FAIVELEY TRANSPORT 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

Note 1—Description of Plan

The following description of Faiveley Transport 401(k) Plan (the "Plan"), is provided for general information purposes only. The Plan was established after the merging of the Ellcon National, Inc. 401(k) Savings Plan and the Graham-White Manufacturing, Co. 401(k) Profit Sharing Plan. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering substantially all employees of Faiveley Transport (the "Plan Sponsor"). Employees who are at least 21 years of age become eligible on the first day of the month after completing 2 months of employment. Participants may participate in the Plan's non-elective and matching contributions after service of 6 months and 2 months, respectively. Prior to October 1, 2014, an employee had to obtain 6 months of service prior to becoming eligible to participate in the Plan. The Plan was formally amended and restated effective February 26, 2015. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Participant Contributions – Participants may contribute up to 100% of their eligible compensation on a pre-tax and Roth basis as defined by the Plan up to the statutory maximum amount of contributions allowed by the Internal Revenue Service ("IRS"). The statutory maximum amount of contributions allowed was \$18,000 and \$17,500 for the years ended December 31, 2015 and 2014, respectively. The Plan allows for catch-up contributions for participants over the age of 50 up to limits imposed by law, \$6,000 and \$5,500 for the years ended December 31, 2015 and 2014, respectively. Participants may contribute amounts representing distributions from other qualified benefit plans. These contributions, if any, are classified as rollover contributions in the statements of changes in net assets available for benefits.

Plan Sponsor Contributions – The Plan Sponsor makes matching contributions of 40%, up to 6% of eligible compensation. The Plan Sponsor may make a discretionary profit sharing contribution to those employed on the last day of the period and who have completed at least 1,000 hours of service. There were no discretionary profit sharing contributions made during 2015 or 2014.

Effective October 3, 2014, the Plan was amended so both newly hired and current employees, excluding non-participants from the pre-existing Ellcon National, Inc. 401(k) Savings Plan, became subject to automatic enrollment into the Plan at a 6% enrollment rate, unless the participant affirmatively elects otherwise. From September 1, 2013 through September 30, 2014, newly hired participants were subject to a 3% enrollment rate. Employees who were not participating in the Ellcon National, Inc. 401(k) Savings Plan at the time of the merger are not subject to the automatic enrollment. All participants who have automatic enrollment contributions made on his or her behalf shall be subject to an annual increase of 1% (not to exceed 10%). Participants may opt out of these annual increases.

Participant Accounts – Each participant's account is credited with the participant's contributions, the Plan Sponsor's matching contributions, an allocation of the Plan Sponsor's discretionary contributions, and Plan earnings and charged with withdrawals and an allocation of Plan losses and administrative expenses. The matching contributions are allocated based upon participants' contributions to the Plan. Earnings are allocated by fund based on the ratio of a participant's account invested in a particular fund to all participants' investments in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. The Plan Sponsor's discretionary profit sharing contribution, if any, is allocated based upon participants' eligible compensation.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

Note 1—Description of Plan (continued)

Vesting – Participants are 100% vested in their own rollover contributions, pre-tax contributions, matching Plan Sponsor contributions, and any earnings thereon. A participant is automatically fully vested in Plan Sponsor discretionary profit sharing contributions made under the Plan, if any, at age 65, upon early retirement at 59½ with 5 years of service, death, or disability. The following table shows vesting for Plan Sponsor discretionary profit sharing contributions.

<u>Years of Service</u>	<u>Vesting Percent</u>
1	0%
2	20%
3	40%
4	60%
5	80%
6+	100%

Notes Receivable From Participants – Participants may borrow from their accounts a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000 reduced by provisions concerning outstanding loans or 50% of the participant's vested interest in his or her account balances. Borrowings are treated as a transfer between the investment funds and notes receivable from participants. Terms range from one to five years. A borrowing is secured by the balance in the participant's account and bears interest at the prevailing interest rates, as defined in the Plan. For years ended December 31, 2015 and 2014, the interest rate for all loans was 4.25%. Principal and interest are paid ratably through monthly payroll deductions.

Forfeitures – At December 31, 2015 and 2014, forfeited non-vested accounts totaled \$5,596 and \$6,008, respectively. These amounts are used to reduce future Plan Sponsor's contributions to the Plan. For the years ended December 31, 2015 and 2014, \$5,949 and \$4,781 were used to reduce Plan Sponsor contributions, respectively.

