Note 1. Plan Description

The following brief description of the APFS 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of APFS Staffing Holdings, Inc. (the Company), as defined by the Plan. The Company is the Plan Administrator. Employees are eligible to participate in the Plan on the first day of the month subsequent to reaching age 21 and after completing one year of service, as defined by the Plan. These employees are eligible to receive a safe-harbor matching contribution and any discretionary contribution made by the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Change in custodians: On December 1, 2015, the Plan changed its trustees from Ascensus Trust Company (Ascensus) to Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal). During December 2015, approximately $10,972,000 were transferred from Ascensus to Principal.

Contributions: The Plan allows participants to contribute an amount equal to a dollar amount or percentage of the contributing participant's compensation, as defined in the Plan, but not to exceed statutory limits of the Internal Revenue Code. Participants aged 50 and older may contribute catch-up contributions as allowed per Internal Revenue Service (IRS) limitations. The Company provides a safe-harbor matching contribution for all participants equal to 100 percent of each participant's contribution up to the first 3 percent of the participants' compensation plus 50 percent of the next 2 percent of the participants' compensation, as defined by the Plan. The Company may also make separate discretionary contributions to the Plan. During 2015 plan year, the Company made a separate discretionary contribution to the Plan in the amount of $90,216 included in company contribution receivable at December 31, 2014. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution; Company safe harbor matching contribution; allocations of the Company's discretionary contribution, if any; plan earnings; and administrative expenses. Allocations are based on participant earnings or account balances, as defined by the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions, the Company's safe-harbor matching 401(k) contributions and earnings thereon. Company-matching contributions and discretionary contributions are vested 20 percent after two years of service and 20 percent per year thereafter, being fully vested after six years of credited service.

Notes receivable from participants: Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 less the highest outstanding balance of notes receivable during the one-year period prior to the date of the current loan or 50 percent of their vested account balance. Notes receivable terms range from one to five years, or longer if used to purchase a primary residence. The notes receivable are secured by the balance in the participant's account and bear interest at market interest rates, as defined. Interest rates on current notes receivable range from 3.25 percent to 4.25 percent. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Under certain circumstances, participants may make financial hardship withdrawal.

Note 1. Plan Description (Continued)

Administrative expenses: Administrative expenses of the Plan are charged against earnings except to the extent the expenses are paid by the Plan Administrator.

Forfeitures: At December 31, 2015 and 2014, forfeited nonvested accounts amounted to $16,397 and $17,895, respectively. Forfeited nonvested accounts are used to offset administrative expenses and future company contributions. The Plan's matching contributions and expenses were reduced $18,702 in 2015 from forfeited nonvested accounts. Accumulated forfeitures will be applied to pay expenses or reduce the employer contribution in 2016.

Investment options: Upon enrollment in the Plan, a participant may direct employee contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment valuation and income recognition: Investments are reported at fair value (except for fully benefit-responsive contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment contracts held by a defined-contribution plan are required to be reported at fair value, except for full benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable are classified as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Accounting estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Note 2. Significant Accounting Policies (Continued)

Recent accounting pronouncements: In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this update is to simplify plan accounting.

- The amendments in Part I of this update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly, there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

- The amendments in Part II of this update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits, and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan,* as a direct filing entity, disclosure of that investment's strategy will no longer be required.

- The amendments in Part III of this update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The update may be adopted in whole or by Part I, II, and III, as applicable. The amendments in this update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted amendments in Part I and Part II of this update for the 2015 plan year, and the amendments in Part I and Part II were retrospectively applied to December 31, 2014. Prior year disclosures in Note 4 have been revised to reflect the retrospective application. The amendments in Part III do not apply to the Plan. The impact of adopting these amendments is reflected in the financial statements.

In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent).* The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statements of net assets available for benefits. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. For private entities, the amendments in this update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. The Plan adopted amendments in this update for the plan year ended December 31, 2015, and it was retrospectively applied to December 31, 2014. The impact of adopting these amendments is reflected in Note 4.

