Plan Merger - As of the end of December 31, 2015, a full trust-to-trust asset transfer for all the participants of the Plan was performed. The assets were transferred into the NV5, Inc. 401(k) Plan.

Payment of Benefits - Participants of the Plan are entitled to distributions upon termination of employment, attainment of age 59-1/2, death, disability, retirement or if the Plan is terminated. Benefits are recorded when paid. Participants may elect to receive benefits in the following forms:

- A lump sum payment or
- Installments over 10 years

Contributions - Eligible participants may elect to contribute a portion of their compensation to the Plan, subject to the Internal Revenue Code limitations for 401(k) plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make discretionary contributions to the Plan in which all eligible employees will receive a portion of the Company's contribution. The Company's discretionary match for 2015 and 2014 was 25% of the first 6% of the participant's deferred salary. The discretionary match was paid quarterly in 2015 and 2014.

Vesting - Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of continuous service. Company contributions vest 20% for each year of service and are fully vested in 5 years.

Forfeitures - Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeitures are used to pay for certain Plan expenses and to reduce employer's future matching contributions to the Plan. In 2015, \$17,240 of forfeitures were used to pay for certain Plan expenses. At December 31, 2015 and 2014, forfeited nonvested accounts totaled \$0 and \$19,336, respectively.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contribution, if any, (b) Plan earnings, and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTES TO FINANCIAL STATEMENTS

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting - The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to use estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions in net assets available for benefits during the reporting period. Actual results, as determined at a later date, could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expenses when they are incurred. No allowance for credit losses was recorded as of December 31, 2014. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Administrative Expenses - Certain expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements. Fees related to professional fees and recordkeeping expenses are charged partly by the Plan, partly by the Plan Sponsor and partly by participants and are included in administrative expenses.

Benefit Payments - Benefits are recorded when paid.

Hardship Withdrawals - The Plan provides for hardship withdrawals from participants' vested balances, not to exceed an amount required to meet an immediate need created by hardship, and then only to the extent that such immediate need cannot be satisfied by other sources reasonably available to the participant. Permissible circumstances for hardship withdrawals include medical expenses, purchase of a home, tuition payments, amounts necessary to prevent eviction from the participants' personal residence, and such other circumstances as the Plan Administrator may determine in accordance with Internal Revenue Service rules and regulations. All contributions to the Plan will be suspended for six months following a hardship withdrawal.

NOTES TO FINANCIAL STATEMENTS

Change in Accounting Principles - In May 2015, the FASB issued ASU 2015-07, Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, Fair Value Measurement. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for entities (other than public business entities) for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early adoption is permitted. The Plan has elected to early adopt ASU 2015-07 for the year ended December 31, 2015.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans, Defined Contribution Pension Plans and Health and Welfare Benefit Plans; (Part I), Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures and (Part III) Measurement Date Practical Expedient. ASU 2015-12 was issued to simplify certain aspects of employee benefit plan reporting. Part I of this ASU eliminates the requirement to adjust fully benefit-responsive investment contracts ("FBRICs") from fair value to contract value on the Statements of Net Assets Available for Plan Benefits and eliminates the requirement to provide the related fair value disclosures in the notes to the financial statements. Under the new guidance, FBRICs are measured, presented, and disclosed only at contract value. The ASU clarifies that contract value is the relevant measure for FBRICs because that is the amount participants would receive in a transaction. Part II of this ASU eliminates the requirements to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type. In addition, Part II of this ASU also requires that investments (both participant directed and non-participant directed) of employee benefit plans be grouped by general type and eliminates the need to disaggregate investments by class or other ways. The amendments in Part III of this ASU provides a practical expedient to permit plans to measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end. ASU 2015-12 is effective for entities for fiscal years beginning after December 15, 2015, with retrospective application to all periods presented for Parts I and II. Part III may only be applied prospectively. Early adoption is permitted. The Plan has elected to early adopt ASU 2015-12 for the year ended December 31, 2015.

The effect of applying these changes in accounting principles to the Plan in 2015 and 2014 had no impact on the Plan's net assets available for benefits and no change to the net increase or decrease to its net assets in either year.

