Notes To Financial Statements

Note 1. Plan Description

The following description of the City Financial Corporation 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution retirement savings plan covering eligible employees of City Financial Corporation (the "Company") who have attained age 21 and completed four consecutive months of service. An internal committee of the Company manages the operation and administration of the Plan. Great West Trust Company, LLC serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Contributions to the Plan include (i) salary reduction contributions authorized by participants, (ii) discretionary matching contributions made by the Company, (iii) discretionary contributions made by the Company; and (iv) participant rollovers from another plan.

Each year, individual participants may elect to contribute a percentage of their annual compensation as defined in the Plan Agreement limited to the maximum amount allowed by the Internal Revenue Service. Contributions may be made on a pre-tax or after-tax basis, at the discretion of the employee. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may make a discretionary matching contribution to each participant's account up to \$1,000. Additional profit-sharing amounts may be contributed at the discretion of the Company's board of directors. Company contributions are invested in a manner similar to participant contributions. Contributions are subject to certain limitations. For the year ended December 31, 2015, the Company matched approximately \$176,149.

Participant accounts: Each participant's account is credited with the participant's contributions and an allocation of (a) the Company's contribution, (b) Plan earnings, and charged with an allocation of Plan expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Investments: Participants may direct the investment of their contributions and/or account balances into various investment options offered by the Plan and may change investments and transfer amounts between funds daily. The Plan currently offers 20 mutual funds, two guaranteed income funds, and a participant directed brokerage account feature. Participants may direct their investments through a trustee sponsored brokerage account, which offers more than 13,000 mutual funds, interest bearing and non interest bearing money market funds, and the option to invest in individual stocks.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's discretionary matching contribution portion of their accounts is immediate, as defined in the Plan document. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Forfeitures: Forfeitures of employer's matching contributions are used to reduce administrative expenses under the Plan. Any forfeitures remaining after administrative expenses have been paid shall be allocated to all eligible participants in the same proportion that each participant's compensation bears to the compensation of all other participants during the year. At December 31, 2015 and 2014, forfeited non-vested accounts available to reduce future contributions were approximately \$41,463 and \$49,797 respectively.

Notes To Financial Statements

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of the lesser of one-half of the vested account balance or \$50,000. The loans are secured by an assignment of a participant's vested interest in the Plan, and bear interest at a rate commensurate with local prevailing rates at the time funds are borrowed as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions or as a lump sum for the outstanding loan balance. Loan terms range from 1 to 5 years. At December 31, 2015, participant loans have maturities through 2019 at an interest rate of 5.25%.

Payment of benefits: Upon resignation or termination from the Company, a participant may elect to receive either a lump-sum amount equal to the vested value of his or her account or equal monthly/annual installments over a period not to extend beyond the year the former participant reaches age 65. In the event of a participant's death, the decedent's beneficiary may elect to receive either a lump-sum amount or equal monthly/annual installments over a period not to exceed the life expectancy of the beneficiary. Benefits are recorded when paid.

Administration of Plan assets: Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. The cost and expense of administering the Plan may be paid either by the Company or by the Plan at the Company's discretion. The Company is currently paying most of the costs and expenses of administering the Plan. Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and uncertainties: The Plan utilizes various investment instruments, including mutual funds and money market funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Fully benefit-responsive Investment contracts: The Plan has a fully benefit-responsive guaranteed investment contract (GIC) with Great West Life and Annuity Insurance Company (GWLA). GWLA maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GIC is included in the financial statements at contract value, which approximates fair value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Limitations on the ability of the GIC to transact at contract value: Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable. GWLA may not terminate the contract at any amount less than the contract value.

City Financial Corporation 401(k) Profit Sharing Plan

Notes To Financial Statements

Average yields: GWLA is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with GWLA, but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting. The crediting rate of the contract will track current market yields on a trailing basis.

	2015
Average yields:	
Based on annualized earnings ⁽¹⁾	1.25%
Based on interest rate credited to participants ⁽²⁾	1.25%

⁽¹⁾ Computed by dividing the annualized one-day actual earnings on the contract on the last day of the Plan year by the fair value on the investments on the same date.

⁽²⁾ Computed by dividing the annualized one-day earnings credited to participants on the last day of the Plan year by the fair value of the investments on the same date.

Investment valuation and income recognition: Investments are reported at fair value (except for fully-benefit responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See below for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and that such change could materially affect the amounts reported in the statement of net assets available for benefits.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Fair value measurements: The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

City Financial Corporation 401(k) Profit Sharing Plan

Notes To Financial Statements

For the years ended December 31, 2015 and 2014, there were no significant transfers in or out of Levels 1, 2 or 3. The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the quoted market price of the fund as reported on public exchanges.

Domestic stock: Valued at the quoted market price of the fund as reported on public exchanges.

New accounting pronouncements: In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this Update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. The Plan adopted this update for the periods being presented in these financial statements.

In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this update is to simplify plan accounting.

- The amendments in Part I of this update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.
- The amendments in Part II of this update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as a direct filing entity, disclosure of that investment's strategy will no longer be required.
- The amendments in Part III of this update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The Update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively.

City Financial Corporation 401(k) Profit Sharing Plan

Notes To Financial Statements

The Plan adopted amendments in Part I, Part II, and Part III of this update for the 2015 plan year, and the amendments in Part I and Part II were retrospectively applied to December 31, 2014. Prior year disclosures in Note 4 have been revised to reflect the retrospective application. The impact of adopting these amendments is reflected in the financial statements.

Subsequent events: The Plan has evaluated subsequent events for potential recognition and/or disclosure through October 5, 2016, the date the financial statements were available to be issued.

Note 3. Investments and Information Certified by Great West Trust Company, LLC ("Great West")

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Great West, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

Great West also certified to the completeness and accuracy of \$(1,470,613) of net depreciation in fair value of investments, \$1,973,160 of dividends related to the aforementioned investments, and interest related to notes receivable from participants for the year ended December 31, 2015. Great West also certified to the completeness and accuracy investments held and notes receivable from participants for the years ended December 31, 2015 and 2014 respectively. The following table presents the values of the Plan's investments as certified by the trustee at December 31, 2015 and 2014.

	2015	2014
Mutual funds	\$ 33,051,183	\$ 32,978,499
Self-directed brokerage investments*	2,991,609	2,491,053

	<u>\$ 40,288,316</u>	<u>\$ 40,066,161</u>

Note 4. Fair Value Measurements

The following tables set forth by level and major classification, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

	Assets at Fair Value at December 31, 2015			
	Level 1	Level 2	Level 3	Total

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 32,978,499	\$ -	\$ -	\$ 32,978,499

	<u>\$ 35,469,552</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 35,469,552</u>

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2015, there were no transfers between levels.

Note 5. Related Party Transactions

Great West Key guaranteed portfolio fund is managed by Great West Life & Annuity (GWLA) Insurance Company. Great West Trust, LLC is the directed trustee for GWLA and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan to the trustee amounted to approximately \$11,466 for the year ended December 31, 2015 and are not material to the Plan.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 7. Tax Status and Uncertain Tax Positions

As of January 1, 2012, the Plan adopted a prototype plan document sponsored by Great West Financial, which received an opinion letter from the Internal Revenue Service (IRS), dated January 24, 2006, which states that the prototype document satisfies the applicable provisions of the IRC. The Plan administrator believes that the Plan is designed and is being operated in compliance with applicable requirements of the Code.

The Plan's administrator has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2012.
