Note 1 - Description of Plan:

The following description of the **Star Stainless Screw Co. Savings and Investment Plan** (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

A. General

The Plan is a defined contribution plan designed to provide benefits to employees of **Star Stainless Screw Co.** (the Company) who have at least six months of service and are age twenty and one-half (20.5) or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

B. Contributions

Eligible employees may pay into the Plan as a salary reduction contribution up to 90% of their eligible compensation to the maximum allowed by the Internal Revenue Code ($18,000 for the year ended December 31, 2015 and $17,500 for the year ended December 31, 2014). Individuals aged 50 or older are eligible to make additional annual catch-up contributions to a maximum of $6,000 for the year ended December 31, 2015 and $5,500 for the year ended December 31, 2014.

For the year ended December 31, 2015, the employer will make a 40% matching contribution to a maximum of $2,500. For the year ended December 31, 2014, the employer made a 30% matching contribution to a maximum of $1,800. In addition, the Plan allows for discretionary employer profit sharing contributions as determined by the plan sponsor, however, none were made during the years ended December 31, 2015 and 2014.

C. Participant Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Company's contribution and Plan earnings. Allocations of the underlying investments' performance are based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

D. Vesting

Participants are immediately 100% vested in their own contributions and earnings thereon.

Note 1 - Description of Plan: (continued)

D. Vesting (continued)

Vesting in the employer's contributions and earnings thereon will be based on years of service. The participant is 20% vested after two years of service, increasing by 20% per year to 100% in the next four subsequent years. Years of service before the Plan's effective date of January 1, 1995 are not included.

E. Forfeitures

A forfeiture is that portion of a participant's account which the participant loses upon termination of employment. It is equal to the non-vested portion of the account. The forfeitures will first be applied to offset administrative expenses and then to reduce future employer contributions to the Plan. At December 31, 2015 and 2014, net assets available for plan benefits include forfeitures of $14 and $13, respectively.

F. Administrative Costs

The Plan sponsor pays all costs incurred to administer the Plan except for certain account level transaction based fees, which are charged by the custodians.

G. Loans to Participants

Loans to participants are not permitted.

H. Payment of Benefits

Upon termination of service, participants with vested balances under $5,000 are required to receive a lump sum payment. Participants with vested balances over $5,000 are required to take a lump sum payment, installments over a period of time not to exceed the more than assumed life expectancy or partial withdrawals.

Note 1 - Description of Plan: (continued)

I. Risks and Uncertainties

The Plan's investment options allow participants to select, in any combination, from a portfolio of mutual funds with varying investment strategies and philosophies. Investments in mutual fund securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

J. Subsequent Events

Subsequent events have been evaluated through October 4, 2016, the date the financial statements were approved and authorized for issue by the plan administrator.

Note 2 - Summary of Significant Accounting Policies:

A. Basis of Accounting

The Plan maintains its accounting records on the accrual basis.

B. Investment Valuation and Income Recognition

Investments are stated at fair value with the exception of certain investments that are stated at contract value (Note 5).

Investment contracts held by a defined contribution plan are required to be reported at fair value (Note 3). As further discussed in Note 4, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the valuation date. However, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for plan benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for plan benefits is prepared on a contract value basis for fully benefit-responsive investment contracts.

Note 2 - Summary of Significant Accounting Policies (continued):

B. Investment Valuation and Income Recognition (continued)

Purchases and sale of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value includes the Plan's gains and losses on investments bought and sold as well as held during the year.

C. Payment of Benefits

Benefit payments to participants are recorded when paid.

D. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Note 3 - Investments:

The following information regarding plan investments was obtained from data that has been prepared and certified to as complete and accurate by State Street Bank and Trust Company, the trustee of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator has instructed the Plan's independent auditors not to perform any auditing procedures with respect to this information.

For the years ended December 31, 2015 and 2014, the Plan was under contract with State Street Bank and Trust Company and experienced the following income, gains, and losses:

	2015	2014
Net appreciation (depreciation) in fair value	**$ (671,689)**	$ 21,424
Dividend income	**$ 733,571**	$ 859,755

During the years ended December 31, 2015 and 2014 the Plan's investments including gains and losses on investments bought and sold, as well as held during the year, appreciated in value as follows:

	2015	2014
Registered investment companies (mutual funds)	**$ (675,719)**	$ (8,524)
Common/collective trusts	**5,711**	26,931

Total appreciation (depreciation)	**$ (671,689)**	$ 21,424

Note 4 - Fair Value Measurements:

The Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under the Topic are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 4 - Fair Value Measurements: (continued)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014, other than the addition of a guaranteed investment contract as an investment.

Unit shares of the money market fund have been valued using an amortized cost of $1 per unit which approximates fair value.

Registered investment companies (mutual funds) are valued at the net asset value ("NAV") of shares held by the plan at year end.

Common/collective trust funds are investment vehicles valued using a discounted cash flow model, which considers recent fee bids as determined by recognized dealers, discount rate, the duration and other observable inputs of the underlying portfolio securities.

The guaranteed investment contract is presented at fair value. In addition to registered investment company holdings, this fund also includes the following:

Traditional guaranteed investment contracts (GICs), whose fair value is calculated using the present value technique.

Note 4 - Fair Value Measurements: (continued)

Synthetic GICs, whose underlying assets are traded in active markets and have readily quoted market prices.

Constant duration synthetic GICs, whose fair values of the underlying assets are provided by the investment managers of the underlying portfolios.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

	December 31, 2015			
	Level 1	**Level 2**	**Level 3**	**Total**

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value	Valuation Technique	Unobservable Inputs	Factor Used
Guaranteed Investment Contract	$ 283,256	Discounted cash flow	Replacement contract fees	26 basis points

Note 5 - Guaranteed Investment Contract:

The Plan's investment in the EB MaGIC Fund (the Fund) is a fully benefit-responsive investment contract with KeyBank National Association (KeyBank). The Fund includes investments in registered investment companies as well as stable value instruments, including guaranteed investment contracts (GICs), synthetic GICs, bank investment contracts (BICs), separate account GICs, repurchase agreements, and other collective investment trusts. As described in Note 2, because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits attributable to the investment contract. Contract value, as reported to the Plan by KeyBank, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Average yields:	**2015**	**2014**
Based on actual earnings	**1.96%**	1.86%
Based on interest rate credited to participants	**1.92%**	1.79%

Note 6 - Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7 - Tax Status:

The Plan has not obtained its own determination letter from the Internal Revenue Service (IRS). The Plan has adopted a Prototype Non-standardized Profit Sharing Plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal. Revenue Service on March 31, 2008. The plan administrator believes that the Plan, as designed, is qualified and the related trust is tax-exempt as of the financial statement date.

Note 7 - Tax Status: (continued)

Accounting principles generally accepted in the United States of America requires management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that is more likely than not to be realized. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 8 - Reconciliation of Financial Statements to Schedule H of Form 5500:

The following is a reconciliation of net assets available for benefits per the financial statements as of December 31, 2015 and 2014 to Form 5500 Schedule H:
