RETIREMENT PLAN

Notes to Financial Statements

December 31, 2015 and 2014

(1) Description of the Plan

The following description of the AFC 401K Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – On January 1, 2000, Advanced Fresh Concepts Corp. ("AFC") established the Plan as a defined contribution and profit sharing retirement plan qualifying under section 401(k) of the Internal Revenue Code ("IRC") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan covers eligible employees of AFC, in addition to Advanced Fresh Concepts Franchise Corp. and Advanced Fresh Concepts Food Service Corp., both participating affiliates of AFC (collectively the "Employer" or "Company").

The trustee of the Plan is State Street Bank and Trust Company ("State Street") with record keeping for the individual participants' accounts provided by Automatic Data Processing Inc. ("ADP").

Eligibility – All employees of the Employer who have completed one year of eligibility service may participate in the Plan. A year of eligibility service is fulfilled after completing 1,000 hours of service during the first twelve months of employment. Employees are eligible to participate in the Plan on the first day of the month following the completion of the eligibility requirements.

Contributions – Participants may elect to contribute up to a maximum of the lesser of 2% to 20% of eligible compensation or, as limited by Section 402(g) of the IRC, $18,000 in 2015. Eligible employees may also rollover distributions from eligible retirement plans pursuant to the terms of the Plan.

The Plan provides that participants who are projected to be age 50 or older by the end of the calendar year are eligible to also make a catch-up contribution of up to $6,000 in 2015.

The Company will make matching contributions in an amount equal to 25% of a participant's elective deferrals which do not exceed 6% of the participant's eligible earnings. The Company made matching contributions of $58,921 for the year ended December 31, 2015. The Company, at its discretion, may make additional contributions; no additional contributions were made for the year ended December 31, 2015.

Participant Accounts – Each participant's account is credited with the participant's contributions, Company matching contributions and allocations of investment earnings and/or losses. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(1) Description of the Plan (Continued)

Vesting – Participants in the Plan are fully vested in their contributions, including rollovers, and the actual earnings on these contributions. Participants become vested in the Company's matching contributions and related investment earnings/appreciation based on years of service. Company matching contributions and related earnings/appreciation shall be vested in accordance with the following schedule:

Years of Service	Vested Percentage
Less than two	0%
At least two years, but less than 3	20%
At least three years, but less than 4	40%
At least four years, but less than 5	60%
At least five years, but less than 6	80%
Over six years	100%

Investment Options – At December 31, 2015, investments were held by State Street. Participants may direct the investment of their contributions and allocable Company contributions, subject to the limitations as defined by the Plan, among the following investments:

a. Fidelity Advisor Equity Growth Fund – Seeks capital appreciation.
b. Janus Overseas Fund – Seeks long-term growth of capital.
c. AllianceBernstein Growth and Income Fund – Seeks long-term growth of capital.

q. State Street Global Advisors S&P 500 Index Lending Series Fund – Seeks an investment return that approximates as closely as practicable, before expenses, the performance of the S&P 500 Index over the long-term.

r. State Street Global Advisors Russell Small Cap Index Securities Lending Series Fund – Seeks an investment return that approximates as closely as practicable, before expenses, the performance of the Russell 2000 Index over the long-term.

s. State Street Global Advisors S&P MidCap Index Non-Lending Series Fund – Seeks an investment return that approximates as closely as practicable, before expenses, the performance of the S&P MidCap 400 Index over the long-term.

t. State Street Global Advisors Cash Series U.S. Government Fund – Seeks to maximize current income, to the extent consistent with the preservation of capital and liquidity and the maintenance of a stable $1.00 per share net asset value.

Forfeitures – Upon termination of employment, the non-vested portion of the participant's account will be forfeited. Forfeitures retained in the Plan are used for the reduction of future employer contributions or Plan expenses.

For the year December 31, 2015, forfeited accounts and adjustments amounted to $3,123; $3,123 was used to reduce employer contributions during the year 2015.

Notes Receivable from Participants – Loans are available in the Plan. The minimum loan amount is $500. The maximum amount is the lesser of $50,000 (reduced by the highest outstanding loan balance in the account during the prior twelve-month period) or one half of the participant's vested account balance. The interest rate used will be set at two percentage points higher than the prime rate as posted in the Wall Street Journal based on the loan's effective date. The participant is allowed one loan outstanding at a time. Loan payments are made through payroll deductions typically over a period of five years; however, if the loan is for the purchase of a participant's principal residence, the administrator may permit up to a thirty year payment term. Generally, each loan is secured by the balance in the participant's account.