Investment Options – Participants may direct the investment of their account into various options offered by the Plan. In addition, the Plan offers a self-directed brokerage investment option, where participants can invest in stocks, bonds, treasury securities, certificates of deposit, unit investment trusts, foreign securities, and mutual funds that are otherwise not offered in the Plan. The minimum investment in the self-directed brokerage account is \$2,500.

Benefit Payments – Distributions can be made due to retirement, death, disability, or termination of employment and are subject to the applicable provisions of the Plan agreement. Up to 100% of the participant's vested account balance can be paid in a lump-sum, direct rollover to another qualified plan, or installments to the participant or their beneficiaries.

Upon showing of "financial hardship" and approval from the Plan Sponsor, a participant may withdraw part or all of their voluntary contributions, and certain amounts transferred to this Plan from another plan of the Plan Sponsor, if applicable. If a withdrawal is made, the participant is ineligible to contribute to the Plan for a period of six months following the distribution.

Upon attainment of age 55, participants shall be entitled to receive a distribution of their entire account balance, including the vested portion of Plan Sponsor matching and discretionary profit sharing contributions.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

Note 1—Description of Plan (continued)

Administrative Expenses – Certain expenses of maintaining the Plan, primarily consisting of investment management fees, are paid by the Plan, unless otherwise paid by the Plan Sponsor. Expenses that are paid by the Plan Sponsor are excluded from these financial statements. Transactional fees related to the administration of notes receivable from participants and distributions are charged directly to the participant's account and are included in administrative expenses.

Cash and Cash Equivalents – Cash equivalents include all money market instruments with an original maturity of three months or less.

Note 2—Summary of significant accounting policies

Method of Accounting – The Plan's financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates – The preparation of financial statements in conformity with GAAP requires the Plan's administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Cash equivalents are valued at face value, which approximate fair value. Units of self-directed brokerage accounts are stated at quoted prices. Mutual funds are stated at quoted market prices. Common trust funds are valued at quoted prices which represent the net asset value of shares held by the Plan at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits – Benefits are recorded when distributed to participants.

Recent Accounting Pronouncements – In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*. ASU 2015-07 eliminates the requirement to categorize investments in the fair value hierarchy if the fair value is measured at Net Asset Value ("NAV") per share (or its equivalent) using the practical expedient in the FASB's fair value measurement guide. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. As permitted, the Plan has elected early adoption and has applied this ASU retrospectively.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

Note 2—Summary of significant accounting policies (continued)

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Part I Fully Benefit-Responsive Investment Contracts, Part II Plan Investment Disclosures, Part III Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investment by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Finally, self-directed brokerage accounts are now disclosed as one general investment type. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. As permitted, the Plan has elected early adoption of Parts I and II and has applied the ASU retrospectively for all periods presented.

Note 3—Certified financial information

Fidelity Management Trust Company, the Plan's trustee, holds the Plan's investment assets and executes transactions therein. Investments, notes receivable from participants, investment income, and interest income from participants' notes receivable information included in the accompanying financial statements and supplemental schedule is based on information certified by the trustee as complete and accurate and has not been examined by independent auditors of the Plan.

Note 4—Common trust fund

The Plan invests in a common trust fund with Wells Fargo Bank, N.A. ("Wells Fargo"). The fund invests in instruments which are not expected to experience significant price fluctuation in most economic or interest rate environments. The account is credited with earnings on the underlying investments and charged for participants' withdrawals and administrative fees. The Plan is permitted to redeem investment units at NAV for participant-directed transactions on the measurement date. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

FAIVELEY TRANSPORT 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

Note 5—Fair value measurements

FASB Accounting Standards Codification 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes valuation inputs into three levels as described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2015 and 2014.

Cash and Cash Equivalents – Valued at cost, which approximates fair value.

Self-Directed Brokerage Account – Valued at the daily closing price reported in the active market in which the individual securities are traded.

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Trust Fund – Valued at NAV based on estimated fair value of the underlying assets, see Note 4.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

FAIVELEY TRANSPORT 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

Note 6—Party-in-interest transactions

The Plan invests in various investments managed by Fidelity Investments, a company affiliated with the Plan's trustee, and therefore these transactions qualify as party-in-interest transactions.

The Plan Sponsor pays the trustee and asset management fees to Fidelity Management Trust Company. In addition, notes receivable from participants are considered to be party-in-interest transactions because they are transacted with Plan participants.

