DEL WEST USA 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015 AND 2014

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Del West USA 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan covering all full-time employees of Del West USA (the "Company") who have completed one month of service, effective January 1, 2015. Prior to December 31, 2014, all full-time employees of the Company were eligible to participate in the plan after completion of three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

In December 2013, the Company terminated their contract with Great-West Life & Annuity Insurance Company as recordkeeper and custodian of the Plan. As a result, effective March 18, 2014, the Plan transferred substantially all of its assets to John Hancock Life Insurance Company USA. The Plan maintained its investment in the Guaranteed Portfolio Fund with Great-West Life & Annuity Insurance Company to avoid termination contract fees.

2. Contributions

Each year, participants may contribute up to 100% of their pre-tax annual compensation, as defined in the Plan, up to the maximum allowable under the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan provides for transfers from other qualified plans. Participants direct the investment of employee and Company contributions into various investment options offered by the Plan.

The Company may make discretionary matching contributions of a dollar amount or percentage of the participant's deferrals that is uniformly determined by the Company. For the years ended December 31, 2015 and 2014, the Company did not make contributions to the Plan.

3. Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

4. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of participant accounts is based upon years of continuous service. Participants vest 20% per year of service starting at the completion of one year, and are fully vested after the completion of five years.

5. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes receivable are secured by the balance in the participant's account and bear interest at 1% over the prime rate. Principal and interest are paid ratably through payroll deductions. Effective March 18, 2014, the maximum number of loans a participant may have outstanding is one.

6. Payment of Benefits

Upon termination of service a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installment payments. Upon termination of service due to death, disability, or retirement, a participant or participant's beneficiary will receive 100% of the participant's account balance. If a participant's vested benefit in the Plan does not exceed $5,000, then his or her distribution will be in a lump-sum payment. Subject to certain ERISA provisions, a participant may make a hardship withdrawal from his or her account or may make a withdrawal upon attaining age 59½.

7. Forfeited Accounts

Forfeitures of terminated participants' non-vested accounts may be used to reduce future company matching contributions. At December 31, 2015 and 2014 outstanding forfeitures were not material.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

2. Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investment in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. With respect to the Plan, the guidance is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. Management elected to early adopt the provisions of this standard during the year ended December 31, 2015 and has retrospectively applied the pronouncement to the December 31, 2014 financial statements.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III allows plans to measure investments as of a month-end date closest to the plan's fiscal year end, when the fiscal period does not coincide with a month end. Parts I and II are to be applied retrospectively. With respect to the Plan, the ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Management has elected to early adopt Part II during the year ended December 31, 2015 and has retrospectively applied the pronouncement to the December 31, 2014 financial statements. Parts I and III are not applicable to the Plan.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. Recent Accounting Pronouncements (Continued)

The adoption of these standards had no effect on the Plan's net assets available for benefits or changes therein.

3. Plan Administration

The Employer is the plan sponsor and the plan administrator. The plan administrator is responsible for carrying out the duties imposed under ERISA.

4. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

5. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation/depreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

6. Risks and Uncertainties (Continued)

The Plan invests in pooled separate accounts and fixed annuities with underlying mutual funds holding stocks in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

7. Payment of Benefits

Benefits are recorded when paid.

8. Administrative Expenses

Administrative expenses incurred by the custodian and other service providers in performance of their duties are paid from the assets of the Plan. Investment related expenses are included in net appreciation of fair value investments. Substantially all other out-of-pocket administrative expenses of the Plan are paid by the plan sponsor. Expenses paid by the plan sponsor are excluded from these financial statements.

9. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

NOTE C - INVESTMENTS AND CERTIFICATION BY CUSTODIANS

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by John Hancock Life Insurance Company (USA) and Great-West Life & Annuity Insurance Company, the custodians of the Plan, as complete and accurate, except for comparing such information certified by the custodians to information included in the Plan's financial statements and supplemental schedules.

