There were no expenses related to administration of the Plan allocated to participants for the year ended December 31, 2015. Investment related expenses totaled \$11,278 for the year ended December 31, 2015 and are included in net depreciation of fair value of investments.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when approved. As of December 31, 2015 and 2014, there were no unpaid distribution requests.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent), (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by ASC No. 820, Fair Value Measurement. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for the Plan for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early application is permitted. The Plan has elected to adopt ASU 2015-07 early.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Recent Accounting Pronouncements (continued)

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I of the ASU 2015-12 is not applicable to the Plan. Part II of the ASU 2015-12 eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III of the ASU 2015-12 is not applicable to the Plan. The ASU 2015-12 is effective for fiscal years beginning after December 15, 2015. Part II is to be applied retrospectively. The Plan has elected to adopt Part II early.

NOTE C – INVESTMENTS (INFORMATION CERTIFIED BY THE PLAN TRUSTEE)

On July 1, 2015 the plan changed trustees. The plan administrator has elected the method of compliance permitted by 29 CFR 250.103-8 of the Department of Labor's Rules and Regulations for Report and Disclosures under ERISA. Accordingly, all investment information discussed in the accompanying financial statements and schedule, including investments held at December 31, 2015, net depreciation in fair value of investments, and interest for the six-month period ended December 31, 2015, were obtained for derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

NOTE D – FAIR VALUE MEASUREMENTS

Accounting Standards Codification Topic 820, *Fair Value Measurements* (ASC topic 820), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Investments are stated at fair value as defined by observable quoted prices in active markets (Level 1) or by quoted prices for similar assets in active markets (Level 2).

NOTE D – FAIR VALUE MEASUREMENTS (CONTINUED)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	Level 1	Level 2	Level 3	Total

NOTE F – TAX STATUS

The underlying non-standardized prototype plan has received an opinion letter from the IRS dated March 31 2008, stating that the form of the Plan is qualified under Section 401 of the Internal Revenue Code, and therefore, the related trust is tax exempt. In accordance with Revenue Procedure 2002-6 and Announcement 2001-77, the plan sponsor has determined that it is eligible to, and has chosen to, rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended subsequent to the issuance of the determination letter. The Plan administrator believes the Plan, as amended, is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) of the Plan if the Plan has taken an uncertain tax position that are more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in process. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012.

NOTE G – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE H - PARTIES-IN-INTEREST TRANSACTIONS

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, and a person who owns 50% or more of such an employer or employee association, or relatives of such persons. Certain administrative services are provided by the Company at no cost to the Plan.

At December 31, 2015 certain investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee, as defined by the Plan, and qualifies as a party-in-interest.

NOTE I – SUBSEQUENT EVENTS

In connection with the preparation of the Plan's financial statements for the year ended December 31, 2015, events and transactions subsequent to December 31, 2015 through October 7, 2016 have been evaluated by the Plan administrator for possible adjustment and/or disclosure. No subsequent events requiring financial statement adjustment and/or disclosure have been identified.

Participant loans are not permitted under the Plan.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when approved. As of December 31, 2015 and 2014, there were no unpaid distribution requests.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent), (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by ASC No. 820, Fair Value Measurement. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for the Plan for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early application is permitted. The Plan has elected to adopt ASU 2015-07 early.

NOTES TO FINANCIAL STATEMENTS
December 31, 2015 and 2014

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Recent Accounting Pronouncements (continued)

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I of the ASU 2015-12 is not applicable to the Plan. Part II of the ASU 2015-12 eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III of the ASU 2015-12 is not applicable to the Plan. The ASU 2015-12 is effective for fiscal years beginning after December 15, 2015. Part II is to be applied retrospectively. The Plan has elected to adopt Part II early.

NOTE C – INVESTMENTS (INFORMATION CERTIFIED BY THE PLAN TRUSTEE)

On July 1, 2015 the plan changed trustees. The plan administrator has elected the method of compliance permitted by 29 CFR 250.103-8 of the Department of Labor's Rules and Regulations for Report and Disclosures under ERISA. Accordingly, all investment information discussed in the accompanying financial statements and schedule, including investments held at December 31, 2015, net depreciation in fair value of investments, and interest for the six-month period ended December 31, 2015, were obtained for derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

NOTE D – FAIR VALUE MEASUREMENTS

Accounting Standards Codification Topic 820, *Fair Value Measurements* (ASC topic 820), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Investments are stated at fair value as defined by observable quoted prices in active markets (Level 1) or by quoted prices for similar assets in active markets (Level 2).

NOTE D – FAIR VALUE MEASUREMENTS (CONTINUED)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	Level 1	Level 2	Level 3	Total
Cash	\$ -	\$ -	\$ -	\$ -

NOTE F – TAX STATUS

The underlying non-standardized prototype plan has received an opinion letter from the IRS dated March 31 2008, stating that the form of the Plan is qualified under Section 401 of the Internal Revenue Code, and therefore, the related trust is tax exempt. In accordance with Revenue Procedure 2002-6 and Announcement 2001-77, the plan sponsor has determined that it is eligible to, and has chosen to, rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended subsequent to the issuance of the determination letter. The Plan administrator believes the Plan, as amended, is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) of the Plan if the Plan has taken an uncertain tax position that are more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in process. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012.

NOTE G – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE H - PARTIES-IN-INTEREST TRANSACTIONS

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, and a person who owns 50% or more of such an employer or employee association, or relatives of such persons. Certain administrative services are provided by the Company at no cost to the Plan.

At December 31, 2015 certain investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee, as defined by the Plan, and qualifies as a party-in-interest.

NOTE I – SUBSEQUENT EVENTS

In connection with the preparation of the Plan's financial statements for the year ended December 31, 2015, events and transactions subsequent to December 31, 2015 through October 7, 2016 have been evaluated by the Plan administrator for possible adjustment and/or disclosure. No subsequent events requiring financial statement adjustment and/or disclosure have been identified.
