Note 1 - Plan Description

The following description of Firelands Regional Medical Center Employer Match Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all eligible employees of Firelands Regional Medical Center (the "Hospital" or the "Plan Sponsor") who meet certain length of service requirements and provides for retirement, death, and disability benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Employees are eligible to participate in the Plan if they were hired on or after January 1, 2007 by the Plan Sponsor and are credited with at least 1,000 hours of service in a consecutive 12-month period.

Contributions - Contributions to the Plan are invested as directed by the participant in any one or more investment alternatives. For employees credited with less than 12 years of service, the Plan provides for employer matching contributions of 100 percent of the participant's contribution in the Plan Sponsor's 403(b) plan, up to a maximum of 3 percent of the participant's annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. For employees credited with 12 years of service or more, the Plan provides for employer matching contributions of 100 percent of the participant's contribution in the Plan Sponsor's 403(b) plan, up to a maximum of 4 percent of the participant's annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. The Plan also allows employee rollover contributions from other qualified plans.

Participant Accounts - Each participant's account is credited with the participant's rollover contributions and allocations of the Plan Sponsor's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting - Participants are immediately 100 percent vested in any rollover contributions and any income or loss thereon. Upon attainment of normal retirement age or upon termination of employment due to disability or death, participants will be 100 percent vested in their accounts. Upon termination of employment for any reason other than normal retirement, disability, or death, the vesting in the Plan Sponsor's matching contribution, plus actual earnings thereon, is based on years of service. Participants vest in matching contributions 20 percent after two years of service and an additional 20 percent each year thereafter until they become fully vested after six years of service.

Note 1 - Plan Description (Continued)

Benefit Payments - Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future Plan Sponsor contributions.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Metropolitan Life Insurance Company (MetLife). MetLife is an agent for the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - While it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan document and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value. At December 31, 2012, the fully benefit-responsive guaranteed investment contract is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits (see Note 7). At December 31, 2011, the guaranteed investment contract was considered nonbenefit-responsive and was valued at fair value. The fair value of the unallocated contract is based on contract value adjusted for certain contractual provisions

All other investments are valued based on quoted market prices. See Note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Plan Sponsor or the Plan.

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 1, 2013, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Reliance Trust Company holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by and certified by MetLife, acting as agent for Reliance Trust Company.

Significant investments of net assets at year end are as follows:

	2012	2011
Mutual funds - At fair value:		
MFS Value Fund - A	$ 114,189	$ 83,388
T. Rowe Price Growth Stock Fund - Advisor	110,932	79,443
Oakmark Equity & Income II	148,403	113,479
T. Rowe Price Retirement 2045 Advisor	124,306	70,102
T. Rowe Price Retirement 2050 Advisor	210,743	94,854
T. Rowe Price Retirement 2035 Advisor	117,124	64,935

Note 4 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2009.

Note *5* - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2012 and 2011.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

Note 5 - Fair Value Measurements (Continued)

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Restatement - Due to a re-evaluation of the significance of the inputs used in the valuation of the guaranteed investment contract, it was determined that the investment previously classified as Level 3 should have been classified as Level 2 based on the fair value hierarchy. Accordingly, the 2011 fair value disclosure has been updated to reflect this change.

Assets Measured at Fair Value on a Recurring Basis at December 31, 2012

	Level 1	Level 2	Level 3	Balance at December 31, 2012

Assets Measured at Fair Value on a Recurring Basis at December 31, 2011

Total	$ 837,888	$ 14,839	$ -	$ 852,727

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2012.

Note 7 - Guaranteed Investment Contracts

In 2012, management determined that the guaranteed investment contract is benefit-responsive. The guaranteed investment contract is a group annuity contract with Metropolitan Life Insurance Company (Metlife). Metlife maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 3 percent. Such interest rates are reviewed on an annual basis for resetting.

There are no events which limit the ability of the Plan to transact at 2012 contract value and 2011 fair value with the insurance company and the financial institution issuer.

The group annuity contract permits the insurance company to terminate the contract if:

- The contract value of the contract is less than the termination amount
- The insurance company determines that the Plan or administration of the Plan is not in conformity with applicable law
- The insurance company receives notice of Plan termination

Note 7 - Guaranteed Investment Contracts (Continued)

The terms of an investment contract generally provide for settlement of payments only upon termination of the contract or total liquidation of the covered investments. Generally, payments will be made prorata, based on the percentage of investments covered by the issuer. If the contract terminates due to issuer default (other than a default occurring because of a decline in its rating), the issuer will generally be required to pay to the Plan the excess, if any, of contract value over market value on the date of termination. Contract termination also may occur by either party upon election and notice.

As described in Note 2, because the group annuity contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets attributable to the group annuity contract. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.
