NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Tri-State Urologic Services, P.S.C., Inc., ("Company") Retirement Savings Plan ("Plan") have been prepared in accordance with accounting principles generally accepted in the United States of America as applied to savings plans, and in accordance with the terms of the Plan agreement.

A summary of the Plan's significant accounting policies which are consistently applied in the preparation of the accompanying financial statements follows:

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Adoption of New Accounting Standards

In July 2015, the FASB issued ASU No. 2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans Topic (965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient" ("ASU No. 2015-12"). ASU No. 2015-12 removes the requirement to report fully benefit-responsive investment contracts with an adjustment to contract value. Under ASU No. 2015-12, direct investments in fully benefit-responsive investment contracts are measured, presented, and disclosed only at contract value. In addition, this amendment simplifies the investments disclosures required for employee benefit plans, including eliminating the requirements to disclose (i) individual investments that represent 5% or more of net assets available for benefits, (ii) net appreciation (depreciation) individual investment type and (iii) investment information disaggregated based on the nature, characteristics and risks. The requirement to disaggregate participant-directed investments within a self-directed brokerage account has also been eliminated. Self-directed brokerage accounts should be reported as a single type of investment. The update also allows plans to measure investments and investments-related accounts as of a month-end date that is closest to the plan's fiscal year end, when the fiscal period does not coincide with a month-end. ASU No 2015-12 is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively, while Part III is applied prospectively. The Plan has early adopted ASU No. 2015-12 in the Financial Statements as of and for the year ended December 31, 2015 and the related Noted to Financial Statements, and where applicable has retrospectively applied the provisions to prior periods presented.

NOTE 1 - PLAN DESCRIPTION

The following description of the Plan provides only general information. The Plan is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established January 1, 1996. All employees of Tri-State Urologic Services, P.S.C., Inc. who have reached age 21 and have completed at least one year of service are eligible to participate in the Plan.

Contributions

The Plan provides for the employees of the Company to participate in a 401(k) savings plan, whereby the employees may elect to make contributions pursuant to a salary reduction agreement. Participants may contribute up to the annual maximum amount of their annual compensation not to exceed a dollar limit established by law. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may contribute to the Plan a discretionary profit sharing amount determined each year that is invested in the portfolio of investments in the same manner as the participant directed contributions. Participants may change their investment options quarterly.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution, and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which the employee is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of service, starting at 20% after two years of service and 20% additional for each year of service thereafter.

Notes Receivable from Participants

Participants may borrow from their elective contribution, and rollover fund accounts, a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.25% to 6.25%, which are commensurate with local prevailing rates as determined by the plan administrator at the time of the loan. Principal and interest is paid ratably through monthly or bi-weekly payroll deductions.

Payment of Benefits

On termination of service, a participant will receive a distribution equal to the value of the participant's vested interest in his or her account. Also, upon attainment of the normal or early retirement age, a participant who has not terminated may request a distribution of all or part of the participant's vested account.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

NOTE 3 – INVESTMENTS

Tri-State Plan Administration, Inc. has been assigned the administrative function of maintaining separate accounts of the participants as provided in the Plan agreement. They have no discretionary authority or responsibility to make sales investments and reinvestments. Under the direction of the participants, Johnson Investment Counsel, Inc. and Ascensus Trust Company, invests the individual participant accounts in any or all of the investment options. The investments are not covered by federal insurance.

During 2015, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by \$(2,608,886).

NOTE 4 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 5 – INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the plan's financial statements.

The Plan administrator believes it is no longer subject to income tax examinations for the years prior to 2012. There are currently no audits for any tax periods in progress.

NOTE 6 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 7 – FAIR VALUE MEASUREMENT

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 or Level 3 inputs were available to the Plan.

NOTE 7 – FAIR VALUE MEASUREMENT (Continued)
