The following brief description of the WCV Matched Fund Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all eligible employees of Worthington Christian Village, Inc. and Worthington Christian Village Congregate Care, Inc. (collectively referred to as the Company), who have completed one year of service, which is defined as completing twelve consecutive months and 1,000 hours of service (as defined), and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company's Board of Trustees is responsible for oversight of the Plan, and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions:

Participants may elect to contribute a portion of their compensation (which may not exceed annual dollar limits established by the Internal Revenue Service (IRS)) into the Plan on a pre-tax or after-tax basis. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollovers), with the approval of the plan administrator. Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions received for the year ended December 31, 2014 are net of a liability of \$5,918 to an active participant to return excess contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. The amounts are included in the statement of net assets available for benefits as excess contributions payable, participant at December 31, 2014. The 2014 liability was paid by the Plan in 2015.

The Company may make discretionary matching contributions to each participant's account as determined periodically by the Company's Board of Trustees. The matching contribution is based on a percentage of the participant contribution. The Company matched 25% of the participant's contribution, limited to the first 4% of the participant's compensation in 2015 and 2014. The matching contributions totaled \$15,133 in 2015 and \$15,994 in 2014.

The Plan also has a discretionary profit sharing feature. The profit sharing contribution is allocated in proportion to compensation. The Company contributed 2% of each eligible participant's eligible compensation in 2015 and 2014. The profit sharing contributions totaled \$56,709 in 2015 and \$55,270 in 2014.

Participant accounts:

Each participant's account is credited with the participant's contributions and the Company's discretionary matching contributions, as well as allocations of the Company's discretionary profit sharing contributions and Plan earnings. Each participant's account is charged with allocations of Plan losses and administrative expenses. Allocations are based on participant compensation, earnings or account balances, as defined.

1. Description of the Plan (continued):

Vesting:

Participants are immediately vested in their contributions plus actual earnings thereon. Participants vest in the Company's contribution portion of their accounts based on years of continuous service, as follows:

<u>Years of Service</u>	<u>Percentage</u>
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

Payment of benefits:

Participants who suffer serious financial hardship, as defined by the Plan, may withdraw a portion of their vested account in order to meet their financial needs. Once participants attain age 59-1/2, they may also elect to withdraw from their account, any amount not to exceed their vested portion. All accounts are subject to distribution upon the participant's termination, retirement or death, and are distributed in a single lump sum or direct rollover to another qualified plan.

Forfeitures:

Forfeited nonvested accounts totaled \$9,779 at December 31, 2015 and \$12,458 at December 31, 2014. Forfeitures are used first to pay administrative expenses of the Plan, and then to reduce the Company's contributions. Forfeitures used to pay Plan administrative expenses totaled \$8,545 in 2015 and \$7,200 in 2014.

2. Summary of significant accounting policies:

Basis of accounting:

The financial statements of the Plan are prepared using the accrual basis of accounting.

Fully benefit-responsive investment contracts held by a defined contribution plan are required to be reported at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan's investment contract does not meet the criteria of being fully benefit-responsive, and therefore, the investment contract is recorded on the statements of net assets available for benefits at fair value.

YEARS ENDED DECEMBER 31, 2015 AND 2014

2. Summary of significant accounting policies (continued):

Use of estimates:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates and assumptions.

Investment valuation and income recognition:

The Plan's investments are reported at fair value, as provided by Nationwide, the custodian of the Plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company's Board of Trustees determines the Plan's valuation policies utilizing information provided by the investment advisers and custodian. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits:

Benefits are recorded when paid.

Expenses:

Administrative expenses are paid by the Plan with the expense allocated to each participant. Third-party administrator fees and other professional fees are currently paid by the Company, and are excluded from these financial statements. The Company provides other accounting and administrative services at no cost to the Plan. Administrative expenses of the Plan paid by the Company totaled \$19,120 in 2015 and \$20,785 in 2014.

Additionally, investment related expenses are included in administrative expenses on the statements of changes in net assets available for benefits.

YEARS ENDED DECEMBER 31, 2015 AND 2014

2. Summary of significant accounting policies (continued):

Adoption of new accounting standard:

During 2015, the Plan adopted a new accounting standard related to the measurement of investment disclosures, that is part of the amendments of Accounting Standards Update (ASU) No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans* (Topic 960), *Defined Contribution Pension Plan* (Topic 962), *Health and Welfare Benefit Plans* (Topic 965). The investment disclosures were previously required to include 1) the disaggregation of the fair value of investments by type and class, 2) investment appreciation (depreciation) in fair value by general type, and 3) individual investments with a value equal to or greater than 5% of net assets available for benefits. Due to this change in accounting standard being required to be implemented retrospectively, the footnotes no longer include the above investment disclosures, effective January 1, 2014.

Subsequent events:

Effective January 1, 2016, the Plan was restated to suspend the discretionary profit sharing contribution, and increase the discretionary matching contribution to 75% of the participant's contribution, limited to the first 4% of the participant's eligible compensation. Additionally, the Plan changed third-party administrators as well as its investment platform in 2016.

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through September 26, 2016, the date the Plan's financial statements were available to be issued.

3. Investments:

The following table presents the fair value of investments at December 31, 2015 and 2014. All investments of the Plan were participant-directed at December 31, 2015 and 2014.

	2015	2014
Money market fund	\$ 23,394	\$ 21,404
Mutual funds	1,186,617	1,202,780
Investment contract	<u>139,278</u>	<u>141,054</u>
	<u>\$ 1,349,289</u>	<u>\$ 1,365,238</u>

4. Fair value:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

WCV MATCHED FUND RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEARS ENDED DECEMBER 31, 2015 AND 2014

4. Fair value (continued):

Level 1 – Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

The money market fund is valued at its face value, which approximates fair value.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The investment contract is valued at fair value by Nationwide by discounting the related cash flows based on current yields of similar instruments with comparable duration considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement purposes only. In determining the reasonableness of the methodology, the Company's Board of Trustees evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate). The contract's crediting rate is reset annually.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Certified investments:

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2015 and 2014, and net appreciation (depreciation) in fair value of investments and interest for the years ended December 31, 2015 and 2014, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Nationwide, in accordance with Section 2520.103-5 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA.

6. Party-in-interest transactions:

Certain of the Plan's investments are managed by Nationwide Fund Advisors, an affiliate of Nationwide. Nationwide is the custodian, and therefore, these transactions qualify as party-in-interest transactions. The Plan made direct payments to Nationwide in 2015 and 2014, which are included in administrative expenses on the statements of changes in net assets available for benefits.

7. Tax status:

On July 31, 2009, the IRS stated that the volume-submitter plan adopted by the Plan, as then designed, qualifies under the appropriate section of the Internal Revenue Code (the Code). The Plan has not received a determination letter specific to the Plan itself. The Plan has been amended since receiving the opinion on the volume-submitter plan; however, the plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS and DOL. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

8. Plan termination:

Although the Company has not expressed any interest to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan were to terminate or partially terminate, all participants would become 100% vested in their accounts.

9. Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Prohibited transactions:

The Company failed to remit participant contributions totaling \$623 in 2014 and \$1,874 in 2013. The Company remitted the missed contributions, including the lost earnings, in 2015.

11. Reconciliation of financial statements to Form 5500:
