UPMC Basic Retirement Plan

Notes to Financial Statements

December 31, 2015 and 2014

1. Description of the Plan

General

The UPMC Basic Retirement Plan (the Plan) is a noncontributory defined benefit plan covering eligible active employees of UPMC (Plan Sponsor) and its subsidiary corporations and affiliates under the Urban and Community Plan Designs, as outlined in the plan document. All active employees may participate after meeting eligibility requirements as outlined in the plan document.

Periodically, defined benefit plans of UPMC's subsidiary corporations merge with and into the Plan, and the pension plan assets of the subsidiary's defined benefit pension plans are transferred into the Plan.

Benefits

The benefit formula (Cash Balance Formula) is based on age, years of benefit service, annual salary, and certain other factors.

- The Urban Plan Design annual retirement credits range from 2.5% to 5.0% of eligible pay based on age and benefit service.
- The Community Plan Design annual retirement credits range from 3.5% to 6.0% of eligible pay based on age and benefit service.
- Interest credit is based on 30-year Treasury bond rate.

When a UPMC subsidiary corporation or affiliate adopts the Plan, each active participant's accrued benefit, if any, is converted to a lump-sum present value representing a notional opening balance that will accrue daily interest based on the 30-year treasury bond rate which is compounded on a quarterly basis plus retirement credits as discussed above. Certain transition credits were granted to active participants who met specific age and service criteria. The transition credits offered, if any, were dependent upon the entity's prior defined benefit plan in effect at the time of the conversion date. The age and service points used to determine eligibility for transition credits is measured as of December 31 or, in some instances, the day which precedes the Cash Balance Formula conversion date. The Cash Balance Formula will provide annual retirement credits based on each eligible participant's age and years of benefit service for all participating employers. Under either scenario, the Cash Balance Formula age and service (if applicable) "points" are determined as of December 31 of the preceding calendar year.

UPMC Basic Retirement Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

The accrued benefit is the benefit produced by the Cash Balance accumulation, but no less than the accrued benefit earned under any prior plan in effect prior to the introduction of the Cash Balance Plan.

Funding

UPMC contributes such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to participants, to maintain the Plan at the appropriate level to avoid paying Pension Benefit Guaranty Corporation (PBGC) variable rate premiums, and to satisfy the Employee Retirement Income Security Act of 1974 (ERISA) minimum funding requirement. The plan has met the ERISA minimum funding requirements for 2015 and 2014.

Plan Termination

Although it has not expressed an intention to do so, UPMC reserves the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination, the net assets of the Plan will be allocated for payment to the participants in an order of priority as prescribed by ERISA and its related regulations and the plan document.

Should the Plan terminate at some future time, its net assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Plan Merger

The Retirement Plan for Employees of Altoona Regional Health System was merged into the Plan. The net assets transferred to the Plan are reflected on the statements of changes in net assets available for benefits as a transfer from other qualified plan.

The above brief description of the Plan is provided for general information purposes only. Participants should refer to the plan document for complete information about the Plan, the vesting and benefit provisions, the allocation of the Plan's assets in the event the Plan terminates,

and the PBGC's benefit guarantee. Summary information is contained in the Summary Plan Descriptions that are available from the UPMC Retirement Line or online through UPMC's internal website.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan reports its financial statements on the accrual method of accounting.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Administrative Expenses

All administrative expenses are paid by the Plan, which includes trustee's fees, actuary's fees, and other pension plan related fees.

Subsequent Events

Management evaluated subsequent events for the Plan through October 7, 2016, the date the financial statements were available to be issued.

Investment Valuation and Income Recognition

The Plan's investments, which are held in the UPMC Master Trust (Master Trust), are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 5 for further discussion of fair value measurements.

