GLUMAC 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015 AND 2014

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Glumac 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General - The Plan is a defined contribution 401(k) profit sharing plan covering all of the employees of Glumac (the “Plan Sponsor” or “Company”). Employees are eligible to defer a portion of their compensation into the Plan if they have completed 30 days of service. Those employees covered under a collective bargaining agreement and nonresident aliens are not eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and Section 401(a) of the Internal Revenue Code.

Contributions - Participants may defer up to 100% of their annual compensation limited to certain nondiscrimination tests and to \$18,000 and \$17,500 as of December 31, 2015 and 2014, respectively, as prescribed by the Internal Revenue Code (IRC). Participants age 50 and older may elect to make additional catch up contributions of \$6,000 and \$5,500 for 2015 and 2014, respectively. The Plan includes an auto enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 2% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant.

The Company may make discretionary matching and other contributions to the Plan. During 2015 and 2014, the Company matched 25% of the participant’s contribution up to a maximum matching contribution of \$2,000. Company profit sharing contributions are determined annually by the Board of Directors. No profit sharing contributions were made for 2015 and 2014. Participants are eligible for the matching contribution regardless of hours worked. Participants are eligible for allocation of profit sharing if they have worked at least 1,000 hours during the plan year and are employed with the plan sponsor on the last day of the plan year.

Participant Accounts - A separate account is maintained for each participant which records the participant’s contributions and earnings thereon. Allocation of investment earnings is based upon participant account balances. Company matching and other contributions are allocated among participants for the year based on elective deferrals and eligible participants’ compensation, respectively. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s account.

Vesting and Forfeitures - Participants are immediately vested in their contributions and related earnings at all times. Participants vest in discretionary plan sponsor matching and other contributions in ratable installments of 20% per year after the first year of service. Participants automatically become 100% vested in the event of death, disability, age 65 or termination of the Plan.

Payment of Benefits - Upon termination of service, death, disability, or retirement, a participant will receive their benefits as a lump sum amount equal to the value of the participant’s vested interest in his or her account. Additionally, under certain circumstances of financial hardship, the participant is allowed to withdraw funds from the Plan. Account balances that are under \$1,000 may be automatically paid out at the discretion of the Company.

Expenses - Administrative expenses may be paid by the Company. Administrative and investment expenses not paid by the Company are satisfied in part through fees received by the Plan through revenue sharing with various mutual funds and the remainder charged to the participant accounts based upon relative account values on a monthly basis. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses.

Forfeitures - The forfeited accounts of non-vested terminated participants are used to pay administrative expenses and/or to reduce future employer contributions. For the years ended December 31, 2015 and 2014, \$40,336 and \$0 in forfeitures, respectively, were used to reduce employer contributions. For the years ended December 31, 2015 and 2014, \$1,729 and \$0 in forfeitures were used to pay administrative expenses. Forfeited accounts amounted to \$3,535 and \$24,304 at December 31, 2015 and 2014, respectively.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the plan are prepared under the accrual method of accounting.

Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition - Investments are reported at fair value except for benefit responsive investment contracts, which are carried at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year and management and operating expenses associated with the Plan's investments in mutual funds and common/collective trust funds.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Benefit Payments - Benefits are recorded when paid. Accordingly, benefits payable to persons that have elected to withdraw from the Plan but are not yet paid at year-end have not been accrued. At December 31, 2015 and 2014, there were no amounts payable to participants.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

NOTE 3 – RECENTLY ISSUED ACCOUNTING STANDARDS

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)* (ASU 2015-07). ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value per share practical expedient under Accounting Standards Codification (ASC) 820. ASU 2015-07 is effective for the Plan retrospectively for the year ending December 31, 2016, with early adoption permitted. Plan management is currently evaluating the effect that the provisions of ASU 2015-07 will have on the Plan's financial statements.

