J.N. Phillips Glass Company Profit Sharing Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of J.N. Phillips Glass Company Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions. The plan sponsor is J.N. Phillips Company, Inc. ("J.N. Phillips"). The Plan is available to eligible employees of J.N. Phillips, as well as those of Windshield Centers, Inc., Teleglass National, Inc., Strategic Claims Services, Inc., and TGSC, Inc., (collectively the "Company") each of whom are owned by Bowrail Group, Inc.

General: The Plan is a defined contribution plan established for the benefit of the employees of the Company. The Plan and the trust of which it is a part are intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code ("IRC") and similar state tax laws. The Plan was originally established on January 1, 1985 and most recently the plan document was restated on February 5, 2015, at which time the Plan adopted the most current volume submitter document from its trustee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility: Employees of the Company who have reached 21 years of age and have completed eleven months of service are eligible to participate in the Plan. Once a participant reaches the service period requirement, they will automatically be enrolled at 3% on the first day of the first quarter following their eligibility unless they elect otherwise.

Contributions: Active participants may elect to contribute up to 60% of eligible pretax compensation and bonuses, as defined in the Plan, up to a maximum defined by the IRC (\$18,000 in 2015.) Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Participants who have attained age 50 before the end of a calendar year, may elect to defer additional amounts (called "catch-up contributions") to the Plan as of January 1st of that year. The additional amounts may be deferred regardless of any other limitations on the amount that these participants defer to the Plan. The maximum catch-up contribution that can be made in 2015 is \$6,000.

Under the provisions of the Plan, the Company may make a matching contribution to the Plan on behalf of the participants. The Company's contribution percentage is equal to 25% of the elective participant contribution up to 4% of eligible compensation. Contributions are subject to certain limitations.

The Company may also make discretionary profit sharing contributions to the Plan. Discretionary contributions made to the participants' accounts are generally allocated in the ratio that the participant's eligible compensation bears to the total eligible compensation paid to all eligible participants. The Company made no discretionary profit sharing contributions for the year ended December 31, 2015.

Participant accounts: Each participant's account is credited with the participant's contributions, the Company's matching contribution and allocations of discretionary profit sharing contributions, if any, and Plan earnings/losses thereon, and are charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are fully vested in their contributions and earnings thereon. The portion of the participants' accounts attributable to the Company's matching contributions and discretionary profit sharing contributions plus actual earnings thereon become 20% vested after one year of credited service, as defined, and continues to vest at the rate of 20% for each successive year of service until 100% vested after five years of service. Upon reaching the early retirement age of 55, the participant immediately becomes fully vested regardless of length of service.

The Plan currently offers a variety of mutual funds and a money market fund as investment options for participants. Participants may change their investment options at any time throughout the year via direct phone or online access to Fidelity Management Trust Company, the trustee and third party administrator of the Plan.

Excess contributions payable: Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are reported as a liability with a corresponding reduction to contributions. Amounts contributed to the Plan from highly compensated employees in excess of the IRS-approved limit as of December 31, 2015 were \$23,452. These amounts were refunded to participants in March 2016. There were no amounts contributed to the plan in excess of IRS approved limit during plan year December 31, 2014.

Payment of benefits: On termination of service due to death, disability, retirement or termination, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installment distribution in equal amounts over a period of time. However, if a participant's balance is \$5,000 or less, the plan administrator will direct the trustee to distribute a lump sum distribution without consent. In-service withdrawals are also permitted for certain financial hardships or when a participant attains age 59 ½.

Forfeitures: Forfeitures represent the non-vested portion of terminated participants' account balances. These accounts may be used first to reduce costs of administration of the Plan and second to reduce Company matching contributions. Amounts forfeited during 2015 were \$6,220. In 2015, \$9,775 was used to reduce company matching contribution. As of December 31, 2015 and 2014, forfeited non-vested accounts totaled \$10,852 and \$14,407, respectively.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms cannot exceed five years or, if a participant requests a loan for the acquisition of a principal residence, the loan may have a term of up to ten years. The loans are secured by the vested balance in the participants' accounts and bear interest at rates ranging from 4.25% to 9.25%, which represent fixed rates determined by the plan administrator at the time the loan was originated based upon the prevailing interest rates charged by persons in the business of lending money for loans. Principal and interest is paid ratably through payroll deductions. In the case of termination of employment, the entire outstanding loan balance is immediately due and payable.

