Forfeited Accounts

At December 31, 2015 forfeited non-vested accounts totaled $318. This account will be used to reduce future employer contributions as well as plan expenses.

NOTE 2. SUMMARY OF ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts form fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded in the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investment bought and sold as well as held during the year.

Payments of Benefits

Benefits are recorded when paid.

Plan Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation or depreciation of fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 6, 2016, the date the financial statements were available to be issued.

NOTE 3. INVESTMENTS

The fair value of individual investments that represents 5% or more of the Plan's net assets is as follows:

	December 31, 2015
Great-West Lifetime 2015	16,635
Great-West Lifetime 2025	4,124
Great-West Lifetime 2035	3,672
Great-West Lifetime 2045	5,683
Great-West Lifetime 2055	4,898

During 2015, the plan's investments (including gains and losses on investments bought and sold as well as held during the year) depreciated in value by $945.

NOTE 4. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by the trustee.

	2015
Mutual funds	35,742
Key guaranteed portfolio fund	1,234

NOTE 5. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair

value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

NOTE 5. FAIR VALUE MEASUREMENTS (continued)

The three levels of the fair value hierarchy under FASB ASC 820 as described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for asset measured at fair value. There have been no changes in the methodologies used at December 31, 2015.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Guaranteed Portfolio Fund: Valued at fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2015:

NOTE 5. FAIR VALUE MEASUREMENTS (continued)

	Asset at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Mutual funds	35,742	-	-	35,742
Key guaranteed portfolio fund		1,234	-	1,234
Total asset at fair value	35,742	1,234	-	36,976

NOTE 7. GUARANTEED INVESTMENT CONTRACT WITH GREAT WEST LIFE INSURANCE COMPANY

In 2015, the plan has a benefit-responsive guaranteed investment contract with Great West Life Insurance Company (Great West). Great West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and specified interest rate that is guaranteed to the plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value which is the same as the contract value in arriving at net assets available for benefits. Contract value, as reported to the plan by Great West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. As of December 31, 2015 contract value was $1,234.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2015 was $1,234. The crediting interest rate us based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting. Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provision, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

NOTE 7. GUARANTEED INVESTMENT CONTRACT WITH GREAT WEST LIFE INSURANCE COMPANY (Continued)

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:

Base in Actual Earnings:	1.20%
Based on interest rate credited to participants:	1.20%

NOTE 8. RELATED-PARTY TRANSACTIONS

Certain Plan investments are shares of funds managed by the trustees as defined by the Plan and, therefore these transactions qualify as party in interest transactions.
The Plan also made direct payments to third party administrator of $792. The Plan Sponsor pays directly any other fees related to the plan's operations.

NOTE 9. PLAN TERMINATION

Although it has not expressed any intent to do so, the company has the right under the Plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their employer contribution.

NOTE 10. PLAN AMENDMENT AND TAX STATUS

The IRS has determined and has informed the Company that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The administrator believes that the Plan is designed, and is currently being operated, in compliance with applicable requirements of the IRC and, therefore believe that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax provisions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdiction; however, there are currently no audits for any tax periods in progress.

NOTE 11. FIDELITY BOND

The Plan was covered by a fidelity bond Company was in compliance with the ERISA bonding requirements.

NOTE 12. RISK AND UNCERTAINTIES

The Plan invests in various securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant’s account balances and the amounts reported in the statement of net assets available for benefits.
