Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

To the Trustee and Participants of
The Berkline Associates Pension Plan

Report on the financial statements

We were engaged to audit the accompanying financial statements of The Berkline Associates Pension Plan (the “Plan”), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014 and the related statements of changes in net assets available for benefits for the years then ended, and the statement of accumulated plan benefits as of December 31, 2014 and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did

not perform, any auditing procedures with respect to the certified information described in Note I, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity of December 31, 2015 and 2014, and for the years then ended, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements other than that derived from the certified information described in Note I, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

A. DESCRIPTION OF PLAN

The following description of The Berkline Associates ("Berkline") Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Effective July 2002, NCFII Holdings, Inc., an entity created to oversee the LifeStyle Furnishings International Ltd.'s (the "Company" or "LFI") Plans and a subsidiary of Masco Corporation ("Masco"), became the Plan Sponsor for the Plan.

1. *General.* The Plan is a defined benefit pension plan covering eligible employees at Berkline, a former subsidiary of the Company, and prior to that, Masco. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan is a cash balance plan which, before it was frozen, provided for individual participant retirement accounts that increase with benefit credits based on annual compensation and investment income. These individual accounts are portable so that each vested participant who terminates from the Plan is entitled to remove their balance.

The Plan is administered by Masco's Benefits Department, which has overall responsibility for the operation and administration of the Plan. Masco's Pension Trust Investment Committee ("Committee"), which is a committee of members of management of Masco, is responsible for the management of the Masco Corporation Retirement Master Trust ("Master Trust"). The Committee sets the investment objectives, goals, and guidelines and monitors investment performance.

Effective December 31, 2001, in anticipation of the sale of the assets and business of Berkline, all benefit accruals under the Plan were frozen. As a result, there will be no increases in benefits under the Plan, and no new participants will be added to the Plan, from and after December 31, 2001.

2. *Pension Benefits.* Participants with five or more years of credited service at the time the Plan was frozen or who have attained normal retirement age (65) are entitled to vested annual pension benefits beginning at normal retirement age. Generally, employees may elect to receive their pension benefits in the form of a joint and survivor annuity, lifetime annuity or period certain annuity.

Pursuant to the Plan agreement, participants who left the Company after vesting in the Plan but before becoming eligible for early retirement may elect to receive their benefit payment any time after the earlier of reaching Early Retirement Age or at the end of the fourth calendar year following the participant's severance date. Considering the Plan freeze date, most participants became eligible for this payment effective January 1, 2006. Participants in this situation were notified of their benefit options during the 2006 Plan year by the Company.

3. *Death and Disability Benefits.* If a vested participant dies before retirement, a pre-retirement survivor annuity is paid to the participant's beneficiary. This survivor annuity is payable on the first day of the calendar month following the participant's death or as soon as practicable thereafter. Disability retirement benefits are subject to offsets as described in the Plan agreement.

4. *Funding Policy.* The contributions of the Company are designed to fund an amount which falls between the minimum contribution requirements and the maximum deductible allowance, as determined annually under the provisions of the Internal Revenue Code ("IRC"). The yield on investments of the Plan serves to reduce future contributions that would otherwise be required to provide for the defined level of benefits under the Plan. No contributions were made or required in 2015. The Company's contributions for 2014 of \$690,000, met or exceeded the minimum funding requirements of ERISA. No participant in the Plan is required to make a contribution under the Plan.

5. *Plan Termination.* Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

B. ACCOUNTING POLICIES

The following is a summary of significant accounting policies (in accordance with accounting principles generally accepted in the United States of America) followed in the preparation of these financial statements.

Basis of Accounting. The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates. The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from these estimates and assumptions.

