Notes to Financial Statements
As of and for the Years Ended December 31, 2015 and 2014**

1. Description of Plan

The following description of the SCA Tissue Hourly 401(k) Plan for Collectively-Bargained Employees at South Glens Falls (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a contributory defined contribution plan established effective March 31, 1992. The Plan was most recently amended and restated effective January 1, 2014. The Plan covers hourly paid employees who were former employees of Encore Paper Company, which was acquired by SCA Tissue North America, LLC (the "Company") and non-salary employees employed at the Company's South Glens Falls facility. Generally, employees must be twenty-one and have completed ninety days of service to be eligible to participate. The Plan's assets are held by Vanguard Fiduciary Trust Company (the "Trustee"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

During 2015, assets of \$73,542 and \$1,677 were transferred to and from the SCA Americas, Inc. Investment and Retirement Plan, respectively.

Contributions

Participants may elect to contribute up to 75% of compensation, as defined in the Plan document, to a salary deferral account, on a pre-tax basis, subject to Internal Revenue Code ("IRC") limitations. Participants who are at least 50 years old are eligible to make "catch-up contributions" as defined, up to the IRC limits. Participants may also elect to contribute up to 10% of after-tax compensation, as defined; however, the percentage of after-tax contributions elected by a participant cannot exceed the percentage elected as a salary deferral pre-tax and Roth contribution. The Plan provides for an automatic enrollment of salary deferral contributions of 3% per payroll period for new employees, increasing by 1% annually on the participant's employment commencement date anniversary up to a maximum of 6%, unless otherwise elected by the participant. Participants may also contribute qualified distributions from other plans as rollovers into the Plan. Effective November 1, 2014, participants may elect to designate deferrals as Roth after-tax contributions.

The Company makes a Matching Contribution on behalf of participants who have completed 12 months of service in an amount equal to 50% of the first 6% of the participant's compensation contributed to the Plan. The Company may also contribute an employer profit sharing contribution at its discretion. Any profit sharing amounts made by the Company will be allocated among participants who are employed on the last day of the Plan year. No employer profit sharing contributions were made during 2015 or 2014.

The Plan also provides for the Company to contribute an Employer Contribution amount to the Plan of 5.5% of compensation, as defined.

Investment Options

Participants may direct the investment of their account balances in 1% increments to any of the defined investment options. Participants may change their investment options on a daily basis. All investments are participant-directed. The Company designates the age-appropriate target fund as the default investment for participants who do not make an affirmative election of an investment fund.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and allocations of plan earnings. Allocations of earnings are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

As of and for the Years Ended December 31, 2015 and 2014**

Vesting

Participants have, at all times, a fully vested and non-forfeitable interest in the amount of their voluntary contributions. Vesting in the remainder of their accounts is based on years of continuous service. Participants vest in their employer contributions after three years of credited service. Participants vest in their matching contributions and profit sharing contributions in accordance with the following schedule:

Years of Credited Service	Vested Percentage
Less than 1	0%
1	30%
2	60%
3	100%

Forfeited Accounts

At December 31, 2015 and 2014, forfeited nonvested accounts totaled \$3,739 and \$3,801, respectively. These accounts will first be used to pay expenses of administering the Plan. Any remaining forfeitures shall be allocated to participant accounts in the same manner as employer matching contributions. Forfeitures used to offset employer contributions totaled \$3,000 and \$0 for the years ended December 31, 2015 and 2014, respectively.

Payment of Benefits

In the event of a participant's death, retirement, disability or termination of employment for other reasons, the participant or his beneficiary may elect to receive the entire account balance in either a lump sum or a rollover to an eligible retirement plan, as defined. Account balances which do not exceed \$1,000 will automatically be paid in a lump sum as soon as administratively feasible.

Prior to termination of employment, a participant may withdraw all or a portion of his after-tax rollover account balance. A participant may also withdraw all or a portion of his entire account balance upon attainment of age 59½ or in the case of financial hardship, as defined.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 equal to the lesser of \$50,000 or 50% of their vested account balances. Loans are payable through payroll deductions over periods ranging from one to five years or up to twenty years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with the prevailing interest rate charged on similar commercial loans, as determined by the plan administrator. Participants are allowed to have no more than two loans outstanding at a time.

2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America, requires Plan management to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in net assets available for benefits during the reporting period, and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The benefits

**SCA Tissue Hourly 401(k) Plan for
Collectively-Bargained Employees at South Glens Falls

As of and for the Years Ended December 31, 2015 and 2014**

steering committee of the Plan sponsor determines the Plan's valuation policies utilizing information provided by trustees, custodians and investment advisors. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Net appreciation or depreciation in the fair value of investments consists of the realized gains or losses and the unrealized appreciation or depreciation of those investments.

Notes Receivable from Participants

Notes receivable from participants (participant loans for Form 5500 reporting purposes) are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Risks and Uncertainties

The Plan's investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the values of investments, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment management fees, fees related to the administration of notes receivable and other participant specific fees are charged directly to the participant's account and are included in administrative expenses. Certain investment related expenses are included in the net appreciation (depreciation) of fair value investments.

Recently Issued Accounting Guidance

In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-07, "Fair Value Measurement (Topic 820), Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)" ("ASU 2015-07"). ASU 2015-07 requires an entity to no longer categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. ASU 2015-07 is effective for non-public business entities for fiscal years beginning after December 15, 2016 (2017 calendar years). A reporting entity should apply the amendments retrospectively to all periods presented. Earlier application is permitted. The Plan early-adopted ASU 2015-07 in 2015 (see Note 4), with the prior period retrospectively adjusted. The early adoption of ASU 2015-07 had no effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): I. Fully Benefit-Responsive Investment Contracts, II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient (consensuses of the Emerging Issues Task Force)" ("ASU 2015-12"). ASU 2015-12 simplifies accounting and reporting for employee benefit plans, by among other matters:

- designating contract value as the only required measure for fully benefit-responsive investment contracts.

**SCA Tissue Hourly 401(k) Plan for
Collectively-Bargained Employees at South Glens Falls
Notes to Financial Statements
As of and for the Years Ended December 31, 2015 and 2014**

- requiring that participant-directed and nonparticipant-directed investments of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways.
- removing the requirement to disclose investments that represent 5 percent or more of net assets available for benefits.
- eliminating the requirement to disclose the investment strategy for investments measured using the net asset value per share (or its equivalent) if that investment is in a fund that files a U.S. Department of Labor Form 5500, as a direct filing entity.
- permitting the Fair Value measurement footnote to be presented by only general type.

ASU 2015-12 is effective for plans with fiscal years beginning after December 15, 2015 (2016 calendar years). The amendments in Parts I and II should be applied retrospectively for all financial statements presented. The amendments in Part III should be applied prospectively. Earlier application is permitted. The Plan early-adopted ASU 2015-12 in 2015 (see Notes 3 and 4), with the prior period retrospectively adjusted. The early adoption of ASU 2015-12 had no effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through October 5, 2016, the date the financial statements were available to be issued.

3. Unaudited Information Certified by the Plan Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information included in the accompanying financial statements and supplemental schedule of assets (held at end of year) was certified by Vanguard Fiduciary Trust Company, the trustee, as complete and accurate.

- Investments, at fair value, and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2015 and 2014.
- Investment activity, including interest and dividend income, interest income on notes receivable from participants, and net appreciation (depreciation) in fair value of investments, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2015 and 2014.
- The information for all registered investment companies (mutual funds), common/collective trust and notes receivable from participants (participant loans) listed in the schedule of assets (held at end of year) at December 31, 2015, as shown in the supplemental schedule.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;

**SCA Tissue Hourly 401(k) Plan for
Collectively-Bargained Employees at South Glens Falls
Notes to Financial Statements
As of and for the Years Ended December 31, 2015 and 2014**

- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2015 and 2014.

Registered investment companies (mutual funds): Valued at the net asset value ("NAV") of shares held by the Plan at year-end based upon quoted market prices on nationally recognized exchanges. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts: Valued at the NAV of units of the common/collective trust held at year-end. The NAV, as provided by the common/collective trust, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements as of December 31, 2015:

	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Investments, at fair value:				
Registered investment companies	\$ 16,376,466	\$ 16,376,466	\$ -	\$ -

Notes to Financial Statements
As of and for the Years Ended December 31, 2015 and 2014**

*In accordance with fair value measurement guidance, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented as investments in the statements of net assets available for benefits.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2015 and 2014, there were no transfers in or out of levels 1, 2, or 3.

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31, 2015 and 2014.

<u>Investment Type</u>	<u>Fair Value</u>	<u>Fair Value</u>	<u>Unfunded</u>	<u>Redemption</u>	<u>Redemption</u>

Common/collective trusts	\$ 2,624,522	\$ 9,396,051	\$ -	Daily	Daily

Participant transactions (purchases and sales) in common/collective trusts may occur daily. Were the Plan to initiate a full redemption of the common/collective trusts, the common/collective trusts reserve the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The Vanguard Retirement Savings Trust invests in high-quality fixed income securities with financial backing from insurance companies and banks. Participants who invest in the Vanguard Retirement Savings Trust agree to limitations imposed by issuers of investment contracts. These limitations include restrictions on the timing and amounts, which can be transferred from the Vanguard Retirement Savings Trust to short-term bond funds. Additionally, once money is transferred from the Vanguard Retirement Savings Trust into stock, balanced or bond funds with an average duration of more than four years, the money must remain in the fund for at least 90 days before it can be transferred into a shorter-term bond fund. Money, however, can always be transferred back into the Vanguard Retirement Savings Trust. The average annual yield earned was 2.29% and 2.30% for the years ended December 31, 2015 and 2014, respectively. The average annual yield paid to participants was 1.92% and 1.89% for the years ended December 31, 2015 and 2014, respectively.

Target date common/collective trusts provide an age-based investment mix of stocks, bonds and short-term investments. The funds seek high total return until the target retirement dates and high income and capital appreciation thereafter. During the year ended December 31, 2015, all target date common/collective trusts were sold and were replaced with similar registered investment companies.

5. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 13, 2015, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The plan administrator and the plan's tax counsel believe that the Plan continues to be operated in compliance with the applicable sections of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

**SCA Tissue Hourly 401(k) Plan for
Collectively-Bargained Employees at South Glens Falls
Notes to Financial Statements
As of and for the Years Ended December 31, 2015 and 2014**

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

6. Related-Party and Party In Interest Transactions

The Plan invests in registered investment companies and common/collective trusts which are managed by affiliates of Vanguard Fiduciary Trust Company ("VFTC"). The Plan also pays to VFTC certain administrative, trustee, recordkeeping, and other expenses. VFTC is the trustee as defined by the Plan and, therefore, transactions in these securities qualify as party-in-interest transactions. Such transactions are not, however, considered prohibited transactions under 29 CFR 408(b) of the ERISA regulations. Additionally, for participants who have elected to take a participant loan, the loans are secured by the respective participant's account balance.

7. Plan Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, payment of plan assets will be made by the Trustee as directed by the Plan document and participants will become 100% vested in their accounts.

8. Plan Amendments

Effective January 1, 2014, the Plan was amended and restated to incorporate past amendments, to modify certain administrative procedures and to update for recent regulatory changes. Additionally, effective November 1, 2014, a participant may elect to designate deferrals as Roth after-tax contributions.
