis of accounting.

Benefits and Vesting

Participants are entitled to a normal retirement benefit for those that have reached the later of the age of 65 or 5 years of service in the Plan. The normal monthly retirement benefits are calculated based on a participant’s years of credited service multiplied by a monthly benefit level as provided in the Plan. Participant’s years of service include credited years of service. The monthly benefit level in effect at December 31, 2015 and 2014 was \$22.00 and \$21.75, respectively. The normal form of benefit is a single life annuity. The Plan also offers a 50% joint and survivor annuity option. The Plan also provides for early retirement, disability retirement and pre-retirement spouse benefits for any participant who meets certain requirements. Participants become fully vested on completion of five years of continuous service.

Termination Provisions

The Company anticipates that the Plan will continue without interruption, but reserves the right to terminate the Plan or to discontinue contributions to the Plan. In the event the Plan is terminated, the Plan provides for the allocation of net assets up to the present value of accumulated plan benefits among the participants and pensioners. To the extent unfunded vested benefits exist, such benefits would be payable by the Pension Benefit Guaranty Corporation (“PBGC”), up to specified limitations, as described in ERISA. To the extent that Plan net assets exceed benefits due participants and pensioners, and the Plan has met all legal requirements, remaining assets, net of applicable taxes, will revert back to the Company.

NOTES TO FINANCIAL STATEMENTS (Modified Cash Basis) – CONTINUED

December 31, 2015 and 2014

NOTE 1 – DESCRIPTION OF THE PLAN – CONTINUED

Benefits under the Plan are insured by the PBGC. Generally, the PBGC guarantees most vested normal retirement benefits, early retirement benefits, and certain disability and survivor benefits. However, the PBGC does not guarantee all types of benefits under covered plans, and the amount of benefit protection is subject to certain limitations. The PBGC guarantees vested benefits at the level in effect on the date of plan termination. However, if benefits have been increased within the five years before plan termination, the benefit increase may not be guaranteed. In addition, there is a ceiling on the amount of monthly benefit that the PBGC guarantees which is adjusted periodically.

Administrative Expenses

Trustee and investment fees are paid by the Plan. All other direct and indirect administrative expenses of the Plan are paid by the Company.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on a modified cash basis of accounting as interest and dividend income, employer contributions, if any, and administrative expenses are recorded when received or paid versus when the revenue or expense has been incurred. The modified cash basis of accounting, which is permitted under the Department of Labor's Rules and Regulations for Reporting and Disclosure, is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Newly Adopted Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions of this new standard. Accordingly, the standard was retrospectively applied resulting in certain investments that are measured at NAV not being categorized in the fair value hierarchy. Prior period disclosures have been adjusted to retroactively reflect these changes at December 31, 2014.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted.

NOTES TO FINANCIAL STATEMENTS (Modified Cash Basis) – CONTINUED

December 31, 2015 and 2014

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Management has elected to early adopt Part II. Accordingly, the statements have been adjusted to reflect the aggregation of investments by general type only, as well as to remove certain investment disclosures that are no longer required under Part II. Prior period disclosures have been adjusted to retroactively reflect these changes as of December 31, 2014. Parts I and III are not applicable to this Plan. There were no other impacts on the Statements of Net Assets Available for Benefits as of December 31, 2015 and 2014 or the Statements of Changes in Net Assets for the years then ended.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income and dividends are recorded when received. Net (depreciation) appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on employees' credited service. The accumulated plan benefits for active employees are based on service rendered as of the valuation date. Benefits payable under all circumstances, including retirement, death, disability, and termination of employment, are included; to the extent they are deemed attributable to employee service rendered to the valuation date.

Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

NOTES TO FINANCIAL STATEMENTS (Modified Cash Basis) – CONTINUED

December 31, 2015 and 2014

NOTE 3 – ACCUMULATED PLAN BENEFITS

Consulting actuaries from Hewitt Associates LLC (operating as Aon Hewitt) estimate the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information as of December 31, 2014 is as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving payments	\$ 990,226
Other participants	3,954,162
	<hr/> 4,944,388

Nonvested benefits	154,892
	<hr/>

Total actuarial present value of accumulated plan benefits	<u>\$ 5,099,280</u>
---	----------------------------

Changes in accumulated plan benefits for the year ended December 31, 2014 are as follows:

Actuarial present value of accumulated plan benefits at December 31, 2013	\$ 4,230,200
---	--------------

Increase (decrease) during the year attributed to:

Benefit payments	(86,568)
Interest accumulation	314,077
Changes in actuarial assumptions	502,883
Actuarial gains (losses)	138,688
Net increase	<hr/> 869,080

Actuarial present value of accumulated plan benefits at December 31, 2014	<u>\$ 5,099,280</u>
--	----------------------------

Significant assumptions underlying the actuarial computations are:

Discount rate	6.7% and 7.5% per annum for 2014 and 2013, respectively
Mortality rates	RP – 2014 Mortality table for projected generationally by Scale MP – 2014
Weighted average retirement age	63 years of age, based on probability of retirement table

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 4 – SUMMARY OF FINANCIAL INFORMATION CERTIFIED BY TRUSTEE

Bank of America (the “Trustee”) held the Plans investment assets and executed investment transactions as of and for the years ended December 31, 2015 and 2014. Investment information disclosed in the accompanying financial statements and supplemental schedules, including investment amounts on the Statements of Net Assets Available for Benefits, interest and dividends and net (depreciation) appreciation in fair value of investments on the Statements of Changes in Net Assets Available for Benefits, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) and Schedule H, Line 4j – Schedule of Reportable Transactions was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Trustee. The Plan’s independent accountants did not perform any auditing procedures with respect to the certified information, except for comparing such information to the related information in the financial statements and supplemental schedules.

NOTE 5 – FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification (“ASC”) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 5 – FAIR VALUE MEASUREMENTS – CONTINUED

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Common stocks and mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Government securities and corporate bonds: Valued using a market approach based upon quoted prices for similar assets and liabilities in active markets based on pricing models which incorporate information from market sources and observed market movements.

Money funds: Valued under the amortized cost method which approximates current market value. Under this method, the securities are valued at cost when purchased and thereafter, a constant proportionate amortization of any discount or premium is recorded until the maturity of the security. The funds seek to maintain the net asset value (“NAV”) per share at \$1.00.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan’s assets at fair value as of December 31, 2015 and 2014:

Type of Asset	Assets at Fair Value at December 31, 2015

NOTE 5 – FAIR VALUE MEASUREMENTS – CONTINUED

The table below presents additional information for investments whose fair value is estimated using NAV per share as of December 31, 2015 and 2014:

Type of Asset	Fair Value at December 31,		Unfunded Commitments	Redemption		
	2015	2014		Terms	Restrictions	Notice Period
Money funds (a)	\$ 149,295	\$ 199,327	\$ -	Daily	None	None

(a) The money funds seek current income preservation of capital and liquidity. The BIF Money Fund invests in a diversified portfolio of U.S. Dollar denominated short-term securities with maturities of not more than 397 days (13 months). The Preferred Deposit for Business fund invests money in a deposit account with Bank of America, N.A., to earn interest when not utilized for Plan needs.

NOTE 6 – TAX STATUS

The Internal Revenue Service (“IRS”) has determined and informed the Company by a letter dated July 29, 2014 that the Plan and related trust is designed in accordance with applicable sections of the Internal Revenue Code (“Code”). Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended since receiving the determination letter. The Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress.

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

The Plan’s investments include a money fund which is managed by an affiliate of the Trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions which are exempt from the prohibited transaction rules. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTES TO FINANCIAL STATEMENTS (Modified Cash Basis) – CONTINUED

NOTE 8 – RISKS AND UNCERTAINTIES – CONTINUED

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 9 – SUBSEQUENT EVENTS

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 6, 2016, the date the financial statements were available to be issued. Except for line below, the Plan is not aware of any subsequent events which would require recognition or disclosure in the financial statements.

Effective May 16, 2016, Bank of America no longer serves as Trustee of the Plan. The Plan moved all plan assets to a new Trustee, State Street Bank and Trust Company, as of this date.
