Note A – Description of plan

The following description of the Rogers-O'Brien Construction Company, LTD 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all full-time employees of the Company who are age twenty-one or older. Effective January 1, 2015, employees who are covered by a collective bargaining agreement are excluded. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions and funding. Each year, participants may contribute up to $18,000 of pretax annual compensation, as defined in the Plan. In addition, participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan automatically defers 4% for all eligible employees who do not make an affirmative deferral election.

Company contributions. The Plan allows a discretionary employer matching contribution and an additional discretionary profit sharing contribution at the option of the Company's Board of Directors. In 2015, the Company elected to match 50% of the first 6% of compensation that a participant contributes to the Plan. No additional discretionary profit sharing contribution was authorized.

Rollovers. Participants may also contribute amounts representing distributions from other eligible retirement plans. Contributions are subject to certain limitations. All contributions are paid in cash.

Participant accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings (losses), (c) cost of investment management expenses, transactional costs and service charges. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their voluntary contributions and prior year Safe Harbor contributions plus actual earnings thereon. Vesting in the Company's nonelective and discretionary matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. After one year of service participants become 20 percent vested, and an additional 20 percent for each year thereafter, reaching 100 percent vested at the completion of five years of credited service.

Note A – Description of plan (cont'd)

Notes receivable from participants. Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan terms range from 1-5 years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. At December 31, 2015, all outstanding loans held an interest rate of 4.25% to 4.50%. Principal and interest is paid ratably through weekly payroll deductions.

Payment of benefits. Distributions after termination of service for reasons other than death shall commence immediately. The participant will receive a cash lum sum payment equal to the value of the partiicpant's vested interest in his or her account. For termination of service due to death, beneficiaries will receive the value of the vested interest in his or her account by the end of the fifth year.

Investment options. Upon enrollment in the Plan, a participant may direct employee and employer contributions in a variety of investment options. Participants may change their investment options as often as they choose.

Note B – Summary of significant accounting policies

Basis of accounting. The financial statements of the Plan are prepared using the accrual method of accounting.

Investment valuation and income recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note I for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Note B – Summary of significant accounting policies (cont'd)

Changes in accounting policies. In July 2015, the FASB issued ASU 2015-12, *Plan Accounting; Defined Contribution Pension Plans (Topic 962): (Part 1) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type: however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as direct filing entity, disclosure of that investment's strategy will no longer be required. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Parts I and II early to simplify financial reporting. The change had no significant impact on the measurements of the Plan's assets and liabilities.

In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per share (or its equivalent*), which is effective for fiscal years beginning after December 15, 2016 for entities other than public business entities.. The amendments in the Update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. As permitted by ASU 2015-07, the Plan has early adopted this pronouncement for the year ended December 31, 2015 and its investments in collective trust funds that are measured at fair value using the NAV per share (or its equivalent) as a practical expedient have not been categorized in the fair value hierarchy.

Participant and employer contributions receivable. Participant and employer contributions receivable represents deferrals withheld from participants' paychecks for the last pay period of December and the related employer matching contribution.

Note B – Summary of significant accounting policies (cont'd)

Notes receivable from participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015, or 2014. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits. Benefits are recorded when paid.

Withdrawals. Participants may make hardship withdrawals subject to certain restrictions.

Forfeitures. Forfeitures may be used to reduce administrative expenses or to reduce employer matching contributions. In 2015, administrative fees were reduced by $30,623 from forfeited nonvested accounts. The forfeited nonvested accounts as of December 31, 2015 and 2014 totaled $11,969 and $12,513 respectively.

Operating expenses. Operating expenses consist of fees for recordkeeping and other administrative services. Some fees are deducted from participant accounts in accordance with the plan documents for services received. The Company pays a portion of the plan operating expenses each year.

Note C – Reconciliation of financial statements to Form 5500

There were no differences between the form 5500 and these financial statements for the years ended December 31, 2015 and 2014.