UPMC Basic Retirement Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

The interest in Master Trust includes investments in partnership interests, representing investments in hedge funds approximating \$214,677,732 and \$243,306,028 and venture capital funds approximating \$422,524,335 and \$401,900,603 as of December 31, 2015 and 2014, respectively. As of December 31, 2015, UPMC has outstanding commitments to invest up to \$188,203,866 in private capital funds from the Master Trust.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)*, (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification (ASC) 820, *Fair Value Measurement*. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for entities (other than public business entities) for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early application is permitted. Management has elected to adopt ASU 2015-07 early.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I of the ASU eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of the ASU eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information

2. Summary of Significant Accounting Policies (continued)

about fair value measurements shall be provided by general type of plan asset. Part III of the ASU allows a plan with a fiscal year-end that doesn't coincide with the end of a calendar month to measure its investments and investment-related accounts using the month-end closest to its fiscal year-end. The ASU is effective for fiscal years beginning after December 15, 2015. Parts I and II are to be applied retrospectively. Part III is to be applied prospectively. Plans can early adopt any of the ASU's three parts without early adopting the other parts. Management has elected to adopt Part II early. Parts I and III are not applicable to the Plan.

3. Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the participants to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of employees who have died, and (c) active participants or their beneficiaries. Benefits for retired or terminated participants or beneficiaries are based on plan provisions in effect at the time when the participants terminated service. The accumulated plan benefits for active participants are based on their compensation and credited service for the period preceding the valuation date. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included in the calculation of the accumulated plan benefits to the extent they are deemed attributable to employee service rendered to the valuation date.

The Plan's actuary estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

UPMC Basic Retirement Plan

Notes to Financial Statements (continued)

3. Accumulated Plan Benefits (continued)

The accumulated plan benefit information is determined by the Plan's actuary as of the beginning of the plan year. The actuarial present value of accumulated plan benefits as of the end of the previous plan year is as follows:

	<u>December 31, 2014</u>
Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 279,522,637
Vested benefits for other participants	951,902,032
Total vested benefits	<u>1,231,424,669</u>
Nonvested benefits	30,287,465
Total actuarial present value of accumulated plan benefits	<u><u>\$ 1,261,712,134</u></u>

The change in the actuarial present value of accumulated plan benefits is as follows:

Actuarial present value of accumulated plan benefits as of beginning of year January 1, 2014	\$ 942,779,412
Increase (decrease) during the year attributed to:	
Interest accumulation	71,470,399
Benefits accumulated	108,883,994
Assumption change	3,647,480
Benefits paid	(90,521,341)
Plan amendment (transfer of Altoona)	<u>225,452,190</u>
Net increase	<u>318,932,722</u>
Actuarial present value of accumulated plan benefits as of end of year December 31, 2014	<u><u>\$ 1,261,712,134</u></u>

The accumulated plan benefits information presented herein includes the effects of the merger of the Retirement Plan for Employees of Altoona Regional Health System into the Plan (see Note 1) subsequent to January 1, 2014.

UPMC Basic Retirement Plan

Notes to Financial Statements (continued)

3. Accumulated Plan Benefits (continued)

Significant assumptions underlying the actuarial computations are:

Assumed rate of return on investment	8%
Mortality basis	Healthy and Disabled: RP-2014 aggregate mortality table adjusted to 2006 using Scale MP-2014, with a fully generational projection using Scale MP-2015
Retirement rate	Retirement at varying percentages for the ages of 55 through 69 with 100% of participants assumed to retire by age 70

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The actuary estimated the accumulated plan benefits as of January 1, 2015. There were no significant changes to the Plan that would have changed the valuation had it been performed as of December 31, 2014.

4. Investments

All investment information, other than the fair value of the limited partnership interests and related net appreciation, disclosed in the accompanying financial statements and footnotes, including investments held at December 31, 2015 and 2014, and net (depreciation) appreciation in fair value of investments and interest and dividend income from interest in Master Trust for the years ended December 31, 2015 and 2014, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the trustee, The Bank of New York Mellon/BNY Mellon, N.A. The Plan Sponsor recorded the fair value of the partnership interests using valuations obtained directly from the partnerships through December 31, 2015 and 2014, in the accompanying financial statements.

The Plan's investments are held in the Master Trust, which was established for the investment of assets of the Plan and another UPMC-sponsored retirement plan. Each participating retirement plan has an undivided interest in the Master Trust. The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions,

benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to each plan's beneficial interest in the Master Trust, income and expenses resulting from the collective investment of the assets of the Master Trust. At December 31, 2015 and 2014, the Plan's interest in the net assets of the Master Trust was approximately 97% and 96%, respectively.

