1. PLAN DESCRIPTION

The following description of the Endologix, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was originally established on June 25, 1996 to provide retirement benefits for eligible employees of Endologix, Inc. (the "Company"). The Company is the Plan Administrator and Plan Sponsor. Great-West Life & Annuity Insurance Company and Great-West Trust Company, LLC (collectively, "Great-West" or the "Custodian") are responsible for administering Plan investments and maintaining the individual participant account balances.

Eligibility

The Plan is a defined contribution plan covering all full-time employees of the Company who have two months of service and are age 21 or older, except union employees whose employment is governed by a collective bargaining agreement under which retirement benefits were the subject of good faith bargaining, certain nonresident aliens who have no earned income from sources within the United States, leased employees, and reclassified employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act ("ERISA").

Contributions

Each year, participants may elect to reduce their compensation by a specific percentage or dollar amount and have that amount contributed to the Plan as an elective deferral. There are two types of elective deferrals: pre-tax deferrals and Roth deferrals, subject to the maximum dollar amount allowed under Section 404(a) of the Internal Revenue Code, as amended (the "Code"). Participants over age 50 can defer an additional amount in excess of the dollar limit in the Code. The Plan also includes an automatic deferral feature; accordingly, the Company will automatically withhold 6% of participants' compensation and contribute that amount to the Plan as a pre-tax deferral.

Participants may also contribute amounts representing distributions from other qualified plans. The Company has not made any matching contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution and the participant's share of the Plan earnings, net of certain investment management fees. Allocations are based on participant account balances, as defined in the Plan. Participants may direct their elective deferral contributions into various investment options offered by the Plan and may change their investment options at any time. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. PLAN DESCRIPTION (continued)

Vesting

Participants are immediately fully vested in their contributions plus actual earnings thereon.

Notes Receivable from Participant

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50 percent of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.25% to 4.25% per annum as of December 31, 2015 and 2014, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator.

Payment of Benefits

Benefit payments are made upon early or normal retirement, disability, or death. Upon termination of employment, a participant may have the vested benefits disbursed through a lump sum cash distribution or transferred to another qualified plan. If the vested value of the participant's account exceeds $5,000, the participant may elect to keep the account in the Plan and maintain his or her account in any of the Plan's investment options.

Forfeitures

Forfeited nonvested amounts may be used to reduce future employer contributions, with any remaining amounts used to reduce the Plan's ordinary and necessary administrative expenses. As of December 31, 2015 and 2014, the Plan had no forfeited nonvested accounts and no amounts were used in 2015.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts with respect to any future contributions made by the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on an accrual basis and in conformity with accounting principles generally accepted in the United States of America ("GAAP").

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Basis of Accounting (continued)

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Revenue Recognition

Investments are reported at fair value (except for fully benefit responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians and insurance company. See Note 6 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan agreement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Risks and Uncertainties

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Corrective Distributions

At December 31, 2015 and 2014, there were corrective distributions payable of approximately $5,000 and $14,000, respectively. Such corrective distributions were refunded to the related participants to return to them excess 2015 and 2014 deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The costs of administering the Plan are paid for by the Company with the exception of payment of brokerage commissions and fees associated with the management of the investment funds and certain administrative expenses paid to Great-West, a party-in-interest. Costs paid by the Company were excluded from these financial statements for the year ended December 31, 2015. Costs paid by the Plan were approximately $47,000 for the year ended December 31, 2015, and are considered a party-in-interest transaction (see Note 5).

Subsequent Events

The Plan evaluated subsequent events for their potential impact on the financial statements and disclosures through October 5, 2016, which is the date the financial statements were available to be issued.

Effective May 2, 2016, the TriVascular, Inc. 401(k) Plan was merged into the Plan. Consequently, the assets held pursuant to the trust for the TriVascular, Inc. 401(k) Plan were combined with the Plan's assets in 2016 and are now held pursuant to the Plan's provisions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

New Accounting Pronouncements

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-12, *Plan Accounting: Defined Benefit Pension Plans, Topic 960; Defined Contribution Plans, Topic 962; and Health and Welfare Benefit Plans, Topic 965: Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. Following is a summary of the revised guidance contained in ASU 2015-12.

