Independent Auditor's Report

To the Participants and Plan Administrator
De Nora Tech, Inc. Investment Savings Plan
Concord, Ohio

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of De Nora Tech, Inc. Investment Savings Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2015 and 2014, that the information provided to the plan administrator by the trustee is complete and accurate.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2015 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

De Nora Tech, Inc. Investment Savings Plan

Notes to Financial Statements

1. Plan Description

The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all salaried and hourly employees of De Nora Tech, Inc. (the Company). Employees are eligible to participate in the Plan provided they have worked for the Company for a period of 30 days. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Subject to limitations contained in the Plan and under the Internal Revenue Code (IRC), participants can contribute up to 50% (in whole percentages) of their pretax earnings, excluding overtime, bonuses and other forms of special compensation (earnings). Beginning January 1, 2015, the Plan was amended to implement a qualified automatic contribution arrangement (QACA). Under QACA a participant's minimum deferral election is equal to the higher of: (a) 3% of Plan compensation (as defined) up to 8% of Plan compensation (based on year of participation), or (b) their present elective deferral percentage plus 1%. All deferrals are subject to the maximum elective deferral limit under the Plan of 10% of Plan Compensation. In order to meet these limitations, contributions by employees representing the top 20% in pay are limited to 10% of base pay (as defined). The Company contributes an amount equal to 100% of participants' contributions up to 3% of their earnings and 50% of participants' contributions between 3% and 6% of their earnings. Company contributions are allocated among the investment funds available in the same proportion as elected by the participants. The Company, at its discretion, can make an additional contribution to the Plan for all employees with one year of service who were employed as of the last day of the respective Plan year. The additional contribution for the years ended December 31, 2015 and 2014 was \$757,605 and \$699,810, respectively.

Participant Accounts

Each participant's account is credited with the participant and Company contributions, as well as an allocation of Plan earnings and losses. Allocation of the earnings and losses is based on participants' account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Additionally, participants elect to maintain their accounts in a combination of investment funds. Separate accounting for each of the participants' funds is maintained pursuant to the participant's designated election.

Vesting

A participant always has a nonforfeitable interest in that portion of Plan assets attributable to his or her contributions. Beginning January 1, 2015, the Company's contributions will vest upon an employee completing two years of service, commencing with the employee's original hire date. Prior to this, Company contributions became vested upon an employee completing three years of service, commencing with the employee's original hire date. However, upon the participant's attainment, while employed by the Company, of normal retirement age (age 65), retirement, death, or total and permanent disability, a participant shall be fully vested in Company contributions.

De Nora Tech, Inc. Investment Savings Plan

Notes to Financial Statements

Notes Receivable from Participants

Participants are eligible to take out loans (after one year of participation in the Plan) against amounts accumulated in the Plan on their behalf. The Plan limits the loan amount to a maximum of \$50,000 minus the difference, if any, between the participant's highest loan balance during the previous one-year period preceding the date the new loan is to be made and the participant's outstanding loan balance the day before receiving the new loan; or, fifty percent of the participant's vested account balance, whichever is less. Participants can only have one loan outstanding under the Plan at any time. The loans are repayable over one to four years, unless used to acquire a principal residence, and bear fixed interest at the prime rate plus one percent as of the loan date. Interest rates ranged from 4.25% to 9.25% on loans outstanding at December 31, 2015 and 2014.

Forfeitures

Forfeited non-vested accounts totaled \$0 at December 31, 2015 and 2014. These accounts are used for payment of Plan expenses or to reduce future Company contributions to the Plan. For the years ended December 31, 2015 and 2014, Company contributions were reduced by \$13,252 and \$7,758, respectively, from forfeited non-vested accounts.

Distributions

Vested benefits are payable upon the participant's attainment of age 59-1/2, five years of service with the Company (as defined), separation from service with the Company, death, or total and permanent disability. With respect to distributions, if the vested balance is greater than \$1,000 and less than \$5,000, and the participant does not make an election to either receive or to roll over the distribution, the distribution must be rolled over to an IRA. If the vested balance is \$1,000 or less, the form of distribution remains as a single lump-sum payment.

Administration

The Plan is administered by the Investment Savings Committee (Committee). Members of the Committee are appointed by the Chief Operating Officer and approved by the Company's Board of Directors. The Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (trustee) receives and holds Plan assets and makes distributions to participants in accordance with the Plan.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements and supplemental schedule have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

De Nora Tech, Inc. Investment Savings Plan

Notes to Financial Statements

Contract value is the relevant measurement for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the contract value of the common/collective trust, and the statements of changes in net assets available for benefits are prepared on a contract value basis.

The Plan presents in the statements of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments, which consists of realized gains or losses and the unrealized appreciation or depreciation on those investments.

Investment transactions are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivables from participants are reclassified as distributions based upon the terms of the Plan document.

Benefit Distributions

Benefit distributions are recorded when paid to participants.

