Note 1 - Description of the Plan and Significant Accounting Policies

The following description of George T. Sanders Co. 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 1976 and amended January 1, 2014. The Plan is available to employees age 21 or older who have completed 1,000 hours of service during the first 12 months of consecutive employment or during any subsequent Plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Board of Directors of George T. Sanders Co. (the "Company") administers the Plan. John Hancock Retirement Plan Services ("John Hancock") serves as custodian and manages Plan assets. United Retirement Plan Consultants ("URPC") maintains the Plan's records and provides administrative services to the Plan. John Hancock offers Plan participants a variety of investment options through various pooled separate accounts. Individual accounts are invested in the various investment options at the direction of the participants.

Contributions

Participants may make before-tax contributions up to 100% of their annual compensation, not to exceed limits established by the IRS, which are adjusted annually by the Secretary of the Treasury for inflation. This maximum allowable percentage may be reduced by the Plan administrator in certain circumstances. The Plan also permits rollover contributions from other qualified retirement plans. Participants over 50 years old may make catch-up contributions. Employee contributions to the Plan are made through regular payroll deductions. The Company will contribute matching contributions equal to 100% of participant elective deferrals up to 3% of compensation and 50% of elective deferrals between 3% and 5% of compensation. The Company contributed matching contributions of $150,039 for the year ended December 31, 2015. Matching contributions to the Plan are contributed on a per payroll basis.

The Plan also allows the Company to make a discretionary profit sharing contribution equal to a uniform percentage of each participant's compensation. The Company made a $500,000 discretionary profit sharing contribution for the year ended December 31, 2015. The discretionary profit sharing contribution to the Plan is contributed on an annual basis.

Participants' Accounts

Each participant's account is credited or charged with the participant's contributions, an allocation of the Company's matching and profit sharing contributions, Plan earnings or losses, Plan expenses, and forfeitures. Allocations are based upon Plan earnings or losses and account balances, as defined. The benefit to which a participant is entitled is the vested portion of the participant's account.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting

Participants are 100% vested in their voluntary contributions, allocated earnings or losses thereon, and any employer matching contributions.

Profit sharing contributions and the earnings or losses thereon are not fully vested when contributed and will vest as follows:

Years of Service	Vested Interest
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age (the age of 65 or, if later, the fifth anniversary date of the first day of the Plan year during which the participant entered the Plan), retirement due to disability, or if the Plan is terminated.

Payment of Benefits

Upon death, disability, retirement, or termination of service, a participant will receive a lump-sum payment in the amount equal to the participant's vested account balance within a reasonable period of time after termination of employment. Benefits are recorded as distributions to participants when paid.

If the vested account balance is $5,000 or less, the benefit will be paid automatically to the participant as soon as administratively feasible following termination of employment.

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account and will be reallocated on the earlier of the fifth consecutive one-year break in service or the end of the Plan year following the payment of the vested account balance. At December 31, 2015 and 2014, forfeited non-vested accounts totaled $0 and $4,225, respectively. These amounts can be used to reduce future employer contributions. For the year ended December 31, 2015, $16,013 of previously forfeited amounts were used to reduce employer contributions.

Valuation of Investments and Income Recognition

Investments are recorded at fair value, as reported to the Plan by John Hancock. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurement.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition (continued)

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected on the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported on the statements of net assets available for benefits.

Additionally, some investments held by John Hancock are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

At December 31, 2015 and 2014, three investments accounted for 57% and 56% of total investments at fair value, respectively. During the year ended December 31, 2015, three investments accounted for 42% of net realized/unrealized depreciation in fair value of assets.

