**THE PLATINUM 401(k) RETIREMENT SAVINGS PLAN**  
**FBO: PATRICK K. NEAL & ASSOCIATES, INC.**

**Notes to Financial Statements**

**A. Description of Plan**

The following description of The Platinum 401(k) Retirement Savings Plan FBO: Patrick K. Neal & Associates, Inc. (the “Plan”) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan’s provisions.

1. General. The Plan is a defined contribution plan covering all full-time employees of the Patrick K. Neal & Associates, Inc. (the “Company”), who have 2 months of service and are age 18 or older. Effective January 1, 2014, the Company elected to participate in the Platinum 401(k) Retirement Savings Plan, a “multiple employer” plan as described in Section 413(c) of the Internal Revenue Code. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 (ERISA).
2. Contributions. Each year, participants may contribute a percent of pretax annual compensation as defined in the Plan to the maximum allowed by the Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants also may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan does not include an auto-enrollment provision. Eligible employees must enroll if they wish to participate in the Plan.

Each year, the Company may, in its sole discretion, make Safe Harbor Matching contribution on behalf of the participants in an amount determined by the Company not to exceed \$10,000. During the year ended December 31, 2015, the Company made Safe Harbor Matching contributions equal to 100% of the first 6% of a participant’s compensation. During the year ended December 31, 2014, the Company made Safe Harbor Matching contributions equal to 100% of the first 3% of a participant’s compensation plus 50% of the next 2% of deferrals.

The Company may also, in its sole discretion, make a Discretionary contribution on behalf of the participants in an amount determined by the Company. Such a contribution, if made, will be allocated to each participant eligible in pro rata shares. No such Discretionary contributions were made for the years ended December 31, 2015 and 2014 respectively.

**FBO: PATRICK K. NEAL & ASSOCIATES, INC.**

**Notes to Financial Statements**

**A. Description of Plan (continued...)**

3. Participant accounts. Each participant's account is credited with the participant's contributions and the Company's matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
4. Vesting. Participants are vested immediately in their contributions plus actual earnings on the contributions. Vesting in the Company's matching and discretionary contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after 6 years of credited service.
5. Notes receivable from participants. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate, as published in *The Wall Street Journal* on the date the loan is processed, plus 1%. Principal and interest is paid ratably through payroll deductions.
6. Payment of benefits. Retired or terminated participants may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

In the event of a participant's death, his or her designated beneficiary may request a distribution of his or her account.

Withdrawals may also be made in conjunction with IRS hardship distribution regulations.

7. Forfeited accounts. Upon termination of employment the non-vested portion of a participant's account is forfeited. Forfeitures may first be used to pay Plan expenses and then shall be used to reduce the Company's contributions.

**Notes to Financial Statements**

**B. Summary of Accounting Policies**

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting. Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in those assets and liabilities, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015, or 2014. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan agreement.

**THE PLATINUM 401(k) RETIREMENT SAVINGS PLAN**  
**FBO: PATRICK K. NEAL & ASSOCIATES, INC.**

**Notes to Financial Statements**

**B. Summary of Accounting Policies (continued...)**

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service are recorded as a liability with a corresponding increase in Corrective Distributions. There were no such excess contributions payable at December 31, 2015 and 2014.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses incurred maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment-related expenses are included in net appreciation of fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 5, 2016, the date the financial statements were available to be issued.

**Notes to Financial Statements**

**C. Fair Value Measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

---

|         |                                                                                                                                                                            |
|---------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Level 1 | Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date. |
|---------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

---

|         |                                                                                                                                                 |
|---------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| Level 2 | Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as: |
|---------|-------------------------------------------------------------------------------------------------------------------------------------------------|

- a. Quoted prices for similar assets or liabilities in active markets
- b. Quoted prices for identical or similar assets or liabilities in inactive markets
- c. Inputs other than quoted prices that are observable for the asset or liability
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

---

|         |                                                                 |
|---------|-----------------------------------------------------------------|
| Level 3 | Inputs that are unobservable inputs for the asset or liability. |
|---------|-----------------------------------------------------------------|

---

**THE PLATINUM 401(k) RETIREMENT SAVINGS PLAN**  
**FBO: PATRICK K. NEAL & ASSOCIATES, INC.**

**Notes to Financial Statements**

**C. Fair Value Measurements (continued...)**

Following is a description of the valuation methodologies used for assets measured at fair value.

There have been no changes in the methodologies used at December 31, 2015, and 2014.

1. Common stocks. Valued at the closing price reported on the active market on which the individual securities are traded.
2. Self-directed brokerage accounts. Accounts primarily consist of mutual funds and common stocks that are valued on the basis of readily determinable market prices.
3. Corporate bonds. Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing the value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, those corporate bonds are valued under a discounted cash flow approach that maximizes observable inputs, such as current yields or similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.
4. Mutual funds. Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
5. U.S. government securities. Valued using pricing models maximizing the use of observable inputs for similar securities.
6. John Hancock Stable Value Fund. A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

**C. Fair Value Measurements (continued...)**

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015, and 2014. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Transfers between Levels

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2015, and 2014, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

**Notes to Financial Statements**

**D. Fully Benefit-Responsive Investment Contracts**

The Plan does not hold any investments that comprise traditional or synthetic investment contracts which would be reported at contract value.

**E. Rollover Contributions**

Rollovers may be accepted from all Participants who are Employees, even prior to meeting eligibility conditions to be a participant. Distributions may be made at any time from a participant's rollover account.

**F. Related-Party Transactions and Party-in-Interest Transactions**

Certain plan investments are shares of mutual funds managed by various mutual fund companies and held by John Hancock Life Insurance Company, the custodian as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions.

During the year ended December, 31, 2015, American Pension Services, LLC received administrative fees and NFP Securities, Inc. and Independent Financial Partners received fees for advisory services. Fees paid for these services may be included in net appreciation of fair value of investments and administrative expense. These transactions also qualify as party-in-interest transactions for which there is a statutory exemption.

Certain administrative functions are performed by officers or employees of the Plan's sponsor. No such officer or employee receives compensation from the Plan.

**G. Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

**Notes to Financial Statements**

**H. Tax Status**

The Platinum 401(k) Retirement Savings Plan received a “favorable” determination letter from the Internal Revenue Service on September 8, 2013, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter and the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified and that the related trust is tax-exempt.

**I. Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the statement of net assets available for benefits.

**J. Reconciliation of Financial Statements to Form 5500**

Certain differences may exist between the recording of accruals for financial reporting purposes and IRS/Department of Labor’s (DOL) Form 5500 purposes. There were no such differences as of and for the years ended December 31, 2015 and 2014.

**K. Certified Investments**

Other than the fair value of the guaranteed investment contract and the related adjustment from fair value to contract value for fully benefit-responsive investment contracts, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2015 and 2014 and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2015, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by John Hancock Life Insurance Company, the custodian.