Payment of Benefits – Withdrawals are permissible upon participant's reaching age 59½, termination of employment, death, disability, retirement or certain financial hardships. Vested benefits due to the participant or, in the event of death, to the participant's beneficiaries, in most events will generally be distributed in a lump sum payment, installments or can be rolled over into another qualified retirement plan.

(1) Description of the Plan (Continued)

Plan Termination – Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate, discontinue making contributions to, amend, or modify the Plan at any time. In the event of a termination of the Plan, all participants will become fully vested in their accounts and the Company will arrange for distribution of all participants' accounts to the participants in accordance with the Plan.

Non-Discrimination Testing for Employee Contributions – The Plan, as required by the IRC, performs annual tests comparing participant data for highly compensated participants with data for non-highly compensated participants to ensure that highly compensated participants are not disproportionately favored by the Plan. If the Plan initially fails the tests, it will refund the excess contributions in the amount necessary to pass the tests. Excess contributions for 2015 and 2014 amounted to $35,390 and $28,753, respectively, and were refunded in the following year.

(2) Summary of Significant Accounting Policies

Basis of Accounting – The Plan's financial statements have been prepared on the accrual basis of accounting.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Risk and Uncertainties – The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

Valuation of Investments – Investments are stated in the accompanying statements of net assets for plan benefits at fair value. See note 6 for further discussion of fair value measurements.

The Plan's investments were maintained in mutual funds and common collective trusts. As provided by State Street, the Plan's investments in the shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. The fair value in the common/collective trusts are determined by the fund trustee based on the fair value of the underlying securities within the fund, which represent the net asset value of the shares held by the Plan at year end.

Adoption of New Accounting Standards – In May 2015, the FASB issued Accounting Standards Update Accounting Standards Update No. 2015-07, "Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)" ("ASU 2015-07"). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by ASC 820. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for entities (other than public business entities) for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. The Plan has elected to adopt ASU 2015-07 early to reduce complexity of reporting investments. Accordingly, the standard was retrospectively applied.

(2) Summary of Significant Accounting Policies (Continued)

Adoption of New Accounting Standards (Continued) –

In July 2015, the FASB issued Accounting Standards Update No. 2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Part I Fully Benefit-Responsive Investment Contracts, Part II Plan Investment Disclosures, Part III Measurement Date Practical Expedient" ("ASU 2015-12"). Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures and clarifies that indirect investments in investment contracts are not fully benefit-responsive. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured at fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with retrospective application of Parts I and II to all periods presented. Management has elected to early adopt the provisions of Part II of this new standard to reduce complexity of reporting investments. Accordingly these provisions were retrospectively applied.

Fair Value Measurements – The Plan follows the guidance provided by ASC 820, "Fair Value Measurements and Disclosures", for its fair value measurements. ASC 820 establishes a framework for measuring fair value and utilizes a valuation hierarchy which prioritizes the inputs used in measuring fair value.

Notes Receivable from Participants – Notes receivable from participants represent participant loans that are to be recorded at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Income Recognition – Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits – Benefits are recorded when paid.

Administrative Expenses – The Company pays for all administrative expenses, with the exception of asset management fees charged to participants through the various funds.

Subsequent Events - ASC 855, "Subsequent Events", establishes general standards of accounting and disclosure for events that occur after the balance sheet date but before the financial statements are issued or are available to be issued. In addition, ASC 855-10-50-1 requires disclosure of the date through which an entity has evaluated subsequent events and the basis for that date. The Company has evaluated subsequent events through October 5, 2016 which is the date that the financial statements were available to be issued (see note 8).

(3) Information Certified by the Trustee (Unaudited)

The following is a summary of the unaudited information included in the Plan's financial statements and supplemental schedules, that was prepared by State Street and furnished to the plan administrator. The plan administrator has obtained certification from the trustee that such information is complete and accurate.

