Funding

The Plan is a defined contribution plan wherein participants can elect to reduce their compensation and have such reductions contributed to the Plan on their behalf. Participants direct their investments in numerous investment options managed by MBM Advisors.

Each year the Plan Sponsor may contribute to the Plan a percentage of its current profits before profit sharing costs and income taxes, or match a percentage of participant pre-tax contributions at the discretion of the Company's Board of Directors. Participants may also voluntarily contribute up to 10% of their annual compensation from the Company, subject to legal limitation. The Company did not make a profit sharing contribution for the year ended December 31, 2015.

Allocation

Each participant's account is credited with the participant's contribution and the Company's discretionary matching and profit sharing contribution. Investment income or loss is allocated daily based on the ratio of each participant's account balance at the end of each day. Any discretionary or profit sharing contribution is made annually to participants employed on the last day of the Plan year.

Forfeitures

The Company may reduce employer contributions by forfeitures occurring during the Plan year that are not used to pay Plan expenses. The Plan did reduce employer contributions by forfeitures during the Plan year. The Plan maintained a balance of $-0- in the forfeiture account at December 31, 2015.

Administration of the Plan

The Company may pay certain administrative expenses incurred by the Plan. The Plan is not required to reimburse the Company for any administrative expenses paid by the Company. The Plan is responsible for any expenses not paid by the Company.

Note 1. Plan Description (Continued)

Vesting

Employee contributions are 100% vested. Employer discretionary matching and profit sharing contributions have the following vesting schedule:

Years of Vesting Service	Vested Interest
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Termination

Although the Company has not expressed any intent to do so, the Board of Directors may terminate the Plan at any time. Upon termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her account, or one of various installment payments available under the Plan. In addition, upon termination of the Plan, participants' vested interest in employer contributions shall be 100%.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are treated as a transfer to (from) the investment fund and from (to) the participant loan fund. Loan terms range from one to five years or longer if the purpose of the loan is to acquire a primary residence. The balance in the participant's account secures the loan. The interest rate, unless otherwise determined by the custodian, is 4.25%. Principal and interest are repaid ratably through biweekly payroll deductions.

Payment of Benefits

On retirement, death, disability, or termination of service, a participant may leave their account balance in the Plan or elect to receive a single lump-sum payment in cash. Participants are allowed to withdraw employee account balances prior to termination of their employment under certain conditions specified in the Plan. Benefit payments are recorded when paid.

Note 2. Summary of Significant Accounting Policies

This summary of significant accounting policies of the Plan is presented to assist in understanding the financial statements. The financial statements and notes are representations of the Plan's administrator, who is responsible for their integrity and objectivity. The accounting policies conform to accounting principles generally accepted in the United States of America (GAAP) and have been consistently applied in the preparation of the financial statements.

Note 2. Summary of Significant Accounting Policies (Continued)

Estimates

The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fully benefit-responsive investment contracts are required to be reported at fair value. Any material difference between the fair value of these investments and their contract value is to be presented as a separate adjustment line in the statement of net assets available for benefits, because contract value remains the relevant measurement attribute for that portion of net assets available for benefits attributable to fully benefit-responsive investment contracts. Contract value, as reported to the Plan by Charles Schwab Bank, represents contributions made under the contract, plus earnings, less participant withdrawals, and administration expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

The Plan invests in investment contracts through a stable value collective trust. Wells Fargo maintains the contributions in a collective trust. The Galliard Wells Fargo Stable Value Fund J (Fund) has invested all of its assets in the Wells Fargo Stable Return Fund G, a fully benefit-responsive collective trust fund sponsored by Wells Fargo. The value of the investment is based on the underlying unit value reported by Wells Fargo Stable Return Fund G. The yield earned by the Fund with an adjustment to reflect the actual interest rate credited to participants in the Fund at December 31, 2015 and 2014 was 1.79% and 1.64%, respectively.

Note 2. Summary of Significant Accounting Policies (Continued)
Investment Valuation and Income Recognition (Continued)
Because the Fund held in the collective trust is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as they are incurred. No allowance for credit losses had been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Date of Management's Review
Subsequent events have been evaluated for potential recognition or disclosure through October 5, 2016, which is the date the financial statements were available to be issued.

Note 3. Income Tax Status
The Plan has received a letter dated March 31, 2008 from the Internal Revenue Service (IRS) identifying the Plan as acceptable under section 401 of the Internal Revenue Code (IRC). In the opinion of the plan administrator, the Plan is currently being operated in accordance with the plan agreement and in conformity with the applicable provisions of the IRC and therefore exempt from federal income taxes. Therefore, no provision for income taxes has been included in the Plan's financial statements. Tax returns of the Plan are generally open to examination by the relevant taxing authorities for a period of three years from the date the returns are filed.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 4. Party-in-Interest
Certain Plan investments are mutual funds and money market funds managed by Charles Schwab Bank. These transactions qualify as party-in-interest transactions; however, they are exempt from the ERISA prohibited transaction rules.

Note 5. Plan Trustee, Custodian, and Administrator

MBM Advisors, Inc. ("MBM") is the advisor to the Plan and maintains individual participant account records. A quarterly administration fee of $1,000 is paid to MBM. Participant transactions incur distribution handling fees from MBM. Loan fees are paid out of individual participant accounts and distribution fees are paid out of fund assets and allocated on a pro rata basis to all current Plan participants. In addition, MBM receives an investment advisory fee equal to 0.8% of average Plan invested assets, paid quarterly. Through a revenue sharing arrangement with MBM, fees were reduced by $3,139 in 2015.

Net gain (loss) on mutual funds	$	(21,018)
Net gain (loss) on collective trust		1,237
Total investment returns (loss)	$	(19,781)

Note 7. Information Certified By Custodian

Other than the fair value of the guaranteed investment contract and the related adjustment from fair value to contract value for fully benefit-responsive investment contracts, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2015 and 2014, and net appreciation (depreciation) in fair value of investments, interest and dividends for the year ended December 31, 2015, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Charles Schwab Bank (the custodian of the Plan). The fair value of the Galliard Wells Fargo Stable Value Fund J was certified by the custodian.

Note 8. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 8. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Interest-bearing cash – Valued at the daily closing price as reported by the fund. The fund is an open-ended fund that is deemed to be actively traded.

Mutual funds – Valued at the net asset value of shares held by the Plan at year-end.

Collective trust – Valued based on the contractual terms of the underlying contracts held by the Plan at year end.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fair values of assets measured on a recurring basis at December 31, 2015 are as follows:

	Fair Value Measurements at Reporting Date Using:			
	Level 1	**Level 2**	**Level 3**	**Total**
