Each participant's account is credited with the participant's contributions and allocations of plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options
Upon enrollment in the Plan, a participant may direct contributions in any of several investment options. Participants may change their investment options at any time.

Vesting
Participants are immediately 100% vested in their contributions plus actual earnings thereon.

Notes Receivable from Participants
Loans of up to 50% of a participant's vested account, not to exceed $50,000, may be obtained from the Plan at the discretion of the Plan's trustee. All loans are subject to the terms and conditions of the Plan.

Payment of Benefits
Upon attainment of age 65 or on termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested account or series of installments.

NOTES TO FINANCIAL STATEMENTS

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts. There was no adjustment of the fully benefit-responsive investment contracts from fair value to contract value, since contract value approximates fair value.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Shares of registered investment companies and common collective trust fund held by Charles Schwab Trust Company are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Board of Trustees determines the Plan's valuation policies utilizing information provided by the investment trustee and insurance company. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
Plan record keeping expenses are paid for by the Plan. All other administrative expenses are paid for by the Plan sponsor, except for asset management fees of the mutual funds and the common collective trust fund that are netted against plan earnings.

Subsequent Event
Subsequent events have been evaluated through October 7, 2016, which is the date the financial statements were available to be issued.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). The amendments in this Update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part 1) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosure, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of the net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively, with Part III to be applied prospectively. Part III is not applicable to the Plan. There is no anticipated effect on the value of the net assets available for benefits, as the main changes resulting from implementation of the ASU centers around certain disclosures in the notes to the financial statements. Plan management is currently evaluating the impact Part I will have on the Plan's financial statements. Management has elected to adopt Part II early for the 2015 Plan year, and it was retrospectively applied to December 31, 2014.

NOTES TO FINANCIAL STATEMENTS

NOTE 3: INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

Other than the fair value of the common collective trust and the related adjustment from fair value to contract value for fully benefit-responsive investment contracts, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2015 and 2014, and net appreciation in fair value of investments, interest and dividends for the years ended December 31, 2015 and 2014, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Charles Schwab Trust Company, trustee of the Plan. The contract value of the common collective trust was certified by the trustee/custodian.

NOTE 4: INVESTMENTS

During 2015 and 2014, the Plan's investments (including investments bought, sold and held during the year) (depreciated) appreciated in value by and ($309,940) and $90,709, respectively as follows:

	2015	2014
Registered investment companies	$ (319,906)	$ 84,012
Common collective trust fund	9,966	6,697
	$ (309,940)	$ 90,709

NOTE 5: FAIR VALUE MEASUREMENTS

Generally Accepted Accounting Principles include a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

NOTE 5: FAIR VALUE MEASUREMENTS (continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Registered investment companies: Valued at the net asset value (NAV) of shares held by the plan at year end. NAV is based on the value of underlying assets owned by the fund, minus its liabilities and then divided by the number of shares outstanding. NAV is a quoted price in an active market.

Common collective trust: Valued based on the NAV of units of the collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probably that the fund will sell the investment for an amount different than the reported NAV.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5: FAIR VALUE MEASUREMENTS (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

Assets at Fair Value as of December 31, 2015

	Level 1	Level 2	Level 3	Total
Registered Investment Companies	$4,346,094	$ 0	$ 0	$4,346,094
Common Collective Trust	0	1,104,761	0	1,104,761
Total assets at fair value	$4,346,094	$1,104,761	$ 0	$5,450,855

Assets at Fair Value as of December 31, 2014

	Level 1	Level 2	Level 3	Total
Registered Investment Companies	$4,570,512	$ 0	$ 0	$4,570,512

Total assets at fair value	$4,570,512	$1,061,791	$ 0	$5,632,303

The following table summarizes investments measured at fair value based on net asset value (NAV) per share as of December 31, 2015 and 2014, respectively.

December 31, 2015	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Stable Value CCT Morley Stable Value(a)	$1,104,761	n/a	Daily	None

December 31, 2014	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Stable Value CCT Morley Stable Value(a)	$1,061,791	n/a	Daily	None

(a) This category includes a stable value collective fund. The objective of the fund is to provide low volatility, stable principal value, and returns commensurate with a capital preservation strategy. The fund achieves this strategy by investing in a combination of investment contracts issued by life insurance companies, banks and other financial institutions. The average maturity range of the fund is 2.45 years. Because it invests in contracts designed to preserve a stable net asset value, the trust generated income without the price volatility associated with traditional short-term credit instruments. The fund invests mainly with issuers rated AAA.

NOTE 6: RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by Charles Schwab Trust Company. As defined by the Plan, Charles Schwab is the trustee and, therefore, these transactions qualify as party-in-interest.

NOTE 7: PLAN TERMINATION

Although it has not expressed any intent to do so, the company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 8: TAX STATUS

The Plan obtained its latest opinion on June 19, 2014 from the Internal Revenue Service stating that the Plan as written is in compliance with applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require management of an organization to evaluate tax positions taken by the organization and recognize a tax liability if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

NOTE 9: RISKS AND UNCERTAINTIES

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rates, market and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

NOTE 10: RECLASSIFICATIONS

Certain amounts previously reported in the December 31, 2014 financial statements have been reclassified to conform to the reporting presentation of the financial statements at December 31, 2015.