(3) Information Certified by the Trustee (Unaudited) (Continued)

The following table presents income from investment activities for the year ended December 31, 2015, as certified by State Street:

Participant directed investments:	
Investment (loss) income:	
Net depreciation in fair value of investments	$ (249,316)
Interest and dividend income	160,535
Other income	48

Supplemental Schedules:

Schedule of Assets (Held at End of Year)
Schedule of Assets (Acquired and Disposed of Within Year)

(4) Income Tax Status

The Plan had adopted the ADP Prototype 401(k) and Profit Sharing Plan ("prototype plan"). The prototype plan obtained its latest opinion letter on July 8, 2014, in which the Internal Revenue Service stated that the underlying prototype plan was designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan continues to qualify and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan had no uncertain tax positions at December 31, 2015 and 2014. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012.

(5) Related Party Transactions

State Street or its affiliates managed certain Plan investments and is the trustee as defined by the Plan; therefore, these transactions qualified as party-in-interest transactions. ADP is the Plan's record keeper, and therefore, these transactions qualify as party-in-interest transactions.

(6) Fair Value Measurements

As noted above, ASC 820 utilizes a valuation hierarchy which prioritizes the inputs used in measuring fair value. The fair value valuation hierarchy consists of the following three levels:

Level 1: Quoted market prices in active markets for identical assets or liabilities

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data

Level 3: Unobservable inputs that are not corroborated by market data

Mutual Funds: Mutual funds are valued at quoted market prices in an exchange and active market and are classified as Level 1 investments.

(6) Fair Value Measurements (Continued)

Common/Collective Trusts: The common collective investment trusts (SSgA series funds) represent the Plan's investments that are held in common collective trust funds which invest primarily in a variety of separate accounts and mutual funds. The fair values of all of these investments are used in determining the net asset value ("NAV"), as provided by State Street, of the collective investment trusts, which are not publicly quoted. NAV is used as a practical expedient to estimate fair value. Due to the nature of the common collective trusts, there are no unfunded commitments. The common collective investment trusts have the ability to redeem their investments at NAV in the near term. Redemption frequency is on a daily basis with no advance notice requirement. Were the Plan to initiate a full redemption of the common collective trusts, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following summarizes the financial assets and liabilities that are measured at fair value on a recurring basis at December 31, 2015 and 2014:

	Assets at Fair Value as of December 31, 2015			
	Total	Level 1	Level 2	Level 3
Mutual funds	$ 2,066,302	$ 2,066,302	$ -	$ -
Total assets in fair value hierarchy	2,066,302	$ 2,066,302	$ -	$ -
Common/collective trusts*	1,746,811			
	$ 3,813,113			

	Assets at Fair Value as of December 31, 2014			
	Total	Level 1	Level 2	Level 3
Mutual funds	$ 1,824,661	$ 1,824,661	$ -	$ -
Total assets in fair value hierarchy	1,824,661	$ 1,824,661	$ -	$ -
Common/collective trusts*	1,681,203			
	$ 3,505,864			

* Investments are measured using the NAV practical expedient and, therefore, have not been classified in the fair value hierarchy.

(7) Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for plan benefits per the financial statements at December 31, 2015 and 2014 to the Form 5500:

	2015	2014
Net assets available for plan benefits per financial statements	$ 3,966,671	3,650,284
Excess contributions payable	35,390	28,753
Contributions receivable	(22,038)	(20,035)
Net assets available for plan benefits per Form 5500	$ 3,980,023	3,659,002

Contributions receivable are recorded on the financial statements based on contributions received prior to December 31, 2015 and 2014 but not yet transmitted to the trustee as of that date.

The following is a reconciliation of the increase in net assets available for plan benefits per the financial statements to net income per Form 5500 for the year ended December 31, 2015:

	2015
Increase in net assets available for plan benefits per financial statements	$ 316,387
Excess contributions	6,637
Contributions – accrual to cash basis adjustment	(2,003)
Net income per Form 5500	$ 321,021

(8) Subsequent Event

Subsequent to the Plan's year end, effective in March 2016, the Plan contracted with Fidelity Management Trust Company ("Fidelity") to become the Plan's trustee and recordkeeper; all Plan assets were transferred to Fidelity. Plan assets transferred to Fidelity were transferred into funds comparable to those offered by the former trustee, State Street. The conversion initiated a black-out period, all Plan participants were not able to transfer amounts between funds, request contribution allocations or request distributions.