Part I amendments designate contract value as the only required measure for fully benefit-responsive investment contracts. Part II amendments eliminate the requirement that plans disclose: (a) individual investments that represent 5 percent or more of net assets available for benefits; and (b) the net appreciation or depreciation for investments by general type requirements for both participant-directed investments and nonparticipant-directed investments. Part III amendments provide a practical expedient to permit plans to measure investments and investment-related accounts (e.g., a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The amendments are effective for all plan years beginning after December 15, 2015 and early adoption is permitted. Plans may early adopt any of the Parts of ASU 2015-12 without early adopting the other Parts. In 2015, the Plan early adopted the provisions of Parts I and II of this update and applied the provisions retrospectively. As a result, the presentation of the financial statements and certain disclosures have been changed to reflect the adoption of this update. Part III of ASU 2015-12 is not applicable to the Plan. This ASU did not change the Plan's total net assets available for benefits.

In May 2015, the FASB issued ASU No. 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value ("NAV") per Share (or Its Equivalent)* ("ASU 2015-07"). The amendments in ASU 2015-07 remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. ASU 2015-10, *Technical Corrections and Improvements*, made certain technical corrections to ASU 2015-07 which included, among others, expanding the definition of readily determinable fair value to include structures similar to a mutual fund for which the price is determined and published and the basis for current transactions. ASU 2015-07 is effective for interim and annual reporting periods beginning after December 15, 2015 and early adoption is permitted. Adoption and application of ASU 2015-07 and ASU 2015-10 had no effect on the Plan's financial statements or disclosures.

3. TAX STATUS

Effective December 16, 2014, the Plan adopted a standardized form of a prototype plan sponsored by Great-West. The prototype plan has received an opinion letter from the Internal Revenue Service dated March 31, 2014 as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of the liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions and the Plan could be subject to income tax if certain issues were found by the IRS that could result in the disqualification of the Plan's tax-exempt status; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations prior to 2011.

4. INFORMATION CERTIFIED BY GREAT-WEST LIFE & ANNUITY INSURANCE COMPANY AND GREAT-WEST TRUST COMPANY, LLC

The following is a summary of the plan's asset information as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by Great-West and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from Great-West that information provided to the Plan Administrator by Great-West related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors, Squar Milner LLP, not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets:

- Investments at fair value as reflected in the statements of net assets available for benefits of $15,233,635 as of December 31, 2015.
- Investments at contract value as reflected in the statements of net assets available for benefits of $52,003 and $13,746,140 as of December 31, 2015 and 2014, respectively.

Great-West also certified to the completeness and accuracy of net depreciation in fair value of investments of $718,817 and interest and dividend income of $549,288 related to the aforementioned assets for the year ended December 31, 2015.

5. PARTY-IN-INTEREST TRANSACTIONS

Great-West is a party-in-interest as defined by ERISA and Great-West was paid administrative fees of approximately $47,000 in 2015. Certain Plan investments are managed by Great-West. The Company is the Plan Sponsor, as defined by the Plan. All Plan transactions with Great-West and the Company, as well as loans made to participants, qualify as party-in-interest transactions permitted by Department of Labor regulations.

During 2015, the Plan sponsor inadvertently failed to deposit eight remittances of participant deferrals aggregating approximately $671,000 within the required timeframe as required by the United States Department of Labor regulations. The Plan sponsor intends to reimburse the Plan for lost interest. The Plan sponsor intends to file Form 5330 and pay the applicable excise tax in 2016. The excise tax payments will be made from the Plan sponsor's assets and not from assets of the Plan.

6. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted price for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Unobservable inputs used to measure fair value to the extent that observable inputs are not available.

6. FAIR VALUE MEASUREMENTS (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual Funds

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded, and are classified as Level 1 investments.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Asset Fair Value as of December 31, 2015	
Description	**Level 1**	**Total**
Mutual funds	$ 15,233,635	$ 15,233,635
Total investments at fair value	$ 15,233,635	$ 15,233,635

As of December 31, 2014, there were no assets held at fair value. For years ended December 31, 2015 and 2014, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3. The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

7. NONPARTICIPANT-DIRECTED INVESTMENT

On December 15, 2014, the Plan's assets were liquidated and transferred to the investment in the group annuity contract. As of December 31, 2014, the investment in the group annuity contract of $13,746,140 represented a nonparticipant-directed investment. During the year ending December 31, 2015, all such investments became participant-directed investments.

8. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan has a group annuity contract with Great-West Life & Annuity Insurance Company that invests in the Key Guaranteed Portfolio Fund. The Key Guaranteed Portfolio Fund is a general account product. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The interest crediting rate is reset quarterly. The average yield based on actual earnings was 1.20% and 1.25% as of December 31, 2015 and 2014, respectively.

As described in Note 2, because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Great-West Life & Annuity Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses and is equivalent to fair value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Company or other Company events that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits as of December 31, 2015 and 2014 per the accompanying statements of net assets available for benefits to the Form 5500:
