THE BUYSEASONS 401(K) FUN FUND PLAN

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2015 and Initial Period Ended December 31, 2014

NOTE 1 - Description of the Plan

The following description of the The BuySeasons 401(k) Fun Fund (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan, established October 1, 2014, is a defined contribution plan established by BuySeasons, Inc. (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). All employees, excluding residents of Puerto Rico, union employees, nonresident aliens without income from a United States source, and temporary employees, as defined in the plan document, and are age 18 or older are eligible to participate. Temporary employees over the age of 21 and have completed at least 1,000 hours of service as defined in the plan document are eligible to participate. Upon enrollment in the Plan, a participant may direct employer and employee contributions to any combination of the available investment options.

Contributions

Each year, participants may contribute up to 75 percent of pretax annual compensation, as defined in the plan document, up to the maximum limits of the Internal Revenue Code (IRC). Participants may designate all or a portion of their deferral contributions as after-tax contributions into a Roth account. Participants may transfer amounts from other qualified plans if the transfer qualifies as a tax-free rollover. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. The Company contributes 100 percent of the first 3 percent and 50 percent of the next 2 percent of compensation that a participant contributes to the Plan. The Company may make additional discretionary contributions to the Plan. There were no discretionary contributions in 2015 or 2014. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's salary reduction contributions, rollover contributions, Company matching contributions and allocations of the Company's discretionary contributions and Plan earnings (net of administrative expenses). Allocations are based on account balances as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their salary reduction contributions, roll-over, catch-up contributions, Company match, and investment income/loss thereon. Vesting in Company discretionary contributions is graduated at a rate of 50 percent per year over a period of two years of service.

NOTE 1 - Description of the Plan (cont.)

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 5.25 percent at December 31, 2015 and 2014, which are determined by the plan administrator based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. Principal and interest is paid ratably through bi-weekly payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement, or termination of employment, as defined in the plan document. The Plan provides for normal retirement at age 62 and early retirement on or after attaining age 55. In-service distributions are allowed after attainment of age 59 1/2. In addition, the Plan allows for hardship distributions if certain criteria are met.

Forfeited Accounts

Forfeited account balances are used to reduce required Company contributions. There were no forfeited account balances at December 31, 2015 and 2014.

Termination of Plan

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their Company contributions.

Administrative Expenses

The Company provides certain accounting and administrative services to the Plan for which no fees are charged. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant’s account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan's management determines the plan's valuation policies utilizing information provided by the trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Recent Accounting Pronouncements

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) – I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient*. Part I requires fully-benefit responsive investment contracts to be measured, presented, and disclosed only at contract value. Part II requires that investments that are measured using fair value (both participant-directed and nonparticipant-directed investments) be grouped only by general type, eliminating the need to disaggregate the investments by nature, characteristics, and risks. Part II also eliminates the disclosure of individual investments that represent 5 percent or more of net assets available for benefits and the disclosure of net appreciation or depreciation for investments by general type, requiring only presentation of net appreciation or depreciation in investments in the aggregate. Additionally, if an investment is measured using the net asset value per share as a practical expedient and that investment is a fund that files a US Department of Labor (DOL) Form 5500 as a direct filing entity, disclosure of that investment's strategy is no longer required. Part III is not applicable to the Plan. The amendments in ASU 2015-12 are effective for fiscal years beginning after December 15, 2015, with early application permitted. The amendments within Part II require retrospective application. Management has elected to early adopt the provisions of Part II of this new standard and, accordingly, these provisions were retrospectively applied.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through October 6, 2016, the date the financial statements were available to be issued.

NOTE 3 - Information Certified by Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA for 2015 and 2014. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statement of Net Assets Available for Benefits as of December 31, 2015 and 2014 and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2015, and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the year and initial period ended December 31, 2015 and 2014, respectively.

NOTE 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

NOTE 4 - Fair Value Measurements (cont.)

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price reported on the active market on which the individual securities are traded for shares or the funds held by the Plan at year end. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 4,335,668	$ -	$ -	$ 4,335,668
Investments, at fair value	$ 4,335,668	$ -	$ -	$ 4,335,668

	Assets at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 4,018,602	$ -	$ -	$ 4,018,602
Investments, at fair value	$ 4,018,602	$ -	$ -	$ 4,018,602

NOTE 5 - Administration of Plan Assets

The Plan's assets are administered under a contract with the trustee of the Plan. The trustee invests funds received from contributions, investment sales, interest, and dividend income and makes distribution payments to participants.

NOTE 6 - Related Party and Party-In-Interest Transactions

Certain of the Plan's investments are managed by the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment manager services are included in net appreciation (depreciation) in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Additionally, the Plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify as party-in-interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTE 7 - Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2014, that the Plan is designed in accordance with applicable sections of the IRC and, therefore, the Plan is not subject to tax under present income tax law. The Plan is required to operate in conformity with the IRC to maintain its qualification. The plan administrator is not aware of any events that have occured that might adversely affect the Plan's qualified status.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there were no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

As of December 31, 2015 and 2014, the Plan had investments of $1,386,617 and $813,501 that were concentrated in two and one fund(s), respectively.

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2015 and Initial Period Ended December 31, 2014

NOTE 1 - Description of the Plan

The following description of the The BuySeasons 401(k) Fun Fund (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan, established October 1, 2014, is a defined contribution plan established by BuySeasons, Inc. (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). All employees, excluding residents of Puerto Rico, union employees, nonresident aliens without income from a United States source, and temporary employees, as defined in the plan document, and are age 18 or older are eligible to participate. Temporary employees over the age of 21 and have completed at least 1,000 hours of service as defined in the plan document are eligible to participate. Upon enrollment in the Plan, a participant may direct employer and employee contributions to any combination of the available investment options.

Contributions

Each year, participants may contribute up to 75 percent of pretax annual compensation, as defined in the plan document, up to the maximum limits of the Internal Revenue Code (IRC). Participants may designate all or a portion of their deferral contributions as after-tax contributions into a Roth account. Participants may transfer amounts from other qualified plans if the transfer qualifies as a tax-free rollover. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. The Company contributes 100 percent of the first 3 percent and 50 percent of the next 2 percent of compensation that a participant contributes to the Plan. The Company may make additional discretionary contributions to the Plan. There were no discretionary contributions in 2015 or 2014. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's salary reduction contributions, rollover contributions, Company matching contributions and allocations of the Company's discretionary contributions and Plan earnings (net of administrative expenses). Allocations are based on account balances as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their salary reduction contributions, roll-over, catch-up contributions, Company match, and investment income/loss thereon. Vesting in Company discretionary contributions is graduated at a rate of 50 percent per year over a period of two years of service.

NOTE 1 - Description of the Plan (cont.)

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 5.25 percent at December 31, 2015 and 2014, which are determined by the plan administrator based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. Principal and interest is paid ratably through bi-weekly payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement, or termination of employment, as defined in the plan document. The Plan provides for normal retirement at age 62 and early retirement on or after attaining age 55. In-service distributions are allowed after attainment of age 59 1/2. In addition, the Plan allows for hardship distributions if certain criteria are met.

Forfeited Accounts

Forfeited account balances are used to reduce required Company contributions. There were no forfeited account balances at December 31, 2015 and 2014.

Termination of Plan

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their Company contributions.

Administrative Expenses

The Company provides certain accounting and administrative services to the Plan for which no fees are charged. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant’s account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan's management determines the plan's valuation policies utilizing information provided by the trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there were no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

As of December 31, 2015 and 2014, the Plan had investments of $1,386,617 and $813,501 that were concentrated in two and one fund(s), respectively.
