Duggal Visual Solutions, Inc. 401(k) Plan
Notes to Financial Statements

Note 1: Description of Plan

The following description of the Duggal Visual Solutions, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan was effective January 1, 2009 and was amended and restated on January 1, 2014 to comply with recent legislation and to preserve tax favored treatment.

General

The Plan, sponsored by Duggal Color Projects, Inc. (the "Company"), is a defined contribution plan covering substantially all employees who have completed 30 days of service and attained age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

The Plan allows each participant to contribute up to 100% of the participant's annual compensation to the Plan. However, a participant's salary deferrals, in any taxable year, may not exceed a certain dollar amount which is set by law. Eligible employees can make pre-tax elective deferral contributions or Roth elective deferral contributions. Employees are eligible to make rollover contributions from other qualified plans as of their dates of employment. Eligible employees will be automatically entered into the plan with a 2% deferral rate. The Plan provides for a Company discretionary matching contribution or a qualified nonelective contribution. The employer elected to make a discretionary matching contribution for the year ended December 31, 2015 in the amount of $283,559.

Participant Accounts

Each participant's account is credited with the participant's contributions, employer contributions, and allocations of plan income and expense. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions, any rollover contributions, and earnings thereon. Vesting in employer contributions and earnings thereon is based on years of credited service. A participant is 100% vested, under a graduated vesting schedule, after six years of credited service or upon death, disability or satisfying the conditions of Early Retirement Age as set forth in the Plan document.

Investment Options

Upon enrollment in the Plan, participants may direct their contributions and any related employer contributions into a range of investments including mutual funds, pooled separate accounts, common collective trusts and a guaranteed investment contract. All investments are participant-directed. Investment options can be changed daily.

Note 1: Description of Plan (Continued)

Notes Receivable From Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan terms may not exceed 5 years, unless the proceeds are used for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Participants' benefits under the Plan are payable to participants, their beneficiaries or their estates upon the termination of employment, normal retirement (age 65), attainment of age 59-1/2, disability, death or hardship. Benefits are payable in the form of a lump-sum distribution or installment payments. Additionally, participants are entitled to receive a distribution of their rollover accounts at any time.

Forfeitures

Forfeitures of non-vested employer contributions may be used to reduce future employer contributions. At December 31, 2015 and 2014, forfeited nonvested accounts totaled $2,411 and $0, respectively.

Administrative Expenses

The Plan's administrative expenses are generally paid by the Company. Certain administrative expenses incurred by the Custodian may be paid from the Plan's assets. Certain expenses incurred on loans, distributions, and account terminations are paid by the participant. Investment expenses are included in net appreciation/depreciation in fair value of investments.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (GAAP).

Note 2: Summary of Significant Accounting Policies (Continued)

Change in Accounting Policy

To reduce the complexity of plan investment accounting and disclosures, plan management has elected to apply the early adoption provisions of the Financial Accounting Standard Board (FASB) Accounting Standards Update (ASU) No. 2015-12, *Plan Accounting: (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient – Consensuses of the Emerging Issues Task Force ("ASU 2015-12").* Parts I and III are not applicable to the Plan. Plan management has elected to early adopt Part II which allows for the retroactive simplification of investment note disclosures.

The Plan has also elected to early adopt FASB ASU 2015-07, *Fair Value Measurement*, which removes the requirement to categorize within the fair value hierarchy all investments measured using a net asset value per share practical expedient and eliminates certain investment disclosures. The presentation of the fair value of certain 2014 investments has been removed from the hierarchy levels in the table presented in Note 3 in order to conform to the presentation used for 2015. The fair value amounts presented in the tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value, except for fully benefit-responsive investment contracts (FBRICs). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest is recorded on the accrual basis. Net appreciation or depreciation in fair value of investments includes gains and losses on investments bought and sold as well as held during the year.

FBRICs are reported at contract value, which is the amount participants would normally receive if they were to initiate permitted transactions under the terms of the Plan.

Notes Receivable From Participants

Loans to participants are reported at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowances for credit losses has been recorded as of December 31, 2015 and 2014. Delinquent participant loans are reclassified as distributions on the basis of the terms of the plan document.

Note 2: Summary of Significant Accounting Policies (Continued)

Excess Contributions Payable

At December 31, 2015 and 2014, amounts payable to participants totaling $14,103 and $147,155, respectively, for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2015 excess contributions to the applicable participants prior to March 15, 2016.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through October 10, 2016, which is the date the financial statements were available to be issued.