On July 31, 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans, Topic 960; Defined Contribution Plans, Topic 962; and Health and Welfare Benefit Plans, Topic 965: Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. The amendment simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts, plan investment disclosures, and measurement date practical expedient. The amendments are effective for all plan years beginning after December 15, 2015, and early application of any or all of the three parts is permitted. This ASU should not change total net assets available for benefits; however, it may affect the presentation of the financial statements and the information contained in the disclosures. Plan management is currently evaluating the effect that the provisions of ASU 2015-12 will have on the Plan's financial statements.

NOTE 4 – INVESTMENTS

The Plan's investments are held by Charles Schwab Bank ("Schwab") and Allianz Life Insurance Company of North America. Upon enrollment in the Plan, each participant directs the investment of contributions among available investments. If a participant elects, he or she has the authority to manage and control the assets in his or her individual account. Some Plan assets are held in individual brokerage accounts that are self-directed by each participant. Participant investments are restricted to securities traded on the New York, American, and NASDAQ exchanges and any publicly traded mutual funds. Some plan assets are held in fixed annuity contracts.

The following presents investments that represent 5% or more of the Plan's net assets at December 31:

	2015	2014
Mutual Funds:		
American Century One Choice Very Aggressive	\$ 1,192,329	\$ 1,252,090
American Century One Choice Mod Inv	\$ 1,293,782	\$ 1,170,806
Eaton Vance Atlanta SMID-Cap I	\$ 1,458,376	\$ 1,290,186

Janus Triton Fund Class N	\$ 1,235,983	\$ 1,413,795

During 2015 and 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	2015	2014
Investments at fair value as determined by quoted market price:		
Mutual funds	\$ (1,086,202)	\$ 527,580
Common stock	(44,132)	22,623
Unit investment trusts	(15,391)	26,494
	<u>\$ (1,145,725)</u>	<u>\$ 576,697</u>

NOTE 5 – FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Basis of Fair Value Measurement

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the plan has the ability to access at the measurement date.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in inactive markets;
- Inputs other than quoted prices that are observable for the asset; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Common stocks and unit investment trusts: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust funds: Valued at the NAV of units held by the Plan at year end as reported by the investment managers. The NAV provided by the trustee, is used as a practical expedient to estimate fair value. Units in common collective trust funds are not publically traded, but rather, are redeemable only by the issuer. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal to ensure that securities liquidation will be carried out in an orderly business manner.

Fixed annuity contracts: The Plan holds fixed annuity contracts with Allianz Life Insurance Company of North America (Allianz). Because these fixed annuity contracts are not fully benefit-responsive they are valued at fair value as reported by Allianz. Allianz offered two products to the Plan: Allianz Endurance Plus Annuity (Endurance Plus) and Allianz MasterDex X (MasterDex X) Annuity. Both of the products offer standard index options, select index options and blended index options. In addition, Endurance Plus offers a fixed interest option, which is at least 0.5% per year. Each option has different interest crediting methods. Participants are allowed to allocate the principal to each option and choose the available interest crediting methods. Under the Endurance Plus contract, the guaranteed minimum value equals 90% of total principal, minus any withdrawals, growing at an annual interest rate no less than 1.5% but not greater than 3%. Under MasterDex X contract, the guaranteed minimum value equals 87.5% of total principal, minus any withdrawals, growing at an annual interest rate of no less than 1.95%.

The fair value of the fixed annuity contracts is the initial premium plus the applicable premium bonus percentage, plus interest and additional contributions, less deductions. Each contract term is 10 years. During the first 10 contract years, the participants will be charged a surrender charge to withdraw any amount. At the end of contract term, participants can choose the amount to be paid via either single payout or annuity payments.

In determining the reasonableness of the valuation methodology, Plan management evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, interest rates).

The following table provides information about significant unobservable inputs related to the Plan's investment in the fixed annuity contracts, which is categorized as level 3 in the fair value hierarchy:

<u>Contract Type</u>	<u>Fair Value</u>	<u>Valuation Technique</u>	<u>Significant Unobservable Inputs</u>	<u>Interest Rates</u>
December 31, 2015:				
Fixed annuity contracts	\$ 312,400	Assumed proceeds at discontinuance	Declared interest rate	0.0 – 1.4%

<u>Contract Type</u>	<u>Fair Value</u>	<u>Valuation Technique</u>	<u>Significant Unobservable Inputs</u>	<u>Interest Rates</u>
December 31, 2014:				
Fixed annuity contracts	\$ 310,840	Assumed proceeds at discontinuance	Declared interest rate	1.6 – 4.2%

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

NOTE 6 – COMMON/COLLECTIVE TRUST FUND

The Plan holds an investment in the Morley Stable Value Fund, a common/collective trust fund ("the CCT"). Union Bond & Trust Company (UBTC) is the Trustee of the CCT. The CCT invests primarily in a variety of high quality stable value investment contracts, including contract value wrap contracts purchased for the portfolio, as well as cash and cash equivalents.

As described in Note 2, because the CCT is fully benefit-responsive, contract value is the relevant measurement attributable for that portion of the net assets available for the benefits attributable to the CCT. The CCT is presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by UBTC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of a contract issuer or otherwise. If an event occurs that may impair the ability of the contract issuer to perform, fair value may be less than contract value. The fair value recorded in the Plan's financial statements for such fund at December 31, 2015 and 2014 was \$882,680 and \$687,905, respectively.

The wrap contracts limit the Plan's ability to transact at contract value upon the occurrence of certain events. Such events include, but are not limited to layoffs, Plan termination, business closings, reorganizations, liquidations and the failure of the Plan to qualify under Section 401(a) or Section 401(k) of the IRC. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The wrap contract issuers may terminate a wrap contract at any time. In the event that the fair value of the CCT's portfolio of securities is below its contract value at the time of such termination and terms of the wrap contract have otherwise been met, UBTC may elect to keep the wrap contract in place until such time as the market value of the securities is equal to its contract value. The average yield earned by the CCT calculated based on the change in the net asset value between the beginning and the end of the year was 1.64% and 1.41% for the years ended December 31, 2015 and 2014, respectively. The average yield earned with an adjustment to reflect the actual interest rate credited to participants was 1.92% and 1.46% for the years ended December 31, 2015 and 2014, respectively.

NOTE 7 – NOTES RECEIVABLE FROM PARTICIPANTS

The Plan makes loans to participants based on their vested account balances. Loans must be repaid within five years unless used to acquire a primary residence. Loans are payable through payroll deductions. Interest is charged at rates set by the Plan administrator commensurate with local prevailing rates and range from 0.69% to 4.82% at December 31, 2015. Loans are secured by the vested account balance of the participant, and are limited to the lesser of 50% of the participant's vested account balance or \$50,000.

NOTE 8 – INFORMATION CERTIFIED BY TRUSTEE OF THE PLAN

Other than the fair values of the fixed annuity contracts and the common/collective trust fund, the related interest earned on the fixed annuity contracts and the balance of notes receivable from participants, certain information related to investments in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2015 and 2014, and net appreciation (depreciation) in fair value of investments, interest income on notes receivable from participants and interest and dividends for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Charles Schwab Bank (the trustee of the Plan). The contract value of the common/collective trust fund was certified by the trustee.

NOTE 9 – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds or CCTs managed by Schwab or an affiliate of Schwab. Schwab is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees for investment management services charged to Schwab are netted against Plan earnings and range from 0.0% to 0.9% of the average daily balance.

NOTE 10 – PLAN TERMINATION

Although the plan sponsor has not expressed any intent to do so, the plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, any non-vested account balances would become 100% vested.

NOTE 11 – RISKS AND UNCERTAINTIES

The Plan provides for investments that are exposed to various risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits, and therefore participants' account balances.

NOTE 12 – INCOME TAX STATUS

The Plan is an adoption of a volume submitter profit sharing plan sponsored by WESPAC. An opinion letter was obtained by the Plan administration on March 31, 2014, in which the Internal Revenue Service stated that the volume submitter plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended and restated since the date of the last determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 13 – SUBSEQUENT EVENTS

The Plan's management has performed an evaluation of subsequent events through October 10, 2016, which is the date these financial statements were available to be issued.

Effective January 1, 2016, the Plan was amended to permit Roth elective deferrals.