The following table presents the net assets, including investments, of the Master Trust:

Total net (depreciation) appreciation in fair value and interest and dividend income	\$ (7,802,342)	\$ 83,204,554

5. Fair Value Measurements

Fair value is defined under ASC 820 as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.
- Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - Quoted prices for similar assets and liabilities in active markets

UPMC Basic Retirement Plan

Notes to Financial Statements (continued)

5. Fair Value Measurements (continued)

- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means
- Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

Following is a description of the valuation techniques and inputs used for each general type of investment in the Master Trust measured at fair value:

Cash is valued at amortized cost which approximates fair value.

Corporate stocks, ETFs and U.S. REITS are valued at the closing price reported on the active market on which the individual securities are traded.

Registered investment companies are valued based on quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end. The NAV is a quoted price in an active market.

U.S. government securities are valued at fair value using quoted market prices. The quoted market price is available in an active market.

Asset and mortgage-backed securities, money market and corporate debt instruments are valued at fair value, which is estimated using quoted prices of securities with similar characteristics. The quoted market prices for the specific securities are not available in an active market.

Common/collective trust funds (funds) are valued at NAV.

Limited partnerships are valued at NAV.

- (a) The investment objective for these funds is to achieve long-term capital growth. One fund also seeks to achieve total return in excess of the Morgan Stanley Capital International Inc. Emerging Markets Index through investing in emerging stock markets. Liquidity provisions vary per fund, with redemptions being permitted on the valuation date with written notification at least one month prior to redemption. The valuation date varies per fund, but ranges mainly from weekly to monthly.
- (b) The investment objective of these limited partnerships is to invest in commercial real estate properties and real estate related assets. On an individual basis, these partnerships have a finite life. At December 31, 2015, it is estimated that the underlying assets of these partnerships will be liquidated over an average of eight years and there is no ability for the Plan Sponsor to redeem prior to the conclusion of the partnerships. Some of these partnerships may elect to extend their term at their discretion. The outstanding commitment to invest in these funds is up to \$22,740,979.
- (c) The investment objective of these limited partnerships is to acquire energy assets such as oil and natural gas production, oilfield services, power generation, and other natural resources-related industries that have the potential for meaningful capital appreciation. On an individual basis, these partnerships have a finite life. At December 31, 2015, it is estimated that the underlying assets of these partnerships will be liquidated over an average of nine years and there is no ability for the Plan Sponsor to redeem prior to the conclusion of the partnerships. 5. Fair Value Measurements (continued)

- ^(f) The investment objective of these limited partnerships is to achieve long-term capital appreciation through a diversified portfolio of leveraged buyout, growth equity, venture capital, structured equity and distressed debt investment opportunities throughout the globe. On an individual basis, these partnerships have a finite life. At December 31, 2015, it is estimated that the underlying assets of these partnerships will be liquidated over an average of seven years and there is no ability for the Plan Sponsor to redeem prior to the conclusion of the partnerships. Some of these partnerships may elect to extend their term at their discretion. The outstanding commitment to invest in these funds is up to \$122,422,309.

6. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated May 1, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was restated and amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related Master Trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

UPMC Basic Retirement Plan

Notes to Financial Statements (continued)

7. Risks and Uncertainties (continued)

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

8. Related-Party Transactions

Certain of the Plan's assets are invested in funds managed by the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

Surviving Spouse Benefit	It is assumed that 85% of males and 85% of females have an eligible spouse, and that males are four years older than their spouses.
Valuation Compensation	2014 Pensionable earnings rolled forward one year with the salary increase assumption
Benefit and Compensation Limits	Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of \$210,000 and the IRC section 401(a)(17) compensation limit of \$265,000.
Valuation of Plan Assets	<p>Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).</p>
Expected Return on Assets

Surviving Spouse Benefit	It is assumed that 85% of males and 85% of females have an eligible spouse, and that males are four years older than their spouses.
Valuation Compensation	2014 Pensionable earnings rolled forward one year with the salary increase assumption
Benefit and Compensation Limits	Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of \$210,000 and the IRC section 401(a)(17) compensation limit of \$265,000.
Valuation of Plan Assets	<p>Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).</p>