Note 3: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Note 3: Fair Value Measurements (Continued)

Level 3 - Inputs that are unobservable inputs for the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trust: Valued at the net asset value per share (NAV) of the underlying funds.

Pooled Separate Accounts: Fair value is estimated using the net asset value (NAV) per unit by the issuer of the pooled separate accounts. Fair value is based on the fair value of underlying investments held by the pooled separate accounts.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2015 and 2014. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 100,195	$ -	$ -	$ 100,195

Note 3: Fair Value Measurements (Continued)

Common Collective Trusts - The Common Collective Trust funds are investments, offered by the Principal Trust Company, that seek a total return consisting of long-term growth of capital and current income with a target retirement date defined. To pursue their goal, these funds generally invest in affiliated, and may invest in nonaffiliated, open-ended mutual funds, insurance company separate accounts, and collective trust funds. Over time, Principal Trust intends to gradually shift the asset allocation targets of each Fund to accommodate investors progressing from asset accumulation years to income generation years.

Pooled Separate Account (Fixed Income) - This investment seeks to provide current income and long-term growth of income and capital. The fund normally invests at least 80% of its net assets, plus any borrowings for investment purposes, in dividend-paying equity securities. It usually invests in equity securities of companies with large market capitalizations. For this fund, companies with large market capitalizations are those with market capitalizations within the range of companies comprising the Russell 1000(R) Value Index. The fund also invests in real estate investment trusts and securities of foreign issuers.

Pooled Separate Account (Large US Equity) - This investment option normally invests the majority of its assets in common stocks of companies that compose the S&P 500 Index. Over the long-term, management seeks a very close correlation between the performance of this fund before expenses and that of the S&P 500 Index.

Pooled Separate Account (Small/Mid US Equity) - Funds in this investment option normally invest the majority of their assets in common stocks of companies that compose the S&P MidCap 400, S&P SmallCap 600, & equity securities of companies principally engaged in the real estate industry at the time of each purchase.

Pooled Separate Account (Balanced Fund) - This investment option seeks to provide as high a level of total return (consisting of reinvested income and capital appreciation) as is consistent with reasonable risk. The fund operates as a fund of funds. It generally invests between 20% and 60% of its assets in fixed-income funds, and less than 40% in any one fixed-income fund; between 40% and 80% of its assets in equity funds that invest in small, medium, and large market capitalization companies, and less than 30% in any one equity fund; and less than 20% of it assets in specialty funds, and less than 20% in any one specialty fund.

Note 4: Fully Benefit-Responsive Investment Contracts (FBRICs)

The Plan invests in a FBRIC with Principal Life Insurance Company (PLIC) in the form of a guaranteed investment contract (GIC) that invests in traditional investment contracts. PLIC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. PLIC is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The GIC is carried at contract value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than the Guaranteed Minimum Interest Rate per contract. Such interest rates are reviewed on a semiannual basis for resetting. As of December 31, 2015 and 2014, the average yield earned by the Plan was 1.29% and 1.35%, respectively, and the average actual interest rate credited to the participants was 1.29% and 1.35%, respectively.

Note 4: Fully Benefit-Responsive Investment Contracts (FBRICs) (Continued)

Certain events limit the Plan's ability to transact at contract value with PLIC including plan termination and other events as specified in the GIC. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants or the issuer are probable of occurring. The GIC does not permit PLIC to terminate the agreement prior to the scheduled maturity date.

Note 5: Information Prepared and Certified by the Custodian

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Certain information disclosed in the accompanying financial statements and supplemental schedules, including investments and notes receivable from participants held at December 31, 2015 and 2014, and net depreciation in fair value of investments, interest and dividends for the year ended December 31, 2015, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Principal Trust Company, the Custodian of the Plan.

Note 6: Related-Party Transactions and Party-in-Interest Transactions

Certain plan investments are managed by Principal Trust Company, the Plan Custodian. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA. Fees for investment management services during the plan year ended December 31, 2015, were offset against earnings. Specific detail for management fees is not available from the Custodian.

Notes receivable from participants also qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

Note 7: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their share of Company contributions.

Note 8: Tax Status

The Plan adopted a prototype non-standardized profit sharing plan sponsored by Principal Trust Company which received an Opinion Letter from the Internal Revenue Service dated April 2, 2012. The Plan has been amended and restated since receiving the determination letter, however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

At December 31, 2015 and 2014, three and two investments, respectively, accounted for 41% and 38%, respectively, of the Plan's net assets available for benefits.

Note 10: Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2015 and 2014, to Form 5500:

	2015	2014