Risks and Uncertainties. The Plan's invested assets ultimately consist of common and preferred stocks, private equity and hedge funds, corporate debt securities, government and other debt securities, a collective trust fund, a securities lending pool, and short-term and other investment securities. Investment securities are exposed to various risks, including interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is reasonably possible that changes in the value of investment securities in the near term could materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Plan contributions and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Investment Valuation and Income Recognition. Investments represent the Plan's pro rata interest in the fair value of the net assets of the Master Trust, as determined by The Northern Trust Company ("Trustee"). The Plan's Committee determines the Plan's valuation policies utilizing information provided by its investment advisers and Trustee. See Note D for a discussion of fair value measurement.

Investment transactions are reflected on a trade-date basis. Realized gains and losses on investments are based on average cost. Interest income is recognized on the accrual basis of accounting. Dividend income is recorded on the ex-dividend date. Income from other securities is recorded as earned on an accrual basis.

The Plan presents in the statements of changes in net assets available for benefits the investment (loss) income from its interest in the Master Trust. The investment (loss) income is comprised of the net (depreciation) appreciation in the fair value of its investments which consists of the Plan's pro rata interest in the realized gains or losses and the unrealized (depreciation) appreciation of the investments of the Master Trust. Also included are the Plan's pro rata share of the interest and dividend income of the Master Trust. Such pro rata allocations are made monthly based on the Plan's weighted average interest in the fair value of the Master Trust net assets.

Payment of Benefits. Benefit payments to participants are recorded upon distribution.

Administrative Expenses. The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in investment (loss) income, net, presented in the accompanying statements of changes in net assets available for benefits.

Reclassifications. Certain reclassifications of prior year amounts have been made to conform with the current year presentation.

B. ACCOUNTING POLICIES, Concluded

Recently Issued Accounting Pronouncements. In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update 2015-07 ("ASU 2015-07"), "Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)," which exempts investments measured using the net asset value ("NAV") (or its equivalent) practical expedient in ASC 820, Fair Value Measurement, from categorization within the fair value hierarchy. The guidance is effective for the Plan for fiscal years beginning after December 15, 2015 and shall be applied retrospectively to all periods presented. The Plan's administrator is currently evaluating the impact adoption of the standard will have on the Plan's financial statements.

In July 2015, the FASB issued Accounting Standards Update 2015-12 ("ASU 2015-12"), "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient". This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. The Plan retrospectively adopted the new standard as of December 31, 2015, which resulted in the removal of the fair value of assets by geographic location disaggregation from the fair value leveling hierarchy (Note D).

With respect to the Master Trust's investments in private equity funds, the Master Trust had, at December 31, 2015 and 2014, commitments to contribute up to \$17 million and \$22 million, respectively, of additional capital to such funds representing the Master Trust's aggregate capital commitment to such funds less capital contributions made to date. The Master Trust is contractually obligated to make additional capital contributions to certain of its private equity funds upon receipt of a capital call from the private equity fund. The Master Trust has no control over when or if the capital calls will occur. Capital calls are funded in cash and generally result in an increase in the carrying value of the Master Trust's investment in the private equity fund when paid.

Investment (loss) income represents interest and dividend income plus realized and unrealized gains and losses. Investment loss of the Master Trust for the year ended December 31, 2015 was \$12,745,862 (including administrative expenses of \$1,824,961) and investment income for the year ended December 31, 2014 was \$16,803,774 (net of administrative expenses of \$1,793,061). Securities Lending:

Masco Corporation has an agreement with The Northern Trust Company authorizing the Trustee to lend securities held in the Master Trust to third parties. The Trustee must obtain collateral from the borrower in the form of U.S. Government securities, irrevocable bank letters of credit, or cash. The cash collateral is invested in interest bearing accounts with The Northern Trust Company. The total collateral for the securities loaned as of December 31, 2015 and 2014 was \$52,884,367 and \$51,164,504, respectively, of which \$3,514,896 and \$121,225 was non-cash as of December 31, 2015 and 2014, respectively. Both the collateral and the securities loaned are marked-to-market on a daily basis so that all loaned securities are, at a minimum, collateralized at 102% of the market value of the borrowed securities. The Master Trust has a corresponding liability (equal to the collateral) to repay the collateral upon return of the securities. In the event that the loaned securities are not returned by the borrower, the Trustee will purchase equivalent securities by applying the collateral to the payment of the purchase price and demand from the borrower any remaining amounts due and owing. All recoveries will be credited to the Master Trust when received.

