PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan

The following is a summary of certain provisions of the Cutting Dynamics, Inc. 401(k) Profit Sharing Plan (the "Plan"). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Participation – The Plan is a defined contribution plan covering all eligible employees of Cutting Dynamics, Inc. and Pilgrim Harp Company (collectively the "Company"), established as of January 1, 1997. Employees are eligible to participate in the Plan after one year of service and attainment of age 18. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Administration – The Plan is administered by the Company which is responsible for controlling and managing the operations and administration of the Plan.

Contributions – Each year, participants may contribute up to 85% of pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. During 2015 and 2014, the Company made a safe harbor contribution in an amount equal to 100% of the first 3% of participant contributions, and 50% of the next 4% of participant contributions. In addition, the Company can make discretionary profit sharing contributions to be allocated based on relative compensation; however, no such contribution was made in 2015 or 2014. Contributions are subject to certain IRS limitations.

Participant Accounts – Each participant's account is credited with the participant's contribution and Company matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are at all times vested in funds in their accounts from all sources.

Notes Receivable From Participants – Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate is based on the prevailing rate of prime plus 1% at the time of the loan. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits – On termination of service due to death, disability, retirement or resignation, a participant may elect to either receive a lump-sum amount equal to the value of his or her account, or annual installments over a 10-year period. In the case of a severe financial hardship, the Plan administrator, in its sole discretion, may direct distribution of all or a portion of the participant's elective and/or voluntary contributions, subject to certain restrictions. Additionally, the Plan has provisions for active participants to make withdrawals from their account, subject to limitations and restrictions.

Note 2. Summary of Significant Accounting Policies (Continued)

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965)*. The Plan elected early adoption of this pronouncement, which changed certain investment disclosure requirements. As such, the Plan is no longer required to (1) disclose individual investments that represent 5% or more of net assets available for benefits; (2) disclose the net appreciation or depreciation for investments by general type; or (3) disaggregate investments by anything other than general type within the fair value hierarchy. These changes have been applied retrospectively to the financial statements.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the MG Trust Company, LLC (the "Trustee"). See Note 4 for discussion of fair value measurements.

Purchases and sales of investment securities are recorded on a settlement basis. There is no significant difference between settlement and trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and the benefit payment is recorded.

Payment of Benefits – Benefits are recorded when paid.

Administrative Expenses – Fees related to distributions and loans are charged directly to participant accounts and are included in administrative expenses. Commission credit payments are made from excess revenue generated by the Plan through fund revenue or fees that are made available to the Plan. The Company monitors the payments received by the Plan service providers to ensure that they are used properly for qualifying plan administrative and operating expenses.

Reclassification – Certain prior year amounts have been reclassified to conform with current year presentation.

Subsequent Events – The Plan has evaluated subsequent events and transactions for potential recognition and presentation through the date the financial statements were available to be issued, October 4, 2016. Reference Note 9 for details of subsequent events.

Note 3. Unaudited Information

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified to the completeness and accuracy of all investments reflected in the statements of net assets available for benefits at December 31, 2015 and 2014, the supplemental schedule of assets (held at end of year) at December 31, 2015, the related investment activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2015 and 2014 and investment related information in the accompanying notes to the financial statements. This information is unaudited by independent accountants.

Note 4. Fair Value Measurements

The Plan estimates the fair value of financial instruments using available market information and other generally accepted valuation methodologies. The inputs used to measure fair value are classified into three levels:

Level 1 – Quoted prices in active markets for identical assets and liabilities.

Level 2 – Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3 – Unobservable inputs in which little or no market data exists.

The following is a description of the valuation methodologies used for assets of the Plan measured at fair value at December 31, 2015 and 2014:

- Interest bearing cash accounts are classified as Level 1 investments.
- The fair value of the investment in the common/collective trust fund is valued at its reported net asset value ("NAV") because it is not considered fully benefit-responsive. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. It is based on the market value of its underlying investments, adjusted for charges and expenses, and is classified as Level 2.
- The fair values of registered investment companies are determined based on their quoted closing market prices in active markets for identical investments, and are classified as Level 1.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. There have been no changes in methodologies used from 2014 to 2015. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Total	<u>\$ 11,188,967</u>	<u>\$ 399,370</u>	<u>\$ -</u>	<u>\$ 11,588,337</u>

Note 5. Party-in-Interest Transactions

CPI Qualified Plan Consultants ("CPI") charges the Plan for investment advisory and recordkeeping services. CPI is the Plan administrator and, therefore, these transactions qualify as party-in-interest transactions. Administrative expenses paid by the Plan to CPI were \$14,112 and \$5,607 in 2015 and 2014, respectively.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, the assets then remaining in the funds will be allocated and distributed to participants in accordance with the terms and provisions of the Plan.

Note 7. Tax Status

The Internal Revenue Service has previously ruled, in a determination letter dated March 31, 2008, that the prototype standardized model on which this Plan is based qualifies under Section 401(a) of the Internal Revenue Code and is, therefore, not subject to tax under present income tax laws. The adopted Plan has been amended since the Internal Revenue Service ruling; however, the Plan administrator believes the adopted Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 7. Tax Status (Continued)

The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require such recognition or disclosure in the financial statements. As of December 31, 2015, the Plan's tax years from 2012 and thereafter remain subject to examination by the Internal Revenue Service, as well as various other taxing authorities.

Note 8. Risk and Uncertainties

The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9. Subsequent Events

Effective January 20, 2016, the Company elected to switch the Trustee of the Plan from MG Trust Company, LLC to The Standard.
