ThyssenKrupp North America, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2015 and 2014

Note 1 - Plan Description

The following brief description of ThyssenKrupp North America, Inc. 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

Effective January 1, 2014, the Plan was amended to change its name from The Budd Company Preferred Savings and Investment Plan to ThyssenKrupp North America, Inc. 401(k) Plan as a result of the plan sponsor changing from The Budd Company to its parent, thyssenkrupp North America, Inc.

General - The Plan is a defined contribution plan sponsored by thyssenkrupp North America, Inc. (the "Company") covering all salaried employees of the Company other than employees covered by a collective bargaining agreement or who are in a job classification covered by another qualified defined contribution plan. The Plan also covers hourly employees at the Company's Hopkinsville Plant (Hopkinsville), hourly employees of The Budd Tallent Company, LLC (Budd Tallent), and employees of thyssenkrupp North America, Inc. Employees are eligible to participate in the Plan as of the employment commencement date. Employee participation in the Plan is voluntary. The Plan's investments are managed by the trustee, Fidelity Management Trust Company (Fidelity or the "Trustee"), and disbursed to specific investment option offerings in proportions directed by each participant. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

As of December 1, 2006, employees at Hopkinsville and Budd Tallent are no longer eligible for participation in the Plan. During 2006, the Company either sold or closed all of its operating facilities.

Contributions - Employee contributions represent a percentage of each eligible participant's pretax or after-tax earnings as defined in the plan agreement and are subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Plan provides for employer matching contributions of 100 percent of the first 5 percent of the participant's contributions. Additional participant contributions beyond 5 percent are not matched by the Company.

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of the company matching contributions and plan earnings (losses) and is charged with an allocation of administrative expenses. Allocations are based on participants' earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

ThyssenKrupp North America, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2015 and 2014

Note 1 - Plan Description (Continued)

Vesting - Participants are immediately 100 percent vested in their elective deferrals, rollover contributions, and company contributions, plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts prior to January 1, 2008, plus actual earnings thereon, is based on years of service. Participants vest in contributions made by the Company at 25 percent after two years of service and another 25 percent per year thereafter until becoming fully vested after five years of service.

As of 2006, the Plan was considered partially terminated due to a substantial reduction in the number of plan participants. Accordingly, all participants affected by the partial termination became 100 percent vested in their entire account balances during 2006.

Benefit Payments - Upon termination of employment due to death, disability or retirement, the participant can elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments in accordance with plan provisions. For termination of employment for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Participant Notes Receivable - Participants may borrow from their accounts subject to certain maximum and minimum amounts as prescribed in the Plan and in the Internal Revenue Code. Participant notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Hardship Withdrawals - Participants may request that all or a portion of their accounts be distributed in the case of severe financial hardship, as defined in the plan agreement. Hardship withdrawals are completed by the participant either electronically or by phone.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the Trustee shall distribute all assets remaining in the Plan, after payment of any expenses properly chargeable against the Plan, to the participants in accordance with the value of the units credited to such participants as of the date of such termination. Participants are 100 percent vested upon termination of the Plan.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Fidelity or its affiliates. Fidelity is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines. Certain administrative expenses of the Plan are paid by the Company, and qualify as party-in-interest transactions as well.

ThyssenKrupp North America, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2015 and 2014

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value. The fair value of the Plan's interest in the ThyssenKrupp North America, Inc. Defined Contribution Master Trust (the "Master Trust") is based on the beginning value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income (loss) less actual distributions and allocated administrative expenses (see Note 4).

The common collective trust funds are valued at net asset value per share (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets. All other investments are valued based on quoted market prices. See Note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

ThyssenKrupp North America, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2015 and 2014

Note 2 - Summary of Significant Accounting Policies (Continued)

Change in Presentation - The presentation of the stable value common collective trust for 2014 has been changed to be consistent with the 2015 presentation. The fund is presented using net asset value (NAV) per unit as a practical expedient for the fair value of the investment without presentation of contract value or the difference between fair value and contract value. This change in presentation resulted from a recent clarification from the Financial Accounting Standards Board, and had no effect on total net assets available for benefits or the change in net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 3, 2016, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Fidelity Management Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year, including Master Trust information included in Note 4, are based solely on information provided by the Trustee.

