1. DESCRIPTION OF PLAN

The following description of the Coleman Cable 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

A. General

The Plan is a defined contribution plan covering all salaried, non-union (unless included in a union-bargained contract), and hourly non-union employees of Coleman Cable, Inc., CCI Enterprises, Inc., Oswego Wire, Inc., Copperfield, LLC, DJR Logistics, Inc., and Technology Research Corporation (hereinafter collectively referred to as the Employer, Plan Administrator, or Company), who have been employed for two months of service and are at least 18 years of age. Eligible employees enter the Plan on the first day of the month after they have met the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Investment Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

B. Contributions - Employees

Each year participants may elect to contribute up to 100% of their gross wages, as defined by the Plan, subject to certain Internal Revenue Code (IRC) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute (rollover) amounts representing distributions from other qualified defined benefit or defined contribution plans.

Effective January 1, 2009, new employees are automatically enrolled in the Plan upon satisfying its eligibility requirements and, unless they decline participation or elect a different percentage, are deemed to have consented to an initial participant contribution of 3% of eligible compensation, increased 1% on an annual basis up to a maximum of 6%.

Participants elect the way in which their contributions are invested among the various investment funds permitted by the Plan. The investment election will apply to both employee and employer contributions.

1. DESCRIPTION OF PLAN (Continued)

C. Contributions - Employer

The Employer makes a discretionary matching contribution of 100% of the first 1% of the participant's base compensation and 50% of the next 2% to 6% of the participant's base compensation that a participant contributes to the Plan. Additional amounts may be contributed at the discretion of the Company's board of directors. No such additional discretionary contributions were made for the year ended December 31, 2015.

D. Participant Accounts

Separate accounts are maintained for each participant and reflect his or her contributions, allocations of Plan earnings, transfers, employer contributions, and administrative expenses. Allocations are based on participant earnings or account balances, as detailed in the Plan document. The benefit available to each participant is the participant's vested balance.

E. Vesting

A participant is immediately vested in his or her contributions plus earnings thereon. Vesting in Company contributions and earnings thereon is based on years of continuous service. Participants vest in Company contributions according to the following schedule:

Years of Service	Vested Percentage
One	50%
Two or more	100%

A participant will become fully vested if termination occurs as a result of retirement, death, or disability. On February 11, 2014, the Company was acquired by Southwire Company. As a result of the acquisition, the Plan was amended to fully vest all participant balances as of the acquisition date. All employees hired after the acquisition date vest using the original vesting schedule described above.

F. Payment of Benefits

Upon termination of service, death, disability, or retirement, a participant (or beneficiary) may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, partial payments, or systematic installments. Upon attaining 59½ years of age, a participant has the option to take an in-service distribution for any reason. The Plan allows participants to take hardship withdrawals in accordance with the Plan document.

1. DESCRIPTION OF PLAN (Continued)

G. Forfeitures

At December 31, 2015 and 2014, forfeited non-vested account balances totaled $0 and $73,470, respectively. These amounts must be first used to reinstate the account balances of former participants re-employed before five consecutive one-year breaks in service who repay to the Plan any distributions previously taken and then may be used to pay any administrative expenses of the Plan and/or to reduce future employer contributions. During the year ended December 31, 2015, there were no forfeitures used to reduce employer contributions or administrative expenses. In December 2015, $78,263 was transferred to the Southwire Company Salaried 401(k) Plan and $31,719 was transferred to the Southwire Company Hourly 401(k) Plan.

H. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Note terms are for a period not exceeding five years. The notes are secured by the balance in the participant's account and bear interest at prime plus 1% as published in *The Wall Street Journal* on the first working day of the month in which the note was issued. Principal and interest is paid ratably through payroll deductions; however, lump-sum repayments are permitted.

I. Administrative Expenses

Certain expenses of maintaining the Plan, including audit fees, are paid directly by the Company and are excluded from these financial statements. The Company reserves the right to elect to pay, or have the Plan pay, administrative expenses in the future. Fees related to the administration of notes receivable from participants are charged directly to the participants' accounts and are included in administrative expenses. Investment related expenses are included in net depreciation in fair value of investments in the statement of changes in net assets available for benefits.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation

The Plan has adopted the Financial Accounting Standards Board (FASB) Codification (Codification). The Codification is the single source of authoritative accounting principles generally accepted in the United State of America (U.S. GAAP) recognized by the FASB to be applied by nongovernmental entities. All of the Codification's content carries the same level of authority.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting in accordance with U.S. GAAP.

C. Fully Benefit-Responsive Investment Contracts

Fully-benefit responsive investment contracts are required to be reported at contract value. Contract value is the relevant measurement basis for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents cost plus contributions made under the contract plus interest at the contract rates less withdrawals and administrative expenses. This specifically affects the presentation of the amounts related to the Plan's participation in the guaranteed investment contract (see Note 8). The statements of net assets available for benefits and statement of changes in net assets available for benefits present the contract value of the guaranteed investment contract.

D. Investment Valuation and Income Recognition

Except for fully-benefit responsive investment contracts described above, investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in the fair value of investments represents realized and unrealized gains and losses.

E. Payment of Benefits

Benefits are recorded when paid.

F. Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of any contingent assets and liabilities. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make note repayments and the Plan Administrator deems the note to be in default, the participant note balance is reduced and a benefit payment is recorded.

H. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate risk, market risk, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

I. New Accounting Pronouncements

In May 2015, the FASB issued Accounting Standards Update (ASU) No. 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)* (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, *Fair Value Measurement*. Disclosures about investments that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate fair value using the net asset value practical expedient. ASU 2015-07 is effective for entities (other than public business entities) for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early application is permitted. Management has elected to early adopt ASU 2015-07. The adoption of ASU 2015-07 did not have a material impact on the Plan's financial statements and has been applied retrospectively to prior periods presented.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient* (ASU 2015-12). Part I of ASU 2015-12, eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully-benefit responsive investment contracts. Part II of ASU 2015-12 eliminates the requirements to

disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015 and earlier application is permitted. Plans can early adopt any of the ASU's three parts without early adopting the other parts. Parts I and II are to be applied retrospectively. Management has elected to early adopt Parts I and II. The adoption of Parts I and II of ASU 2015-12 did not have a material impact on the Plan's financial statements and has been applied retrospectively to prior periods presented.

3. PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. The Company transferred all assets of the Plan into the Southwire Company Hourly 401(k) Plan and Southwire Company Salaried 401(k) Plan in December 2015. As a result, the Plan was merged out of existence.

4. FINANCIAL INFORMATION CERTIFIED (Unaudited)

Great-West Trust Company, LLC and Great West Life & Annuity Insurance Company (GWL&A) hold the Plan's investment assets and execute investment transactions. The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investment information certified by Great-West Trust Company, LLC and GWL&A, including the fair value and contract value of investments and notes receivable from participants held as of December 31, 2015 and 2014, and the net depreciation in fair value of investments, dividends and interest, and interest on notes receivable from participants for the year ended December 31, 2015, except for comparing such information certified by Great-West Trust Company, LLC and GWL&A to information included in the Plan's financial statements and supplemental schedule.

5. FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and Great-West Trust Company, LLC. The framework for measuring fair value under authoritative guidance issued by the FASB provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets and liabilities measured at fair value.

Mutual funds: Mutual funds are valued at the net asset value of shares held by the Plan at year end by obtaining quoted prices on nationally recognized securities exchanges.

The methodology described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of a different methodology or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. FAIR VALUE MEASUREMENTS (Continued)

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Investments at fair value	$ -	$ -	$ -	$ -

	Assets at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 39,196,454	$ -	$ -	$ 39,196,454
Investments at fair value	$ 39,196,454	$ -	$ -	$ 39,164,454

There were no transfers between Level 1 and Level 2 investments, or into or out of Level 3 investments during the years ended December 31, 2015 and 2014.

6. RELATED PARTY TRANSACTIONS

Great-West Trust Company, LLC and GWL&A perform services for the Plan, sell products to the Plan, and manage and maintain investments for the Plan for which fees are charged to the Plan. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA. Fees incurred by the Plan for the investment management services are included in net depreciation in fair value of investments in the statement of changes in net assets available for benefits.

During December 2015, the Plan transferred assets of $13,333,146 to the Southwire Company Hourly 401(k) Plan and $30,773,632 to the Southwire Company Salaried 401(k) Plan. In addition, during 2015, transfers aggregating $230,729 were made into the Southwire Company Hourly 401(k) Plan and Southwire Company Salaried 401(k) Plan in connection with transfers of employment from the Company to Southwire Company.

7. TAX STATUS

The underlying prototype plan has received an opinion letter from the IRS dated March 31, 2014, stating that the form of the Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is tax-exempt. The Plan Administrator has determined that it is eligible to and has chosen to rely on the current Internal Revenue Service (IRS) prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification.

7. TAX STATUS (Continued)

The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. There are no known items which would result in an accrual for uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has entered into a fully benefit-responsive investment contract with GWL&A (the Issuer). GWL&A maintains the contributions in its general account. The Plan's contract investment balance is credited with earnings based upon contractually determined crediting interest rates and charged for plan withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. There are no reserves against contract value for credit risk of the Issuer or otherwise. The contract is included in the financial statements at contract value as reported to the Plan by GWL&A.

The Plan's investment contract specifies certain conditions under which distributions from the contract would be payable at amounts below contract value. Such circumstances include Plan termination or merger, premature contract termination initiated by the Company, the establishment of another plan or program to which participants contribute, and a spin-off, sale or merger of any business unit of the Employer or Plan Administrator causing a group of participants to be excluded from eligibility. The contract limits the circumstances under which the Issuer may terminate the contract. Examples of circumstances that would allow the Issuer to terminate the contract include the Plan's termination, loss of its qualified status, addition of a competing investment option to the Plan, or breaches of the contract responsibilities. If one of these events were to occur, the Issuer could terminate the contract at an amount less than contract value. Currently, management believes that the occurrence of an event that would cause the Plan to transact at less than contract value is not probable.

9. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 3, 2016, which is the date the financial statements were available to be issued. All subsequent events, if any, requiring recognition as of December 31, 2015 have been incorporated into these financial statements.
