General

The Plan is a defined contribution savings plan sponsored by the Athletics Investment Group, LLC (the "Company"), effective January 1, 1986. The Plan is designed to provide participants with a means to defer a portion of their compensation for retirement and to provide benefits in the event of disability, death, termination or financial hardship. Full-time employees of the Companies become eligible to be participants in the Plan on the first day of the quarter after completing 12 months of consecutive full-time service, as defined by the Plan, and reaching the age of 21. Union employees, hourly employees, Rookie Team and Short-season Class A Team employees are not eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and subsequent amendments.

Plan administration

The Company is the administrator of the Plan and, as such, carries out the duties imposed by ERISA. The Company has delegated certain responsibilities for the operation and administration of the Plan. Trustee and recordkeeping service is provided by Charles Schwab Bank ("Schwab"). Significant administrative expenses of the Plan were paid directly by the Company. Investment fees, which may vary according to the individual funds selected, are paid out of the assets of the Plan. Participants should refer to the prospectus of the individual investment funds for further details on individual investment fees.

Contributions

Participants may elect to contribute through payroll deductions amounts up to 100% of their annual compensation as defined by the Plan on a tax deferred basis, up to a maximum amount allowed by the Internal Revenue Code ("IRC"). Maximum allowed deferral amounts were $18,000 for 2015. Employees over the age of 50 could also contribute an additional $6,000 to the Plan for 2015. Participants are also allowed to roll over contributions from other qualified employer-sponsored retirement plans. The Company provides a matching contribution of 50% of each participant's salary deferred contribution up to a maximum of $500 per year. The Company may also make discretionary profit sharing contributions to qualified participants as defined by the Plan.

The Company's matching contributions amounted to $73,411 for 2015. No discretionary profit sharing contributions were made in 2015. Contributions withheld are invested according to the participant's direction and are allocated to shares of mutual funds or common collective trusts in 1% increments. Participants have the ability to make daily changes in their investment options.

1. Description of the Plan (continued)

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, participant contributions or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in all contributions allocated to their accounts, plus earnings thereon.

Notes receivable from participants

Under the terms of the Plan, participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loans are secured by the balance in the participant's account and bear interest at a rate of 3.25%, which is commensurate with local prevailing rates. The repayment of principal plus interest is required by the Plan to be made through payroll deductions over five years unless the loan is for the purchase of a primary residence, which may be paid over a thirty year period.

Payment of benefits

Distributions and withdrawals are payable upon retirement, termination, financial hardship, disability or death. If a participant's account balance is equal to or less than $1,000, the balance is distributed immediately in a lump-sum cash payment unless a direct rollover into another qualified benefit plan is requested. Balances between $1,000 and $5,000 will be rolled over to an individual retirement plan designated by the administrator if the participant has not requested a lump-sum cash payment or a direct rollover into another qualified benefit plan. If the account balance is over $5,000, the participant can consent to either a distribution paid in the form of a lump-sum cash payment, a direct rollover into another qualified plan or postpone payment to a later date and remain in the Plan as described in the Plan documents.

2. Summary of Significant Accounting Policies

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

The Plan has a fully-benefit responsive common/collective trust as an investment. This type of investment contract is required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in investment contracts through a collective trust. The statement of net assets available for benefits presents the fair value of the investment contract. There was no material difference between contract value and fair value for the contract at December 31, 2015 and 2014.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants represents loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

2. Summary of Significant Accounting Policies (continued)

Excess contributions payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. There were no excess contributions payable for the plan year ended December 31, 2015. The Plan distributed the 2014 excess contributions to the applicable participants prior to March 15, 2015.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Payment of benefits

Benefits are recorded when paid.

Subsequent events

The Plan has evaluated subsequent events through September 22, 2016, the date the financial statements were available to be issued. No subsequent events have occurred that would have a material impact on the presentation of the Plan's financial statements.

3. Investments

The following investments represent 5% or more of the Plan's net assets available for benefits at December 31:

	2015	2014

Galliard Retirement Income Fund	$1,335,680	$1,293,807

Invesco Growth and Income Fund	$2,626,772	$2,698,767

3. Investments (continued)

During the year, the Plan's investments depreciated in value by $693,794 including gains and losses on investments bought and sold, as well as held during the year, as follows:

Mutual funds	$(689,707)
Common collective trusts	(4,087)
	$(693,794)

4. Information Prepared and Certified by Trustee

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the trustee certified information regarding the cost and fair value of all investment and notes receivable from participant assets held at December 31, 2015 and 2014, and all investment and notes receivable from participant transactions entered into during the year ended December 31, 2015, which were used in the preparation of the accompanying financial statements and supplemental schedule.

5. Fair Value Measurements

The Plan defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Generally accepted accounting principles ("GAAP") establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy are as follows:

- Level 1: quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

- Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

- Level 3: unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

5. Fair Value Measurements (continued)

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at December 31, 2015 and 2014:

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust funds: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. There are no redemption restrictions or unfunded commitments on collective trust funds.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following is a brief description of the nature and significant investment strategies of the collective trust funds:

Target date funds: these common collective trust funds are retirement trust funds that invest in a diversified portfolio of assets across a variety of asset classes such as domestic and international equity, fixed income and stable value. These funds are designed to provide a single investment solution that is adjusted over time to meet participants' changing risks and return objectives as they near retirement.

Fixed Income funds: to provide safety of principal, adequate liquidity, and competitive yield with low return volatility.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

7. Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds and common collective trusts managed by Schwab or its affiliates. As Schwab serves as the Plan trustee, these transactions qualify as exempt party-in-interest transactions.

8. Income Taxes

The Internal Revenue Service has determined and informed the Company by a letter dated January 19, 2011 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since applying for the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon an examination by the Internal Revenue Service. No uncertain positions have been identified that would require the recognition of a tax liability (or asset) or disclosure in the financial statements as of December 31, 2015 and 2014. The Plan is subject to routine audits by applicable taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Commitments and Contingencies

The Company noted certain operational defects with regard to the operation of the Plan related to the year ended December 31, 2014. The Company corrected the defects related to the year ended December 31, 2014 by making a Qualified Nonelective Contribution ("QNEC") of $172 plus lost earnings during 2015. The Company believes that the defects were properly remedied and will not adversely affect the Plan's qualified status or have a material impact on the Plan's Net Assets Available for Benefits.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2014 to Form 5500:

Net assets available for benefits per the financial statements	$15,995,700