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Reclassifications

Certain amounts in the 2014 financial statements have been reclassified to conform to the 2015 presentation.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Recently Issued Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*. The amendment applies to reporting entities that elect to measure the fair value of an investment using the net asset value ("NAV") per share (or its equivalent) practical expedient. The amendment removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. The amendment also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The amendment is effective for all plan years beginning after December 31, 2015. Earlier application is permitted. Entities should apply the amendments in this update retrospectively to all periods presented. As the Plan measures certain assets using the NAV practical expedient, upon adoption of ASU No. 2015-07, the fair value of these Plan assets will be removed from the fair value hierarchy in all periods presented in the Plan's financial statements. The Plan will continue to disclose information on these investments for which fair value is measured at NAV as a practical expedient.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part I - Fully Benefit-Responsive Investment Contracts, Part II - Plan Investment Disclosures, and Part III - Measurement Date Practical Expedient*. The amendments are effective for all plan years beginning after December 15, 2015. Earlier application of any or all of the three parts is permitted. Part 1 requires fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value. A plan will continue to provide disclosures that help users understand the nature and risks of fully benefit-responsive contracts. Part II eliminates the current generally accepted accounting principles requirements for plans to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation for investments by general type for both participant-directed investments and non-participant-directed investments. The net appreciation or depreciation in investments for the period is still required to be presented in the aggregate but would no longer be required to be disaggregated and disclosed by general type. Part II also requires that investments (both participant-directed and non-participant-directed investments) of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Recently Issued Accounting Pronouncements (continued)

Currently under Accounting Standards Codification ("ASC") Topic 820, classes of assets are grouped and disclosed on the basis of nature, characteristics, and risks, and, under FASB ASC Topics 960, 962, and 965, classes of assets are grouped and disclosed on the basis of general type. In addition, if an investment is measured using the NAV per share (or its equivalent) practical expedient in FASB ASC Topic 820, and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy would no longer be required. The amendments in Part II should be applied retrospectively for all financial statements presented. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end when the fiscal period does not coincide with a month-end.

The Plan elected to early adopt these standard updates for the year ended December 31, 2015 and adjusted the financial statement disclosures for all periods presented. The adoption of these new accounting pronouncements did not have a material impact on the Plan's financial statements.

Subsequent Events

The Plan administrator has evaluated all subsequent events through the auditors' report date, which is the date the financial statements were available for issuance. There were no material subsequent events that required recognition or disclosure in the financial statements.

Note 2 - Investments

John Hancock has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of December 31, 2015 and 2014 and the income earned or losses incurred on the investments for the year ended December 31, 2015, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by John Hancock, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

Note 3 - Fair Value Accounting

The Plan applies fair value accounting standards, which establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The Plan's investments are all measured at NAV; therefore, no investments are included within the fair value hierarchy as of December 31, 2015 and 2014.

The Plan's investments in pooled separate accounts are recorded at NAVs reported by the funds' managers as a practical expedient to estimating the fair value, as these investments do not have readily determinable fair values. Due to the the nature of the investments held by the pooled separate accounts, changes in market condition and economic environment may significantly impact the NAVs of the pooled separate accounts and, consequently, the fair values of the funds' interest in the funds. The fair value of these investments has been measured using the NAV per share of the Plan's ownership interest in pooled separate accounts at a price other than NAV.

The guaranteed income fund is designed to provide safety of principal and liquidity and a competitive rate of return. The valuation technique used to measure fair value of the guaranteed income fund was the NAV. A significant portion of the underlying investments in this guaranteed income fund have individually observable market prices.

The Plan's management reaffirms its understanding of the valuation techniques used by its pricing services at least annually. There were no changes to the valuation techniques used during the years presented.

Note 3 - Fair Value Accounting (continued)

Reported Net Asset Values

The following table provides information regarding redemption of investments where the NAV has been used as a practical expedient to measure fair value at December 31, 2015 and 2014:

	Fair Value		Redemption	Redemption
	2015	2014	Frequency	Notice Period
Pooled separate accounts	$ 7,847,199	$ 7,428,342	Daily	Daily
Guaranteed income fund	$ 498,257	$ 537,990	Daily	Daily

Note 4 - Income Taxes

The Plan adopted a prototype plan by URPC, which received a favorable determination letter, dated March 31, 2014, from the IRS as to the qualified status of the Plan. Although the Plan has been amended since receipt of the determination letter, the Plan administrator believes the Plan remains a qualified plan and is not subject to taxes. Accordingly, no provision for federal or state income taxes has been recorded.

Generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or his or her beneficiary.

Note 7 - Related Party and Party-in-Interest Transactions

Certain Plan investments in pooled separate accounts and the guaranteed income fund are managed by John Hancock. John Hancock is the asset custodian, as defined by the Plan; therefore, these transactions qualify as party-in-interest.