Expenses of the Plan

Direct fees and expenses related to investment transactions are paid from the Plan. All other fees and expenses relating to the operation of the Plan and its related trust are paid by the Company.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options through the use of mutual funds. Investment securities are exposed to various risks, such as interest rate and market fluctuations. Due to the level of risk associated with certain investment securities, as well as the level of uncertainty related to changes in the value of the investment securities, it is at least reasonably possible that changes in investment values in the near term would materially affect participants' account balances and the amounts reported in the financial statements.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the financial statements. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan adopted this update for the 2015 Plan year, and it was retrospectively applied to the 2014 Plan year. Prior year disclosures have been revised to reflect the retrospective application of this update. The impact of adopting this update is reflected in Note 3.

In July 2015, the FASB issued ASU No. 2015-12, *Pension Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient – Consensus of the Emerging Issues Task Force*. The amendments in this update (1) require a pension plan to use contract value as the only measure for fully benefit-responsive investment contracts, (2) simplify and increase the effectiveness of the investment disclosure requirements for employee benefit plans, and (3) provide benefit plans with a measurement-date practical expedient similar to the practical expedient provided to employers in ASU 2015-04, *Practical Expedient for the Measurement Date of an Employer's Defined Benefit Obligation and Plan Assets*. The amendments in this update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Part I and Part II shall be applied retrospectively to all periods presented, while the amendments in Part III shall be applied prospectively. The Plan has adopted Parts I and II of this update for the 2015 Plan year. Part III is not applicable to this Plan. The adoption of ASU 2015-12 did not have a material impact on the financial statements.

Upon adoption of ASU 2015-12, fully benefit-responsive investment contracts are measured, presented and disclosed only at contract value.

Evaluation of Subsequent Events

The Company has evaluated subsequent events through October 5, 2016, which is the date the financial statements were available to be issued, and has determined that there were no subsequent events that have occurred through that date that have not already been reflected in the financial statements and/or disclosed in the notes.

De Nora Tech, Inc. Investment Savings Plan

Notes to Financial Statements

3. Fair Value Measurements

Fair Value Measurements and Disclosures defines fair value and provides guidance for measuring fair value and expands disclosures about fair value measurements in accordance with accounting principles generally accepted in the United States of America. *Fair Value Measurements and Disclosures* does not require any new fair value measurements, but rather applies to all other accounting pronouncements that require or permit fair value measurements.

Fair Value Measurements and Disclosures establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobserved inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. The mutual funds held by the Plan are deemed to be actively traded.

De Nora Tech, Inc. Investment Savings Plan

Notes to Financial Statements

Pooled separate accounts: The fair values of participation units in the pooled separate accounts are based upon the net asset values of such accounts, which are provided by the trustee. The net asset value is based on the underlying assets owned by the account less liabilities and then divided by the number of shares outstanding. The accounts are made up of a wide variety of underlying investments that seek to replicate the movements of an index of a specific financial market, such as the Standard & Poors (S&P) or New York Stock Exchange (NYSE). The accounts allow for daily redemptions and contributions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

<i>December 31, 2015</i>	Fair Value Measurements at Reporting Date Using			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 13,670,167	\$ -	\$ -	\$ 13,670,167
Assets measured at NAV (a)				12,595,244
Total Assets, at fair value	\$ 13,670,167	\$ -	\$ -	\$ 26,265,411

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

<i>December 31, 2014</i>	Fair Value Measurements at Reporting Date Using			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 15,612,320	\$ -	\$ -	\$ 15,612,320
Assets measured at NAV (a)				11,308,648
Total Assets, at fair value	\$ 15,612,320	\$ -	\$ -	\$ 26,920,968

(a) In accordance with FASB Accounting Standards Codification Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

De Nora Tech, Inc. Investment Savings Plan

Notes to Financial Statements

4. Investments/Notes Receivable from Participants (unaudited)

All investment and notes receivable from participants information disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2015 and 2014, and the net appreciation (depreciation) in fair value of investments and interest and dividends for the years ended December 31, 2015 and 2014, were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the Plan's trustee.

5. Investments in Fully Benefit-Responsive Investment Contracts

The Plan's investments in fully benefit-responsive investment contracts are valued at contract values as reported to the Plan by the trustee. Contract value represents contributions made to the contract, plus earnings, less participant withdrawals and administrative expenses. As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for the guaranteed investment contract. The NAV practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The fund's objective is to maintain stability of principal through underlying assets which maintain an average S&P credit quality. Participant transactions (purchases and sales) may occur daily. All other withdrawals of assets may be delayed for up to twelve months at the sole discretion of the trustee.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

7. Tax Status of the Plan

The Plan uses a prototype plan document sponsored by McDonald Hopkins, LLC. McDonald Hopkins, LLC received an opinion from the Internal Revenue Service (IRS), dated March 31, 2008, which states that the prototype plan document satisfies the provisions of Section 401 of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

De Nora Tech, Inc. Investment Savings Plan

Notes to Financial Statements

8. Parties-in-Interest and Related Party Transactions

Transactions that qualify as parties-in-interest consist of purchases and sales of Principal Life Insurance Company funds sponsored by an affiliate of the Plan's trustee.

During 2015 and 2014, the Plan was under contract with Principal Life Insurance Company to provide various administrative services. Fees paid by the Plan for these services for the years ended December 31, 2015 and 2014 were \$7,266 and \$6,273, respectively.

During 2015 and 2014, the Company utilized the prototype plan sponsor for plan administration and other consulting matters. The fees for these services were paid by the Company.