Note D – Tax status

Rogers O'Brien Construction Company, Ltd adopted a prototype plan provided by BOKF, NA. The Internal Revenue Service (IRS) has informed BOKF, NA by opinion letter dated October 4, 2014 that the Plan and related trust are designed in accordance with applicable regulations of the Code. The Plan has been amended since receiving the opinion letter; however, the Company and the Plan administrator believe that the Plan is currently designed and operated in compliance with the applicable requirements of the Code and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note D – Tax status (cont'd)

GAAP requires the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes that all Plan years remain open and subject to audit.

Note E – Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note F – Risk and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note G – Related party transactions

Certain Plan investments are shares of mutual funds managed by Charles Schwab Bank. Charles Schwab Bank is the Trustee as defined in the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation (loss) in fair value of investments. These transactions are not considered prohibited transactions.

Note H – Information certified by the plan's trustee

Plan assets are held by Charles Schwab Bank, the Trustee. The Trustee holds the Plan's investment assets and executes investment transactions in accordance with the Plan documents. The information provided by the Trustee is certified as complete and accurate in accordance with 29 CF 2520.103-5c of the Department of Labor's Rules and Regulations for Reporting and disclosure under Employee Retirement Income Security Act of 1974. The Trustee's certification covers all information as shown below. The certified information is also included in the supplemental schedule.

Note H – Information certified by the plan's trustee (cont'd)

	Year ended December 31,	
	2015	2014
Cash	$ 1,055	$ 41,383

Notes receivable from participants	311,848	390,658
Total	$ 17,456,158	$ 17,267,338

For the year ended December 31, 2015, the net appreciation (loss) in fair value of investments in registered investment companies was ($772,132), net appreciation (loss) in fair value of money market funds was ($165), and the net appreciation in common/collective trusts was $349. Interest income was $15,473 for the year ended December 31, 2015.

The plan's independent auditors did not perform audit procedures with respect to this information except for comparing such information to the related information included in the financial statements and supplemental Schedule of Assets (Held at End of Year).

All assets of the Plan are participant directed.

Note I – Fair value measurements

The carrying values of various financial instruments, such as cash and accounts payable, approximate their fair value due to their short maturity.

The authoritative accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note I – Fair value measurements (cont'd)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. See Note B for changes in accounting policies as the Plan adopted ASU 2015-12 and ASU 2015-07.

Money market funds: Value based on short-term cash component as of the measurement date and classified within Level 1 on the valuation hierarchy.

Mutual funds: Valued at the daily closing price as reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at that price. The mutual funds held by the Plan are considered to be actively traded.

Stable value common collective trust: A stable value fund that is composed primarily of fully benefit-responsive investment contract is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable the fund will sell the investment for an amount different from the reported net assets value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the insurer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

Note I – Fair value measurements (cont'd)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015.

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 16,061,245	$	$	$ 16,061,245
Money market funds	1,006,650			1,006,650

Investments at fair value	$ 17,067,895	$ 0	$ 0	$ 17,143,255

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014.

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 16,561,491	$	$	$ 16,561,491

Investments at fair value	$ 16,706,369	$ 0	$ 0	$ 16,835,297

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Note I – Fair value measurements (cont'd)

Gains and losses (realized and unrealized) included in changes in net assets available for plan benefits for the year ended December 31, 2015 and 2014 are reported in net depreciation in fair value of investments, net depreciation in money market funds, and net appreciation in common/collective trusts.

For the years ended December 31, 2015 and 2014, there were no significant transfers into or out of Level 1, 2, or 3.

Investments measured using the net asset value per share practical expedient:

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2015 and 2014, respectively. There are no participant redemption restrictions for these investment; the redemption notice period is applicable only to the Plan.

Note K – Date of management's review

Plan management reviewed its operations and transactions occurring since December 31, 2015 through October 4, 2016, the date of which these financial statements were available to be issued, and did not identify any subsequent events.