Note 4 - Interest in Master Trust

The Plan's investments are in the Master Trust which was established for the investment of assets of the Plan and several other thyssenkrupp North America, Inc. (formerly known as ThyssenKrupp North America, Inc.) sponsored benefit plans. Each participating plan's interest in the Master Trust is based on account balances of the participants and their elected investment options. The assets of the Master Trust are held by Fidelity Management Trust Company. At December 31, 2015 and 2014, the Plan's interest in the net assets of the Master Trust was approximately 7 percent and 8 percent, respectively. Investment income (loss) and administrative expenses relating to the Master Trust are allocated to the individual plans based upon their pro-rata share in the investments of the Master Trust. The participants may elect to have a percentage of their contributions allocated to one or more funds.

The fair values of investments for the Master Trust at December 31, 2015 and 2014 are as follows:

	2015	2014
Money market funds	\$ 22,938,246	\$ 19,625,084
Mutual funds	333,765,452	334,606,766
Corporate stock	8,505,476	10,984,832
Common collective trust funds	164,670,129	149,872,665
Total Master Trust investments	<u>\$529,879,303</u>	<u>\$515,089,347</u>

ThyssenKrupp North America, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2015 and 2014

Note 4 - Interest in Master Trust (Continued)

The investment income for the Master Trust for the years ended December 31, 2015 and 2014 are as follows:

	2015	2014
Net realized and unrealized (losses) gains:		
Mutual funds	\$ (12,918,652)	\$ 10,443,925
Common collective trust funds	(1,852,913)	6,400,909
Corporate stock	(1,784,931)	(1,499,915)
Interest and dividends	18,156,692	17,936,660
Net investment income	<u>\$ 1,600,196</u>	<u>\$ 33,281,579</u>

During 2014, one of the plans transferred out of the Master Trust due to its plan sponsor no longer being a part of thyssenkrupp North America, Inc.'s controlled group. The transfer out of the Master Trust totaled approximately \$45.3 million.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Master Trust's assets measured at fair value on a recurring basis at December 31, 2015 and 2014 and the valuation techniques used by the Master Trust to determine those fair values.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Master Trust has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

Notes to Financial Statements December 31, 2015 and 2014

Note 5 - Fair Value Measurements (Continued)

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Master Trust's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

ThyssenKrupp North America, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2015 and 2014

Note 1 - Plan Description

The following brief description of ThyssenKrupp North America, Inc. 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

Effective January 1, 2014, the Plan was amended to change its name from The Budd Company Preferred Savings and Investment Plan to ThyssenKrupp North America, Inc. 401(k) Plan as a result of the plan sponsor changing from The Budd Company to its parent, thyssenkrupp North America, Inc.

General - The Plan is a defined contribution plan sponsored by thyssenkrupp North America, Inc. (the "Company") covering all salaried employees of the Company other than employees covered by a collective bargaining agreement or who are in a job classification covered by another qualified defined contribution plan. The Plan also covers hourly employees at the Company's Hopkinsville Plant (Hopkinsville), hourly employees of The Budd Tallent Company, LLC (Budd Tallent), and employees of thyssenkrupp North America, Inc. Employees are eligible to participate in the Plan as of the employment commencement date. Employee participation in the Plan is voluntary. The Plan's investments are managed by the trustee, Fidelity Management Trust Company (Fidelity or the "Trustee"), and disbursed to specific investment option offerings in proportions directed by each participant. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

As of December 1, 2006, employees at Hopkinsville and Budd Tallent are no longer eligible for participation in the Plan. During 2006, the Company either sold or closed all of its operating facilities.

Contributions - Employee contributions represent a percentage of each eligible participant's pretax or after-tax earnings as defined in the plan agreement and are subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Plan provides for employer matching contributions of 100 percent of the first 5 percent of the participant's contributions. Additional participant contributions beyond 5 percent are not matched by the Company.

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of the company matching contributions and plan earnings (losses) and is charged with an allocation of administrative expenses. Allocations are based on participants' earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

ThyssenKrupp North America, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2015 and 2014

Note 1 - Plan Description (Continued)

Vesting - Participants are immediately 100 percent vested in their elective deferrals, rollover contributions, and company contributions, plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts prior to January 1, 2008, plus actual earnings thereon, is based on years of service. Participants vest in contributions made by the Company at 25 percent after two years of service and another 25 percent per year thereafter until becoming fully vested after five years of service.

As of 2006, the Plan was considered partially terminated due to a substantial reduction in the number of plan participants. Accordingly, all participants affected by the partial termination became 100 percent vested in their entire account balances during 2006.