The fair value of securities loaned by the Master Trust as of December 31, 2015 and 2014 is shown below by type of security:

	2015	2014
Common Stocks	\$ 46,549,500	\$ 43,457,145
Corporate Debt Securities	4,082,740	4,862,088
U.S. Government Debt Securities	656,673	1,245,416
	<u>\$ 51,288,913</u>	<u>\$ 49,564,649</u>

The Master Trust and the Trustee each receive a percentage of the net income derived from securities lending activities based on the type of securities. Income earned by the Master Trust related to securities lending activities for the years ended December 31, 2015 and 2014 was \$159,680 and \$175,891, respectively, net of bank fees of \$68,223 and \$75,211 for the years ended December 31, 2015 and 2014, respectively.

Although the securities lending activities are collateralized as described above, they involve both market and credit risk. In this context, market risk refers to the possibility that the borrowed securities will not be fully collateralized upon a sudden material change in the fair value of the loaned securities or the collateral. In 2015 and 2014, based on improving market conditions, the Master Trust did not incur any liability related to the securities lending activities.

Security lending in the Master Trust is handled via an electronic platform provided by Equilend, a joint venture of various securities lending agents and security borrowers, in which the Northern Trust Company, the Trustee, has an equity interest. Fees are not charged to the Master Trust for use of the services but are paid by the Trustee.

Since Northern Trust has a financial interest in the successful operation of Equilend, Equilend has obtained a Prohibited Transaction Exemption from the U.S. Department of Labor. The exemption (a) enables Northern Trust to use Equilend's platform for lending the securities of plans and (b) permits Equilend to sell or license ancillary products to Northern Trust or to a plan to which Equilend is a party-in-interest.

D. FAIR VALUE MEASUREMENTS

The Plan follows fair value guidance (ASC 820) that defines fair value, establishes a framework for measuring fair value and requires certain disclosures about fair value measurements. The guidance defines fair value as “the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.” Further, it defines a fair value hierarchy, as follows: Level 1 inputs as quoted prices in active markets for identical assets or liabilities; Level 2 inputs as observable inputs other than Level 1 prices, such as quoted market prices for similar assets or liabilities or other inputs that are observable or can be corroborated by market data; and Level 3 inputs as unobservable inputs that are supported by little or no market activity and that are financial instruments whose value is determined using pricing models or instruments for which the determination of fair value requires significant management judgment or estimation.

The Trust has a target asset allocation of the investment portfolio that was developed with the objective of achieving an expected rate of return and reducing the volatility of asset returns. Our investments seek to minimize the volatility of the value of the Plan assets relative to pension liabilities and ensure Plan assets are sufficient to pay Plan benefits. We use a portfolio mix of equity investments and fixed-income securities to obtain these objectives. Equity securities are invested in individual securities or funds that are expected to mirror broad market returns for equity securities. Over time, these equity investments are expected to earn higher returns with more volatility than fixed-income investments. Risks in these investments are broadly diversified by geography, market capitalization, manager mandate size, investment style and process. To minimize asset volatility relative to liabilities, a portion of Plan assets are allocated to fixed-income investments that are exposed to interest rate risk. Rate increases and decreases generally will result in a corresponding increase or decrease in fixed-income assets, with offsetting increases or decreases in the present value of liabilities. The fixed-income portfolio invests in corporate bonds, bond index funds or U.S. Treasury securities.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Common and Preferred Stocks and Short-Term and Other Investments: Valued at the closing price reported on the active market on which the individual securities are traded, or based on the active market for similar securities. Certain investments are valued based on NAV which approximates fair value at December 31, 2015 and 2014, respectively. Such basis is determined by referencing to the respective fund’s underlying assets. There are no unfunded commitments or other restrictions associated with these funds.