NOTE C - INVESTMENTS AND CERTIFICATION BY CUSTODIANS (Continued)

Total investments and notes receivable from participants held and certified by the custodians in the accompanying Statements of Net Assets Available for Benefits were $1,121,483 and $962,186 as of December 31, 2015 and 2014, respectively. The net investment loss and interest income on notes receivable from participants certified by the custodians in the accompanying Statement of Changes in Net Assets Available for Benefits totaled ($4,398) for the year end December 31, 2015.

NOTE D - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

Pooled separate accounts (except for the John Hancock Stable Value Fund): The net asset value (NAV) of these accounts is based on the market value of their underlying investments. The NAV is not a publicly quoted price in an active market. The pooled separate accounts do not have unfunded commitments relating to their investments or significant restrictions on participant-directed withdrawals. Participant-directed withdrawals can be mad on any business day and may have a redemption notice period for certain pooled separate accounts. Participant-directed transfers to other investments are generally limited to two per calendar month.

John Hancock Stable Value Fund pooled separate account: Included in pooled separate accounts which invests in the John Hancock Stable Value Fund Collective Investment Trust (the "Trust"). The Trust invests primarily in fully benefit-responsive investment contracts and is valued at the net asset value of participation units in the Trust. The net asset value is based on the market value of the underlying investments. The John Hancock Stable Value Fund seeks to preserve capital and provide stability of principal while earning current income that exceeds money market rates over the long term.

Participant transactions may occur daily. However, participant withdrawals may be subject to delay of up to 7 or 30 additional calendar days if it is determined, respectively, that such delay is necessary to maintain adequate liquidity for, or to avoid an adverse impact on, the underlying trust or investment vehicle. In addition, the fund's declaration of trust provides that withdrawals for purposes other than normal benefit payments or plan permitted investment option transfers are subject either to a market value adjustment, or without a market value adjustment effected no later than 12 months. These events may include, but are not limited to the following: mergers, layoffs, plan termination, implementation of early retirement incentive programs, additional investment options are established that constitute a competing fund, or other events within the control of the plan sponsor resulting in a material and adverse financial impact on the issuer's obligations under the contract. The John Hancock Stable Value Fund does not have unfunded commitments relating to its investments.

Fixed annuity: Fair value is determined using a discounted cash flow valuation methodology where the interest rate for the portfolio investment contract is reset at least as frequently as annually. All inputs are generally considered obtainable/observable through review of existing contracts and readily available financial information. The fixed annuity contract provides a guarantee of principal and a guaranteed quarterly interest rate. The portfolio investment contract is backed by the general account assets of Great-West Life & Annuity Insurance Company. Fair value of the investment contract, prior to contract termination, equals the contract value. The interest rate to be credited to the entire value of the Guaranteed Portfolio Fund will be determined by Great-West prior to the last day of each calendar quarter and will be effective for the following calendar quarter. Participants may transfer funds from the Guaranteed Portfolio Fund at any time. The Plan may terminate the annuity contract upon providing a 30 day notice to the issuer.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

Assets at Fair Value as of December 31, 2015

	Level 1	*Level 2*	*Level 3*	*Total*

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

NOTE E - TAX STATUS

The Employer adopted a standardized 401(k) plan, which received a favorable opinion letter from the IRS on March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the opinion letter, the plan administrator and Plan's advisors believe that the Plan is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements. Administration errors, if any, that are insignificant or operational in nature, are handled by the administrator in accordance with applicable IRS correction policies.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2012.

NOTE F - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by John Hancock Life Insurance Company (USA) and Great-West Life & Annuity Insurance Company, the Plan's custodians. These transactions qualify as party-in-interest transactions. Notes receivable from Plan participants and the related interest income are also considered party-in-interest transactions.

NOTE G - SUBSEQUENT EVENTS

Effective January 1, 2016, the Plan was restated to comply with the Pension Protection Act of 2006 and other legislative and regulatory changes. In conjunction with the restatement, the name of the Plan changed to Del West USA 401(k) Retirement Plan and Gamma Technology LLC was added as a participating employer.

Plan management has evaluated subsequent events through September 30, 2016, the date the financial statements were available to be issued. No additional subsequent events were noted.