Benefit Payments - Upon termination of employment due to death, disability or retirement, the participant can elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments in accordance with plan provisions. For termination of employment for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Participant Notes Receivable - Participants may borrow from their accounts subject to certain maximum and minimum amounts as prescribed in the Plan and in the Internal Revenue Code. Participant notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Hardship Withdrawals - Participants may request that all or a portion of their accounts be distributed in the case of severe financial hardship, as defined in the plan agreement. Hardship withdrawals are completed by the participant either electronically or by phone.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the Trustee shall distribute all assets remaining in the Plan, after payment of any expenses properly chargeable against the Plan, to the participants in accordance with the value of the units credited to such participants as of the date of such termination. Participants are 100 percent vested upon termination of the Plan.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Fidelity or its affiliates. Fidelity is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines. Certain administrative expenses of the Plan are paid by the Company, and qualify as party-in-interest transactions as well.

ThyssenKrupp North America, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2015 and 2014

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value. The fair value of the Plan's interest in the ThyssenKrupp North America, Inc. Defined Contribution Master Trust (the "Master Trust") is based on the beginning value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income (loss) less actual distributions and allocated administrative expenses (see Note 4).

The common collective trust funds are valued at net asset value per share (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets. All other investments are valued based on quoted market prices. See Note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

ThyssenKrupp North America, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2015 and 2014

Note 2 - Summary of Significant Accounting Policies (Continued)

Change in Presentation - The presentation of the stable value common collective trust for 2014 has been changed to be consistent with the 2015 presentation. The fund is presented using net asset value (NAV) per unit as a practical expedient for the fair value of the investment without presentation of contract value or the difference between fair value and contract value. This change in presentation resulted from a recent clarification from the Financial Accounting Standards Board, and had no effect on total net assets available for benefits or the change in net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 3, 2016, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Fidelity Management Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year, including Master Trust information included in Note 4, are based solely on information provided by the Trustee.

Note 4 - Interest in Master Trust

The Plan's investments are in the Master Trust which was established for the investment of assets of the Plan and several other thyssenkrupp North America, Inc. (formerly known as ThyssenKrupp North America, Inc.) sponsored benefit plans. Each participating plan's interest in the Master Trust is based on account balances of the participants and their elected investment options. The assets of the Master Trust are held by Fidelity Management Trust Company. At December 31, 2015 and 2014, the Plan's interest in the net assets of the Master Trust was approximately 7 percent and 8 percent, respectively. Investment income (loss) and administrative expenses relating to the Master Trust are allocated to the individual plans based upon their pro-rata share in the investments of the Master Trust. The participants may elect to have a percentage of their contributions allocated to one or more funds.

The fair values of investments for the Master Trust at December 31, 2015 and 2014 are as follows:

	2015	2014
Money market funds	\$ 22,938,246	\$ 19,625,084
Mutual funds	333,765,452	334,606,766
Corporate stock	8,505,476	10,984,832

ThyssenKrupp North America, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2015 and 2014

Note 4 - Interest in Master Trust (Continued)

The investment income for the Master Trust for the years ended December 31, 2015 and 2014 are as follows:

	2015	2014
Net realized and unrealized (losses) gains:		
Mutual funds	\$ (12,918,652)	\$ 10,443,925
Common collective trust funds	(1,852,913)	6,400,909
Corporate stock	(1,784,931)	(1,499,915)
Interest and dividends	18,156,692	17,936,660
Net investment income	<u>\$ 1,600,196</u>	<u>\$ 33,281,579</u>

During 2014, one of the plans transferred out of the Master Trust due to its plan sponsor no longer being a part of thyssenkrupp North America, Inc.'s controlled group. The transfer out of the Master Trust totaled approximately \$45.3 million.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Master Trust's assets measured at fair value on a recurring basis at December 31, 2015 and 2014 and the valuation techniques used by the Master Trust to determine those fair values.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Master Trust has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

ThyssenKrupp North America, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2015 and 2014

Note 5 - Fair Value Measurements (Continued)

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Master Trust's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

- (2) This class represents investments in an actively managed common collective trust fund that invest primarily in wrapper contracts and fixed income securities, including corporate bonds, U.S. government and government agency obligations, asset backed securities, collateralized mortgage obligations, commercial mortgage securities, and U.S. government agency mortgage securities. The common collective trust fund has certain limitations on withdrawals and exchanges as follows:

Participant-directed - Withdrawals made in order to accommodate distributions to participants or transfers to noncompeting investments may be made on any business day. Transferred amounts must be held in a noncompeting investment option for 90 days before subsequent transfers to a competing fund can occur.

Nonparticipant-directed - Withdrawals directed by a plan sponsor must be preceded by a 12 month written notice to Fidelity Management Trust Company (Fidelity). Fidelity, however, may, at its discretion complete any such plan level withdrawal before the expiration of such 12 month period. No such notice has been given to Fidelity.

There are no unfunded commitments or other redemption notice requirements with this class.

The Master Trust's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2015 and 2014.