Private Equity and Hedge Funds: Valued at NAV since there are no quoted market prices, and sufficient information is not readily available for the Company to utilize a valuation model to determine the fair value for each fund. These investments are evaluated, on a non-recurring basis, for potential other-than-temporary impairment when impairment indicators are present, or when an event or change in circumstances has occurred, that may have a significant adverse effect on the fair value of the investment. There is no active trading market for these investments and they are for the most part illiquid. Due to the significant unobservable inputs, the fair value measurements used to evaluate impairment are a Level 3 input.

Corporate, Government and Other Debt Securities: Valued based on either the closing price reported on the active market on which individual securities are traded, or using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Collective Trust Fund: Valued based on NAV, which approximates fair value as of December 31, 2015 and 2014, respectively. Such basis is determined by reference to the respective fund’s underlying assets, which are primarily marketable equity and fixed income securities. There are no unfunded commitments or other restrictions associated with these funds.

Securities Lending Collateral Pool: Primarily invested in cash equivalents which are valued using pricing models maximizing the use of observable inputs for similar securities.

D. FAIR VALUE MEASUREMENTS, Continued

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2015 and 2014.

E. INCOME TAX STATUS

The Internal Revenue Service ("IRS") determined and informed the Company by letter, dated June 10, 2013, that the Plan and the related trust are designed in accordance with applicable sections of the IRC. The Plan has since been amended; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

F. RELATED PARTIES

Certain plan investments are investments managed by The Northern Trust Company as the Plan Trustee. Therefore, the purchases and sales qualify as party-in-interest transactions. Additionally, the Master Trust participates in Securities Lending programs of the Trustee.

G. ACTUARIAL VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) beneficiaries of employees who have died. Benefits under the Plan are based on employees' credited years of service. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial present value of accumulated plan benefits is determined by an actuary from Towers Watson and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2014 were (a) life expectancy of participants - the Plan used the RP-2014 annuitants and non-annuitants blue collar adjusted mortality tables with the generational MP-2014 improvement scale, (b) retirement age assumption (the assumed weighted average retirement age was 65), (c) discount rate (based on the assumed rate of return of 7.25 percent in 2014) and (d) withdrawal assumptions. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2015. Had the valuations been performed as of December 31, there would be no material differences.

H. PLAN TERMINATION

Although there is no present intent to terminate the Plan, if the Plan were to terminate at some future time, the net assets of the Plan will first be allocated to provide benefits for participants as prescribed by ERISA and its related regulations. All remaining net assets, to the extent unfunded vested benefits exist, will be paid by the Pension Benefit Guaranty Corporation or in accordance with the Plan document, up to applicable limitations. Plan termination priorities are available from the Pension Benefit Guaranty Corporation.

I. SUMMARY OF FINANCIAL DATA PROVIDED BY THE TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified as complete and accurate by the Trustee and was not subjected to any auditing procedures performed by the independent auditors.

- a. Plan interest in Master Trust, net, as shown on the accompanying statement of net assets available for benefits as of December 31, 2015.
- b. Investment loss, net, as shown in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2015.
- c. Total Master Trust net assets, interest, dividends and net depreciation, as shown in the accompanying Note C as of and for the year ended December 31, 2015.
- d. Plan interest in Master Trust, net, excluding private equity and hedge funds, as shown on the accompanying statement of net assets available for benefits of \$4,925,649 as of December 31, 2014.
- e. Investment income, net, excluding private equity and hedge funds, as shown in the accompanying statement of changes in net assets available for benefits of \$151,231 for the year ended December 31, 2014.
- f. Total Master Trust net assets, interest, dividends and net appreciation, excluding private equity and hedge funds, as shown in the accompanying Note C as of and for the year ended December 31, 2014.

J. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through September 23, 2016, the date The Berkline Associates Pension Plan financial statements were available to be issued. No events were identified that required disclosure within the financial statements.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets for determining minimum required contributions	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 7.25% (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2015 plan year. The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued based on discussions with Masco Corporation regarding the likelihood that these benefits will be paid. Towers Watson has reviewed the plan provisions with Masco Corporation and, based on that review, is not aware of any significant benefits required to be valued that were not.