Subsequent Events - The Plan Administrator has evaluated subsequent events through October 7, 2016, the date the financial statements were available to be issued. The effects of those events and transactions that provide additional pertinent information about conditions that existed at the Statements of Net Assets Available for Benefits date have been recognized in the accompanying financial statements.

Note 3 - Information Certified by the Custodian:

The Plan Administrator has elected the method of reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA. Accordingly the Custodian has certified that the following information included in the financial statements and supplemental schedule is complete and accurate:

- a) Investments, as shown in the statements of net assets available for benefits as of December 31, 2015 and 2014.
- b) Investment income, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2015.
- c) Schedule H, Part IV, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2015.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4 - Common Collective Trust:

The Plan invested in investment contracts through its common collective trust (the "CCT"). The CCT's contract value was the relevant measure attribute. The CCT held by the Plan was a stable value investment which has an objective to preserve capital and to provide a competitive level of income over time that is consistent with the preservation of capital. To achieve this objective, the fund invests primarily in synthetic investment contracts. Redemptions are allowed for the participants daily. There were no unfunded commitments.

Note 5 - Fair Value Measurements:

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The carrying values of cash, receivables and payables included in the accompanying statements of net assets available for benefits at December 31, 2015 and 2014 approximate fair value and are not included in the following tables. The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- *Level 1* - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- *Level 2* - Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;

**THE RBA GROUP, INC. SAVINGS AND INVESTMENT
PLAN AND TRUST**

NOTES TO FINANCIAL STATEMENTS

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

- *Mutual funds*: Valued at the closing price in the active market in which the fund is traded.
- *Common collective trust ("CCT")*: The net asset value is used as a practical expedient to estimate fair value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, although the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There were no assets measured at fair value at December 31, 2015.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value:

	<i>Investments at Fair Value as of December 31, 2014</i>			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$ 25,383,914	\$ -	\$ -	\$ 25,383,914
Investments measured at net asset value - Common Collective Trust (a)				2,036,307
Investments at fair value				<u>\$ 27,420,221</u>

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets available for Benefits.

NOTES TO FINANCIAL STATEMENTS

Transfers Between Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the year ended December 31, 2015 and 2014, there were no significant transfers in or out of Levels 1, 2, or 3.

Note 6 - Notes Receivable from Participants:

Participants may obtain loans from the Plan at a minimum of \$1,000 and a maximum of one-half of a participant's account balance, or \$50,000 whichever is less. Loans bear interest at current prevailing rates and are collateralized by the participant's account balance. Loans are generally payable through payroll deductions within five years.

Note 7 - Tax Status:

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 8 - Concentration of Investment Risk:

The Plan's investment in one fund comprised approximately 11% of investments at December 31, 2014.

Note 9 - Party-in-Interest:

Certain Plan investments are managed by Alerus Financial, N.A., the Plan custodian ("Alerus"). Alerus provides administrative services to the Plan. The fees paid by the Plan for these services for the year ended December 31, 2015 was \$84,133. Therefore, these transactions qualify as party-in-interest.

Note 3 - Information Certified by the Custodian:

The Plan Administrator has elected the method of reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA. Accordingly the Custodian has certified that the following information included in the financial statements and supplemental schedule is complete and accurate:

- a) Investments, as shown in the statements of net assets available for benefits as of December 31, 2015 and 2014.
- b) Investment income, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2015.
- c) Schedule H, Part IV, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2015.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4 - Common Collective Trust:

The Plan invested in investment contracts through its common collective trust (the "CCT"). The CCT's contract value was the relevant measure attribute. The CCT held by the Plan was a stable value investment which has an objective to preserve capital and to provide a competitive level of income over time that is consistent with the preservation of capital. - Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

- *Mutual funds*: Valued at the closing price in the active market in which the fund is traded.
- *Common collective trust ("CCT")*: The net asset value is used as a practical expedient to estimate fair value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, although the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There were no assets measured at fair value at December 31, 2015.

NOTES TO FINANCIAL STATEMENTS

Transfers Between Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the year ended December 31, 2015 and 2014, there were no significant transfers in or out of Levels 1, 2, or 3.