Note 3. Information Certified and Provided by Principal and Ascensus

The following is a summary of the Plan's asset and income information as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by Principal current trustee, Ascensus, the former trustee, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the agent on behalf of the trustee that information provided to the Plan Administrator by the agent on behalf of the trustee related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets and income.

Interest on notes receivable from participants	4,616	

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes to the methodology used at December 31, 2015 and 2014:

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Units of pooled separate accounts: Valued at the NAV of the units of pooled separate accounts. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based upon the fair value of the underlying investments comprising the pooled separate accounts. This practical expedient is not used when it is probable that the fund will sell for an amount different from the reported NAV.

Units of common/collective trust held at a financial institution: Value based on the NAV of units of the common/collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the per share value of the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that a fund will sell the investment for an amount different than the reported NAV.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015 and 2014:

	2015			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 1,788,174	$ -	$ -	$ 1,788,174
Investment measured at NAV (a)				9,482,320
Investments at fair value				$ 11,270,494

	2014			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 9,353,025	$ -	$ -	$ 9,353,025

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit the reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table sets forth the fair value of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31, 2015 and 2014:

	Fair Value				
Investment	December 31, 2015	December 31, 2014	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Units of pooled separate accounts	$ 105,521	$ -	$ -	Daily	None
Units of common/collective trust	9,376,799	-	-	Daily	None
	$ 9,482,320	$ -	$ -		

Note 5. Investment Contract with Insurance Company

The Plan entered into a fully benefit-responsive group annuity contract issued by Principal Life Insurance Company (Principal Life). Principal Life maintains the contributions in a general account. On any date, the value of the account will be equal to the sum of the deposits to it, reduced by any payments, transfers, applications, or fees with respect to the guaranteed interest balance on or before such date, plus any interest at its guaranteed interest rate. The group annuity contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the group annuity contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the stable value fund contract. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings at guaranteed credit rates, less participant withdrawals, if any. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. The crediting rate as of December 31, 2015 was 1.85 percent. Such interest rates are reviewed on a semiannual basis for purpose of resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (*a*) amendments to the plan documents (including complete or partial-plan termination or merger with another plan), (*b*) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (*c*) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (*d*) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Note 6. Related-Party and Party-in-Interest Transactions

The Plan's investments were held and managed by Ascensus through November 30, 2015 until they were transferred to Principal on December 1, 2015. Ascensus and Principal also provided administrative services to the Plan. In addition to the trustee to the Plan, Merrill Lynch Wealth Management also provides advisory services. Therefore, these investment transactions qualify as party-in-interest transactions. Administrative expenses paid by the Plan were $6,369 for the year ended December 31, 2015.

Certain employees of the Company provide administrative and trustee services to the Plan. These employees do not receive compensation from the Plan for their services. Certain other expenses of the Plan are paid by the Company.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 8. Tax Status

Effective July 1, 2012, the Plan adopted a volume submitter plan sponsored by Ascensus, Inc. The volume submitter plan has received an opinion letter from the IRS as to the volume submitter plan's qualified status. The volume submitter plan opinion letter has been relied upon by the Plan. The Plan has been amended since receiving the opinion letter. The Plan Administrator believes that the Plan is designed and is currently operating in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Company has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 9. Risks and Uncertainties

The Plan invests in various investment options. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31, 2015 and 2014:

	2015	2014

Note 10. Reconciliation of Financial Statements to Form 5500 (Continued)

Other interest	86
Net investment gain (loss)	(2,995)
Other income	(692)
Changes in net assets available for benefits per Form 5500	$ 2,001,998

Note 11. Late Deposits

During the plan year ended December 31, 2015, the Plan engaged in prohibited transactions related to late deposits of participant contributions of $181,380. The Company chose to self-correct these transactions.

The lost earnings for the late deposits noted above were deposited into the Plan in the plan year ending December 31, 2016. The Plan Sponsor filed the Form 5330 and paid the applicable excise tax to the IRS. The excise tax payment was made from the Plan Sponsor's assets and not from assets of the Plan.

Note 12. Subsequent Event

The Plan Administrator has evaluated subsequent events through October 10, 2016, the date the financial statements were available to be issued. The Plan was amended on January 1, 2016. The amendment has reduced the employee service requirement to 90 days.