Disabled Mortality Assumptions used for funding purposes are as prescribed by IRC §430(h).

ASC 960 Mortality The Company has evaluated its approach to mortality rates in an effort to choose the mortality table that it believes provides the “best estimate” of costs and obligations of its pension plans. The RP-2014 Blue Collar table was chosen because at least 70% of plan participants were both salaried and non-union. The MP-2014 Mortality Improvement Scale is used, projected on a generational basis.

The Company believes the use of this methodology will provide a reasonable assessment of the costs and obligations of its plans, relying on the Society of Actuary (SOA) position that the RP-2014 Mortality Tables and the MP-2014 projection scale on a generational basis reflect the SOA’s best estimate of long-term mortality.

Retirement and Termination Retirement and termination rates were based on an experience study conducted in July 2010 with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Benefit commencement date for deferred benefits:

- Preretirement death benefit
Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.
- Deferred vested benefit
Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement. Deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at multiple ages is not expected to be significant.

Source of Prescribed Methods

- Funding methods** The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

- Change in assumptions and methods since prior valuation** The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC 430.
- The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC 430.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V – Summary of plan provisions

Plan Sponsor

NCFII Holdings Inc. C/O Masco Corporation

Plan

The Berkline Associates Pension Plan (includes these prior plans: The Berkline Corporation Salaried Retirement Plan and the Berkline Corporation Hourly Retirement Plan)

Effective Date and Most Recent Amendment

The plan was originally effective January 1, 1994 (plans merged at this date had earlier respective effective dates). The last amendment reflected herein was effective December 31, 2008.

Plan Year

The twelve-month period ending December 31, 2015.

Coverage and Participation

All employees, except salesmen, are eligible to participate in the Plan. An employee becomes a participant on the first of the month following one Year of Service. Participation was frozen effective December 31, 2001.

Years of Service

One Year of Service is earned for each calendar year in which at least 1,000 hours of service are credited. Participants ceased to accrue Years of Service as of March 26, 2002 with the sale of the Company. All covered locations have been closed and there are no remaining active participants. All participants are either retired or terminated with vested benefits.

Normal Retirement Benefit

Normal Retirement Date: Age 65 Benefit

Formula: The Accrued Benefit.

Normal Form of Benefit: Single life annuity, if unmarried, and 50% Joint & Survivor annuity, if married, actuarially equivalent to the single life annuity.

Plan Name:	The Berkline Associates Pension Plan
EIN / PN:	56-1977928 / 015
Plan Sponsor:	NCFII Holdings Inc. C/O Masco Corporation
Valuation Date:	January 1, 2015

Accrued Benefits

The Accrued Benefit is the monthly benefit equal to the actuarial equivalent of the Individual Balance Account.

Prior Annuity Formula: The Annuity Benefit of a Participant who was a Participant in a Prior Plan shall not be less than the amount determined in accordance with the applicable Prior Plan, calculated as if the Participant had terminated employment on December 31, 1993. The types of benefits under the prior annuity formula are:

Hourly Employees: monthly annuity at Normal Retirement Age based on the appropriate Credited Service multiplied by a dollar benefit level.

Salaried Employees: monthly annuity at Normal Retirement Age based on Final Average Earnings, less a Primary Social Security benefit offset.

No Participants accrued any additional benefits under the Plan after December 31, 2001.

Individual Balance Account (Cash Balance Plan)

An Individual Balance Account (IBA) was established for each Participant, the initial balance of which was the value of the Participant's accrued benefit, as determined under the applicable Prior Plan as of December 31, 1993.

For all plan years beginning after December 31, 2001, no additional Company Credits will be made to the Individual Balance Accounts of Participants.

Interest Credits shall be credited at the end of each calendar year equal to 5% of the beginning of year IBA until the date of distribution. The credits shall be applied at to a Participant's IBA as of the last day of the calendar year or, if earlier, as of the last day of the month next preceding the Participant's Annuity Starting Date.

