Note 1 – Description of Plan

The following description of the AWL Transport, Inc. 401(k) Retirement Savings Plan (“Plan”) sponsored by AWL Transport, Inc., (“Company”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have completed two months of service and are age twenty one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants are eligible to make Salary Deferrals to the Plan, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan offers various mutual funds as investment options for participant contributions. The Company has the discretion whether to make a matching contribution to the Plan. The Company did not make any matching contributions for the plan year ended December 31, 2015. Additional employer contributions may be made at the option of the Company’s board of directors. No employer contributions were made for the plan year ended December 31, 2015.

Participant Accounts

Each participant’s account is credited with the participant’s contribution and allocations of (a) the Company’s contribution if any and, (b) Plan earnings (losses), and charged with any fees directly associated with the administration of their account. Fees and expenses related to the administration of the Plan or associated with the investment of the Plan assets may be paid by the Plan or by the Employer.

Vesting

Participants are immediately 100% vested for their contributions plus actual earnings thereon. Vesting in the Company’s contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service.

Notes Receivable from Participants

The Plan does not permit Participants to take a loan from the Plan.

Payment of Benefits

Upon termination of service, a participant whose vested benefit does not exceed \$ 5,000 must receive a lump-sum amount equal to the value of the participant's vested interest in his or her account as soon as is administratively feasible. In the case of a participant whose vested benefit is in excess of \$ 5,000, the benefit will be paid in a lump sum payment upon the consent of the participant.

Note 2 – Summary of Significant Accounting Policies

Date of Management's Review

Subsequent events were evaluated through October 3, 2016, which is the date the financial statements were available to be issued.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's valuation policies. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Note 3 – Fair Value Measurements

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1). Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments

Note 3 – Fair Value Measurements-continued

for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available. There are no plan assets requiring the use of Level 2 or Level 3 inputs for the periods presented.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares as reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at that price. The mutual funds held by the Plan are considered to be actively traded. The fair values of the common stocks are based on the closing price reported on the active market where the individual securities are traded.

Level 2 Fair Value Measurements

The fair value of corporate bonds and U.S. government securities are valued using a market approach on yields currently available on comparable securities of issuers with similar credit ratings.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015 and 2014:

		Fair Value Measurements at the End of the Reporting Period Using:	
	<u>Fair Value</u>	Quoted Prices In Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)
<u>December 31, 2015</u>			
Equity Mutual Funds	\$155,209	\$155,209	\$ -
Fixed Income Mutual Funds	4,335	4,335	-
Total	<u>\$159,544</u>	<u>\$159,544</u>	<u>\$ -</u>

Fair Value Measurements at the End of the Reporting Period Using:			
		Quoted Prices In Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)
<u>December 31, 2014</u>	<u>Fair Value</u>		
Equity Mutual Funds	\$183,206	\$183,206	\$ -
Fixed Income Mutual Funds	3,980	3,980	-
Total	<u>\$187,186</u>	<u>\$187,186</u>	<u>\$ -</u>

Gains and losses included in changes in net assets available for benefits for the years ended December 31, 2015 and 2014, are reported in net appreciation in fair value of investments.

The Plan's policy is to recognize transfers between Levels 1 and 2 and into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2015, there were no significant transfers between Levels 1 and 2 and no transfers into or out of Level 3.

Note 4 – Reconciliation of Financial Statements to Schedule H of Form 5500

There is no difference between the net assets available for benefits per the financial statements at December 31, 2015 and the respective Schedule H of Form 5500.

Note 5 – Information Prepared and Certified by Custodian

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the custodian:

Total	<u>\$ 159,544</u>
Net investment loss	\$ (7,476)
Dividends	\$ 7,056

Note 6 – Plan Expenses

Administrative expenses of \$ 6,223 were incurred by the Plan during the period. Of this amount the Plan Sponsor paid \$ 5,293 and \$ 930 was paid from plan assets.

Note 7 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