Note 7—Plan termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8—Income tax status

The IRS has issued an opinion letter dated March 31, 2014, stating the prototype plan document used by the Plan was designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan's administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9—Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

FAIVELEY TRANSPORT 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

Note 1—Description of Plan

The following description of Faiveley Transport 401(k) Plan (the "Plan"), is provided for general information purposes only. The Plan was established after the merging of the Ellcon National, Inc. 401(k) Savings Plan and the Graham-White Manufacturing, Co. 401(k) Profit Sharing Plan. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering substantially all employees of Faiveley Transport (the "Plan Sponsor"). Employees who are at least 21 years of age become eligible on the first day of the month after completing 2 months of employment. Participants may participate in the Plan's non-elective and matching contributions after service of 6 months and 2 months, respectively. Prior to October 1, 2014, an employee had to obtain 6 months of service prior to becoming eligible to participate in the Plan. The Plan was formally amended and restated effective February 26, 2015. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Participant Contributions – Participants may contribute up to 100% of their eligible compensation on a pre-tax and Roth basis as defined by the Plan up to the statutory maximum amount of contributions allowed by the Internal Revenue Service ("IRS"). The statutory maximum amount of contributions allowed was \$18,000 and \$17,500 for the years ended December 31, 2015 and 2014, respectively. The Plan allows for catch-up contributions for participants over the age of 50 up to limits imposed by law, \$6,000 and \$5,500 for the years ended December 31, 2015 and 2014, respectively. Participants may contribute amounts representing distributions from other qualified benefit plans. These contributions, if any, are classified as rollover contributions in the statements of changes in net assets available for benefits.

Plan Sponsor Contributions – The Plan Sponsor makes matching contributions of 40%, up to 6% of eligible compensation. The Plan Sponsor may make a discretionary profit sharing contribution to those employed on the last day of the period and who have completed at least 1,000 hours of service. There were no discretionary profit sharing contributions made during 2015 or 2014.

Effective October 3, 2014, the Plan was amended so both newly hired and current employees, excluding non-participants from the pre-existing Ellcon National, Inc. 401(k) Savings Plan, became subject to automatic enrollment into the Plan at a 6% enrollment rate, unless the participant affirmatively elects otherwise. From September 1, 2013 through September 30, 2014, newly hired participants were subject to a 3% enrollment rate. Employees who were not participating in the Ellcon National, Inc. 401(k) Savings Plan at the time of the merger are not subject to the automatic enrollment. All participants who have automatic enrollment contributions made on his or her behalf shall be subject to an annual increase of 1% (not to exceed 10%). Participants may opt out of these annual increases.

Participant Accounts – Each participant's account is credited with the participant's contributions, the Plan Sponsor's matching contributions, an allocation of the Plan Sponsor's discretionary contributions, and Plan earnings and charged with withdrawals and an allocation of Plan losses and administrative expenses. The matching contributions are allocated based upon participants' contributions to the Plan. Earnings are allocated by fund based on the ratio of a participant's account invested in a particular fund to all participants' investments in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. The Plan Sponsor's discretionary profit sharing contribution, if any, is allocated based upon participants' eligible compensation.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

Note 1—Description of Plan (continued)

Vesting – Participants are 100% vested in their own rollover contributions, pre-tax contributions, matching Plan Sponsor contributions, and any earnings thereon. A participant is automatically fully vested in Plan Sponsor discretionary profit sharing contributions made under the Plan, if any, at age 65, upon early retirement at 59½ with 5 years of service, death, or disability. The following table shows vesting for Plan Sponsor discretionary profit sharing contributions.

<u>Years of Service</u>	<u>Vesting Percent</u>
1	0%
2	20%
3	40%
4	60%
5	80%
6+	100%

Notes Receivable From Participants – Participants may borrow from their accounts a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000 reduced by provisions concerning outstanding loans or 50% of the participant's vested interest in his or her account balances. Borrowings are treated as a transfer between the investment funds and notes receivable from participants. Terms range from one to five years. A borrowing is secured by the balance in the participant's account and bears interest at the prevailing interest rates, as defined in the Plan. For years ended December 31, 2015 and 2014, the interest rate for all loans was 4.25%. Principal and interest are paid ratably through monthly payroll deductions.

Forfeitures – At December 31, 2015 and 2014, forfeited non-vested accounts totaled \$5,596 and \$6,008, respectively. These amounts are used to reduce future Plan Sponsor's contributions to the Plan. For the years ended December 31, 2015 and 2014, \$5,949 and \$4,781 were used to reduce Plan Sponsor contributions, respectively.

Investment Options – Participants may direct the investment of their account into various options offered by the Plan. In addition, the Plan offers a self-directed brokerage investment option, where participants can invest in stocks, bonds, treasury securities, certificates of deposit, unit investment trusts, foreign securities, and mutual funds that are otherwise not offered in the Plan. The minimum investment in the self-directed brokerage account is \$2,500.