Early Retirement Benefit

Eligibility: Age 55 with 5 or more Years of Service.

Benefit: The greater of the Actuarial Equivalent of the Individual Balance Account, or, if the Participant was a Participant in a Prior Plan, the benefit accrued under the Prior Plan, reduced by respective reduction factors under each Prior Plan.

Plan Name:	The Berkline Associates Pension Plan
EIN / PN:	56-1977928 / 015
Plan Sponsor:	NCFII Holdings Inc. C/O Masco Corporation
Valuation Date:	January 1, 2015

SCHEDULE SB ATTACHMENTS

Early Retirement Reduction Factors: For Hourly employees and the Salaried employees' portion of the benefit which is calculated based on Final Average Earnings, 0.25% for each completed calendar month by which the Annuity Starting Date precedes the Normal Retirement Date. For Salaried participants hired after July 1, 1985, the reduction of the Final Average Earnings portion of the benefit shall be 0.50% for each complete calendar month by which the Annuity Starting Date precedes the Normal Retirement Date.

For the Salaried employees' offset portion of the benefit based on the Primary Social Security Benefit, the factors are:

Age	Reduction Factor
64	.8988
63	.8103
62	.7325
61	.6639
60	.6032
59	.5493
58	.5013
57	.4583
56	.4199
55	.3853

Vested Benefits upon Termination of Service

Vesting: Participants are 100% vested upon completion of 5 Years of Service.

Termination Benefit: In the event a Participant separates from service after earning a vested right to his Accrued Benefit, but before becoming eligible for Early Retirement Benefits, he may elect to receive his vested Accrued Benefit as a deferred retirement benefit, commencing at his Normal or Early Retirement, or, if earlier, a lump sum distribution after a 4-year waiting period.

The Early Retirement reduction factors are the same as those used for the Salaried employees' offset portion of the benefit. If the Participant commences his benefit before age 55, the age 55 benefit shall be further reduced based on the actuarial equivalent basis used for conversion to optional annuity forms.

Surviving Spouse Benefit

Eligibility: All Participants eligible for a Vested Deferred Benefit who are married at date of death automatically receive coverage.

Benefit: In the event of a Vested Participant's death prior to benefit commencement, the surviving spouse is entitled to a benefit equal to 100% of the Participant's Individual balance Account. In lieu of a lump sum payment, the Spouse may elect to receive the benefit in the form of an annuity. In no event will the annuity be less than the Actuarial Equivalent of the Pre-Retirement Survivor Annuity, which is calculated

assuming that the Participant had retired on the day before his death with a 50% Joint and Survivor Annuity. If the Participant dies before age 55, the benefit would be determined as though the Participant survived to retire at age 55, electing a 50% Joint and Survivor Annuity, and died on the day after retirement.

Postponed Retirement Benefit

The benefit amount for Vested Participants who commence after their Normal Retirement Date will be actuarially increased from their Normal Retirement Date. The postponed retirement benefit is the greater of such benefit and the monthly benefit actuarially equivalent to the IBA balance as of retirement.

Optional Forms of Retirement Income in Lieu of Normal Form

Available to all participants:

Single Life Annuity; For participants with an IBA, lump sum payment of accrued benefit commencing at Normal or Early Retirement, or if earlier, a lump sum distribution after a 4-year waiting period; automatic lump sum payment for values under \$1,000.

Available to participants in the Prior Plans:

50%, 75% or 100% Joint & Survivor benefit; 5, 10, and 15 Year Certain and Life Annuity; Level Income Option.

Actuarial Equivalence for determining lump sum equivalent of accrued benefit, or the annuity equal to the IBA, is the PPA lump sum mortality with 3-segment interest rates. Actuarial equivalence for conversion to all other optional annuity forms is the Revenue Ruling 2001-62 Mortality and 6% interest.

Changes in Plan Provisions since Last Actuarial Valuation

None.