Administrative expenses: As provided by the Plan agreement, administrative expenses related to Plan investments and recordkeeping are paid by the Plan and other administrative expenses are paid by the Company.

Note 2. Summary of Significant Accounting Policies

Basis of accounting and use of estimates: The financial statements of the Plan have been prepared in accordance with accounting standards set by the Financial Accounting Standards Board ("FASB"). The FASB sets generally accepted accounting principles ("GAAP") to ensure net assets available for benefits and changes in net assets available for benefits are consistently reported. References to GAAP issued by the FASB in these footnotes are to the FASB Accounting Standards Codification ("FASB ASC").

The financial statements of the plan are prepared on the accrual basis of accounting.

The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Note 2. Summary of Significant Accounting Policies (Continued)

Investment valuation and income recognition: Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits: Benefits are recorded when paid.

Fair value measurements: GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised by the Plan in determining fair value is greatest for instruments categorized in Level 3. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Note 2. Summary of Significant Accounting Policies (Continued)

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Plan's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. The Plan uses prices and inputs that are current as of the measurement date, including during periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many instruments. This condition could cause an instrument to be reclassified from Level 1 to Level 2 or Level 2 to Level 3.

FASB ASC 820- *Fair value measurements and disclosures* ("FASB ASC 820") also requires nonfinancial assets or nonfinancial liabilities to be recorded or disclosed at fair value on a non-recurring basis. As of December 31, 2015 and 2014, respectively, the Plan did not have any non-financial assets or liabilities which are required to be at fair value.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2015 and 2014.

Money market fund and mutual funds: Valued at quoted market prices of shares held by the Plan and are classified as level 1.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Income taxes: GAAP requires Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by a tax authority. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2012.

Recent accounting pronouncements: In July 2015, the FASB issued Accounting Standards Update ("ASU") No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) - (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this update is to simplify plan accounting.

- The amendments in Part I of this Update designate contract value as the only required measurement for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value on the face of the financial statements.
- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and non-participant directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as a direct filing entity, disclosure of that investment's strategy will no longer be required.

Note 2. Summary of Significant Accounting Policies (Continued)

- The amendments in Part III of this update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The update may be adopted in whole or by part (I, II, III), as applicable. The amendments in this update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Part I and Part II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The plan adopted Part II of this update for the 2015 plan year, and this amendment was retrospectively applied to the year ended December 31, 2014. Prior year disclosures in Note 4 have been revised to reflect the retrospective application. The impact of adopting this amendment is reflected in the financial statements. Plan management evaluated adopting Part I and III and determined that they are not applicable to the Plan's financial statements.

Note 3. Information Certified by Fidelity Management Trust Company

The following is a summary of the Plan's asset information as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that information provided to the plan administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the following assets at December 31, 2015 and 2014:

	2015	2014
Investments, at fair value:		
Money market fund	\$ 780,690	\$ 744,151
Mutual funds	11,929,447	11,571,037
	<u>\$ 12,710,137</u>	<u>\$ 12,315,188</u>
Notes receivable from participants	\$ 401,425	\$ 312,481

Fidelity Management Trust Company also certified to the completeness and accuracy of \$608,329 of net depreciation in fair value of the Plan's investments, including gains and losses on investments bought and sold, as well as held during the year, and \$584,132 of interest income and dividends related to the aforementioned plan assets for the year ended December 31, 2015.

Total assets at fair value	\$ 12,315,188	\$ -	\$ -	\$ 12,315,188

Note 5. Party-in-Interest Transactions

Certain plan investments are managed by Fidelity Management Trust Company, the trustee of the Plan, and therefore, these transactions qualify as parties-in-interest transactions as that term is defined in Section 3(14) of ERISA. Fees incurred by the Plan for investment management services are included in net appreciation (depreciation) in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Company pays directly any other fees related to the Plan's operations. In addition, the Plan's investments include loans to participants that are secured by the balances in the participants' account, which also constitute party-in-interest transactions.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

Note 7. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated March 31, 2014, stating that the Plan is designed in accordance with applicable sections of the IRC. Although, the Plan has been amended since receiving this determination letter, the plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan, as amended, is qualified and is tax exempt.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.