Benefit Payments – Distributions can be made due to retirement, death, disability, or termination of employment and are subject to the applicable provisions of the Plan agreement. Up to 100% of the participant's vested account balance can be paid in a lump-sum, direct rollover to another qualified plan, or installments to the participant or their beneficiaries.

Upon showing of "financial hardship" and approval from the Plan Sponsor, a participant may withdraw part or all of their voluntary contributions, and certain amounts transferred to this Plan from another plan of the Plan Sponsor, if applicable. If a withdrawal is made, the participant is ineligible to contribute to the Plan for a period of six months following the distribution.

Upon attainment of age 55, participants shall be entitled to receive a distribution of their entire account balance, including the vested portion of Plan Sponsor matching and discretionary profit sharing contributions.

FAIVELEY TRANSPORT 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

Note 1—Description of Plan (continued)

Administrative Expenses – Certain expenses of maintaining the Plan, primarily consisting of investment management fees, are paid by the Plan, unless otherwise paid by the Plan Sponsor. Expenses that are paid by the Plan Sponsor are excluded from these financial statements. Transactional fees related to the administration of notes receivable from participants and distributions are charged directly to the participant's account and are included in administrative expenses.

Cash and Cash Equivalents – Cash equivalents include all money market instruments with an original maturity of three months or less.

Note 2—Summary of significant accounting policies

Method of Accounting – The Plan's financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates – The preparation of financial statements in conformity with GAAP requires the Plan's administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Cash equivalents are valued at face value, which approximate fair value. Units of self-directed brokerage accounts are stated at quoted prices. Mutual funds are stated at quoted market prices. Common trust funds are valued at quoted prices which represent the net asset value of shares held by the Plan at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits – Benefits are recorded when distributed to participants.

Recent Accounting Pronouncements – In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*. ASU 2015-07 eliminates the requirement to categorize investments in the fair value hierarchy if the fair value is measured at Net Asset Value ("NAV") per share (or its equivalent) using the practical expedient in the FASB's fair value measurement guide. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. As permitted, the Plan has elected early adoption and has applied this ASU retrospectively.

FAIVELEY TRANSPORT 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

Note 2—Summary of significant accounting policies (continued)

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Part I Fully Benefit-Responsive Investment Contracts, Part II Plan Investment Disclosures, Part III Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investment by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Finally, self-directed brokerage accounts are now disclosed as one general investment type. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. As permitted, the Plan has elected early adoption of Parts I and II and has applied the ASU retrospectively for all periods presented.

Note 3—Certified financial information

Fidelity Management Trust Company, the Plan's trustee, holds the Plan's investment assets and executes transactions therein. Investments, notes receivable from participants, investment income, and interest income from participants' notes receivable information included in the accompanying financial statements and supplemental schedule is based on information certified by the trustee as complete and accurate and has not been examined by independent auditors of the Plan.

Note 4—Common trust fund

The Plan invests in a common trust fund with Wells Fargo Bank, N.A. ("Wells Fargo"). The fund invests in instruments which are not expected to experience significant price fluctuation in most economic or interest rate environments. The account is credited with earnings on the underlying investments and charged for participants' withdrawals and administrative fees. The Plan is permitted to redeem investment units at NAV for participant-directed transactions on the measurement date. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

FAIVELEY TRANSPORT 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

Note 5—Fair value measurements

FASB Accounting Standards Codification 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes valuation inputs into three levels as described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2015 and 2014.

Cash and Cash Equivalents – Valued at cost, which approximates fair value.

Self-Directed Brokerage Account – Valued at the daily closing price reported in the active market in which the individual securities are traded.

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Trust Fund – Valued at NAV based on estimated fair value of the underlying assets, see Note 4.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

FAIVELEY TRANSPORT 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

FAIVELEY TRANSPORT 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

Note 6—Party-in-interest transactions

The Plan invests in various investments managed by Fidelity Investments, a company affiliated with the Plan's trustee, and therefore these transactions qualify as party-in-interest transactions.

The Plan Sponsor pays the trustee and asset management fees to Fidelity Management Trust Company. In addition, notes receivable from participants are considered to be party-in-interest transactions because they are transacted with Plan participants.

Note 7—Plan termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8—Income tax status

The IRS has issued an opinion letter dated March 31, 2014, stating the prototype plan document used by the Plan was designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan's administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9—Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
